OUR SEEDS for the FARM and GARDEN are ALWAYS THE BEST

INTRODUCTORY

THE value of careful selection of good sound seeds cannot be over-estimated. The sowing of such seeds will assure the best possible crop production, providing care be given as regards cultivation. Since 1863 ANDERSON & COMPANY LTD., Seed Merchants, GEORGE ST., SYDNEY, have been supplying their customers with the best quality seeds procurable. Their aim has been to send out only the best seeds, plants, trees or Horticultural Sundries. By adhering strictly to this practice, they have attained the high position they hold to-day amongst the public of Australia and Overseas, a position of which they are proud, and is made possible by the continuous support of their many friends who know that from them they will obtain "always the best" in goods and service.

This year we have incorporated our list of Carnations in our General Catalogue. They will be found listed on pages 46 and 47.

Special attention is drawn to the necessity of correctly addressing all correspondence. By so doing you will facilitate prompt delivery by the postal authorities, and also obviate the chance of your correspondence for us going into any other channel.

Address your communications to ANDERSON & COMPANY LTD., Seed Merchants, Box 1608BB, G.P.O., SYDNEY.

SEED AND PLANT MERCHANTS,
399-401 GEORGE STREET, SYDNEY.

Anderson & Co Limited

CORRESPONDENCE :

Correspondence is welcomed upon any subject appertaining to Agricultural and Horticultural matters, and the firm will be pleased to give their advice and experience at all times. Letters to be addressed to Box 1608BB, G.P.O., Sydney.

ADDRESS :

It is important that the full name and address of the sender be given with all orders, together with instructions as to the route goods are to be dispatched. By so doing mistakes are minimised and considerable help rendered toward the prompt dispatch of goods.

REMITTANCES :

These can be made by Crossed Cheques, Bank Drafts, Money Orders or Postal Notes. Exchange must be added to all Country Cheques. For small amounts, Postage Stamps may be sent.

DISCOUNT FOR CASH :

A liberal discount is given off Retail Orders when cash is sent with order for Vegetable Seeds, Flower Seeds, Bulbs and Plants ; or extra Seeds, Bulbs or Plants to an equivalent value, except on Collections and Farm Seeds, which are priced net.

NEW ACCOUNTS :

New Accounts are welcomed, and a reference should be furnished with the opening order. All orders for Seed Grain, Seed Potatoes and fertilizers are considered "Cash Goods," and are payable when accounts are furnished.

POSTAGE AND CARRIAGE :

Postage or Carriage is paid on all Retail Orders for Vegetable Seeds (except Peas and Beans), Flower Seeds and Bulbs ; also on all Vegetable Seeds quoted by the pound on page 14 of this Catalogue. Postage or Carriage is Not Paid on Agricultural Seeds, Seed Grain, Seed Potatoes, Fruit Trees and Plants, Garden Tools, Sundries, Manures, and Implements. Peas and Beans quoted in bulk on page 14 Carriage or Postage extra.

LIABILITY :

All goods sent out by Anderson and Company are packed by experts and handed over in good condition to Railway, Steamer or other Public Carriers and a receipt taken. After this the Company's liability ceases. Should the goods be lost, damaged or delayed, redress must be obtained from the carriers. Customers are advised of the dispatch of goods sent by rail or steamer.

SUBSTITUTING :

It is unavoidable that some lines may be sold out during the season. Customers should give permission to substitute the nearest possible to the Seeds or Plants required, or advise "No Substitutes."

A SERVICE :

Recipients of this Catalogue doubtless have many friends who are interested in gardening pursuits. A copy will be willingly posted if their name and address is sent to Anderson and Co. Ltd., Box 1608BB, G.P.O., Sydney, N.S.W.

Conditions of Sale

WE believe that all Seeds, Bulbs and Roots sold by us are of the description and kind specified by us at the time of sale, but owing to the practical impossibility in many cases of being certain of this, we give no undertaking that such Seeds, Bulbs, or Roots will correspond with the description under which they are sold, and we make all sales subject to this condition and to the standard of growth and purity, as required by the New South Wales Seed Act, 1921, but we will not be in any way responsible for the crop. If the purchaser does not accept the goods sold to him on these terms they are at once to be returned to us.

NOVELTY ROSES for 1929

Plants not available until May, 1929. Price 5/- each.

Postage or Carriage extra on less than six plants.

Any six Novelty Roses 30/- Post Free. Any twelve £3 Post Free.

ADELE CROFTON (H.T.) (A. Dickson, 1928)—Bud and young flower cadmium yellow, richly overlaid with scarlet orange. The growth is hardy, strong and of free branching erect habit without any dying back.

ADVOCATE (H.T.) (A. Dickson, 1928)—The bud and young flowers are rich crimson red deeply veined and shaded darker crimson. The buds are very long and pointed growing into a noble free bloom, quite up to exhibition standard. The growth is vigorous and free, forming a bush of the best bedding type, carrying the blooms on wiry stems. Richly fragrant.

BREEZE HILL (Wich.) (Dr. W. Van Fleet, 1927)—Large and double flowers, deep cream with tints of pink and salmon produced in large clusters.

BUSYBODY (H.T.) (Alister Clark, 1928)—No rose could be more free, as every shoot carries a shapely bud of rich orange yellow. The foliage is abundant and healthy. It makes an ideal bedding rose and should be massed.

CHERRY (H.T.) (McGredy, 1928)—Sunflower yellow on the outside, and on the inner side bright rose heavily veined a deeper shade of rose. As the flowers grow and expand, the inner surfaces of the petals turn brilliant carmine pink, flushed yellow. The flowers are large, full and of beautiful form. The stems are strong, stiff, and covered with light green mildew-resistant foliage.

CLB. BETTY (H.T.) (H. J. Hohman, 1926)—Coppery rose, shaded yellow. A grand sport of this popular old variety.

CLB. HADLEY (H.T.) (Teschendorf, 1927)—From two distinct sources climbing sports of this popular variety have been imported. The flowers are identical to the parent in rich crimson color and sweet fragrance.

CLB. RED RADIANCE (H.T.) (Pacific Rose Co., 1927)—A vigorous climbing sport will be very welcome in New South Wales where all the Radiance family are so popular as it supplies quite a new color in climbing roses.

CLB. ROSE MARIE (H.T.)—(Pacific Rose Company, 1926)—A climbing sport of Rose Marie, is one of the most valuable acquisitions for many years. In addition to its color being quite new in climbers, the shape of the blooms and rich sweet fragrance will ensure it a front rank place. Mildew-proof foliage. Highly recommended.

CLB. SOUV. DE GEORGES PERNET (Per.) (J. Pernet-Ducher, 1927)—A climbing sport of free flowering character, producing large blooms of rich color similar to the parent variety.

CLB. WILHELM KORDES (H.T.) (Wood & Ingram, 1927)—A grand climbing form of this very popular rose, which may be relied upon to become a favorite.

DIANA CANT (H.T.) (R. B. Cant & Sons, 1928)—Bud and long-pointed bloom medium size, double, high centred, very lasting, moderate fragrance, carmine red, flushed orange at base of petals, borne several together on long, average-strength stem. Foliage disease-resistant.

DR. HAWKESWORTH (H.T.) (Bees Ltd., 1927)—Growth vigorous and mildew-proof foliage. Flowers medium size. Color rich crimson shading to deep maroon, very fragrant.

EDITH NELLIE PERKINS (H.T.) (A. Dickson, 1928)—The outside of the petal is a light orient red, heavily shaded cerise at top and orange at base, the inner face is salmon pink, merging into orange salmon, with golden orange base, the veination being very pronounced and attractive. Blooms carried on long upright stems, moderately full, of pretty spiral formation and sweetly scented.

FASCINATION (H.T.) (Chaplin Bros., 1927)—Rosy cerise, shaded yellow. A good bedder.

FRANK NEAVE (H.T.) (H. Morse, 1927)—This new yellow rose comes with a good reputation. Shapely flowers, good color.

FURSTIN M. HATZFOLDT (H.T.) (Boden, 1928)—Growth strong and upright mildew-proof foliage. Flowers large, full and perfect form. Color dark crimson red. Delightful fragrance.

IRISH CHARITY (H.T.) (S. McGredy & Son, 1927)—Bud well-shaped, intense fiery scarlet with golden sheen; flower medium size, rather double, rosy scarlet.

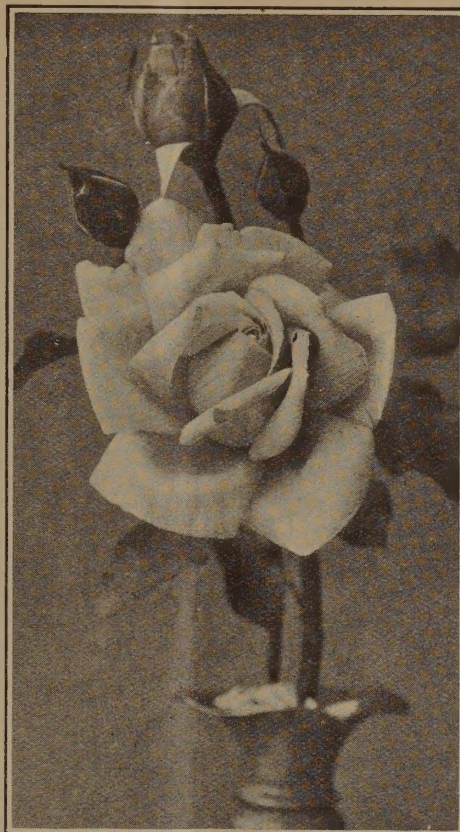

IRISH CHARM (H.T.) (S. McGredy & Son, 1927)—A charming rose of exquisite form and quite distinct. Rich golden apricot passing to a delicate blush pink.

IRISH SWEETNESS (H.T.) (S. McGredy & Son, 1927)—A delightfully fragrant variety and splendid addition to the red bedding roses. Exquisite shade of crimson-lake suffused scarlet; very free flowering.

IRISH HOPE (H.T.) (S. McGredy & Son, 1927)—A splendid and distinct red with well-formed buds composed of heavy, broad petals opening to moderately full, very fragrant flowers. The color is a rich rosy-crimson with maroon shadings. It is of splendid, vigorous growth.

IVANHOE (H.T.) (W. Easlea & Sons, 1928)—Brilliant scarlet passing to rich crimson. Rich fragrance.

IVY EVANS (H.T.) (F. Evans, 1926)—Distinct shade of light cerise. A splendid free-flowering bedding and garden rose. Sweetly scented.

GOLDEN DAWN (H.T.)—(P. Grant 1928)—The buds are rich sunflower yellow heavily flushed with deep old rose. When open the petals disclose an inner face of sunflower yellow which tones to lemon yellow as the flower ages. The growth is most vigorous with clean distinctive foliage and a splendid branching habit so essential to profuse and continuous blooming. All plants of this variety are sold under the condition that they are for Australian and New Zealand use only, and must not be directly or indirectly forwarded to either Europe or America. 5/- each

with well-formed buds composed of heavy, broad petals opening to moderately full, very fragrant flowers. The color is a rich rosy-crimson with maroon shadings. It is of splendid, vigorous growth.

NOVELTY ROSES for 1929 (continued)

JAMES GIBSON (H.T.) (S. McGredy & Sons, 1928)—Habit of growth free, bushy, upright, and vigorous; beautifully foliaged, with large dark green mildew-resistant leaves. It is ideal for garden, bedding and exhibition.

JERSEY SCARLET (H.T.) (Jersey Nurseries, 1923)—One of the most vivid self-colored roses yet raised. A real scarlet.

JOAN DAVIS (H.T.) (A. J. & C. Allen, 1927)—Color salmon apricot sheened cerise pink on yellow base. Deliciously fragrant; as a bedder it is ideal and gives a glorious autumn show.

JOYOUS CAVALIER (H.T.) (W. E. B. Archer, 1926)—Flowers brilliant scarlet that does not blue, borne about three together on long stem. Foliage abundant, medium size, dark bronzy green, glossy, disease-resistant.

JULIEN POTIN (Per.) (Pernet-Ducher, 1927)—The most gorgeous and brilliant yellow rose yet introduced, a rich golden yellow that grows deeper and more intense as the flowers mature. The buds are long and shapely and develop into large full flowers of beautiful form. Delightfully sweet scented. Growth upright with ample glossy bronzy-green foliage and very floriferous.

KONIGEN LUISE (H.T.) (Weigand, 1927)—Large, full and perfectly formed flowers, possessing great lasting properties. Color white. The raisers describe this as a greatly improved "Kaiserin Augusta Victoria" and a rose with a great future.

LADY FAIRBAIRN (H.T.) (Alister Clark, 1928)—No rose could be more free, robust, healthy, perpetual and charming. The color is a beautiful lively pink and the flower is well formed and held on stiff upright stems. It lasts well when cut and is quite distinct. The foliage is ample and healthy, the bush is compact and the habit is ideal for bedding. This variety, together with Peggy Bell, has been presented to the National Rose Society of New South Wales by Mr. Alister Clark, and all profits from the sale of these roses will be used by the Society to advance the cause of the Rose in N. S. Wales. Price, 5/- each.

LADY FORTEVOIT (Per.) (B. R. Cant & Sons, 1928)—The color is a brilliant orange, with a bright canary yellow base. The leaves are large and glossy, and free of mildew.

LILLIAN GOMEZ-MENA (Clb. H. T.) (Chambard, 1927)—Semi-climbing, possessing great vigor. Bud long, egg shaped. Flower large, full and opening well. Color deep cream shaded carmine. Delightful fragrance.

MDME. G. STAECHELIN (Clb. H.T.) (Simon Dot, 1927)—Buds very long and elegant, very large single flowers of a delicate rose color, very highly perfumed.

MDME. LA GENERAL ARDOUIN (H.T.) (Chambard, 1927)—Growth vigorous, beautiful dark green foliage, disease resisting. Flower extra large of beautiful form opening well. Color dark carmine shaded dark yellow and chrome. Perfumed.

MARS (H.T.) (Chaplin Bros., 1927)—Deep coral blended orange and yellow. A pretty bedding variety.

MAY WETTERN (H.T.) (A. Dickson, 1928)—The outer side of the petals pass from deep rose to rosy pink and finally to bright rose, the blending of tones creating a perfect harmony.

MRS. HERBERT DOWSETT (Per.) (W. Easlea & Sons, 1928)—A deeper colored "Los Angeles." A fixed sport that is a great improvement.

MRS. JOHN WHICHER (Clb. H.T.) (Boston Rose Farms, 1928)—An exceedingly beautiful climber; pale primrose yellow, large full flowers. Fragrant. Grand foliage, free from mildew.

MRS. S. PATON (H.T.) (S. McGredy & Son, 1928)—Brilliant orange scarlet carmine. The orange scarlet sheen is very pronounced and makes the flower positively glow. The flowers are full, moderately large, and of fine form. The habit of growth is of ideal bedding type, very free-flowering, vigorous, branching, and bushy, and the flowers are carried upright on long, stiff, dark stems having few thorns.

PEGGY BELL (H.T.) (Alister Clark, 1928)—A beautiful rose of fine substance and distinct coloring, perhaps suggesting Betty Uprichard, but it is more free and robust in habit. It is ever-blooming and makes a fine large bush, and the flower lasts well when cut. This variety has been presented to the N. S. Wales National Rose Society and the profits from the sales of these plants will be devoted to the development of Rose Culture in N. S. Wales. 5/- each.

POLLY (H.T.) (G. Beckwith & Son, 1928)—The buds are gold, flushed with pink. The open flower is a charming blend of cream, pale rose pink and gold. Perfect shape. Very sweetly scented. Handsome foliage. Not liable to mildew.

PORTADOWN (H.T.) (S. McGredy & Son, 1928)—A rich, deep crimson rose with a velvety sheen. Suitable alike for garden, bedding, and exhibition. The flowers are large, full, and beautifully formed. The habit is stout, bushy, upright, vigorous.

PRIDE OF HURST (Dwf. Poly.) (E. J. Hicks, 1926)—A fine double sport from "Coral Cluster." An excellent addition to the polyantha class.

PRINCE JEAN DE LUXEMBOURG (Dwf. Poly.) (Souper & Notting, 1926)—A very remarkable variety, pure white full flowers. Vigorous; erect branching; perfumed; very hardy; deep green foliage, continuous flowering in panicles of from 100 to 150 flowers, splendid for massing and edging.

REFRESHER (Rambler) (Alister Clark, 1928)—This rose carries large trusses of the most beautiful single white flowers that completely cover the whole plant in early summer. The foliage is luxuriant and healthy.

ROSE BERKELEY (H.T.) (S. McGredy & Son, 1928)—The color is deep rosy salmon-pink suffused orange, and running to an orange base. The flowers are large, full, and beautifully shaped. The habit of growth is very distinct, breaking and spreading out from the base and from every eye with unusual freedom and vigor. The foliage is large, dark green, leathery, and mildew-proof.

RUPERT BROOKE (H.T.) (W. Easlea & Sons, 1928)—A fine rose of large size and high quality, cream and fawn pink shading, very free, grand habit, good foliage. Makes a splendid bedder. Equally good for exhibition.

UNIQUE (Hyb. Clb. Poly.) (F. Evans, 1928)—Color an attractive fawny orange salmon of bright tone. Not liable to mildew. Flowers in summer and autumn, good foliage.

WILLIAM E. NICKERSON (H.T.) (W. Easlea & Sons, 1928)—A fine rose, color glowing orange cerise. Very attractive and distinct. Fine sturdy grower. Well shaped flowers.

NOVELTY ROSES of 1928

Price 2/6 each ; Postage extra N.S.W., 1/6 dozen ; Interstate, 2/8

ABOL [H.T.] (F. Evans, 1926). Pure white, but in the bud stage and before the flower is fully opened the centre petals are sometimes edged with pale pink. Fine habit, very free flowering and hardy, with fine stems and good petals.

ANTONIO RELLERI DE PELUFFO [Pernt.] (Souper and Notting, 1926). Flower full, of enormous size and delicious perfume. Color brilliant red with deeper shading in the centre, carried on rigid stem.

CLIMBING RADIANCE [H.T.] (H. J. Catt, 1928). A real climbing sport of "Radiance." We feel sure this new variety will become popular. Very vigorous grower.

CUBA [Pernt.] (Pernet-Ducher, 1926). A very uncommon shade of orange scarlet, inside of the petal rich velvety crimson with carmine towards the tips, Few thorns.

EVEREST [H.T.] (W. Easlea and Sons, 1927). A giant white rose of perfect form, with delicate cream suffusion, carried upright on powerful stems. This is the largest rose yet raised, and when fully expanded it resembles a huge peony. Awarded Certificate of Merit, N.R.S.

FONTANELLE [H.T.] (E. G. Hill Co., 1927). A large yellow rose with immense petals and beautifully formed flowers. Good grower, possessed of robust constitution. An outstanding yellow variety which is certain to quickly attain front rank in garden roses.

GAITY [H.T.] (E. G. Hill and Co., 1926). Bud large, long-pointed ; flower large, semi-double. Colour orange, Indian red and silver. Growth very vigorous, continuous bloomer.

GOUDVLINDER (Golden Butterfly) [H.T.] (G. A. Van Rossem, 1926). Long pointed buds, striped with coral red on pure dark orange. Flowers shining golden orange yellow. Very free flowering. Growth strong and bushy. Foliage glossy brownish-red, with few thorns. Excellent for bedding and massing.

JULIA, COUNTESS OF DARTREY [H.T.] (Dr. J. Campbell, 1927). Color Tyrian rose, with a yellow base. Large flowers of ideal shape; fine for exhibition; delightful fragrance.

LADY MARY ELIZABETH [H.T.] (Alex. Dickson and Sons, 1927). Color brilliant carmine pink. The blooms are carried on long, stiff, straight stems. Vigorous and hardy.

MADAME GREVE [H.T.] (Chambards, 1926). Color is rose-salmon, the centre deep salmon. The buds are long, deep rose in color, and carried on rigid peduncle. Flowers very large, full, and perfectly formed, very free and continuous in bloom. Tea rose perfume. Growth vigorous. Of free branching habit, with handsome bronzy green foliage. Superb.

MARGARET MCGREDY [H.T.] (S. McGredy and Son, 1927). Color orange-scarlet. Flowers are large, full, of perfect form, and exhibition size, and are borne freely throughout the season.

MARION CRAN [H.T.] (S. McGredy & Son, 1927). Color deep buttercup yellow, margined and flushed cerise and rosy scarlet. Flowers are full, nice form, and medium in size. Very vigorous habit. Excellent as a bedding rose.

MRS. ERSKINE PEM-BROKE THOM [H.T.] (Howard and Smith, 1926). Long buds, developing into perfectly formed, fully double flowers of clear, deep canary yellow. Moderately fragrant. Resistant to disease.

OLIVER MEE [H.T.] (Sandy Dickson, 1927). Color deep salmon, with heavy flush of clear fawn, changing with age to salmon-pink. Sweetly scented.

ORANGE PERFECT-ION [Poly.] (Jan Spek, 1927). Sport of Ideal. Color a brilliant orange red. Flowers of good form; growth vigorous; free and mildew resistant.

PATIENCE [H.T.] (S. McGredy & Sons, 1927). Color deep orange, shading to orange-scarlet. Flowers large, full, and of good form; delicately perfumed. Gold Medal.

RAPTURE [H.T.] (Traendly & Schenck, 1926). Sport of Madame Butterny. Flower medium size, deep pink borne single on long stem. Two Gold Medals.

SOUVENIR DE MADAME PIDOUX [H.T.] (M. Chambard). Chrome yellow, reverse day-break pink borne on long, strong stem. Foliage light green. Growth vigorous, upright; abundant, continuous bloomer.

VILLA PIA [H.T.] (Leenders Bros., 1926). Flower very large and full. Color dark velvety crimson. Bud large and pointed, carried on a firm stem.

COUNTESS OF STRADBROKE

A vigorous growing, free blooming climbing rose of exceptional merit. The flowers are large and full, averaging 40 petals, and of good shape—while in addition they possess a full rich fragrance of the sweet or damask type. The color is a rich dark velvety crimson of a particularly vivid shade. This variety is a credit to Australian raisers, and is sent out with every confidence as a particularly fine variety. Price, 2/6 each.

NEW OR RARE PLANTS

BERBERIS WILSONII—A new low growing evergreen shrub from China. Golden yellow flowers followed by red berries. Very attractive in autumn. Price, 2/6 each.

BERBERIS STENOPHYLLA, D—A hardy graceful shrub from 3 to 4 feet in height at maturity, and bearing large quantities of small yellow flowers in spring. Suitable for all the colder climates. Price, 2/6 each.

BUDDLEIA NANOENSIS, E—Virtually a dwarf *B. veitchii*, being much more compact, and therefore more suitable for small gardens. In all other respects similar to *B. Veitchii* and producing the same heliotrope violet blooms. Hardy everywhere. Price, 2/- each.

CAMELLIA SASANQUA—Single pink. This is a small foliaged, rather smaller flowered variety than the ordinary single Camellia; bushy, compact habit. Price, 3/6 each.

CERATOSTIGMA WILMOTTIAE, E—A rare and beautiful shrub, allied to *Plumbago* and producing deep sky blue flowers over a long season. The plants are shrubby and grow from 3 to 5 feet in height. Highly recommended. Hardy everywhere. Price, 2/6 each.

CHAMAELAUCIUM UNCINATUM (Geraldton Wax Plant)—A native of Western Australia, and produces bunches of very pretty pink blooms, somewhat after the shape of our native Tea Tree flowers. The plant will stand very dry conditions, but is sensitive to too much water. Price, 3/- each.

CUPRESSUS ARIZONICA (Arizona Cypress), E—A hardy cypress of slender upright habit with grey green foliage that gives a welcome break in color. Makes an excellent specimen. Highly suitable for dry climate conditions. It is being extensively planted in the new Garden City at Canberra. Price, 2/6 each, 28/- dozen.

FEIJOA SELLOWIANA—An evergreen bush up to about 10 feet in height, with conspicuous red and white flowers followed by edible greenish colored fruit, which partakes somewhat of the flavour of a guava; hardy, survives heat, frost and drought. Price, 2/6 each.

GREVILLEA DALLACHIANA—An attractive dwarf shrub, with a bushy habit of growth and small leaves. Flowers small but numerous, of a rich red color with a cream centre, being seen in spring. Price, 2/- each.

RETINOSPORA OBTUSA CRIPSI—A richly colored golden form. An excellent subject for specimens in lawns and invaluable for cool and mountain climates. Price, 5/- each.

SALIX CAPREA (Pussy Willow)—The long canes produce large silky buds in early spring. Cut at this stage they are excellent for decorative work and last a long time. Price, 2/- each, 18/- dozen.

HYDRANGEAS—These flowers have been receiving considerable attention from hybridists in Europe and many new, beautiful, and greatly improved varieties are being tested.

While thoroughly recommending these new introductions as a great advance over older types, no guarantee as to color is possible. The color is only indicated where the flower is white. Price, 3/- each.

Germaine Moulliere—Pure white. Large trusses of fringed flowers.

La Marne—Enormous individual flowers and extra large truss.

Marechal Foch—Large trusses. Very free bloomer.

Mrs. H. J. Jones—Very large heads.

Rubis—Immense trusses.

Parsifal—Fringed flowers.

Splendour—Large heads.

MONTANOA GRANDIFLORA—A tall-growing shrub, producing large heads of white Marguerite-like flowers, and large distinctive foliage. Blooms are produced in winter. Price, 2/- each.

OENOTHERA ROSEA—A delightful subject for rockeries and the points of formal bedding. The growth is quite prostrate, and the large flesh-pink flowers are most attractive. Price, 1/6 each.

PHILADELPHUS VIRGINALIS—The most beautiful of all the Mock Orange, with large pure white blooms ranging from single to semi-double, and very freely produced. Price, 2/- each.

SALIX COERULEA (The Cricket Bat Willow)—

An upright growing tree attaining a height of 80 ft., or more in England, with a corresponding girth. It is an extremely rapid grower. Price, 2/6 each.

PHOENIX ROEBILINI—A variety possessing all the charm and beauty of *Cocos*, with an added virtue of great hardiness. Prices, 3/6 to 7/6 each.

PHOTINIA GLABRA RUBENS—A small shrub growing eight to ten feet, and perfectly hardy in all climates. The young foliage is a rich, deep red color, giving the appearance of a plant in full bloom. As foliage ages it turns green, and the plant should then be lightly trimmed back, and each successive growth repeats the brilliant color of the young foliage. Price, 2/6 each.

PROSTANTHERA OVALIFOLIA—A native shrub of the highest excellence. Simply covered in spring with rich purple blooms of distinctive character. Price, 2/6 each.

PRUNUS BLIREIANA FLORA PLENA, D—A flowering plum with double flower of a bright rose color and purple foliage. Hardy everywhere. Price, 2/6 each.

THUNBERGIA GIBSONI

Most distinct climbing or trailing plant. In climates where oranges thrive it will be found in bloom nine to ten months in the year, and in a class by itself for rich distinctive color. Richest Chinese orange colored flowers produced in such profusion as to make an irresistible display. It is suitable for trailing on embankments, rockeries, stumps or fences, and may be used as a bedding plant with splendid effect. Very highly recommended. Price, 2/- each, 22/- per dozen.

NOVELTY FLOWER SEEDS

NEW CALENDULAS

Great strides have taken place in the development of the Calendula during the past five years. The Calendula Flore Pleno type have been much improved both in size and fulness of the flowers. The new types are far in advance of the old single and semi-double varieties, they make a wonderful display in the garden and are a considerable acquisition as cut flowers.

CAMPFIRE (Novelty 1929). The plants are of strong sturdy growth and large even petals; flowers are born on long, stout stems; the color is brilliant orange with a scarlet sheen, and yellow centre. The blooms are larger and more flat than those of any variety previously introduced. Price, per packet, 1/6

ORANGE KING. Nice strong-growing variety, producing large semi-double flowers of an intense deep orange red, measuring up to three-and-a-half inches in diameter. Price, per packet, 1/-.

THE BALL. A new type of Calendula, a charming orange in color with a lighter centre. The flowers are very large, uniformly double and borne on long stems. Price, per packet, 1/-.

The above set of 3 for 3/-. Post Free.

DIMORPHOTHECA "Eklonis"

Strong growing, compact perennial with green spatulate leaves, and bears large star-shaped flowers up to 3½ inches across. Color pure white, deep blue centre; useful for cutting. Height 2 feet.

Price, per packet, 1/-

DIMORPHOTHECA Aurantiaca Hybrida

Of annual duration, this type of large flowering Dimorphothea makes an excellent bedding subject, and is now obtainable in three new distinct shades:—

SALMON BEAUTY—A true salmon.

WHITE BEAUTY—A beautiful white.

GOLDEN WEST—A bright yellow.

Each color 9d. per packet, or the three packets for 2/-

DAHLIA

Coltness Hybrids (Improved)

A splendid new class of single Dahlia, of neat compact habit, averaging about 18 inches high. The colors are particularly fine and varied, including dark scarlet, crimson, red, yellow, white and purple. Most effective for massing in borders.

Price, per packet, 1/6

CALENDULA: CAMPFIRE

COREOPSIS GRANDIFLORA Flore Pleno

This variety will produce a very large percentage of semi-doubles that are more attractive than the singles. Price, per packet, 1/-

CYNOGLOSSUM

Amabile Blue (Chinese Forget-me-not)

Height about 1 to 1½ feet. Very floriferous, producing rich blue flowers like English forget-me-not, hardy and easily grown in the open.

Price, per packet, 6d.

Amabile Alba (Novelty 1929)

A white variety similar in every respect to the blue, and when planted in conjunction, forms a very pleasing contrast. Price, per packet, 6d.

TURN TO PAGE 19

On page 19 will be found listed the New Giant Mammoth or Californian Giant Zinnias together with a full list of Giant Dahlia Flowered Zinnias and ordinary types. Zinnias make a grand show during the hot summer months.

Novelty Flower Seeds—continued

DELPHINIUMS

HOLLYHOCK STRAIN (Novelty, 1929). This strain is a fine mixture of all light shades, pale, clear blue predominating. The flowers are large, truly double, well-placed on long, pyramidal spikes, the sturdy growth and general appearance reminding one of a Hollyhock, hence the name. This striking type is a result of several years of painstaking re-selecting by an expert plant hybridizer. We highly recommend this strain to those who wish a select strain of this popular perennial.

Price, per packet, 2/6

"GOLD MEDAL" STRAIN—A great improvement on the old familiar type of Delphinium. As a result of the outcome of years of careful selection and hybridising, we can offer seed of the "Gold Medal" Strain containing the following colors: Light Blue, Deep Blue, Mid Blue, and unique Pastel Shades.

Mixed seed, per packet, 1/6 and 2/6

"NOTTAGE'S" EARLY FLOWERING—A triumph of Australian production. We have secured from the originator his available seed of the above-mentioned strain of Delphinium. This new early flowering race will give beautiful spikes of bloom in from six to seven months from the time of sowing the seed. Many of the plants will give a second crop of flowers within twelve months. The color range includes all the latest shades and tints of blue; the old dull and magenta shades having been eliminated. It does not need a glass or shade-house to raise Delphiniums, although a little care is necessary to keep the soil moist during the germination process. It generally takes from twelve to thirty days for the young plants to appear. The best time for sowing is during the months of March, April and May. New seed now ready—only obtainable from us.

Price, per packet, 1/- and 2/6, post free.

DELPHINIUM: "Nottage's" Early Flowering

DELPHINIUM: Hollyhock Strain

ESCHSCHOLTZIA (Californian Poppy)

RAMONA (Novelty, 1929). Among the many fancy varieties of Eschscholtzia introduced during the past few years Ramona, a mutation from the Geisha, stands out as a distinct and very charming type in the frilled class. It is a single, but the frills give it the appearance of a semi-double. The color pleasing to the eye is a pale glittering coppery gold, with pink shadings.

Price, per packet, 1/-

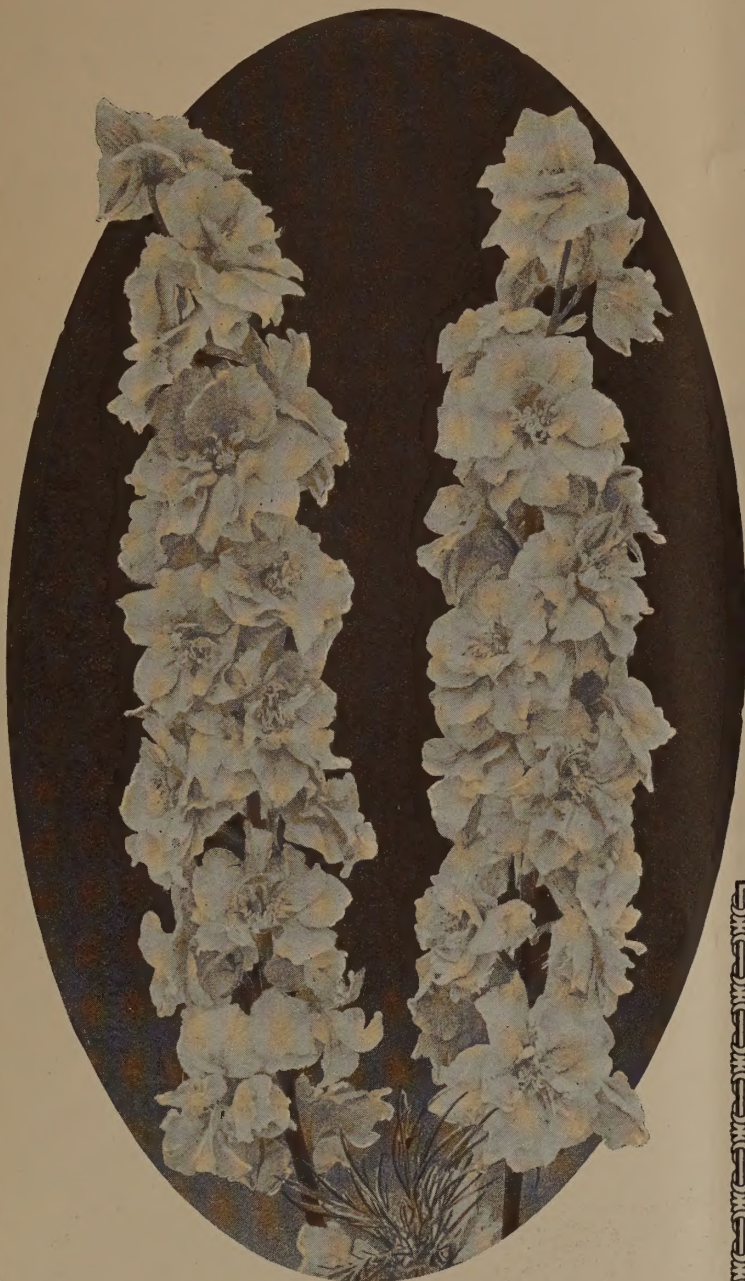

NEW DOUBLE ROSE. An excellent strain of Eschscholtzia which throws a large percentage of double flowers, quite true to color—a beautiful light rose.

Price, per packet, 1/-

SWEET PEAS

Lovers of these delightfully fragrant flowers will find a list of Anderson's Early Flowering Sweet Peas, together with Novelties for 1929 on Page 30

Novelty Flower Seeds—continued

New Larkspur: LA FRANCE

STOCKS

ELKS PRIDE (Novelty, 1929).

This introduction is a new shade in the "Early Giant Imperial" group, being an intense royal purple of vigorous growth, attaining a height of twenty-four to thirty inches. Price, per packet, 1/6

ANTIQUE COPPER.

Individual florets two inches in diameter, color a rich hellebore red. Price, per packet, 1/6

GOLDEN ROSE.

A rich, light rose, with pleasing golden effect in the centre of each floret. Price, per packet, 1/6

The above set of three Stocks for 4/-

NEW LARKSPURS

LA FRANCE (Novelty, 1929).

Of outstanding merit, this novelty, belonging to the stock-flowered branching type, will prove popular on account of the striking color—a pleasing Salmon Pink—of the well-formed double flowers, which, being evenly spaced on the long stems, set off its attractions, so as to win instant recognition for house or garden decoration.

Price, per packet, 1/6

EXQUISITE PINK IMPROVED (Novelty, 1929).

This new variety is a wonderfully improved form of the magnificent stock-flowered branching type.

The flowers are an exquisite pink, arrayed on long graceful stems; this acquisition (which has taken eight years effort to perfect) is most valuable for cutting.

Price, per packet, 1/6

GAILLARDIA

Grandiflora Portola Hybrids

This superb new strain of Gaillardia bears flowers of very large size. The color ranges through shades of bronzy red, the petals being golden tipped. Excellent for cut flowers.

Price, per packet, 1/6

GAILLARDIA: Grandiflora Portola Hybrid

FLOWER SEEDS & PLANTS of MERIT

ICELAND POPPIES

ANDERSON'S SPECIAL STRAIN.

The plants of this re-selected strain are robust, and produce freely, on extra long stems, large flowers—a very high percentage of which is of brilliant orange shades. Sow from late Summer to Autumn.

Price, per packet, 1/-

"COONARA PINKS" (Australian Raised).

Undoubtedly one of the finest novelties ever raised in Australia, and a handsome addition to the flower garden. A combination of pink and salmon shades, quite original in its delicacy. The variety of tones is very wide and extremely dainty and perfect. The flowers are borne in great profusion on substantial long stems, making them specially desirable for cutting. This strain has been carefully built up to its present perfection after several years of rigid selection. The colors are now fixed.

Price, per packet, 1/-

BAKER'S "SUNBEAM."

The original strain. A race of Perennial Poppies resembling the well-known Iceland Poppy; but in length of stem, size of flower and robust habit they are so far in advance as to justify being considered as a new and distinct type. Ideal plants for border and bedding purposes. Price, per packet, 1/-

IMPROVED "SUNBEAM" POPPY.

The flowers of this strain include many new art tints, such as Malze, Cream and Rose tones. The flowers are large, and borne on long, stout stems, usual with the Sunbeam type.

Price, per packet, 1/6

"GIRRAHWEEN" POPPY.

A selection from the Iceland Poppy. The range of colors includes many new shades. Beautiful flowers with long stems. Price, per packet, 1/-

"MAY FARM."

A special strain of long-stemmed Poppy, producing large flowers. Price, per packet, 1/-

VERBENA

HYBRIDA GRANDIFLORA.

These two Verbenas would blend perfectly.

ETNA

(Novelty, 1928.)

This introduction bears large trusses of intense geranium red flowers, with a small creamy yellow eye. The individual florets are over one inch in diameter.

Price, per packet, 1/6
Post free.

ROYALE

(Novelty, 1929).

Enormous flower trusses of rich, deep royal blue, with a large creamy white eye, each floret over one inch in diameter.

Price, per packet, 1/6
The 2 varieties for 2/6
Post free.

SALVIA

(Novelties, 1929)

These two new Salvia are distinct in color.

ROSY GEM

Dwarf compact bushy habit. An uncommon shade of Deep Rose Pink.

Price, per packet, 1/-

WHITE PEARL

A pure white variety of the Splendens type.

Price, per packet, 1/-

NOVELTY CARNATION: MAGPIE
(Plants only)

The most striking Carnation seedling that has been seen for some time. The flowers are large, smooth-edged, and beautifully formed, and carried on long stiff stems. Color, deep maroon on pure white ground.

Price, 2/6, postage extra.

For list of Carnations see pages 46 and 47.

PHLOX

ANDERSON'S EXHIBITION

A magnificent exhibition strain of Phlox, selected and improved. Flowers are large and the colors superb. A clear white or pale cream eye is one of the predominant features. We have received many reports from customers, who all speak highly of this variety.

Price, per packet, 1/-

SALPIGLOSSIS

These flowers make a splendid display of color in the garden. They revel in an open, sunny situation. During the hot weather, water liberally, and they will continue to flower during the hottest spell.

Velvety Red

Yellow, white border.

Rosy Chamois, carmine centre

Magenta, yellow throat

Deep Carmine Violet

Purple-Red, striped yellow

Dark Garnet Red

Carmine Red

Price, per packet, 6d.

Set of Eight, 3/6
Post Free.

Anderson's

SELECTED VEGETABLE SEEDS

Artichoke (Globe)

PURPLE GREEN
6d. per packet.

CULTURAL NOTES

The soil requires to be deeply trenched, as for Asparagus, and well enriched with manure. Sow in beds of light soil, in March or September, and transplant during the following spring or autumn, in rows 4 to 6 feet apart, and about 4 feet in the rows. They will then produce flower-heads fit for use during the following season; the fleshy part at the base of the leaves which form the crowns of flower-heads only is used.

Globe Artichoke Plants priced on page 13.

Jerusalem Artichokes (White)

A tuberous variety with annual stems. The best time to plant is from July to September in rows 3 feet apart and 12 to 18 inches apart in the rows. Succeeds in any ordinary soil. Price of Tubers, 3d. per lb.; postage or carriage extra. (See also page 13).

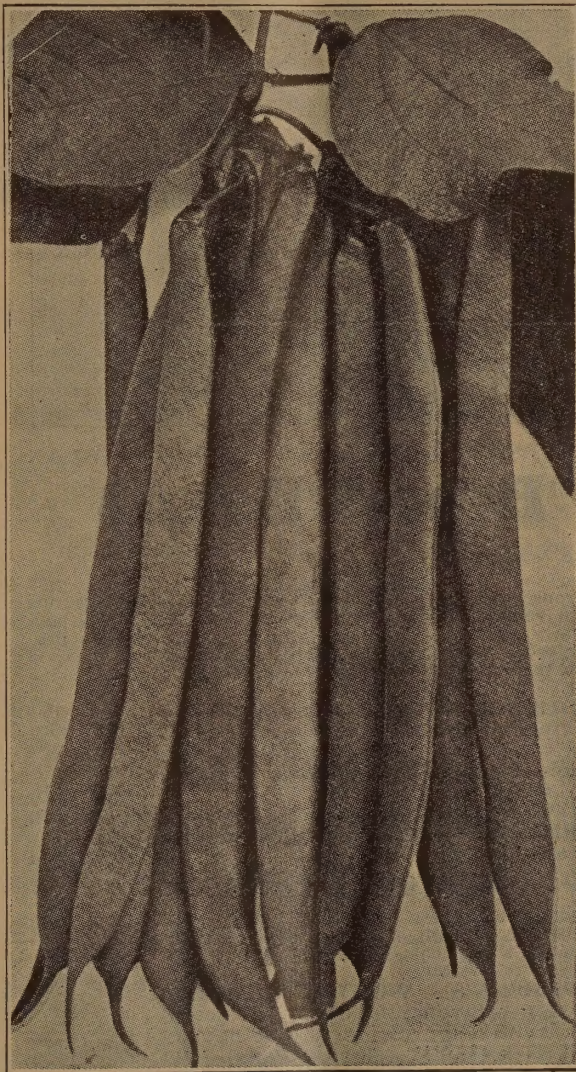

Asparagus

CULTURAL NOTES

Plants are easily obtained from seed sown in July or August in good rich soil. The plants should be thinned out in the seed bed to 6 inches apart, and in the autumn the bed should be heavily manured with stable manure, and a good dressing of salt or nitrate of soda should be spread over it. In the autumn of the second year, after sowing, the roots should be lifted and replanted.

Plant out in beds not more than 4 feet wide, so as to allow the cutting of the Asparagus to be done without treading the surface. The rows should be 12 to 18 inches apart, and the plants 10 to 12 inches from each other. The soil should be trenched 3 feet deep, and if sub-soil be stiff or inferior it should be broken up in the bottom of the trench and allowed to remain there, and heavily manured, being covered with the original top soil, which should also be very liberally enriched before planting with old stable manure, bone dust, and a good dressing of coarse salt. When the plants are in position, a top dressing of 3 or 4 inches of stable manure should be placed over all the beds, and as the plants progress care must be taken to keep them free from weeds. When the stems turn yellow in the autumn, they must be cut down close to the ground, the surface cleaned and weeded, and all seedling plants removed, and the beds thoroughly manured and top-dressed as before. Before spreading the top-dressing fork in the manure between the rows of the plants, being careful not to injure the crowns.

PURPLE DUTCH, 6d. per packet
CONOVER'S COLOSSAL, 6d. pkt.
ASPARAGUS ROOTS, 10/- 100;
Carriage extra.

FRENCH BEAN: CANADIAN WONDER

A USEFUL GARDEN BOOK

This handy book by A. J. Pinn and R. N. Makin is brimful of useful information on Vegetable Growing, Tillage, Fertilizing, Seed Raising, Pests; in fact, everything is dealt with.

Send for a copy, and make your vegetables a source of profit. Price, 2/6; Post Free, 2/9.

French Beans

Postage extra per pkt., 3d.; per lb., 6d.

CULTURAL NOTES

Sow the "dwarf" sorts every two or three weeks from September to February inclusive, in rows 2 feet apart, and 4 to 6 inches from plant to plant. The "runners" should have a space of from 3 to 4 feet between the rows, and about 12 inches in the rows. These should be sown in September, October or November and staked. Soil need not be too rich.

Dwarf

CANADIAN WONDER.—Very long pods; excellent flavour, a wonderful bearer.

Carrot

CULTURAL NOTES

Make a sowing in July, and the main crop in September, in drills, 18 inches apart, and when fit, thin out to five or six inches. Sand and sandy loam produce the best Carrots; they will grow in any soil if not stony, but will fork if grown on freshly-manured land. They should, therefore, follow Cauliflower, Cabbage, Turnip, or some crop for which the land has been well manured. The beds should be both deeply and finely dug—not turned over roughly. Small intermediate sowings may be made in January or February; the Carrots will not grow large, but will be suitable for soups. Plants need not be thinned out to more than three or four inches apart.

For Prices of CARROTS and
CAULIFLOWERS in Bulk, see
Page 14.

CARROT: IMPROVED SCARLET INTERMEDIATE

Carrot

Per packet, 6d.; per ounce, 1/-

ST. VALERY—An excellent Scarlet Carrot; longer than Intermediate—gardeners' favourite. Perfect shape and fine quality.

EARLY SHORT HORN—Good color and quality, very early; a favourite.

IMPROVED SCARLET INTERMEDIATE—Of fine size and shape, with short top; early and excellent.

SCARLET LONG HORN—Medium length; very early; good color and flavour.

LONG RED SURREY—Very long; grows to perfection on deep, rich land.

LARGE RED ALTRINGHAM—Long red.

MANCHESTER TABLE—A splendid early variety suitable for growing in warm climates. In size between Early Short Horn and Intermediate. Stump rooted, good flavour, excellent for table use.

FIELD CARROTS—(For prices see page 32).

Cauliflower

CULTURAL NOTES

Sow in rich, light soil in December to February, slightly shading, and keep well watered. The plants should not be allowed to crowd each other, or become stunted. During dull or showery weather, plant out in rows 3 feet by 2 feet in liberally manured land; water the plants for a few days unless the weather be showery. If Cauliflower plants once get a severe check they will never produce fine heads. Cauliflower should never follow a Cabbage crop, nor be grown two seasons following on the same land.

ANDERSON'S "WHITE QUEEN"—A superb variety. very early dwarf; produces large, firm, closely set heads, beautifully white and tender, excellent flavour, luxuriant foliage. One of the finest grown, which we strongly recommend.

VEITCH'S AUTUMN GIANT—Produces magnificent, large, snow-white, firm heads; plants are of a vigorous growth, requiring plenty of room. It is not an early variety. Best months to sow are December, January and February.

EARLY ECLIPSE—Popular Victorian variety, suitable for market gardeners.

ECLIPSE—A very superior variety that is suitable for private or market gardens; medium early producing fine, solid heads.

EARLY LONDON—A first-class early variety. Fine, white heads; not liable to button; for private gardens, one of the best; very old favourite.

LARGE ASIATIC—A large variety, of fine quality, for private use and for market; of excellent color and very hardy.

WALCHEREN—Good reliable sort, and a favourite with some growers, medium early.

LATE ITALIAN GIANT—A large variety, with very white heads.

Cape Gooseberry

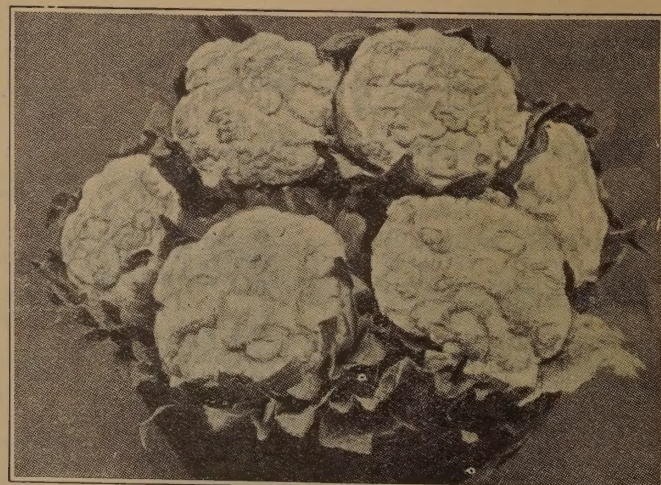

CULTURAL NOTES

Sow in September and October, and prick out in a row along a warm, sheltered border, in a rich soil, two feet apart. The plants should be stopped by pinching out the tops of the shoots occasionally to induce a sturdy, bushy growth.

Per packet, 6d.

ORDINARY VARIETY—Can be used for dessert; makes a delicious jam.

JAPANESE—A variety of erect habit, from 1½ to 2 feet high.

CAULIFLOWER: ANDERSON'S WHITE QUEEN

Celery

1/6 per oz.; 6d. per packet, except where otherwise marked.

WHITE PLUME—First-class variety; very tender. The stalks, inner leaves and heart are white, which simplifies the blanching process.

WRIGHT'S SELECTED GIANT WHITE—A leading variety; excellent quality, tender and crisp, blanches well.

WINTER QUEEN—Ribs are solid, crisp, and of nutty flavour; when blanched are of a fine cream white color.

COLE'S CRYSTAL WHITE—Large and fine quality; crisp, well flavoured.

WHITE SOLID PASCHAL—This fine Celery has remarkable breadth of stalk, fine flavour, fleshy, and very tender; self-blanching variety.

TURNER'S INCOMPARABLE WHITE—Old favourite; very fine quality, always reliable, fine flavour, tender when blanched.

GOLDEN SELF-BLANCHING—Remarkably early, entirely self-blanching, with large golden-yellow heart; very crisp and solid. 2/6 per oz.

COLE'S RED SOLID—Fine pink color; large solid stems; tender, crisp.

LAING'S MAMMOTH RED—Large strong stalks of good quality; blanches well, crisp and tender.

CELERY—WHITE PLUME

CULTURAL NOTES ON CELERY

Sow for main crop in September and October. Seed beds for this sowing should not be over rich. So as to furnish plants for putting out for several months, a later sowing, say in December or January, may be made; in this case, sow the seed in shallow boxes, and place in a situation where they can be shaded if necessary, until the seed has germinated. To grow Celery to perfection, choose a bed that has been richly manured for a previous crop, such as a Cauliflower bed. The soil should be of a friable nature, and well pulverised. Open the trenches 18 inches wide, and of a like depth; stack the soil on either side, to be ready for drawing back into the trenches as the plants progress. In the bottom of trenches place about 6 inches of stable manure, partially rotted, and fork it well into the soil. Cover this with a couple of inches of the soil previously thrown out, and water copiously the night before planting; carefully raise the plants from the seed bed and plant along the centre of the trench, about 9 inches apart. Weed often, and draw in soil as the plants advance, taking care that the hearts of the plants are not buried; continue to do so until the plants are full grown and the trench is nearly filled up. Keep plants going with water, when young, if necessary, and use liquid manure. With this treatment Celery stalks will be well blanched and tender.

Sweet Corn

6d. per packet; postage 3d. extra.
1/6 per lb.; postage 6d. extra.

CULTURAL NOTES

Plant September to December, in rows three or four feet apart, and one foot in the rows. Sweet Corn will succeed in any moderately rich garden soil. It should be hoed and tilled when about a foot high.

A delicious vegetable. The cobs should be cooked when they are quite soft and tender like green peas.

ANDERSON'S TABLE QUEEN—A superb variety; large cobs, and white grains of extra quality.

METROPOLITAN—Ears 9in. long; exceedingly white in color during their eatable condition.

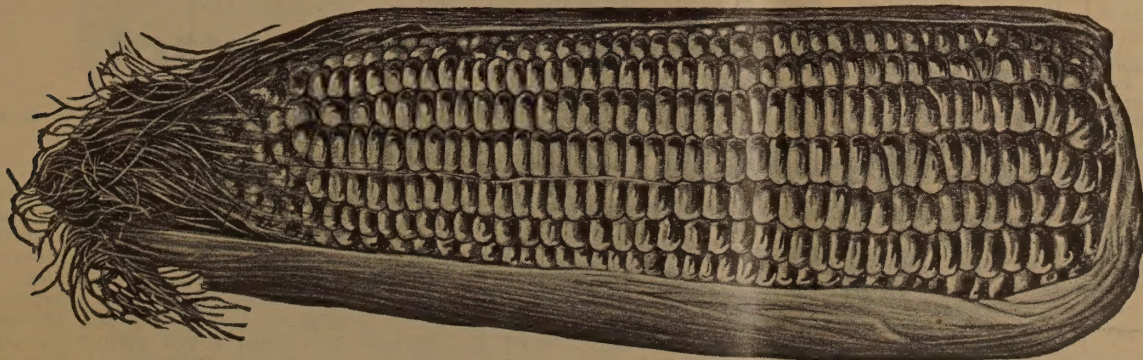

GOLDEN BANTAM—A yellow-seeded variety; very early; dwarf, hardy and prolific.

Some other good kinds:—Early Cory, Crosby's Early, Country Gentleman, Stowell's Evergreen, Early Minnesota.

CULINARY HINTS

Boiled in the Cob.—Corn should be used as quickly as possible after it is gathered, and this should be when the cobs are soft. Before cooking, remove the husks and every thread of silk, place the cobs into a pot of boiling water, boil five minutes. Serve immediately, wrapped in a cloth on a dish, or like Asparagus.

Roasted.—Husk the corn and remove the silk. Brush each cob with melted butter, and dust with salt and pepper, line a cooking dish with paper; place the cobs in it, and put in a very quick oven 10 or 15 minutes to brown.

SWEET CORN

Pop Corn

6d. per packet; postage 3d. extra.
1/6 per lb.; postage 6d. extra.

CULTURAL NOTES

Same as Sweet Corn. Allow the cobs to ripen thoroughly, and then roast the grains in a close iron vessel until they "pop," shaking the vessel meantime. The corn is then taken out and slightly dusted with powdered sugar. It forms a delicious sweet.

Cress

6d. per packet. Price per lb., see page 14

CULTURAL NOTES

CURLED CRESS.—Sow thickly every two or three weeks with or without a dash of mustard seed. In Summer months shade is necessary to produce a crisp and tender growth. Can be grown in any rich soil, in shaded beds or boxes; must have plenty of moisture.

WATER CRESS.—Raise from seed sown in a situation where it can be flooded or freely watered. If planted on banks of gently-flowing shallow streams, or ponds, it will soon spread and afford a continuous supply.

TRIPLE CURLED—Often grown with Mustard, making excellent salad.

WATER CRESS—Sow in moist land, or on a creek bank. 2/- per oz.

AMERICAN OR LAND CRESS—Used as a Water Cress during Winter. 1/- per oz.

Market Gardeners

See page 14 for Special Market Garden Prices.

Each year sees an increase in the amount of business transacted with Market Gardeners.

Rock Melons

Per oz., 1/6; per packet, 6d. Price per lb., see page 14

CULTURAL NOTES

The culture of the Rock Melon is somewhat like that of the Cucumber. Sow out of doors in September and October. The hills need not be so wide as for Water Melons, nor should the soil be so highly manured. Water during dry weather to bring on the young plants and bearing vines. When the fruit begins to show signs of ripening, a frame of calico or canvas covering should be provided to prevent any external moisture injuring the fruit, otherwise the most delicious varieties will prove insipid, watery and worthless. But do not leave more than two of the strongest plants on each hill, and do not thin them out until they begin to run.

BALTIMORE—Fine variety; excellent flavour; green flesh; large.

BANANA—Distinct variety, bearing long, slender, banana-like fruit; skin creamy white, and entirely free from netting; flesh deep salmon color and of good quality.

BAY VIEW—Fine large fruit, yellow flesh.

EARLY HACKENSACK—Early; delicious; thickly netted green skin, deeply ribbed; green flesh.

EMERALD GEM—Delicious, early and prolific; a smooth ribbed skin emerald green; flesh salmon color.

FORDHOOK—Heavily netted and nicely ribbed; golden red flesh of exquisite flavour; prolific yielder.

IMPROVED JENNY LIND—Large and fine quality, rich and highly flavoured; an excellent keeper, bears freely.

NUTMEG—Medium-sized Melon, delicious flavour; great favourite.

PAUL ROSE—Light green skin; flesh salmon; richly flavoured; moderately sized fruit.

SPICY CANTALOUPE—Very distinct in flavour and appearance; cream colored rind; flesh deep rich salmon; 8 to 10 inches in length.

ROCK MELON: IRONDEQUOIT

IRONDEQUOIT—A very fine variety, suitable either for commercial purposes or private gardens; fruit medium, delicious flavour; flesh yellow when ripe.

MILLER'S CREAM—Nearly round, with dark green skin; thick, firm, fine, orange-colored flesh.

NETTED GEM OR ROCKY FORD—Light green flesh; melting and sweet; a hardy variety.

Water Melons

Per oz., 1/-; per packet, 6d.

For prices per lb., see page 14.

CULTURAL NOTES

Sandy loam is the most suitable, but in fair seasons they do well in any good garden soil. Sow five or six seeds in prepared hills 5 or 6 feet apart each way, eventually leaving two of the best plants in each hill. The best time for sowing is September and October.

COLE'S EARLY—Of good quality; very early; has bright red flesh, delicate flavour, and very prolific.

CUBAN QUEEN—A very large, bright crimson-fleshed Melon, of superior quality and delicious flavour.

FLORIDA FAVOURITE—Large oblong fruit; delicious flavour.

GOLDEN SWEET—The rind is dark green and the flesh of a bright golden yellow or champagne color. A luscious sugary flavour. The Melons average about 20lb. weight.

HALBERT HONEY—Rich and tender when ripe, 18 to 20 inches in length; flesh rich, crimson-like color; deep green rind.

ICE CREAM—White seeded, excellent, with a delightful green skin; mottled; flesh deep pink.

IRISH GRAY—The flesh is a beautiful red color, the skin a light green. Travels well.

KOLB'S GEM—Light green skin, nearly round in shape; 30 to 50lb. in weight; flesh bright red; rich and sweet.

KLECKLEY SWEETS—Rich bright scarlet flesh, crisp, sugary, and melting; free from stringiness; ripens close to the skin. Fruit is 18 to 20 inches long, with dark green skin.

MAMMOTH IRONCLAD—Beautiful Melon, oblong, with mottled green skin; an average weight of 50lb.; crisp, delicious flesh.

MEIVER SUGAR—Fruit often 2 feet in length; skin shows bands of white shading into green. Superior quality. Flesh pale pink, crisp and luscious.

SUGAR STICK—Large, light green; oblong in form, measuring 20 to 24 inches long; luscious, bright red, crisp flesh.

THE DIXIE—Very early variety; flesh bright red, skin dark green, beautifully striped; fruit oblong.

TOM WATSON—Bright pink flesh, small white seed, dark green skin.

Preserving Melons

Per oz., 9d.; per packet, 6d.

CITRON—A round variety, with red seeds.

LONG GREEN—Excellent for jam making.

FROSTED OR SNOW—A small fruited variety, round in shape; very choice.

Mango Melon or Vegetable Peach

Per packet, 6d.

A very productive little Melon; fruit about the size of an orange, and of delicate flavour when baked or boiled like vegetable marrow.

Cassaba Melons

Per packet, 6d.

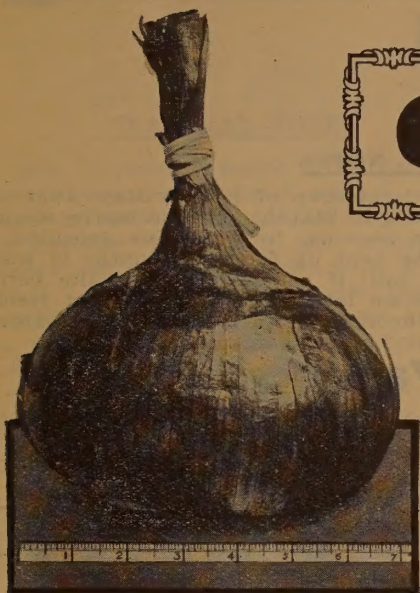

CULTURE—Same as Rock Melon.

This Melon can be classed as a Rock Melon, but the fruit is somewhat distinct in appearance.

GOLDEN BEAUTY—Bright yellow with wrinkled skin; flesh white.

PINEAPPLE—Late ripening; very solid, heavy; deep green; white flesh.

HONEYDEW—Smooth skin; flesh light green; skin nearly white; creamy yellow when ripe.

ONION: ODOURLESS

CULTURAL NOTES

For ordinary garden culture and to produce large bulbs, sow in rich, well-prepared soil, in the months of March or April, transplanting during the following July or August into drills two feet apart and ten inches in the drill. The young plants should be carefully raised from the beds, so that the fibrous roots may not be injured. The rows where the young Onions are to be planted should have the soil raised in small ridges about three or four inches above the rest of the bed. After the plants have taken firm hold of the ground, the ridges should be drawn away from the plants so as to leave the whole of the bulb exposed to the air, nothing but the fibrous roots left underground. This rule is very generally neglected, the consequence being thick-necked and imperfect, bad-keeping bulbs. For field Culture of Onions, see Page 32.

- | | | |

Okra

**IMPROVED DWARF.
LONG GREEN.**

Per packet, 6d.

CULTURAL NOTES

This vegetable is not much grown here, but in India and America it is in general use for thickening soups and stews. Sow in September, October, and November successively. Any good garden soil will suit. The plants should be 2 feet apart. The pods are used while green and tender. Also utilised as pickles.

TOMATO: ANDERSON'S "REPEATER"

THREE GOOD TOMATOES

ANDERSON'S "REPEATER"—A splendid early variety, very prolific bearer; medium sized fruit; has proved itself worthy of its name.

MARGLOBE—An outstanding new variety. Will withstand unfavourable weather and is claimed to be wilt resistant. Fruit is large, well-rounded, scarlet-red. Second early.

SUNNYBROOK EARLIANA—An extra early Tomato of choice quality. The plants bear prolifically. The fruit fleshy and of excellent flavour, bright scarlet.

BURWOOD PRIZE—One of the best market garden varieties; good yielder.

BONNIE BEST—A selection from Chalk's Early Jewel; solid red fruit, in clusters of three to five; flattened and smooth.

CHALK'S EARLY JEWEL—Large, extra early, heavy cropper; very robust and compact grower; uniform size; fruit bright scarlet; fine flavour.

COOPER'S CLUSTER—Produces large clusters of fairly large fruit; vigorous grower; blight resistant.

CRIMSON CUSHION—Large; flesh very solid and of superb flavour
DUKE OF YORK—Rich scarlet, smooth, round in shape, flesh very firm, fine flavour; ripens uniformly; fruit in clusters of sometimes eight and ten.

DWARF CHAMPION—Beautiful red; medium size, solid, prolific, excellent; self-supporting. On strong, upright stems.

DWARF GOLDEN CHAMPION—Similar in growth to the red.

DWARF GIANT—Color a rich purple crimson; skin thin, but strong, protects the fruit in travelling; flavour delicious, growth bush-like.

GOLDEN TROPHY—Golden color, medium sized; delicate flavour.

KING HUMBERT—A nice red Tomato, resembling a huge oblong Plum.

LANDRETH'S EARLIEST—Extra early variety, producing large red fruit.

LIVINGSTONE'S CORELESS—Fine flavoured variety; good solid fruit; suitable for market purposes.

MATCHLESS—Very large, of brightest cardinal red; flesh nearly solid; entirely without core; not liable to crack.

MIKADO—Fruit purplish red, of large size, produced in clusters.

PONDEROSA—A splendid red variety of immense size; solid, fine, strongly-flavoured fruits, smooth; a great bearer.

PONDEROSA (Golden)—Large yellow-fruited variety; highly esteemed.

SPARK'S EARLIANA—This exceedingly early Tomato has a large fruit of bright red color, and is very solid.

SAN JOSE CANNER—Large, smooth fruit, solid, and fine scarlet color; compact grower.

STONE—Superior red Tomato; uniform size; large, handsome; fruit in clusters, smooth, solid, fine grained; splendid.

WALKER'S RECRUIT—Produces large bunches of medium-sized red fruit of disease-resisting variety.

We also supply the following well-known sorts—

YELLOW CHERRY, PEAR-SHAPED, RED CHERRY

Tomato

CULTURAL NOTES

Sow under glass in July and outside during September, October and November, plant out as soon as ready into good strong rich soil. Plenty of room and manure is all that is necessary to produce this favourite fruit-vegetable in abundance. We consider by far the best way to grow them is to plant in rows four feet apart each way, and grow them on stakes or a trellis five feet high regularly pinching back all the laterals to the second joint, until the plants have reached the top of the stakes; top the main stem and continue to pinch back the laterals, and so remove all useless growth until the trellis or stakes are covered with fruit from top to bottom. Mulch plants well, and spray to keep down the caterpillars, and to control fungus diseases.

Squash

6d. per packet; 1/- per oz.

CULTURAL NOTES

Sow in August, September, October and November successively. Prepare the beds as for Pumpkins, including the manure and top dressing. The seeds, however, should be planted about 2 feet, and the rows about 4 feet apart for the bush kinds; running kinds at the same distance as Pumpkins. Squashes should be gathered for use while the faded bloom still adheres to the fruit. They should always be boiled whole, and be well drained before being placed on the table.

EARLY WHITE CUSTARD—Wonderful bearer, delicate flavour, compact growth.

EARLY GOLDEN BUSH—All the good qualities of the former, but yellow skin.

FORDHOOK—Flesh dry and sweet; will keep if well ripened; rind yellow; flesh straw color; delightful flavour.

DELICATA—One of the earliest of the running varieties, and very prolific; fruit small and solid, dry and rich.

MONITOR—The vines are rambling, fruit long, skin a dark grey—the shape resembles a large cucumber—and when grown under favourable soil conditions is about 2 feet in length. The flesh is orange in color, and when baked it is delicious. Flesh dry and cooks beautifully.

CROOKNECK (Bush).

IMPROVED HUBBARD—One of the most reliable; very hard, green skin.

GOLDEN HUBBARD—Yellow skin.

BOSTON MARROW (Runner).

All good serviceable varieties for table use.

Vegetable Marrow

6d. per packet; 1/- per oz.

ANDERSON'S SELECT LONG EARLY WHITE—Abundant bearer, large fruited, running variety.

LONG-FRUITED BUSH (White)—Excellent quality and flavour, prolific, very early; plants do not run.

LONG-FRUITED BUSH (Green)—of equal merit to white fruiting variety.

CUSTARD SHAPED—A bushy, compact grower; good flavour.

MOORE'S VEGETABLE CREAM—A selected variety, productive; fruit of medium size.

CULTURE—Cultivated and used in the same way as recommended for Squash.

As a convenience to our customers we select those varieties of Vegetables best suited to their particular districts. This service is a great saving of time and worry.

Every season an increasing number of customers from all parts of Australasia avail themselves of our well-known Collections.

Customers are asked to give **FULL NAME AND ADDRESS, AND POST TOWN.**

Should there be any variety of Vegetable Seed in either of these collections which the purchaser would wish to be omitted, please advise, and we will gladly make any alteration asked, except the sending of Peas or Beans for other items.

In order to secure the advantage of these collections being sent **POST OR CARRIAGE FREE**, it is necessary that **CASH MUST ACCOMPANY ORDER** and 6d. exchange must be added to all Country Cheques.

Delivered to any Postal Address in Australia, New Zealand and Fiji at prices named.

Culinary Plants, Roots and Bulbs

NOTE:—The Prices quoted below do not include Postage.

ASPARAGUS ROOTS

(For Culture see Page 1)

Can be supplied during June, July and August.

Colossal } 10/-
Perfection } per 100
Erfurt, Giant }

ESCHALOTS

1/6 per lb.

Used like Spring Onions in Salad, and sometimes for flavouring. The cloves must be divided and planted separately. Fresh manure should be avoided.

GLOBE ARTICHOKE

Can be supplied any time during the year. **Green and Purple.** Plants, 6/- per dozen.

JERUSALEM ARTICHOKE

Price 3d. per lb.

Special Prices for Large Quantities.

Can be supplied June, July, and August.

HORSERADISH

Can be supplied any time during year.

Roots or Crown . . . 3/6 per dozen

GARLIC

Price, 1/- per lb.

This bulb, which belongs to the Onion family, is used for flavouring soups, stews, etc.

CHOKOS

Price, 4d. each; postage, 6d. extra.

Can be supplied May to July. These are the best months to plant.

RHUBARB ROOTS

Can be supplied from May to end of October. Each. Doz.

Tops Crimson Winter . . . 9d. 7/6

Victorian Giant 9d. 7/6

Sydney Market Variety . . 6d. 4/-

Sydney Crimson Variety . . 6d. 4/-

SEAKALE

6/- per doz.

Can be supplied any time during the Winter months. Plants two years old.

TREE OR TOP ONIONS

Price, 1/6 per lb. Postage extra.

Plant the sets or tops during the Autumn and Winter months; these will produce large bulbs at the base the first season. The large bulbs when planted produce the tops, which make excellent salad flavouring and pickle well.

POTATO ONIONS

1/- per lb.

Plant during Autumn; they yield good crops when Onions cannot be raised from seed, and come in at a time when Onions are scarce. The bulbs are produced like potatoes.

SWEET POTATO CUTTINGS

Price, 1/- per doz.; 7/- per 100
We can supply from Nov. to Jan.

HERBS

Strong Plants of the following can be supplied all the year round:—

Sage 6d. each

Thyme 6d. each

Marjoram 6d. each

Mint Roots, 4d. and 6d. per bundle

Anderson's Clean Bird Seeds

All Bird Seed sold by us is machine-dressed at our Warehouse. By being so treated it is assured that your birds will get only clean wholesome seeds. This is an important factor, and will go a long way toward keeping your birds in good health. We are specially noted for our Song Bird Mixture and Parrot Food.

Prices to Market Gardeners

TERMS AND CONDITIONS OF SALE

We believe that all Seeds, Bulbs and Roots sold by us are of the description and kind specified by us at the time of sale, but owing to the practical impossibility in many cases of being certain of this, we give no undertaking that such Seeds, Bulbs or Roots will correspond with the description under which they are sold, and we make all sales subject to this condition, and to the standard of growth and purity, as required by the New South Wales Seed Act, 1921—but we will not be in any way responsible for the crop. If the purchaser does not accept the goods sold to him on these terms, they are at once to be returned to us.

NET PRICES, POST FREE, except where otherwise mentioned.

Orders for half-pounds are supplied at POUND RATES.

The prices are subject to fluctuation, but we will always do our best to adhere to them throughout the season.

FLOWER SEED SECTION

Antirrhinum or Snapdragon

This superb biennial has become quite a prominent gardening feature. It has always been highly esteemed as a bedding plant and borderer; but the beautiful range of colours now available has added considerably to its value for massing. We have included in our list a selection of choice colours that have been well tried. Autumn is the best time to sow—Spring sowing in cold districts.

New Grandiflorum

DWARF VARIETIES

12 Distinct Colors, 3/6
All Post Free.

ASTER: LATE AMERICAN BEAUTY

Aster, Rochester Type

This type of Aster has a wonderful reputation in America, and has become familiar to growers in New South Wales. The plants bloom early, and the flowers are very large and produced abundantly, and are very double. The long narrow petals fall over one another in a charming cascade of colour and cannot be equalled for richness of effect.

White Purple Lavender Pink
Lavender Scarlet Rose
Shell Pink Crimson Cerise

Each variety, 1/- pkt.; 6 pkts. for 5/-; 9 pkts. for 7/-; Mixed Seed, 1/- and 2/6 per packet.

Aster, "Late American Beauty"

Tall branching type, very large flowers, magnificent late blooming sort. Flowers borne on long stems, incurved petals—freely produced; grows 2½ to 3 feet in height.

Azure Fairy Peach Blossom Lavender
Crimson Carmine Rose White
Purple Dark Violet Rose

September Beauty (Shell Pink).
Each variety, 1/- pkt.; 6 pkts. for 5/-; 10 varieties for 7/6; Mixed Seed, 1/- and 2/6 pkt.

Aster, Giant Crego

An American strain of Branching Aster, producing very large flowers—

Pink Lavender White
Purple Rose Deep Rose
Azure Blue Crimson Lavender Pink
Striped (Mixed).

Each variety, 6d. pkt.; 6 pkts. for 2/6; 9 pkts. for 3/9; Mixed Seed, 6d. and 1/- per pkt.

Aster Californian Giant

A late giant flowering type, similar in some respects to Late American Beauty Aster.

Light Blue, Rose, Purple, White, Pink
1/- per pkt.; 5 pkts. for 4/-;
Mixed Seed, 1/- and 2/6 pkt.

Aster, King Needle Type

As the name implies, the petals of the flowers are of a fine needle-like appearance, which gives a soft effect to the blooms. Owing to the very narrow petals this class withstands wet weather.

Blackish Blue Violet
Deep Flesh Peach Pink
Crimson White
Rose Shell Pink

Each color 1/- per pkt.; 6 pkts. for 5/-; 8 pkts. for 6/6; Mixed Seed, 1/- and 2/6 per packet.

ASTERS: Tasmanian Saved

Giant Branching Type.

Many gardeners prefer the Tasmanian Branching Type of Aster. We offer the following range of colours of Tasmanian-saved seed:—

Pink Crimson
White Light Blue
Flesh-coloured Dark Blue
Red Mixed

6d. per pkt., or any 6 for 2/6

Miscellaneous Asters

3d. per pkt., or any 5 for 1/-

82 Crown—Various colours; white centre.

89 Globe Flowered—Various colours, showy.

92 Mignon—Mixed colours; light blue, lilac rose.

97 Quilled Mixed—Striking colours.

98 Single Marguerite—Valuable for cutting.

103 Semple's Branching—Late flowering, tall growing; double, mixed colours.

108 Invincible—Branching, mixed; large flowers. A particularly fine strain; free flowering.

ASTERS

CULTURAL NOTES

A charming family of half-hardy annuals, producing profusion of bloom in trusses of six or eight fine heads of beautiful colors, 3 to 4 inches across.

The popularity of the Aster is universal. These beautiful garden lovers' favourites are easily grown, and they respond royally to the reasonable amount of care they require. Good results should be obtained by following the brief notes given here.

The main essential is the right soil conditions. Light, sandy loam, not over-manured suits them best. Asters will not do well in heavy soils. Also soil that becomes intensely hot during the Summer months is unsuitable. During the hot months a good plan is to mulch the plants with lawn grass cuttings. This has the effect of retaining moisture and keeping the soil cool. Commonsense must be exercised in watering. Though liberal watering is needed, care must be taken not to water too much.

Seeds must be sown in August in a frame, preferably in seed boxes, and planted out towards the end of September. Outdoor sowing is not advisable until the frosts are over, as the seedlings are very tender. When planted in their permanent flowering quarters, protection is recommended from late frosts. Also guard against the heat of the sun, otherwise you will find your young plants scorched up.

When the seedlings are established, it is advisable to give a mulching of well-decayed cow or stable manure.

We recommend the following types for general effect and usefulness as cut flowers:—Rochester, Giant Crego and "Late American Beauty."

Aster, "American Comet Giant"

An immensely popular class of Asters. Flowers large and double, produced freely on vigorous branching plants.

White Shell Pink
Rose Purple
Pink Lavender

Each variety, 1/- per pkt.; 5 pkts. for 4/6, post free.
Mixed Seed, 1/- and 2/6 per packet.

Asters of Merit

Varieties of Recent Introduction.

Aster, "Heart of France"

The best pure red Aster. Flower opens red, and deepens with age. The flowers full, and the plants of branching type. Price, 1/- per packet.

Aster, "Cattleya"

This new introduction is of the Giant Crego Type. Color, a beautiful pale Rosy Lilac. Price, 1/- per pkt.

Aster, "Silvery Rose"

A robust, long-stemmed, large-flowering variety. Every petal is a combination of deep lilac rose, almost cerise, very delicately threaded with white. Vigorous grower. Price, 1/- per packet.

The "Monitor" or Satin Aster

A wonderful range of colors in this mixture. Of branching habit, beautiful large flowers, crested, frilled and twisted satin-like petals. Price, 1/- per packet.

PANSY: ANDERSON'S "SPECIAL EXHIBITION"

PANSIES

THESE beautiful flowers are favourites with all; they are so easily grown, and bloom for so many months, that they find a place in nearly every garden. Our Pansies have carried off prizes offered by a great many Horticultural Societies, and we have received a large number of testimonials as to their excellence. Should be sown in boxes or in the canvas frame in Autumn and transplanted to the flower garden. They love rich sandy soil, and old cow manure is the best fertiliser. Liquid manure during blooming season will greatly assist the size of the flowers. Sow early in February.

- 838 **Anderson's Jewel.** Charming strain, robust growth. Flowers large, curled, margined and blotched; magnificent colours and shades. 1/6 per packet.
- 839 **Anderson's Large French Stained.** The finest strain grown; colours are most beautiful, and include the grand shades of mahogany, crimson, yellow and blue. Fine form, markings and substance. 6d. and 1/- per packet.
- 840 **Bugnot's Exhibition.** A superb strain; flowers of fine substance; new colourings and markings. 1/6 per packet.
- 842 **Couquette de Poissy.** Beautiful mauve colour, very effective. 6d. per packet.
- 843 **Lord Beaconsfield (Giant).** Deep purple violet, shaded white on upper petals. 6d. packet.
- 844 **Masterpiece.** Petals cured on margins; most attractive shades of colour; fine shape, and large. 1/- and 1/6 per packet.
- 845 **Non Plus Ultra.** Very attractive, vigorous plants; flowers of every shade of rich colour. 6d. per packet.
- 846 **Odier's Choicest Strain.** Finely marked. 6d. per packet.
- 847 **Orchid Flowered.** Flowers of loveliest colours and shades. 6d. per packet.
- 848 **Peacock.** Flowers of the most beautiful shades of blue and violet. 6d. per packet.
- 851 **Striped.** Distinct class containing many new and varied markings; good colours and large, well-shaped blooms. 6d. per packet.
- 852 **Trimardeau Giant.** Fine race of Pansies; very vigorous, compact habit; flowers rich, large. 6d. per packet.
- 854 **First-class Assorted.** Splendid large flowers; great variety of colours. 3d. per packet.
- 855 **Mammoth.** A magnificent strain, showing some very attractive features; robust and hardy. 1/- per packet.
- 859 **Eros.** Deep velvety brown, with broad yellow margin. 6d. per packet.
- 860 **Splendour.** Large blooms, with unique colourings, with very distinct appearance. 1/- per packet.

Anderson's Special Pansies

Anderson's "Gold Medal"

A really superb strain that excels any other selection offered by us. The colours are very rich and the blotches and eyes clearly defined.

5/- per packet.

"Bath's Empress"

One of the best English strains of Pansy; essentially a show variety. The glorious colours and markings exhibited in the flowers are exquisite, and the quality of the blooms is of the very richest.

2/6 per packet.

Anderson's "Special Exhibition"

A mixture of the finest and most distinct types of Show Strains in cultivation.

2/6 per packet.

Viola or Tufted Pansy

871 **New Hybrids.** Finest new Hybrid varieties. Most adapted for bedding purposes. 6d. per packet.

871a **Cornuta—"Blue Gem" (Jersey Gem).** Flowers are a pleasing shade of deep violet blue. Price, per packet, 1/-.

Violas for Bedding

6d. per packet each variety; 6 packets 2/6; 8 packets 3/9

These make most attractive features for bedding in masses or for bordering. They are hardy, and if well looked after continue in flower for a long period. Sow in Autumn for best results.

Admiration—Dark blue.
Blue Perfection—Blue.
Firmament—Light blue.
Lutea—Yellow.
Mauve Queen—Mauve.

Papilio—Blue, white blotch.
Purple King—Purple.
White Perfection—White.

Bedding Pansies

6d. per pkt.; 6 pkts, 2/6; 12 pkts, 5/-

- 865 **Yellow**, with black eye.
- 866 **Golden Yellow.**
- 868 **White**, with black eye.
- 869 **Snowflake**, White.
- 870 **Faust, or King of Blacks.** Darkest.
- 872 **Mercury.** Velvety purple.
- 873 **Indigo Blue.** Very effective.
- 874 **Bronze.** Unique.
- 875 **Adonis.** Light sky blue.
- 876 **Orange.** Quite distinct.
- 877 **Pure Dark Violet.** Rich.
- 878 **Violet**, with white eye.

Pansy Collections

- 6 Distinct Colours. Choice 2/-
- 12 Distinct Colours. Choice 3/9
- 18 Distinct Colours. Choice 5/-

Anderson's "Sunshine Collection"

This is a collection of nine excellent varieties, which will yield a grand display of floral splendour.

Universal favourites easily cultivated; very free bloomers. The seed should be sown in boxes or frames in Autumn, and transplanted. Rich sandy soil is most suitable.

Anderson's Supreme Stocks

IN the cool of the evening, the scent of Anderson's Stocks is delightful. A quiet rest in the home garden where these delightful flowers are growing affords an ideal form of relaxation after a tiring day. Stocks like a good, rich soil, and will succeed well if the season is favourable. Splendid flower spikes are produced by the Intermediate, Brompton and Nice varieties. Seed should be sown during the Autumn and Spring. Stocks are liable to attacks of aphids, but one or two applications of Nicotine or Tobacco Extract will easily eradicate the pests.

Ten-Week Stock

- 1100 Large Flowered Dwarf. Very showy, large flowers; colors. 3d. and 6d. per packet.
- 1101 Giant Perfection. Beautiful double spikes. One of the best strains. 6d. per packet.
- 1102 Victoria Bouquet. Beautiful strain; double flowers. 6d. per packet.
- 1104 Princess May. Pyramidal ten-week variety; beautiful primrose color. 6d. pkt.
- 1105 Perpetual Flowering. Hardy, constant bloomer; various colors. 6d. per packet.
- 1107 Princess Alice. Pure white. 6d. packet.
- 1108 Wallflower Leaved. Choice mixed. 6d. pkt.
- 1112 Ten-week Mixed. Anderson's Special Strain. 1/- per packet.

Intermediate and Brompton Stocks

Per packet, 6d.

- 1114 East Lothian White. Very fine, pure white.
- 1115 Brompton Scarlet. Very showy and distinct.
- 1117 Brompton. Mixed.

1116 Brompton White. Fine spikes of clear pure white.

1118 Intermediate. Finest mixed.

1119 Empress Elizabeth. Large, rose-shaped flowers; lovely dark red; early; large percentage double.

1120 "White Lady." Produces strikingly large double flowers of a lustrous snowy white; grows about 20 inches; handsome foliage.

WONDERFUL COLORING

I had a wonderful display of blooms from my Stock seeds I got from you last season—the "Nice" and "Ten Week" varieties. They were nearly all double, and such wonderful coloring—8 different shades.

MISS M—M—,
Redmarley Station,
via Miles,
Western line, Queensland.

"Nice" Stocks

Per packet, 6d.

The suitability of this particular strain of Stocks has been extensively proved under all circumstances. Their floriferousness and large proportion of double flowers make them most popular. Best treated as annuals.

- 11201 Abundance. Fine shade of carmine rose; sturdy branching habit.
- 11202 Salmon Queen. Early flowering; salmon pink shade.
- 11211 Beauty of Nice. Large fragrant flowers; delicate shade, flesh pink.
- 11212 Bianca. White, very large and early.
- 11221 Queen Alexandra. Delicate rosy purple.
- 11231 Crimson King. Large flowered.
- 11241 Almond Blossom. Delicate shade.
- 11242 Soleil de Nice. Sulphur yellow.
- 11243 Pride of Kellar. Beautiful dark purple.
- 11244 Violet de Parme. Blue mauve, sturdy habit.
- 11245 Belle de Naples. Old rose colour.
- 11246 Cote d'Azur. Distinct, light purplish-blue.
- 11250 Aurora. Orange.

Collection of 13 Varieties of Nice Stocks for 5/-.

New "Nice" Stocks

- 11247 Lloyd George. Deep red. 1/- per packet.
- 11248 Woodrow Wilson. Slatey blue. 1/- per packet.
- 11249 King Alphonse XIII. Yellow. 1/- per packet.
- 11252 Beauty of Cannes. Garnet brown. 1/- per packet.
- 11253 Fireglow. Bright red. 1/- per packet.
- 11255 Sunset. Brick red. 1/- per packet.
- 11256 Heatham Beauty. Rose-shaded Terra-Cotta. 1/- packet.

One Packet of any Six of the above New Varieties for 5/-

- 11251 Mixed. ANDERSON'S SPECIAL MIXTURE. Contains a mixture of all the "Nice" varieties. 1/- and 2/6 pkt.

ZINNIA: GIANT MAMMOTH

Giant Mammoth

The Giant Mammoth Zinnia presents a very pleasing appearance; it possesses smaller centres and more loosely placed petals than the old Giant type. The petals are imbricated, and the flower assumes a succession of graceful shapes from bud to bloom. The following eight varieties are offered by us for the first time, and should merit the attention of all gardening enthusiasts.

Cerise Queen—Color, cerise rose.
Enchantress—Rose.
Lemon Queen—Lemon orange.
Miss Wilmott—Soft pink.

Orange King—Brilliant orange.
Orange Queen—Golden yellow.
Rose Queen—Bright rose.
Scarlet Gem—Glowing scarlet.

Price, per packet, 1/-
Four for 3/6, or the set of eight for 7/-
Grand Mixture of above, 1/- and 2/6 per packet.

ZINNIAS

Zinnias make a wonderful color display during the Summer months. Their bright flower heads, borne on tall stems, give a touch of richness to the home garden. Seed should be sown in Spring and Summer for succession. The tall varieties range from two-and-a-half to three feet.

GIANT

Dahlia - Flowered

Great success everywhere. Zinnias thrive well in Australia, and the Dahlia-flowered type has been most popular since we first offered it to the public. Seed offered in 15 distinct colors—

Exquisite —Rose.	Oriole —Orange and gold
Golden State —Orange.	Dream —Lavender.
Illuminator —Deep Rose.	Polar Bear —White.
Crimson Monarch —Crimson.	Buttercup —Creamy yellow.
Attraction —Brick Red.	Canary Bird —Primrose.
Scarlet Flame —Scarlet.	Lemon Beauty —Lemon on Brown.
Meteor —Glowing Red	Purple Prince .
Old Rose .	

Each variety, 9d. per pkt.; 6 pkts. for 4/3; 12 pkts. for 8/3, or the full collection of 15 sorts for 11/-.
Mixed Seed 1/- and 2/6 per pkt.

GRANDIFLORA

Robusta Plenissima

This type of Zinnia has become a wonderful favourite with gardeners.

Crimson.	Flesh Colour.
Cardinal Red.	Scarlet.
Sulphur Yellow.	Apricot Buff.
Purple.	Deep Rose.
White.	Salmon.
Golden Yellow.	Burnt Orange.

Each variety, 6d. per pkt.; 3 pkts. for 1/6; 6 for 2/9; 8 for 3/6; 12 for 5/-. Mixed Seed, 6d. and 1/- pkt.

PICOTEE

Double Giant

A very fine strain of this hardy Summer annual. The color is remarkably clear, each petal being distinctly tipped with well-defined markings. Sow Spring and Summer. Price, 1/- per packet.

LILLIPUT (Double)

This charming class of Zinnia produces small double flowers, and the plants are compact in growth and very suitable for bordering.

Scarlet Gem.	Golden Gem.
Canary.	Dark Crimson.
Salmon Rose.	White Gem.

Separate Colors, 6d. per pkt. Mixed Seed, 6d. pkt.
Six packets for 2/6, post free.

1174 Grandiflora Plenissima. A beautiful Zinnia of immense size and robust growth; various brilliant colors; the flowers are very fine, sometimes six inches across; colors intense.

1175 Grandiflora Queen Victoria. Double white.

1176 Elegans Curled and Crested. Unique and charming type, flowers being beautifully twisted and curled, giving a most attractive appearance.

1177 Elegans Double Striped or Zebra. Flowers distinctly striped; 18 inches.

1179 Elegans Tom Thumb Double. Various brilliant colors; very dwarf; only six inches.

1180 Elegans Lilliput fl. pl. Mixed. A charming, very small, flowering class of double Zinnias, suitable for front borders; flowers adaptable for bouquets. 6d. per packet.

ABRONIA

6d. per pkt.

- 1 *Umbellata*. Rosy-lilac, fragrant. Trailing plants, suitable for rockery; waxy Verbena-like flowers, scented; hardy annual. Sow in Spring and Autumn. 8 inches.

ACROCLINIUM

3d. per pkt.

Beautiful everlasting; can be dried for winter bouquets; hardy annual. Sow Autumn or Spring. 12 inches.

- 5 *Album*, Single. Graceful, white, yellow centre.
6 *Roseum*, Single. Rose dark eye.
7 *Roseum*, Double. Pretty bright rose, with yellow centre.

ADONIS

6d. per pkt.

- 10 *Vernalis*. Perennial; star-shaped yellow flowers.
11 *Aestivalis* (*Flos Adonis*). Annual. Crimson scarlet. Free flowering; feathery foliage; very showy. Sow in Spring. 12 inches.

AGERATUM

6d. per pkt.

- 12 *Ageratum*. Imperial dwarf blue.

ALYSSUM

6d. and 3d. per pkt.

- 16 *Carpet of Snow*. Very dwarf, 2 to 3 inches; pure white.
17 *Maritimum* (*Sweet Alyssum*). Hardy annual; small truss of white flowers in great profusion; cutting down after flowering promotes new growth.
18 *Maritimum Compactum* (*Little Gem*). Very dwarf, erect variety.
19 *Saxatile*. Dwarf, showy, hardy perennial; yellow flowers; leaves hoary margined. Sow Autumn or Spring.

AMARANTHUS

3d. per pkt.

Magnificent foliage plants, with gorgeous leaves of crimson and gold, green and yellow; colours deeper in the Autumn. They are beautiful border plants, requiring plenty of room, good soil, and a warm position. *Salicifolius* is perhaps the best—a most lovely variety—but *Tricolour* is also a gem. Both are grown for their beautiful coloured leaves. They are hardy annuals. Sow during September, October, November, December.

- 22 *Salicifolius* (*Fountain Plant*). Crimson and yellow plume. 4 to 5 feet.
23 *Tricolour* (*Joseph's Coat*). Leaves red, yellow and green. 3 to 5 feet.
24 *Henderii*. Leaves carmine, orange yellow and green. 4 feet.
25 *Firebrand*. Large leaves, deep blood-red, bright yellow edges. 6 feet.
27 *Caudatus* (*Love-lies-bleeding*). Racemes of drooping purplish crimson flowers. 3 feet.
28 *Amaranthus*. *Tricolor Aurora*. 6d. pkt. This variety is quite distinct from the other "Amaranthus," and is not a foliage plant.
29 *Choice Mixed*. A selection of the best varieties. 1/- per packet.

ANAGALLIS

Pimpernel

6d. per pkt.

A pretty family of dwarf-growing annuals, constant bloomers, and very compact habit; prefer rich soil. Sow in Autumn or Spring.
35 *Grandiflora*. Choice mixed.

ANCHUSA

6d. per pkt.

A free flowering, hardy perennial; excellent for bouquet; like a strong-growing *Forget-me-not*. Sow in Autumn and Spring.
41 *Capensis*. Bright azure blue.

ANEMONES

ANEMONE

6d. per pkt.

Tuberous-rooted plant, easily produced from seed; magnificent colours; blooms early in Spring, when flowers are scarce. Requires good, rich, well-drained light soil. *Japonica* is a hardy perennial. Sow early in Autumn.

- 45 *Japonica*. Very pretty; flowers all Summer; purplish-red. 24 inches.
46 *Coronaria*. Mixed; various colors. 12in.
47 *St. Brigid*. The Irish Poppy-flowered Anemone. Large, single and semi-double flowers of an endless variety of color. See Bulb List for Tubers of Anemones.

ANGELONIA

6d. per pkt.

A handsome, upright-growing plant, producing numerous spikes covered with pure white flowers; blooms freely during the Autumn; can also be grown as a pot plant. Sow in Spring.

- 50 *Grandiflora Alba*.

ANTHEMIS KELWAYII

6d. per pkt.

A beautiful flower, of single *Chrysanthemum* type. Colour, brilliant golden orange yellow; excellent border plant.

ANTIRRHINUM

See Page 15

AQUILEGIA

Columbine

6d. pkt.

Except otherwise marked.

Very showy, hardy, herbaceous perennials; make handsome border plants; easily grown, requiring a light soil. Sow in Autumn and Spring. 18 to 24 inches.

- 67 *Coerulea Hybrida Grandiflora*. Single long-spurred varieties. Mixed.
68 *Chrysantha Grandiflora Alba* (*White Spurred*). Snow-white flowers of elegant shape.
71 *Mixed*. Finest sorts; various colors. 3d. per packet.
73 *Rose Queen*. Long-spurred, single, rose-colored, white centre, yellow anthers.
74 *Mrs. Scott Elliott's Strain*. A magnificent strain of single flowers, unexcelled. 1/- per packet.

ARABIS

Rock Cress

6d. per pkt.

For borders or rock work, blooming freely; hardy perennial. Sow in Autumn and Spring 6 inches.

- 76 *Alpina*. White, very dwarf.

ARCTOTIS

6d. per pkt.

- 78 *Grandis*. Flowers single; white with pale violet centre.

ASTER

See page 16

AUBRETIA

6d. per pkt.

- 109 *Leichtlini*. Luminous carmine rose. Hardy perennial, suitable for edgings and borders.

AURICULA

1/- per pkt.

Requiring special culture, and only suitable for the cooler districts. The entire flower appears as if dusted with powder; hardy perennials; to be sown in fine soil in boxes during the Autumn and Spring, and transplanted when fit to handle.

- 112 *Choice Mixed*. Various colors; best sorts. 6 inches.

BALSAM

6d. per pkt.

A favourite annual, producing rose-like blooms of various colours in great abundance. Suitable for outside cultivation and for pots. Balsams require rich soil and plenty of moisture. Sow in Spring and Summer.

- 114 *Carnation*. Striped and flaked; attractive.
115 *Solferino*. Streaked and spotted; distinct.
116 *Camellia Flowered*. Self colors.
117 *Camellia Flowered Alba Perfecta*. White; double.
118 *Camellia Flowered, Prince Bismarck*. Double, brilliant salmon rose; very free.
118a *Camellia Flowered "Primrose."* Extra double, compact. 2 inches across.
119 *Choice Mixed*. 3d. per packet.

BEGONIA

These charming plants require great care in raising from seed, which is very small, and must be sown in light soil in a frame or greenhouse, and afterwards grown in pots. Foliage very handsome; graceful, drooping flowers; most attractive tender perennials. Sow in Spring. 18 inches.

- 124 *Tuberous Rooted, Single*. Charming colors. 1/- per packet.
125 *Tuberous Rooted, Double*. Beautiful shades. 2/6 per packet.
127 *Semperflorens*. A strain of bedding Begonias, with deep green shining foliage and profusion of flowers. 6d. per packet.

BORONIA

6d. per pkt.

129 Megistigma. Sweet-scented.

BRACHYCOME

(SWAN RIVER DAISY)

6d. per pkt.

Hardy annual, compact, stands dry weather; flowers daisy-like; produced in great profusion; prefers rich, light loam. Sow Autumn and Spring. 9 inches.

130 Iberidifolia. Bright blue flowers.

131 Iberidifolia Alba. Pure white flowers.

BROWALLIA

6d. per pkt.

Pretty hardy annuals, covering themselves with bloom; nice border plants; do best in rich, light loam. Sow early in Spring. 15 inches.

133 Alata Coerulea. Large bright blue.

134 Alba. White; very pretty variety.

136 Speciosa Major. Large blue flowers.

CALANDRINIA

6d. per pkt.

Dwarf, free flowering, showy annual; adapts itself to almost any soil; an abundant bloomer. Sow in Autumn or Spring. 12 inches.

138 Discolour. Pretty rose lilac.

139 Umbellata. Beautiful magenta crimson.

CALCEOLARIA

A charming perennial plant for frame, conservatory or bush-house culture only. Requires rich, light fibrous soil and plenty of pot room. To raise the seed successfully, sow on the surface in the lightest soil and cover with a sheet of glass, and as soon as the very small plants are in second leaf, they must at once be transplanted into small pots, and in a few weeks transferred to blooming pots. Give plenty of light and air, but shade from the bright rays of the sun, and be careful to destroy green fly should it appear. Cannot be grown as border plants. Sow Autumn. 12 to 13 inches.

143 Shrubby. Self colors—yellow, brown. 1/6 packet.

144 Finest Mixed. Selected strain; robust; floriferous. 2/6 per packet.

CALENDULA

English Marigold

3d. per packet.

Favourite annual; capital for bedding or border; hardy. Sow in Spring or Autumn.

150 Meteor. Double, golden colored, striped.

151 Prince of Orange. Double, rich, orange striped.

152 The Ball. 1/- packet.

CALLIOPSIS

Coreopsis

3d. and 6d. per packet.

This is one of the best of our hardy annuals; a most beautiful plant in the garden, not particular as to soil; a long time in bloom. Plant 2 feet apart. Sow Autumn and Spring.

154 Calliopsis Dazzler. 6d. per packet.

155 Drummondii. Yellow, crimson centre.

156 Grandiflora. Perennial; golden yellow.

157 Lanceolata. Perennial; fine yellow.

158 Atropurpurea. Rich brownish crimson.

159 Bicolor Hybrida. Double flowers.

160 Coronata Maxima. Golden yellow.

161 Marmorata. Yellow, splashed crimson.

162 Golden Ray. Elegant and graceful.

163 Fire King. Deep bright scarlet, cactus-shaped petals.

164 The Garnet. A dwarf variety, glossy, crimson scarlet, very effective in masses.

CAMPANULA

6d. per pkt.

165 Pyramidalis Alba. A magnificent white flowering variety, with long spikes.

166 Pyramidalis. Blue, magnificent spikes.

167 Persicifolia Grandiflora. An exceedingly fine strain; large flowers mixed.

CANTERBURY BELLS

6d. per pkt.

A family of very showy border plants, the colours being very distinct and rich. Sow in frame or box, and plant out in the border later. Free bloomers, hardy perennials. Sow in Autumn or Spring.

175 Double Blue. 178 Single White.

176 Double Rose. 179 Single Blue.

177 Double White. 180 Single Rose.

All of the Finest Strain.

181 Calycanthema, charming, saucer-like outer petals. 6d. packet.

182 Straita. White, streaked violet. 6d. pkt.

CARNATIONS

CANARY CREEPER

(See TROPAEOLUM)

CANDYTUFT

IBERIS

3d. per pkt.

The whole of this pretty family is well worth a place in the garden, the crimson and white varieties being exceedingly showy; they bloom in great profusion, and are very useful for cut flowers. Sow in Autumn and Spring, and thin to 6 inches.

185 Dobbie's White Spiral. Pure white spikes, 4 inches long.

186 Giant Hyacinth, Flowered. Immense spikes of pure white flowers; improved strain; 15 inches.

187 White Rocket. Magnificent spikes.

188 White. Large, effective and handsome.

189 Purple. Large fine trusses.

190 Carmine. Flowers rich carmine.

191 Creamy White. Delicate color.

192 Empress. Trusses of pure white.

193 White Perennial (Iberis Sempervirens)

194 Tom Thumb. Pure white; dwarf snowy.

195 Dwarf Crimson. Rich glowing color.

196 Little Prince. Charming dwarf variety; pure white.

CELOSIA

COCKSCOMB

6d. per pkt.

The three first-named produce large cockscomb-like heads. Thompsoni bears its flowers in feathery spikes, and should have the leader pinched out, which will improve its habit. 2 feet. Half-hardy annuals. Sow in Spring.

233 Dwarf Varieties, Mixed. Choice selection; colored heads.

234 Dwarf Crimson. Standard variety.

235 Carter's Empress. Crested, bright scarlet.

236 Thompsoni Magnifica. A feathered Cockscomb of great beauty; crests of various colors, from golden to dark crimson.

236a Childsii (Chinese Wool Flower). So named because the flower heads resemble a large loose ball of wool. Recommended.

CANNA

6d. per pkt.

Ornamental plants with handsome foliage, brilliant flowers, easily raised from seed in a frame. Magnificent decorative plants; grown in garden in sheltered situations, or in pots in a bush-house; 3 to 4 feet. Sow Autumn and Spring.

205 Madam Crozy. Crimson, with gold margin.

206 Crozy's New Hybrids. Mixed; very effective.

For Canna Plants see page 62

CARNATION

Price, per packet, 1/6

(Except where otherwise marked)

The perennial varieties should produce a large percentage of first-class flowers, being saved from a magnificent collection of named sorts. Sow in pots or boxes in light soil, and place in a frame or conservatory and keep carefully watered until the plants are large enough to prick out; can also be successfully raised in canvas frame. Marguerite varieties are very hardy, and easily raised from seed, and flower first season. Sow Autumn and Spring.

PERENNIAL SECTION

213 Bizarre. Flaked and striped; excellent.

214 Grenadin. Brilliant double scarlet.

215 Anderson's Choice Double Mixed. Superb stock; best sorts.

216 Perpetual Flowering. Superb free bloomers, mixed.

217 Yellow Ground Perpetual. Race of perpetuals, producing much required yellow shades.

218 Riviera ("Nice Giant"). Superb mixture; saved from the largest blooms.

218b Australian-saved Carnation. Seed fertilised and saved from finest crosses of Australian and American Carnations; a superb mixture. 2/6 and 3/6 per packet.

MARGUERITE SECTION

219 Mixed. Anderson's Special Strain. Flowers first season from seed; large proportion double; varied colors. 6d. per packet.

220 Giant White. Beautiful pure white. 6d. per packet.

221 Giant Malmaison. Enormous double flowers, but is rather difficult to grow, and only a small percentage of double flowers can be expected. 1/- per packet.

222 Giant "Golden Yellow." A color much sought for in this type of flower. 6d. per packet.

223 Giant Dark Red. 6d. per packet.

224 Giant Pink. 6d. per packet.

CENTAUREA CORNFLOWER

The Centaurea is one of the most useful annuals in cultivation. It blooms during winter in profusion, and is most useful for cutting for bouquets in Winter and Spring. The plants should stand 1 foot apart, and can be transplanted. Height, 1½ to 2 feet. Sow in Autumn and Spring.

- 242 *Cyanus*. Double rose. A particularly fine type of flower, immensely suitable for floral work. Per packet, 6d.
243 *Cyanus Blue*. The charming Single Blue Cornflower; the best of the section. Per packet, 3d.
246 Mixed. Single. Per packet, 3d.

CENTAUREA MOSCHATA SWEET SULTAN

6d. per pkt.

- 252 Blue. Double.
253 Purple. Double.
254 White. Double.
255 *Odorata Marguerite*. Large white, scented.
256 *Suaveolens*. Yellow Cornflower.
257 *Imperialis*. Assorted colors; large flowers.
258 *Americana*. Large flowers, 3 to 4in. in diameter. Mauve color.
259 Improved *Amaranth*. Red.

CENTAUREA CANDIDISSIMA 6d. per pkt.

- 260 Valuable perennial foliage plants for ribbon bordering; compact plants, with silvery foliage. 12 inches. Sow in Autumn.

CHEIRANTHUS ALLIONI

- 263 This variety of Wallflower dwarf in habit, brilliant orange yellow. Treat as an annual. Per packet, 1/-

CHRYSANTHEMUM ANNUAL MARGUERITE 3d. per pkt.

These varieties are hardy annuals; strong growers, showy, and are admirably suited for cutting; they keep a long time in water. Sow during Autumn or Spring. Height, 18ins. to 2 feet.

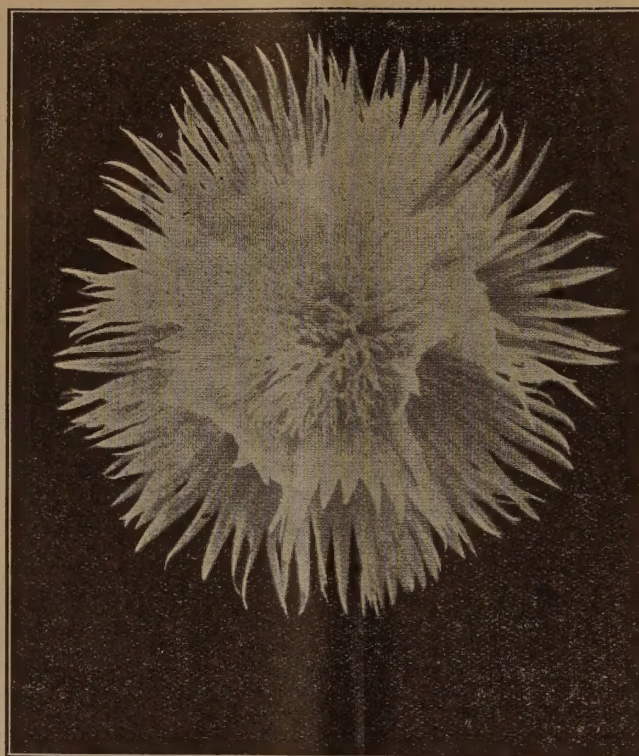

- 265 Double Hybrids. White, yellow and crimson; various colored centres.
269 *Tricolour Dunnetii*. Single. Very showy.
272 *Segetum* (Corn Marigold). Yellow.
273 *Tricolor Coccineum* (Tom Thumb). Branching; scarlet flowers.
274 Golden Wheel. Golden yellow. Purple centre.
275 *Carinatum*. Blooms 3½ inches across. White, soft yellow in centre.
276 *Coronarium*. "Primrose Gem"; compact variety; double flowers.
277 Silver Wheel. Silvery white.

LEUCANTHEMUM SECTION PERENNIALS

- 279 *Frutescens* (Paris Daisy). Lovely flower, hardy, bushy growing. Per packet, 6d.
280 *Grandiflorum Hybridum* (Shasta Daisy). Dwarf habit. Flowers pure glistening white. Single; yellow centre. Per packet, 6d.
281 Gigantic Shasta Daisy "Alaska." Flowers white, 4½ to 5 inches in diameter. Per packet, 1/-
282 "Chiffon Daisy." Flowers pure white, narrow tassel-like petals. Per packet, 1/-

DOUBLE PERENNIAL SECTION

- The well-known Japanese Chrysanthemums so much prized in our gardens.
284 *Inodorum*. Double white. Pkt., 6d.
285 *Indicum fl. pl.* The familiar Chrysanthemum, various. Per pkt., 6d.
286 New Early Flowering. Japanese type. Per packet, 1/-

CENTAUREA: IMPERIALIS CINERARIA

1/6 and 2/6 per pkt.

Most elegant and charming bush-house or greenhouse plant. Should be raised in a frame, in pots and boxes, and transplanted rapidly into small-sized pots, and again to blooming pots as soon as the smaller are well filled with roots. Use light soil, mixed with old cow manure, a little sand and old vegetable mould made from decayed leaves. Can also be grown as border in sheltered suitable position. Sow December and January. Height, 18 to 24 inches.

- 290 *Hybrida Grandiflora*. Single flowers; charming colors; superior to double var.
292 *Hybrida Grandiflora*. Double. Very select strain, producing large percentage of double flowers.
293 Californian Special Strain. Packet 2/6

CINERARIA

ORNAMENTAL-LEAVED VARIETY

This variety, although classed as a *Cineraria*, is grown as a hardy foliage plant only, its beautiful silvery leaves being very effective in carpet bedding; 12 inches high. Sow in Spring.

- 296 *Maritima Candidissima*. Large leaves. Per packet, 6d.

CLARKIA

6d. per pkt.

- 298 *Elegans*. Single Mixed.

- 299 *Elegans*. Double Mixed.

A showy, hardy annual; easily grown; very effective in masses. Sow in Spring and Autumn. Height, 18 inches.

DOUBLE CLARKIA

Double White; Apple Blossom, delicate shade; Brilliant, bright rose; Chamois, pale shade; Purple King, light purple; Queen Mary, rose carmine; Salmon Queen, pink; Scarlet Queen, orange scarlet; Orange King. Each color 6d. per pkt.; 6 for 2/6; or 9 packets for 3/6; post free.

CLIANTHUS

The flowers are brilliant crimson, about 3in. long, and in the centre there is a large clear black marking, rendering it one of the most beautiful and attractive plants in cultivation. Sow from July to end of September in a sunny situation.

- 301 *Dampierii* (Sturt's Desert Pea). 1/- pkt
302 *Puniceus* (Glory Pea). A very handsome perennial. Per packet, 6d.
303 *Puniceus Alba*. A white variety, much prized on account of its highly decorative character. Per packet, 6d.

CLINTONIA

6d. per pkt.

Charming little plant for edgings, pots or rockeries. Sow the seed in boxes and transplant. Hardy annual. Sow in Autumn or Spring.

- 307 *Pulchella*. Rich blue color, yellow eyes.

COBCEA

6d. per pkt.

Useful ornamental climber; magnificent large, bell-shaped flowers; rapid grower, fine foliage; hardy perennial. Should be raised in pots or boxes, and planted out in the Autumn or Early Spring.

- 308 *Scandens*. Purplish blue.

- 309 *Scandens Alba*. White.

COLEUS

1/6 per pkt.

As a pot-grown foliage plant the *Coleus* cannot be surpassed; it is admirably adapted to our climate; requires careful sowing, as the seed is very fine. Must be grown freely in good, rich soil, with plenty of moisture, light and air, when the colours will be magnificent. Sow September and Summer.

- 312 Choice Hybrids. Finest Mixed.

COLLOMIA

6d. per pkt.

Hardy annual; flowers *Bouvardia*-like; compact habit. Sow in Spring. Height 12 inches.

- 314 *Coccinea*. Scarlet and yellow.

COLUMBINE

(See *AQUILEGIA*)

CONVOLVULUS

MORNING GLORY

Sow in Spring.

- 316 Minor. Dwarf; mixed varieties. Per packet, 3d.
317 Major. Tall; mixed, beautiful climber. Per packet, 3d.
318 *Mauritanicus*. Hardy perennial; for hanging baskets and rock work; beautiful blue. Per packet, 6d.

COREOPSIS

(See *CALLIOPSIS*)

CORNFLOWER

(See *CENTAUREA*)

COSMIDIUM

6d. per pkt.

- 321 *Burridgeanum*. Crimson and yellow. Showy, hardy annuals. Well adapted for massing and for cutting or table decoration. Sow Autumn or Spring. 18 inches.

COSMOS

3d. and 6d. per pkt.

A most popular class of hardy annuals producing flowers of great beauty; most useful for table decoration. Sow in Spring. Height, 6 feet.

- 322 Pearl. A beautiful pure white.
323 Dawn. Flowers white, tinted rose.
324 Sulphurea. Yellow.
325 Choicest Mixed Mammoth Flowering
326 Klondyke. Floriferous; orange; distinct foliage. Per packet, 6d.
327 "Lady Lennox." Giant pink.
328 Pink. Large flowering.
329 Purple. Large flowering.
330 "Crimson Ray." Flowers large; most brilliant crimson, overlaid velvet sheen. Per packet, 6d.
330a "White Ray." Companion flower to above. Per packet, 6d.
331 Double Crown or Crested, pink Per packet, 6d.
332 White. Per packet, 6d.
333 Crimson. Per packet, 6d.
334 Mixed. Per packet, 6d.

COWSLIP

6d. per pkt.

- 336 *Primula Veris*. This old English flower succeeds admirably in our cooler districts. Hardy perennial. Sow in Autumn or Spring. Height, 9 inches.

CYCLAMEN PERSICUM

2/6 pkt.

A most beautiful tribe of tuberous green-house plants, easily produced from seed if sown in light soil, in pots, and placed in a warm, sheltered corner of the bush-house. Sow during Autumn and Spring in pots.

- 337 *Papilo* ("Butterfly"). Colors various; petals crested and twisted; very striking.
339 *Giganteum*. Immense flowers; mixed colors.
340 *Delicatum*. Beautiful snowy white flowers.

DAHLIA

6d. per pkt.

Easily raised from seed if sown in a shelter frame. Seedlings will flower first season if sown early. The single varieties are elegant and graceful, and most suitable for cutting. Hardy perennials. Sow in Spring. Height 4 to 5 feet.

- 343 *Large Flowered Double*. Fine, select, mixed.
344 *Pompon*. Finest mixed; very small flowers; double.
346 *Single Perfection*. Fine, giant-flowering strain.
350 *Double Cactus*. Australian saved seed, from the best varieties. Per packet, 6d. and 1/-.
351 *Double Giant, or Peony Flowered*. A very distinct strain. Pkt. 6d. & 1/-.
352 *Collarette*. Choice mixed.
353 *Decorative Type*. Excellent strain. Per packet, 6d. and 1/-.

DATURA

TRUMPET FLOWERS

6d. per pkt.

- 355 *Ceratocaula*. Large trumpet-shaped pink and white flowers, beautifully sweet-scented; hardy annual. Sow in Spring. Height, 36 inches.
356 *Double Golden*. Compact bush, about 2 feet high, and bearing large golden funnel-shaped flowers.

DAISY

BELLIS PERENNIS

6d. per pkt.

Sow in a shallow box filled with light soil, and keep well watered; a cool position will suit best. The seedlings must be planted out when large enough to handle. Hardy perennials. Sow Autumn and Spring. Height, 6 inches.

- 360 *Longfellow*. Large, beautifully double; dark rose.
361 *Giant Snowball*. Grand flower; pure white.
362 *Double Mixed*. All the best sorts.
363 *Fistulosus*. Pretty form of Double Daisy; globular; various colors.
364 *Montrosa Ranunculiflora*. Ranunculus-shaped Giant-flowered Daisy; mixed; quite distinct.

DELPHINIUM

PERENNIAL LARKSPUR

6d. per pkt.

Charming family of perennials with handsome foliage and fine spikes of flowers; very effective in the border; they make handsome plants. Sow during Autumn and Spring.

- 398 *Cashmeranium*. Fine variety, dark blue.
401 *Formosum*. Graceful, lovely blue flowers.
402 *Hybrids*. Mixed. Choice selection, best varieties; flower spikes 2 to 3 feet in length. *Australian-saved Seed*, 6d., 1/- and 2/6 per packet.
403 *Nudicaule*. Bright scarlet; dwarf, compact.

DELPHINIUM

BUTTERFLY TYPE

Dwarf-growing Variety.

- 404 *Azure Blue*. 6d. per packet.
405 *Dark Blue*. 6d. per packet.
406 *White*. 6d. per packet.
407 *Cardinal*. 6d. per packet.
408 *Mixed*. 6d. per packet.
409 *Belladonna*. Very superior; long spikes; azure blue. 1/- per packet.
409a *Bellamosa*. Dark blue. 1/- per pkt. (See Novelty pages for other Delphiniums).

DESERT PEA

(See CLIANTHUS)

DIDISCUS

LACE PLANT

6d. per pkt

- 396 *Coerulea*. Charming annual; flowers beautiful light blue. Sow Autumn and Spring.

DELPHINIUM: HYBRIDS

DIGITALIS

FOXGLOVE

3d. per pkt.

Well-known favourite; of easy cultivation; striking and showy flower; requires plenty of space; hardy perennial. Sow in Autumn and Spring. Height, 3 feet when in flower.

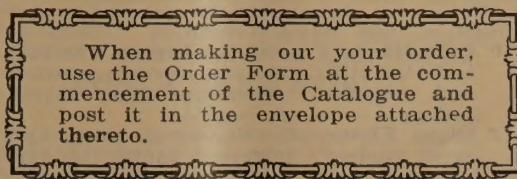

- 410 *Gloxinoides*. Superb variety; all colors.
411 *Ivery's Finest Spotted*. Superior strain.
411a *Montrosa*. Bears extra long spikes of large flowers. Colors include white, pink, rose, yellow and purple.

DOLICHOS

3d. per pkt.

A charming, quick-growing climber; capital for covering an old wall or fence. Sow in Spring or Autumn. Evergreen. Height, 20 feet.

- 414 *Lignosus*. Small, lilac, pea-shaped flowers, borne in clusters.
415 *Lignosus Albus*. White.

DIANTHUS

Garden Pink

3d. per pkt.

(Except where otherwise marked)

The Heddewegii *Laciniatus* and *Imperialis* sections of *Dianthus* are magnificent flowering biennials. Flowers of immense size, and plants bloom all the season through if old flowers and seed pods are removed regularly; 392 and 393 are the old favourite Sweet William, of perennial duration. Sow during Autumn and Spring. Height, 12 inches.

- 368 *Heddewegii*. Single, beautiful.
369 *Heddewegii fl. pl.* Double flowers.
370 *Heddewegii "Queen of Holland."* Pure white, occasional rose tints in centre.
371 *Double Snowflake*. Beautiful double white, fringed.
373 *Crimson Belle*. Crimson; single.
374 *Atropurpureus*. Double; red.
375 *Atropurpureus Alba Marginatus*. "Mourning Pink."

- 452 *Amblyodon*. Fine, deep red; tall.

- 455 *Picta*. A single variety; red and yellow.

- 456 *Lorenziana*. Double; yellow and deep crimson.

- 457 *Lorenziana*, "The Bride." Very long stems, double creamy white.

GENTIANA

Blue Gentian

6d. per pkt.

Hardy perennials; one of the most charming of our Alpine Plants; suitable for the cool districts only. Sow during Autumn or Spring. Four inches high.

- 461 *Acaulis*. Pretty little light blue trumpet-shaped flowers. Exceedingly beautiful.

GERBERAS

GERBERA

Seed. 1/- and 2/6 per packet.

This beautiful Daisy can be raised from seed, and we are now able to offer locally saved seed of strong germination. Cultural directions with each packet.

- 469 Mixed Hybrids.

GERANIUMS

(See PELARGONIUMS)

GEUM

A hardy dwarf perennial plant; of service as border; bright and showy. Sow Autumn or Spring.

- 468 Mrs. Bradshaw fl. pl. Double scarlet. 6d. per packet.

- 468a Lady Stratheden. Rich golden yellow. 1/- per packet.

- 469b "Orange Queen."

A splendid new variety. Flowers large and freely produced. Colour bright orange scarlet

Price, per packet, 1/-

GLADIOLUS

6d. per pkt.

This magnificent genus is easily raised, and from hybridised seeds the variety of colours and tints obtainable is endless; use sandy loam for raising seedlings. Sow in Spring. 36 inches high.

- 465 *Gandavensis*. Mixed.

- 466 *Lemoinei*. Mixed.

GLOBE AMARANTH

(See GOMPHRENA)

GLOXINIA

2/6 per pkt.

One of the handsomest tender tuberous plants in cultivation; requires pot cultivation and the shelter of a frame, bush-house or conservatory; the flowers are charming in the extreme. Tender perennials. Sow during Autumn.

- 470 *Grandiflora Crassifolia Erecta*. Distinct and beautiful flowers; erect, spotted and blotched; immense size, lovely foliage.

- 473 Giant Flowered. Strong growing and erect variety; flowers 4 inches in diameter.

GODETIA

3d. per pkt.

Beautiful hardy annuals; will grow in the poorest soil, and produce a grand display of gorgeous flowers, even in a dry season, and cut flowers keep well in water. Should be sown during Autumn and Spring. 12 inches to 2 feet.

- 478 Fairy Queen. Dwarf variety, large white flowers, with carmine spots.

- 480 Splendens. Pretty purple blotch on each petal.

- 481 Duchess of Albany. Satiny white.

- 482 Princess of Wales. Crimson rose; large.

- 483 Lady Albermarle. Bright crimson; large.

- 484 Duke of York. A handsome Dwarf variety; flowers bright scarlet carmine.

- 485 Grandiflora Maculata. Large white flowers with crimson spots.

GOLDEN FEATHER

(See PYRETHRUM)

GOMPHRENA

GLOBE AMARANTH

3d. per pkt.

One of the best of our hardy annual everlastings, and most useful for Winter bouquets; it is of fine erect habit, a constant bloomer, and very attractive. Sow in Spring and early Summer.

- 490 Globosa. Mixed.

- 492 Nana Compacta. Dwarf variety; purple.

GYPSOPHILA

6d. per pkt.

A very free flowering hardy family of plants particularly suitable to decorative work. Sow in Autumn.

- 493 *Paniculata Compacta*. Semi-dwarf; hardy white. Perennial.

- 493a *Paniculata Alba*. fl. pl. A charming variety of this well-known decorative plant, throwing 50 per cent. double flowers. Perennial. 1/- pkt.

- 494 *Elegans Grandiflora Alba*. Newer type; very elegant. Annual.

- 494a *Elegans Grandiflora* "Paris Market."

This improved kind is of great value for cut flower purposes. It is large flowering and branching habit, growing to a height of about 2 feet. Price per packet, 6d.

HELIANTHUS

SUNFLOWER

3d. per pkt.

- 504 Annuus Single; primrose colored.

- 505 Argophyllus. Pretty, ornamental, silvery foliage.

- 506 Californicus. Large, double yellow.

- 507 Cucumerifolius. Branching, nice foliage; golden yellow flowers, 4 to 5 feet high.

- 508 Stella. Flowers 3 inches across. Pure golden yellow, black disc. Plants 4 to 5 feet high.

- 509 Diadem. Single flowers; light citron color.

- 510 Hybridum fl. pl. Double and semi-double. 5 feet high.

- 511 Globosus Fistulosus. Double golden; fine. 6 feet high.

- 514 Orion. Small flowers, crisped and twisted petals; orange and lemon shades; very attractive. 5 feet high.

- 515 Red or Gaillardia Sunflower. Flowers vary in color. 6d. per packet.

HELICHRYSUM

6d. per pkt.

Everlasting flowers of great beauty, hardy and free blooming, and very useful for cutting; plants about 4 feet high; produce their brilliant flowers at a season most wanted; they are hardy annuals, but will often bloom for a whole season. Sow Autumn and Spring.

- 495 *Monstrosum*. Double mixed; fine colorings.
496 *Compositum Purpureum*. Double crimson.
497 *Monstrosum* "Rose Queen"—A rich deep rose color. Price, per pkt., 1/-
498 *Roseum*. Double; beautiful delicate rose.
499 *Alba*. Double; pure white.

HELIOTROPIUM

Heliotrope.

6d. per pkt.

Sow in a frame or bush-house in a box or pot, with a sheet of glass over it until the young plants appear; then give plenty of air, and pot off as soon as plants are fit to handle. Delicious perfume, tender perennial, border plant. Sow Autumn and Spring. 2 to 3 feet high.

- 522 *Choicest Mixed*. Best dark and light colors.

HEUCHERA

6d. per pkt.

- 526 *Sanguinea*. Coral red. Graceful spikes. Beautiful, hardy perennial of dwarf, compact, branching habit. Sow in Autumn or Spring.

HIBISCUS

6d. per pkt.

The perennial varieties cannot be grown from seed, but plants can be obtained (see list of plants in this catalogue). The annual variety here offered should be grown in Spring. 18 inches high.

- 528 *Africanus*. Annual, with beautiful cream colored flowers; exceedingly pretty.

HOLLYHOCK

6d. per pkt.

This noble plant produces flower spikes 6 ft. high; studded with splendid Camellia-like blooms some 3 feet of their length; it is not difficult to grow from seed if sown in Autumn and generally treated with rich soil and moisture; tender perennial.

- 530 *Extra Choice (Chater's)*. Superb strain, all colors; double.

HONESTY

6d. per pkt.

Free-flowering hardy biennial; its silvery seed pods are very pretty, cut and dried for winter decoration. Sow during Autumn and Spring. Height, 18 inches.

- 535 *Lunaria Biennis (Satin Flower)*.

HUMULUS JAPONICUS

JAPANESE HOP

6d. per pkt.

Annual climber, beautiful foliage; rapid grower; hardy; requires a rich soil.

- 539 *Variegated*. Very handsome foliage.

HUNNEMANNIA

6d. per pkt.

A charming little perennial; erect growth, about 18 inches; easily raised from seed, and quite hardy in the open border. The flowers keep well when cut; one of the most beautiful dinner-table decoration plants grown. Sow in Autumn.

- 542 *Fumariaefolia*. Very feathery foliage and buttercup-yellow single flowers, cup-shaped, with red stamens.

IBERIS

PERENNIAL CANDYTUFT

6d. per pkt.

Very hardy and compact grower.

- 545 *Gibraltarica*. Large flowers, lilac, shading to white.

ICE PLANT

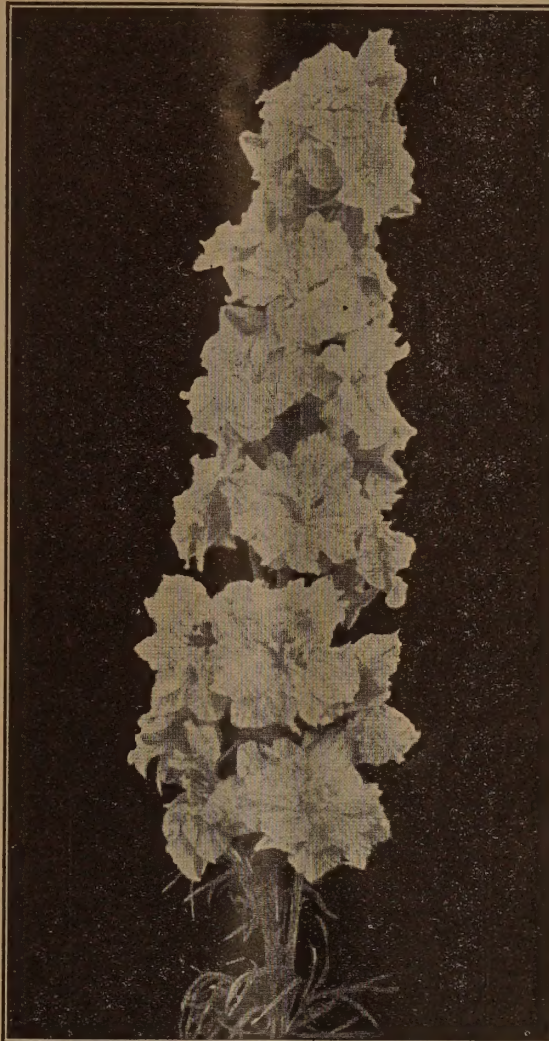

(See MESEMBRYANTHEMUM)

IMPATIENS

1/- per pkt

The East African Balsam—an excellent pot plant, succeeding best under the shade of bush or glass house. Large flowers of bright colour.

- 546 *Holstii*. New Hybrid. Mixed.

LARKSPUR: STOCK-FLOWERING

IPOMEA CONVOLVULUS

6d. per pkt.

A splendid family of climbers, rapid growers, fine foliage; handsome Convolvulus-like flowers, all very beautiful; hardy annuals. Sow Autumn and Spring.

- 548 *Hederacea Superba*. Ivy-leaved, various.
550 *Mikado*. Most brilliant colors.
551 *Grandiflora Alba*. Magnificent white flowers.
552 *Bona Nox*. Most beautiful; large blue flowers.
555 *Quamoclit (Cypress Vine)*.

The above is quite distinct, elegant feathery foliage, small scarlet flowers, very attractive and handsome.

IPOMOPSIS

6d. per pkt.

Long spikes of flowers delicately spotted, graceful foliage. If planted in a sheltered position is very attractive; tender biennial. Sow during Autumn and Spring. Height, 3 feet.

- 560 *Elegans*. Brilliant orange and scarlet flowers. Succeeds best in light, rich soil.

IRIS—CHRYSOFOR

1/6 per pkt.

The flowers range from white to pale sulphur yellow and rich bronze, soft blue to deep purple, ornamented with pretty yellow, blue and purple markings. Sow in early Spring.

JAPANESE KUDZU VINE

6d. per pkt.

- 568 *Pueraria Thunbergiana*. A vine of very rapid growth; foliage large and lobed, purple pea-shaped flowers in clusters; a valuable perennial. Frost cuts down the vine, but it comes along again in Spring. Sow Autumn and Spring.

KOCHIA

ANNUAL CYPRESS

6d. per pkt.

- 569 *Tricophylla*. An annual plant growing quickly from seed; slender and light green leaves; flowers scarlet but insignificant. Sow in Spring.

LARKSPUR

ANNUAL DELPHINIUM

3d. per pkt.

One of the most valuable of our hardy annuals, producing flower spikes 6 or 8 inches in length; the flowers in beautiful colours, graceful foliage. Height, 12 to 18 inches.

- 570 *Dwarf Rocket*. Double, various.
573 *Ranunculus Flowered*. Various.
574 *Giant Hyacinth Flowered*. Spikes of beautiful double shades.

STOCK-FLOWERING LARKSPURS

These Double-flowering Larkspurs should prove very effective in bedding.

True Blue.

Lilac.

Purple.

Sky Blue.

Scarlet.

Bright Pink.

Carmine.

White.

Old Rose.

Exquisite (Pink)

Each colour, 6d. per packet; 6 packets, 2/6; 10 packets, 4/-, post free.

LINARIA

3d. and 6d. per pkt.

- 587 *Bipartita Splendida*. Beautiful dark violet.
588 *Reticulata Aurea Purpurea*. Yellow and purple.
589 *Maroccana*. Mixed colors; Excelsior strain. 6d. per packet.
590 *Maroccana "Pearl"*. Snowy white.
591 *Cymbalaria*. Perennial; known as Kenilworth Ivy; useful for hanging baskets. One of the most beautiful species of hardy annuals grown for Spring-flowering with spikes of Lobelia-like flowers. Sow during Autumn or Spring. 6d. per packet.

LEPTOSYNE

6d. per pkt.

A most graceful annual from California; plants are bushy and compact, and the flowers are produced in great profusion. Maritima is very beautiful and fine for cutting.

- 583 *Maritima*. Deep lemon yellow; very early; a charming plant.

LINUM

3d. per pkt.

- 593 *Grandiflora Coccineum*. Fine scarlet flowers; foliage good. Sow in Spring. Height, 12 inches.
595 *Perenne*. Perennial; blue.

ALL FLOWER SEEDS ARE
POST FREE

LOBELIA

6d. per pkt.

Exceedingly beautiful, free-blooming, hardy annuals; good for edging, ribbon or carpet bedding, producing a dense carpet of bloom. *Cardinalis*, though a true *Lobelia*, is quite distinct from the annual varieties, and is a perennial. Sow during Autumn and Spring.

- 597 *Miranda*. Covered with bright rosy purple flowers with white eyes.
599 *Speciosa Erecta*. Dark blue, for bedding.
600 *Royal Purple*. Beautiful deep blue; clear white eye.
602 *Crystal Palace*. Fine dark blue; large.
604 *Barnard's Perpetual*. Ultramarine blue, with pure white markings.
605 *White Lady*. Large flowered; white.
606 *Cardinalis (Queen Victoria)*. Tall spikes, cardinal flowers, bronze leaves; distinct perennial; prefers cold climate. 1/- per packet.
607 *Sapphire*. Deep blue, with a clearly defined pure white eye. Excellent for basket, window-box or rockery work.

LOPHOSPERMUM

6d. per pkt.

Handsome deciduous climber. Raise in a box or sheltered position out of doors. Height, 10 feet. Sow during Autumn and Spring.

- 611 *Scandens*. Large purple flowers.

LOVE-LIES-BLEEDING

(See *AMARANTHUS*)

LUPINS

6d. per pkt.

The flowers are most attractive; all hardy annuals. Sow Autumn and Spring.

- 689 *Hartwegii*. Royal blue. A deep rich color.
690 *Hartwegii*. Azure blue. A nice bright color.
691 *Hartwegii*. Roseus. Light rosy red.
692 *Hartwegii*. Alba. Pure white.
693 Yellow; delightful fragrance.
694 Superb Mixture of the above. Handsome tall spikes of flowers; effective and showy. Sow Autumn and Spring. Height, 3 feet.
695 *Dunnettii Superbus*. Purple, yellow, white.
696 *Cruickshankii*. Fine variety. 2 feet.
697 *Nanus*. Pretty dwarf; blue; 6 to 9 inches.
701 *Polyphyllus New Hybrids Mixed*. Perennial strain, producing superb spikes of flowers.
Pink Pearl. A bushy growing type, free-flowering, constant and good bloomer.
Blue Pearl. Charming companion flower to *Pink Pearl*.
New Blue Hybrids. This new Australian Hybrid Lupin carries beautiful spikes of flowers; height, 4 feet. If sown in the Autumn flowers early in the Winter.

LYCHNIS

CHINESE CATCHFLY

6d. per pkt.

Attractive hardy perennials. 2 feet. Sow in Autumn and Spring.

- 706 *Chalcedonica*. Scarlet flower, in trusses.

MANDEVILLEA

6d. per pkt.

- 709 *Suaveolens*. Pure white, fragrant single flowers. Useful for bouquets. Hardy perennial climber. 20 feet.

MATHIOLA

EVENING SCENTED STOCK

6d. per pkt.

- 720 *Bicornis*. Beautiful pink and lilac flowers; fragrant; which open in the evening. Hardy annual. Sow in Spring. Height, 18 inches.

MARGUERITES

(See *CHRYSANTHEMUM*)

MARIGOLD

TAGETES

3d. per pkt.

Hardy, constant, French varieties have beautifully shaped orange flowers, striped and flaked with brown. African varieties have large, self-coloured flowers; all are annuals. Sow during the Spring and Summer. Height, 18 inches to 2 feet.

- 712 *French Dwarf*. Finest mixed. 18 inches.
713 *French Yellow*. Double sulphur yellow. 18 inches.
714 *African Lemon*. Lemon color. 2½ feet.
715 *African Orange*. Orange; tall; 2½ feet.
716 *Giant Tree Marigold*. Mixed; 4 to 5 feet. 6d. per packet.

MATRICARIA

6d. per pkt.

- 722 *Eximia fl. pl.* Pure white double flowers.

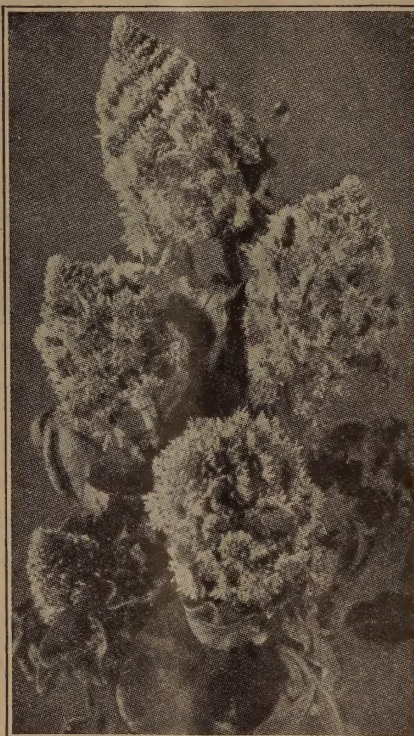

- 723 *Golden Ball*. Beautiful hardy annual; pretty for bouquets. Height, 10 inches. Sow during Autumn and Spring.

MAURANDYA

6d. per pkt.

A most superb climber, remarkably quick-growing and free-blooming; its foliage is small, but dense, and of a lively green color; they are half-hardy perennials, liking a rich friable soil. Sow Autumn and Spring.

- 724 *Barclayana*. Beautiful blue flowers.
725 *Alba*. Pure white flowers.
726 *Rosea*. Rose colored flowers.
727 *Mixed*.

MIGNONETTE

MEDEOLA

6d. per pkt.

Very handsome climbing bush-house plant. The graceful beauty of its foliage renders it valuable for vases. Can be used either to climb or droop. Soak seed in tepid water some hours before sowing. Hardy perennials. Sow in Spring in pots.
728 *Asparagoides*. Small white flowers, orange scented.

MESEMBRYANTHEMUM

6d. per pkt.

The first is a good rockery plant; the second is prized for its foliage, which looks as if the plant was covered with ice. *Cordifolium* is very suitable for bedding; bright rosy flowers. Sow in Spring and Summer.

- 732 *Tricolour*. Crimson, white and purple; suits sandy soil well; only grows to height of 3 inches.
733 *Crystallinum (Ice Plant)*. Peculiar glistening foliage; small white flowers; pretty; 6 inches.
734 *Cordifolium Variegatum*. A pretty variegated-leaved variety. 6 inches. Beautiful dwarf-growing plants of compact habit; half-hardy perennials.

MINA LOBATA

6d. per pkt.

- 767 *Mina Lobata*. Its beautiful cream white flowers are bright orange when half blown, and when in bud of a vivid red. Pretty half-hardy annual climber. Grows to a height of 20 feet; flowers abundantly. Sow in Spring.

MUSK

(See *MIMULUS MOSCHATUS*)

MIGNONETTE

3d. & 6d. per pkt.

This grand old annual is known to all, and its delicious perfume cannot be surpassed; it is easily grown; some of the varieties make excellent pot plants, and produce spikes of immense size. Sow Autumn or Spring.

- 736 *Large Flowered*. Very fragrant; fine spikes.
737 *White Machet*. Sweet-scented. 6d. per packet.
738 *Crimson Giant*. Large flowers; fine color.
740 *Gabrielle*. Robust, large spikes, red. 6d. per packet.
741 *Goliath*. Enormous spikes; double red. 6d. per packet.
742 *Ruby*. "Machet" variety; coppery scarlet. 6d. per packet.
743 *Victoria*. Very dark red; fine spikes.
744 *Miles' Hybrid*. Spiral; dwarf; long spikes.
745 *Machet*. Dwarf massive spikes scented; red. 6d. per packet.
746 *Machet Golden*. Large spikes; yellow flowers. 6d. per packet.
747 *Machet "King of Dwarfs"*. Charming variety; robust growth; large spikes. 6d. per packet.
749 *Golden Queen*. Bright yellow; pyramidal.
750 *Giant Pyramidal*. Fine spikes; fragrant.

MIMULUS

MONKEY FLOWER

6d. per pkt.

Charming plant for pot culture; likes rich, light soil and a liberal supply of water. Can be grown in the open ground, where soil and situation are favourable. *Moschatus*, the well-known Musk, has a delightful fragrance, is well adapted for posts or baskets. Tender perennials. Sow in Spring.

- 760 *Tigrinus*. Showy, spotted; single and double mixed.
761 *Tigrinus Grandiflora Duplex*. A new and improved variety; flowers fine, double.
763 *Moschatus (Musk)*. Scented yellow flower. 1/- per packet.

CARNATIONS

are worth-while flowers—for full list see pages 46 and 47.

MYOSOTIS
FORGET-ME-NOT
6d. per pkt.

This charming dwarf hardy plant should be sown in Autumn, when it will bloom profusely during Spring, covering itself with flowers of the most lovely blue; very useful for bouquets.

- 770 *Palustris*. Bright blue; the true Forget-me-not.
772 *Alpestris Stricta Rosea*. Upright growing; unique; flowers pink.
773 *Alpestris Grandiflora* (Royal Blue). Large flowers, very deep blue.
775 *Elegantissima*. White, blue and rose.
776 *Victoria*. Dwarf; globular habit; sky blue flowers with double centre.
778 *Robusta Grandiflora*. Very large flowering; blooms quickly from seed; blue.

NASTURTIIUM
3d. per pkt.

The value of this family for decorative purposes cannot be over-estimated; it is particularly hardy, will thrive in any soil, and its many forms are so various that it possesses a pleasing variety of colours. Dwarf varieties do not grow more than 9 inches, and form compact bushes and flower abundantly; can be transplanted, and should stand 12 inches apart; hardy annuals. The tall varieties will spread or climb 15 feet. Sow Autumn and Spring.

DWARF VARIETIES

- 781 *Beauty*. Pretty yellow and scarlet.
782 *Crimson*. Striking color.
783 *Empress of India*. Bright; beautiful scarlet.
784 *Golden King*. Very handsome variety.
785 *King of Tom Thumbs*. Scarlet.
786 *King Theodore*. Darkest of all; nearly black.
787 *Pearl*. A clear, soft white.
788 *Rose*. Delicate, soft rose color.
789 *Scarlet*. Bright and beautiful.
790 *Yellow*. Bright rich color.
791 *Finest Mixed Tom Thumb*.
792 *Ivy-leaved*. 6d. per packet.
793 *Dwarf Ornamental-leaved*.

TALL VARIETIES

- 794 *Queen "New Hybrids"*. A mixture of seven or eight colors, all with variegated foliage. 6d. per packet.
795 *Moonlight*. Flowers pale straw color; crinkled.
796 *Sunlight*. Flowers clear rich golden yellow.
797 *Spitfire*. Bright scarlet flower.
789 *Regalium*. Bright purple violet.
799 *Tall, Mixed*. All the best varieties.
801 *Lobb's Climbing Varieties*. Very suitable for vases or hanging baskets
802 *Lobbianum Lilliput*. Mixed; charming new class, with very small flowers and foliage.
803 *Ivy-leaved*. Unique foliage and flowers. 6d. per packet.

NEMESIA

Pretty compact growing annual of great merit. Sow in Autumn.

- 804 *Strumosa Grandiflora Suttoni*. The best of this class. Flowers various. 6d. and 1/- per packet.
805 *Compacta "Triumph"*. Large flowers, with very vivid colors. 6d. pkt.
805a *Compacta "Blue Gem"*. Distinct blue flowers. 6d. per packet.

NEMOPHILA
6d. per pkt.

Californian annuals, profuse bloomers, and charming colours; dwarf. *Insignis* is a lovely azure blue, while *Discoidalis* is white, tipped with dark brown. Sow Autumn and Spring. Height, 6 inches.

- 806 *Insignis*. Flowers a pretty blue.
807 *Atomaria*. White, with black spots.
808 *Discoidalis*. Black-brown margin.
809 *Marginata*. Blue, with white edge.

NIGELLA: MISS JEKYLL

NIGELLA
LOVE IN A MIST
6d. per pkt.

A pretty hardy annual, with graceful foliage. The flowers are nearly hidden in light, feathery leaves; an attractive flower. Sow in Autumn or Spring.

- 824 *Damascena Double White*. Clear pure white.
825 *Damascena Double Blue (Miss Jekyll)*. Companion flowers.

PAEONY
6d. per pkt.

A magnificent family of plants, but difficult to raise from seed. Must be sown in pots or boxes, and germinated under glass; require a cool climate; hardy perennial. Sow in Spring.

- 836 *Choicest Mixed*. Finest varieties and colors. Height, 18 inches.

PANSY
(See Page 17)

PASSIFLORA

- 914 *Edulis (Passion Fruit)*. This splendid creeper has a fine foliage and delicious fruit. A first-class verandah or trellis plant; flowers not very attractive; hardy perennial and evergreen; grows 10 to 15 feet. Soak the seed before sowing. Sow in Spring. 3d. per packet.

- 915 *Coerulea Grandiflora*. Very large blue flowers; handsome. 6d. per packet.
916 *Granadilla*. Large fruit; suitable only for warm, sheltered situations. 1/- pkt.

PELARGONIUM
GERANIUM
1/6 per pkt.

- 918 *French Blotched*. Superb strain; distinct.

- 919 *Fancy Varieties*. Handsome, showy.
920 *Large Flowered Regal*. From named sorts.

The above named are the large flowering perennial class known as "Pelargoniums," as distinct from "Geranium," and are best suited for pot culture, although nearly all of them will stand in the garden if they are in a sheltered situation. Must be raised in pots in a frame. Sow Autumn.

- 921 *Tricolour*. All the best varieties. Tricolour is the colored foliage variety of Geranium, with shades of green, crimson, brown and gold in the leaves.

PERILLA
6d. per pkt.

- 929 *Nana Compacta*. Lovely dwarf plant for bordering; a rich mulberry black foliage.

PENTSTEMON

A fine hardy genus, free-flowering and bearing fine spikes, 2 feet, and pendant trumpet-shaped blooms; invaluable for massing in a mixed border, or for cultivation in beds by themselves; hardy perennials. Sow Autumn and Spring.

- 924 *Sensation*. A Gloxinia-flowered variety; brilliant colors; flowers 2 inches across. 1/- per pkt.
926 *Finest Mixed*. Choice strain; best sorts. 6d. per packet.
927 *Hartwegii Albus*. Buds cream color changing to clear white. 6d. per packet.

PETUNIA

Petunias suit our climate admirably, and bloom in profusion during summer and autumn. Seed from the double varieties will produce 70 per cent. of single flowers. Tender perennials. Sow in frame in Spring or Autumn, and plant out.

- 932 *Hybrida Single*. Finest mixed. 3d. per packet.
937 *Grandiflora Single*. Large-flowered, superb mixed. 1/- per packet.
939 *Fimbriata Single*. Fringed, mixed. 1/- per packet.
940 *Double Inimitable*. Striped and blotched. 1/6 per packet.
944 *Double*. Fringed and plain edge; finest variety; mixed. 2/6 per pkt.
945 *Double Fringed*. Large flowering. 2/6 per packet.
947 *Grandiflora Superbissima*. Mixed single. A magnificent strain of Australian selection, containing a marvellously fine assortment of colors. 2/6 per packet.
948 *Rosy Morn*. 1/- per packet.
949 *Giants of California*. Magnificent large-flowered variety, very suited to our warm climate; a superb strain. 1/- and 2/6 per packet.

PHACELIA
6d. per pkt.

A highly interesting Californian annual. The plant is much branched and of spreading habit. Hardy annual. Height, 12 inches. Sow during Spring.

- 955 *Campanularia*. Flowers beautiful rich blue.

PHASEOLUS
1/- per pkt.

- 956 *Caracalla (Snail Flower)*. A charming perennial climbing plant, with bunches of sweet-scented purple and white, curiously-twisted flowers. Sow Autumn and Spring.

PERENNIAL PHLOX
1/- per pkt.

- 957 *Phlox Decussata*. Various colors. This is quite distinct from the Annual or Phlox Drummondii section; produces spikes of flowers, some 2 feet in height; it does not usually flower the first season from seed. Sow in Spring.

PICOTEE
1/6 per pkt.

Seed must be sown in seed pans or boxes, or in canvas frame, and transplanted. Hardy perennial; the seed should be sown in Autumn. Height, 12 inches.

- 959 *Choicest Mixed*. From the finest flowers.
960 *Perpetual Flowering*. Delicate marking; exquisite perfume; valuable for bouquets.

PHLOX

Drummondii

3d. and 6d. per pkt.

Among our summer blooming annuals the **Phlox Drummondii** takes a first place. If sown in the Autumn it will flower in the Winter, and continue to bloom for several months. A later sowing, in early Spring, will give plants which will bloom throughout the Summer, and if planted in beds, produce a most dazzling effect, as the plants are covered with flowers, which often entirely hide the foliage. The Phlox possesses a great variety of colour; it is dwarf in habit, growing not more than 12 inches high; hardy, and blooms for many months. Some varieties are of delicate colours, while others are brilliant and dazzling. Sow during Autumn and Spring, and early in Summer.

COLLECTIONS OF PHLOX

In view of the increasing popularity of this beautiful flower, we can offer the following collections in distinct colors:

6 packets, post free, 1/6

12 packets, post free, 2/6

For PERENNIAL PHLOX, see No. 957).

PHLOX DRUMMONDII

POLYANTHUS

A very beautiful class of hardy perennials, and distinct rich markings; prefer a cool climate, but can be grown in the coastal districts in Spring. The seed should be sown in Autumn.

963 **Floors Castle**. Mixed. Superb gold-laced flowers. Height, 6 inches. 1/- per packet.

964 **Grandiflora**. Mixed. Excellent quality. 6d. per packet.

PORTULACA

Portulacas are particularly well adapted to our climate, and flower magnificently in the warmest situation; colours are most beautiful; suitable for vases or rock work; very dwarf; of a trailing habit; hardy annuals. Sow Spring and Summer. Do well in any ordinary soil.

994 **Grandiflora**. Double; beautiful free-flowering, large size, mixed. 6d. pkt.

998 **Grandiflora**. Single; mixed. 3d. pkt.

POTENTILLA

6d. per pkt.

Handsome herbaceous perennials. They keep in flower a long time; both double and single varieties. Sow during Autumn and Spring. Height, 12 inches.

1012 **Finest Mixed**. Colors are shades of red, yellow and brown, some striped.

PRIMULA SINENSIS

2/6 per pkt.

CHINESE PRIMROSE

Beautiful tender perennial, suitable only for pot culture. Seedlings raised in pots in the Autumn should, as soon as the plants are fit, be transplanted; pot them off into small pots, and place them in a frame or bush-house, and as soon as they are again well rooted, they should be shifted into blooming pots. Sow in Autumn.

1015 **Fimbriata**, **Finest Mixed**. Lovely shades.

PRIMULA MALACOIDES

Suitable for bedding. Sow in Autumn.

1023 **Pale Lavender**. 6d. per packet.

1023a **Superba**. Improved variety; deep lavender. 1/6 per packet.

1023b **Pink Beauty**. Pink. 1/6 per pkt.

1023c **Double White**. 1/6 per packet.

1023d **Snow Queen**. Improved white. 1/6 per packet

PRIMULA OBCONICA

1024 **Finest Mixed**. A very beautiful flowering variety, excellent pot plant; requires similar treatment to *Primula Sinensis*. 1/- packet.

PRIMULA

1025 **Vulgaris** (English Primrose). 6d. pkt.

1026 **Kewensis**. Decorative; flowers golden yellow. 1/6 per packet.

PUERARIA THUNBERGIANA

(See Japanese Kudzu Vine, page 25)

PYRETHRUM

6d. per pkt.

1027 **Aureum**. Effective as a carpet bedding. Sow in Spring. Height, 9 inches.

1028 **Aureum Cristatum**. Only grown for its foliage.

1029 **Selaginoides**. Distinct and handsome for carpet bedding.

1030 **Roseum Hybridum Grandiflorum**. Quite distinct; single and double flowers, produced on long, wiry stems. Suitable for colder districts; 18 inches high. 1/- per packet.

RANUNCULUS

6d. per pkt.

Roots or tubers of the above can be obtained in February and March. (See Bulb List).

1034 **Asiaticus Superbissimus**. Producing flowers of great variety of color same season seeds are sown. Seeds should be sown early Autumn.

RHODANTHE

EVERLASTING

6d. per pkt

One of the choicest of early flowering everlastings; we cannot too highly recommend it. Should be in every garden. *Maculata* is particularly beautiful for bouquets. Half-hardy annuals Sow in Spring. Height, 12 inches.

1036 **Maculata**. Beautiful rosy pink.

1037 **Maculata Alba**. Pure white.

1038 **Manglesi Major**. Large, bright pink.

RICINUS

CASTOR OIL PLANT

6d. per pkt.

1041 **Gibsoni**. Large, handsome, purple foliaged plant. Hardy annual. Sow the seed in the Spring or Summer; 4 to 5 feet in height.

1042 **Zanzibariensis**. A highly ornamental variety; immense leaves, measuring 2 to 2½ feet across. Biennials. Sow in Spring.

PHLOX

Drummondii

967 **Grandiflora**. **Finest Mixed**. Lovely large-flowered variety, with beautiful markings; finest mixed strain in cultivation. 3d. and 6d. pkt.

968 **Grandiflora Alba**. Single white; very pretty and free blooming.

969 **Grandiflora Dark Purple**. Beautiful rich color.

970 **Grandiflora, Scarlet**. Most brilliant color.

971 **Grandiflora, Red, White, Striped**. Very effective.

972 **Grandiflora Stellata Splendens**. Crimson with white centre.

973 **Alba Oculata Superba**. Pure white flowers, with carmine red eye.

975 **Cuspidata**. Distinct class, with long winged and fringed petals, commonly known as "Star Phlox"; attractive. 6d. packet.

977 **Nana Compacta**. A beautiful dwarf variety with a profusion of exquisite flowers; bush-like habit. 6d. per packet.

979 **Cecily**. Large-flowered and dwarf. 6d. per packet.

980 **Salmon Pink**. A fascinating shade of this popular hardy annual; a color much sought after. 6d. pkt.

POPPY

PAPAVER

6d. and 3d. per pkt.

SEE ALSO NOVELTY PAGES

The Single Shirley, Iceland and Tulip Poppies are charming, easily cultivated, like plenty of room; plant in clumps. Hardy annuals. Sow during Autumn and Spring. Height, 18 to 24 inches.

880 **Glaucum** (Tulip Poppy). Dwarf, vivid scarlet. Very charming, free blooming.

881 **Danebrog** (Danish Flag). Bright scarlet, blotched silvery white.

882 **The Shirley**. Single and semi-double, charming shades of pink, rose-margined and veined.

882a **Queen Shirley**. Charming colors of flesh, salmon, orange and various shades of rose and carmine; double. 6d. per packet.

883 **Snowdrift**. Flowers are a glistening white mass; 3 feet.

884 **Umbrosum**. Deep crimson, black spot at base of petal. 18 inches.

885 **The Bride**. Pure white, large size.

886 **Miss Sherwood**. Single flowers of shiny, satiny white. 6d. per pkt.

887 **Alpinum**. Mixed. 6d. per packet.

889 **Cardinal Nanum** (mixed). 18 inches; large double flowers. 6d. per pkt.

894 **Nudicaule** (mixed). Contains all shades of the "Iceland Poppy." 6d. per packet.

895 **Oriental**. Dark scarlet, peculiarly blotched with black; perennial. 6d. per packet.

896 **Mikado**. Double, pure white and scarlet.

897 **Ranunculus Flowered**. Beautiful double, various.

899 **Double French**. Exceedingly showy.

900 **The Admiral**. Large, white flowers, with band of brilliant scarlet. 6d. per packet.

904 **Hansa**. Pure white ground, finely fringed crimson edge. 6d. per pkt.

906 **Pilosum**. Perennial. Fine large buff yellow flower.

ROCKET or DAME'S VIOLET

6d. per pkt.

- 1044 Sweet; fragrant flowers, purple and white; profuse bloomer; hardy perennial. Sow Autumn or Spring.

ROMNEYA

CALIFORNIAN TREE POPPY

1/- per pkt.

- 1045 Coulteri. Pure white flowers, 4 to 5 inches in diameter, with delicate perfume.

RUDBECKIA

6d. per pkt.

- 1050 Bicolor Superba. Large flowered, yellow, with large dark spots; very fine variety; height, 2 feet.

- 1051 Neumanni. Vivid yellow; dwarf; very floriferous and constant bloomer.

SAINTPAULIA

2/6 per pkt.

- 1054 Ioantha. Fleshy leaves of a beautiful dark green; flowers clear blue, violet tint, shading to yellow. Sow in Spring.

SALVIA

6d. and 1/- per pkt.

Half-hardy biennials. Sow in Spring.

- 1056 Splendens Grandiflora. Scarlet; very showy.

- 1057 Ingenieur Clavenad. An improved Splendens; flower spikes large, fiery scarlet.

- 1058 Argentea. Silvery; flowers pinkish white.

- 1059 Patens. Intense bright blue. 1/- per packet.

- 1060 Farinacea. Hardy perennial; suitable for bedding; sky blue.

- 1061 Bonfire. Dwarf and bushy, covered with erect spikes of scarlet flowers. A beautiful dwarf variety.

- 1062 Splendens—"Harbinger." The plants are dwarf and compact in habit. Rich scarlet. 1/- per packet.

SCABIOSA

MOORING BRIDE

3d. and 6d. per pkt.

- 1065 Finest Dwarf Double Mixed. Red, white, lilac and purple. Sow Autumn or Spring. Height, 18in.

- 1067 Caucasica. Soft lilac blue. 6d. pkt.

- 1068 Maxima. A much improved strain, annual, large double flowers; mixed. Height, 2 feet.

- 1069 Azure Fairy. Lavender blue, quite distinct. 6d. per packet.

- 1069a Peach Blossom. Is a delightful shade of pink. 6d. per packet.

- 1069b Shasta. Large pure white flowers. 6d. per packet.

SCHIZANTHUS

6d. per pkt.

Hardy annuals, requiring a sheltered situation, well suited for pot culture; handsome foliage, and bearing thousands of butterfly-like blossoms. Sow during Autumn and Spring. 24 inches, except dwarf variety.

- 1070 Grahami. Beautiful red and shades.

- 1072 Pinnatus. Beautiful bright blue.

- 1074 Pyramidalis (Tom Thumb). 10in. Various colors; pyramidal.

- 1075 Wisetonensis Hybrids. Superb strain, excellent as a pot plant.

- 1076 Grandiflora Maxima Hybrids. Extra choice strain. 1/- per packet.

SENSITIVE PLANT

6d. per pkt.

A tender annual for bush-house culture; when touched its leaves close and droop. Sow in Spring. Height, 18 inches.

- 1079 Mimosa Pudica. Very pretty foliage

SESBANIA

BRAZILIAN GLORY PEA

1/- per pkt

- 1079a Tripetii. A perennial flowering shrub; very showy and produced in bunches, free flowering; grows 6 to 8 feet. Flowers orange scarlet in color. Sow in Spring.

SIDALCEA

1/- per pkt.

- 1079b Rose Queen. Perennial plant, producing spikes 5 to 6 feet high; rose-colored flowers. Sow in Autumn.

SHASTA DAISY

(See Chrysanthemum Leucanthemum)

SILENE

6d. per pkt.

- 1080 Pendula. Single, bright, rosy red. 18in.

- 1081 Compacta Rosea. Double dwarf, bright rose. 6 inches. Sow Autumn or Spring.

SALPIGLOSSIS

3d. and 6d. per packet

Showy annuals, richly coloured, veined and mottled blossoms. Likes rich light soil. Sow Autumn and Spring. Height, 18 inches.

- 1088 Variabilis Grandiflora Superbissima. A superior strain. Height, 2 feet.

STATICE

6d. per pkt.

The flowers are excellent for cutting and for mixing with others, and well adapted for drying as everlasting. Sow in Spring.

- 1096 Sinuata, Pink. Hardy annual; used largely for floral work.

- 1097 Sinuata, Blue. Hardy annual; used largely for floral work.

- 1097a Sinuata, Lavender. Charming lavender.

- 1098 Perennial Variety. Mixed. A useful plant.

- 1099 Caspia (Latifolia type). 1/- packet.

STOKESIA

STOKES ASTER

Hardy perennial of great value; herbaceous in character. Sow in Autumn and Spring.

- 1125 Purple. 6d. per packet.

STREPTOCARPUS

2/6 per pkt.

- 1125a Single Hybrids. Sow seed under glass. Suitable only for green or bush-house cultivation.

SUNFLOWER

(See HELIANTHUS)

SWEET WILLIAM

(See DIANTHUS BARBATUS)

TACSONIA

1/- per pkt.

- 1126 Mollissima. This beautiful evergreen climber produces long, tubular-shaped pink flowers, followed by edible fruit known as "Banana" Passion Fruit. Sow seed in Spring.

TAGETES

6d. per pkt.

- 1128 Signata Pumila. Bears an abundance of bright orange-yellow flowers.

THALICTRUM

6d. per pkt.

- 1129 Adiantifolium. Herbaceous perennial; resembles maiden-hair fern.

- 1129a Dipterocarpum (The Lavender Shower-Bush). Herbaceous; small, lavender-colored flowers. Sow Autumn and Spring.

THUNBERGIA

6d. per pkt.

Half-hardy climbing annual; grows rapidly. Sow in Spring. Height, 36 inches.

- 1130 Choicest Mixed. Flowers brilliant and various colors.

TITHONIA

6d. per pkt.

- 1131 Speciosa. Known as Mexican Sunflower. Sow in Spring and Summer. Bright orange. Height, 5 feet.

TORENIA

1/- per pkt.

An ornamental pot plant, perennial; suitable for bedding in sheltered positions. Height, 12 inches.

- 1133 Baillona. Flowers yellow, brownish red throat.

- 1134 Fournieri Grandiflora. Large purple and white flowers.

TROPÆOLUM

6d. per pkt.

- 1135 Canariensis (Canary Creeper). Foliage delicate; flowers golden.

VERBENA

6d. per pkt.

One of the most useful bedding plants; very hardy. Sow in Autumn and Spring.

- 1140 Mammoth Hybrid. Mixed; extra large flowers.

- 1141 Auricula Flowered. Mixed colors; 6 inches.

- 1142 Coccinea. Beautiful glowing scarlet; very fine. 6 inches.

- 1143 Italian Striped. Handsomely striped.

- 1144 Coerulea. Shades of blue; contrasts well; effective.

- 1145 Candidissima. Beautiful pure white; large trusses of flowers.

- 1146 Lucifer. Brilliant scarlet.

- 1147 Lutea. Pale yellow.

- 1148 Mayflower. Pink, self.

- 1149 Royal Bouquet (Upright). Auricula eyed type. Mixed.

- 1149a Blue shades.

VERBASCUM

NEW DWARF HYBRIDS

6d. per pkt.

Charming low-growing plants, sending up many spikes of pretty flowers of various colours; excellent for cutting; perennial. Sow Autumn and Spring.

VIOLET

6d. per pkt.

- 1150 Odorata (Sweet Violet). Very hardy; perennial; 6 inches.

- 1151 The Czar. Very large; fragrant; great improvement on old variety; purple. 6 inches.

- 1152 Alba. Pretty, white; distinct. 6in.

VIRGINIAN STOCK

3d. per pkt.

Very dwarf, free-blooming, hardy annual; very effective for edgings. Sow the seed in the Autumn and Spring.

- 1157 Red. Good rich color. 6 inches.

- 1158 White. Fine pure white. 6 inches.

VISCARIA

- 1159 Dwarf White. 6d. per packet.

- 1159a Firefly Red. 6d. per packet.

- 1159b Azure Blue. 6d. per packet.

WALLFLOWER

3d. and 6d. per packet

- 1160 Blood Red Single. The old favourite, distinct.

- 1161 Choicest Mixed. Single; colors from blood red to pale yellow.

- 1162 Cloth of Gold. Distinct rich golden yellow.

- 1164 Ruby Gem. Single; a most brilliant flower, beautiful ruby violet; flowers extra large.

- 1165 Early Single. An annual wallflower, beautifully sweet-scented. 6d. pkt.

- 1166 Double Mixed. Grand strain; choicest double, all colors; most beautiful. 6d. per packet.

WHITLAVIA

6d. per pkt.

- 1171 Grandiflora. Bright blue; pretty and striking. 6 inches.

- 1172 Gloxinoides. White and blue; showy. 6 inches.

ZINNIA

(See Page 19)

Anderson's Sweet Peas for 1929

NOVELTY

Sweet Peas

- "QUEENSLAND DAWN"** (Allan)
(Novelty 1929).—A very fine, large waved variety. Beautiful lavender pink in color. Fine show bloom, similar in type to "Betty Fielding." Quite up to the high standard of the "Allan" strain of Early Flowering Spencer Sweet Peas. 1/6 per pkt.
- EARLY ROSE QUEEN** (Novelty 1929).—A beautiful shade of rose pink. Champion Pea at Chatswood Sweet Pea Show, 1928. 1/6 per pkt.
- EARLY GIANT ROSE**—A bright rose-pink, most attractive. Flowers very large, borne on long stems. 1/6 pkt.
- EARLY BRIGHTLIGHT**—Described as being absolutely sunproof. Color, intense flaming scarlet. 1/6 per pkt.
- "ELFIN" MID-VIOLET FLUSH**—A beautiful shade between pale and deep violet flush. 1/6 per packet.
- "ELFIN" DEEP BLUE FLAKE**—A companion of Pale Blue Flake, free flowerer, produces many "fours." 1/6 per packet.
- "ELFIN" CRIMSON PICOTEE**—White ground edged with crimson. 1/6 pkt.

Special Mixtures

- "Anderson's" Special Strain.** 6d., 1/- and 2/6 per packet.
- "Motte" Strain.** 6d., 1/- and 2/6 pkt.
- "Allan" Strain** (extra choice). 1/- and 2/6 per packet.
- "Elfin" Strain.** 1/- per packet.

Ornamental Grasses

- Agrostis Nebulosa (Fairy Grass)
Avena Sterillis (Animated Oat)
Briza Maxima (Quaking Grass)
Eragrostis Elegans (Love Grass)
Erianthus Ravennae (Silvery Plumes)
Eulalia Japonica.
Hordeum Jubatum (Squirrel Tail)
Lagurus Ovatus (Hare's Tail Grass)
Pennisetum Rupellianum.
Stipa Elegantissima (Emu Grass)
Stipa Pennata (Feather Grass)
Tricholena Rosea.
Zea Japonica Variegata (Striped Maize)
Packets of above Ornamental Grasses, separate kinds, or in Mixture, 6d. each.

COLLECTIONS Named Sorts

- 6 Beautiful Varieties . . . 2/-
8 Beautiful Varieties . . . 3/3
12 Beautiful Varieties . . . 4/6

Early Flowering Sweet Peas

WHITES

- Kosciusko. Pure white.
Daisy Motte. Large waved flowers.
Doris Hamilton. Very hardy; splendid for cutting.
Charm. White, tinged light heliotrope.

WHITE, EDGED PINK

- Phoebe. Pink edge, very dainty.
Daybreak. Creamy white, faint rose edging.

BLUES

- Blue Butterfly (Allan). Large waved flower, light blue, darkens when fully expanded.
Prince. Dark blue.
Moonstone. Pale blue.

SHADES OF BLUE

- Dunmore Lavender (Allan). True Spencer.
Blanche. Lavender, shaded pink.
Albury Lavender. Large and well waved.
Motte's Purple. Very distinct.
Early Warbler. Rich mauve purple, extra large. Splendid form.
Concord Purple. Rich in color.
Sylvia. Pale mauve.
Winsome. Lavender, shaded pink.
Mauve (Motte). Deep mauve.

REDS, AND SHADES OF RED

- Maid Marion No. 1 (Allan). Carmine red.
Leonore. Rich claret.
Pauline. Deep crimson.
Crimson (Motte). Very fine.
Albury Carmine. Deep rich color.
Thalia Motte. Glowing crimson.
Cerise (Motte). Vigorous grower.
Dunmore Fire Flame (Allan). Sun-proof crimson.
Dunmore Magenta (Allan). A magnificent flower.
Servian Prince. Cerise or carmine red.

ORANGE

- Glorious. Salmon orange.
Albury Beauty (Motte). Orange pink.

The varieties offered in the above classified list can be supplied at 6d. per packet; 8 packets, 3/6; 12 packets, 5/-; 24 packets, 9/-. Post Free.

The various Australian and other growers are represented in the above list. In many instances we have indicated the names of the originators, as we know that some amateurs prefer certain strains.

Spring and Summer Flowering Spencer Sweet Peas.

Collections of these popular kinds of Flowering Spencers can be obtained in sets of six distinct varieties for 2/6; 12 for 4/6; 18 for 6/9; 20 for 8/6

Spring and Summer Flowering Mixture

Containing all true Spencer types.
6d. and 1/- per packet; 2/- per oz.

Anderson's Rainbow Mixture.

A superb assortment of English and American tall-growing varieties. 3d. and 6d. per packet. 1/- per oz

Anderson's "Gem" Collection

CHOICE FLOWER SEEDS

Every year sees an increase in the popularity of our "Gem" collection of flower seeds. Amateur gardeners have grown to realise the excellent value these collections contain. We supply twelve packets of choice Annuals, Biennials and Perennials, priced at 3d. each in our General List, in whatever varieties our customers may choose.

Post—2/6—Free.

SWEET PEA CULTURE

We recommend the useful brochure specially written by W. H. Ifould dealing comprehensively with Sweet Pea culture.

6d. per copy. Post free.

PINKS

- Early Melody. Light pink.
Exquisite. Rich creamy pink.
Wilmot (Allan). Bright rose pink.
Phyllis. Mauve pink, very pretty.
Maude. Light pink.
Marie Cheslyn (Motte). Pale cream pink, salmon shadings.
Mrs. May Hassett (Motte). Deep cream pink, well waved.
Champagne (Motte). Delicate shade.
Shell Pink (Motte). Beautiful clear pink; very distinct.
Yarrowa. Pink.
Californian Dark Rose. A fine type.
Californian Deep Pink. Charming color.
Dunmore Pink Blush (Allan). Pink shades.

Countess Improved. Light pink, deeper at edge.

MAROONS

- Dunmore Maroon (Allan). Immense flowers.
Esther. A very beautiful flower.
Albury Maroon (Motte). Great substance.
Motte's Plum. Purple maroon.
Laura. Purple wings, maroon standard.

CREAMS AND YELLOWS

- Beauty of Toowong (Allan). Cream flushed apricot, rose pink edging.
Pianola (Motte). Apricot, marked carmine rose.
Aglala Motte. Deep cream, large.
Dorothy. Primrose or cream.
Picotee. Cream ground, edged carmine.

FLAKES

- Crimson Flake. White ground, good form, superior type.
Carmine Flake (Allan). Carmine ground.
Donald J. Coghill (Motte). White ground, rose-colored flake.
Grey Flake (Motte). Chocolate on grey.

BICOLOR

- Haidie Motte. Large pink, bicolor.

Ornamental Gourds

6d. per pkt. **CULTURE**—Same as Cucumber or Marrow.

NEST EGG GOURD—Suitable for trellis or verandah; fruit the size, shape and color of the ordinary hen's egg.

DISH-CLOTH GOURD (Loofa or Vegetable Sponge)—Fruit about 2 feet in length; the lining of the ripe fruit, when properly dried, is most useful in the bath as a flesh-rubber.

CALABASH GOURD—Ornamental, hardy climbing plant. The fruit, when dried, is used in the manufacture of pipes.

KNOB KERRI GOURD—Very unique looking fruit, long thin tube 3 ft., with round knob at end.

MIXED ORNAMENTAL GOURDS—A mixture of all the best sorts.

Anderson's Selected Farm Seeds

Our
Farm Seeds
are
"Always the Best"

All Farm Seeds offered by us are specially selected and re-cleaned and machine-dressed at our warehouse. All impurities are thus eliminated and customers are assured of receiving only seeds of that high-class standard for which we have been noted for upwards of sixty-four years.

RAILWAY REGULATION

The attention of our customers is drawn to the fact that parcels under 14 lbs. in weight cannot be despatched by goods train.

MANGEL WURZEL

Mangold

1/6 per lb., or 2/- post free.

No dairy farmer should be without a few acres of this most valuable root crop. It greatly adds to the quality of milk, and roots can be stored for many months if required. It is useful also for feeding cows and pigs. The Long Red and Yellow Globe are the varieties most esteemed.

MAMMOTH LONG RED—Best variety for deep, well-worked, rich land.

YELLOW INTERMEDIATE—Excellent for deep, rich, strong land.

CHAMPION YELLOW GLOBE—Most suitable shallow soils; keeps well.

HALF LONG SUGAR, WHITE.

HALF LONG SUGAR, PINK.

CULTURAL NOTES

Good, strong, and deeply worked soil will produce the heaviest crops; the land should be ploughed deeply twice, scarified, rolled and harrowed lightly. Sow in drills four feet apart, and thin to 12 to 18 inches between each plant; 3 to 4 lb. of seed is sufficient for an acre, and soaking the seed in warm water for 24 hours will hasten germination. January to March, also in the Spring, are the best months to sow.

SWEDE AND FIELD TURNIPS

Price 2/- per lb., or 2/6 post free.

CULTURAL NOTES

Any rich, strong land, if well ploughed, harrowed and rolled, will produce fine turnips. The best time to sow Swedes is January or February, although some prefer an earlier or later sowing. Sow in drills 4 feet apart, and thin the plants to 18 inches apart; 2 to 3 lb. of seed will sow an acre.

The Aberdeen and White Pomeranian can be sown a few weeks later.

ANDERSON'S IMPERIAL PURPLE TOP SWEDE—Splendid heavy Swede; fine shape; excellent quality, and keeps well.

SKIRVING'S PURPLE TOP SWEDE—Heavy cropper, and a well-known variety.

EAST LOTHIAN PURPLE TOP SWEDE—Hardy, and a good keeper.

SUTTON'S CHAMPION PURPLE TOP SWEDE—Fine shape and heavy cropper.

EMPEROR GREEN TOP SWEDE—Good size, and a fine keeping variety.

The following are suitable for the colder districts:—

PURPLE TOP YELLOW ABERDEEN—Large, good quality.

GREEN TOP YELLOW ABERDEEN—Hardy, good keeper.

WHITE POMERANIAN GLOBE—Large, and very useful.

17 TONS OF SWEDE from 2 lbs. SEED

"From 2 lb. seed (Anderson's Imperial Purple Top Swede) 1 received from you I grew one of the finest crops of swedes that has been grown about this district. They harvested about 17 tons of the finest eating swedes."—Extract from letter received from F.C.Y., Cobargo, South Coast.

Sheep Burnet

1/6 per lb. Special price for large lots.
CULTURAL NOTES

This valuable forage plant is a perennial, and is specially adapted for poor, arid soils which would not grow lucerne. It produces most nutritious feed for sheep and cattle. It has a long tap root, which penetrates so deeply into the soil that it is enabled to resist the most severe droughts. Burnet can be grown alone, or with grass seed for hay or pasture. Sow in March and April; broadcast at the rate of 12 to 15 lb. per acre; 5 to 6 lb. when mixed with grass seed.

BEANS

Soja or Soy Bean

Price on application.
CULTURAL NOTES

This plant makes fine green fodder for stock, cut when in flower; it also makes excellent hay, of which stock are very fond. The main use for Soy Beans is as green manure or soil crop for which purpose it is very highly esteemed in the cooler areas. Also recommended as a rotation crop, especially in the tableland districts. Special attention is drawn to this valuable fodder and soil improving crop by the N.S.W. Department of Agriculture, and leaflets are available on application. Although Soy Beans have been under cultivation in a small way for many years in N.S.W., its advantages as a hay, fodder or rotation crop have not been fully appreciated. Farmers are strongly advised to become interested in its valuable properties. In the United States very large areas are devoted to growing Soy Beans for use on the lines recommended above. Sow in drills at the rate of 12 lb. per acre. If broadcasted say 20 to 30 lb. per acre. Sow from October to January.

Florida Velvet Bean

Price on application.

It is claimed for this Bean that it is one of the best land fertilisers which can be grown. It is a nitrogenous plant; enriching the ground in a wonderful manner; stock are also fond of it, either as green fodder or when matured.

CULTURAL NOTES

Sow in Spring in hills 4 feet apart, and the same distance between the rows, two or three Beans in each drill; 15 to 20 lb. will sow an acre.

Horse Bean

Price on application.
CULTURAL NOTES

The land for this crop should be deeply ploughed and well worked; a good strong soil, or even clay, is preferable to light or sandy soil. April is the best month to sow, but later sowing can also be made during May, June or July. One bushel will sow an acre in drills 2 to 3 feet apart.

Sugar Beet

Price, 2/6 per lb.

VILMORIN'S IMPROVED, WHITE
This root crop makes an excellent food for dairy cattle and pigs, and yields heavily.

CULTURAL NOTES

The cultivation is much the same as that of Mangel Wurzel, but the plants should stand closer in the rows.

Cattle Cabbage

Price, 4/6 per lb., post free.
ROBINSON'S CHAMPION OX
CULTURAL NOTES

Sow in June in seed beds of poor soil to furnish plants for transplanting into the field in August and September. Another sowing may also be made in January or February, but June is the best month to sow for large field cabbage required during winter and early Spring for cattle or pig food. Four ounces of seed will give plants for one acre. Land must be strong, rich, and well worked; and horse, cow, or pig manure can be used in large quantities.

Buckwheat

Price, 12/6 per bushel.

CULTURAL NOTES

A splendid quick-growing fodder plant, which can be sown in succession from the end of September to March, and will produce a heavy crop in a few weeks, provided the weather is favourable; it will be killed by frost. Buckwheat also makes excellent flour, used for cakes. It is also grown for green manure, to be ploughed in, which greatly increases the fertility of the soil. Bees are very much attracted to the flowers of the Buckwheat, which are highly honey-producing. Poultry are also very fond of the seed, and the straw, after threshing, is valuable for pig food. Prefers alluvial soil, but will succeed on any average land, well drained and well worked; sow the seed, and then lightly roll the surface. Sow 4 to 5 pecks broadcast, and 1 to 2 pecks in drills, per acre.

Field Carrot

Price, 3/6 per lb., post free.

LONG RED SURREY

LARGE RED ALTRINGHAM

WHITE BELGIAN

CULTURAL NOTES

Valuable root crop; prefers land of a light loamy or sandy description, deeply tilled. Choose land in good heart, and never use stable manure when putting in this crop. There is little trouble with the crop after it is fairly through the ground and has had a first weeding and thinning. Four pounds will sow an acre in drills. Sow during September. Another sowing may be made in February or March.

Cattle Melon

Price, 5/- per lb., post free.

If the soil is sandy and loamy and of a fair depth, it will give a heavier and more certain crop than pumpkin; excellent for cattle and pigs.

CULTURAL NOTES

Deeply dig or trench the ground, add farm-yard or artificial manure abundantly; plant in hills three or four yards apart, and sow a few seeds in each hill. September or October are the best months to sow, but late plantings may be made in favourable seasons. One pound of seed will sow an acre.

Kale

Thousand-headed

Price, 2/6 per lb., postage extra.

A valuable fodder plant for stock of every kind, yielding immense quantities of green food; grows 4 to 5 feet high, and can be fed down two, and sometimes three times during the season. Does not impoverish the land to any great extent, and does not cause lambs or sheep to scour or blow.

CULTURAL NOTES

Sow in June in seed beds of poor soil, to furnish plants for transplanting into the field in August and September. Another broadcast sowing, 5 or 6 lb. per acre, may be made in January or February, but June is the best month for sowing for winter and early spring for cattle and pig food. One pound of seed will give plants for one acre if raised in the seed beds and planted out—or sow in drills 2 to 3 lb. per acre, thinning when required. Land must be strong, rich, and well worked, and horse, cow, or pig manure can be used in large quantities. Bone dust at the rate of 3 to 4 cwt. per acre will not be a too liberal dressing where farm-yard manures are not available.

Chou Moellier

(FODDER PLANT)

Price, 4/- per lb., postage extra.

This plant belongs to the same family as the Rape, Thousand-headed Kale, and the ordinary Field Cabbage. It yields an enormous amount of feed; sometimes grows 6 feet in height. In a young state it can be fed down like Rape, or allowed to mature, and chopped or cut up, and fed to dairy stock.

Sow seed in Autumn or Spring in drills two feet apart; young plants can be thinned or transplanted, to stand 12 or 14 inches apart in the rows.

Chicory

Price, 2/6 per lb., postage extra.

Cultivated as a root crop Chicory should be grown in a similar manner to Carrots. A loamy or sandy soil is most suitable. Sow during August and September.

White Mustard

Price, 1/6 per lb., special quotation for cwt. lots.

Mustard is sometimes grown as an auxiliary forage crop. It is apt to prove too laxative when fed alone, and should, therefore, be given with caution, especially to animals that have been accustomed to dry food. We recommend the use of it with Dwarf Essex Rape, at the rate of 1 oz. of Mustard Seed to 1 lb. of Rape—the two combined forming a most excellent fodder. As a green manure, Mustard can be used with great benefit to land that is devoid of humus.

ONION

AS A FIELD CROP.

We have thousands of acres of suitable land in this State to produce all the Onions we require. Given a good season, the returns are large, and it is seldom that rates ruling in Sydney market fall below a good payable price.

CULTURAL NOTES

The soil can hardly be too rich, and should be well worked, and made solid and compact with the roller before and after sowing. Cover the seed as lightly as possible. It is best to give no other covering when pressing it with the roller, the seed being sown quite on the surface. This is necessary to secure the proper position of the bulbs above ground. When the land is likely to be weedy, drilling or sowing in rows should always be practised; and it is a good plan to drop grains of barley along the line at a foot or so apart, so that the rows may easily be distinguished and loss of plants prevented in using the hoe. The barley is, of course, pulled up as soon as it has served its purpose. To produce large sized Onions, the seeds should be sown in prepared beds in April, and when the seedlings are large enough to handle, transplant them carefully in rows 2 feet apart and 9 inches apart in the rows. The best time of the year to sow for the main crop of Onions in the colder parts of the State is August. In the coastal districts, and the warmer parts of the State, it will be advisable to sow the seed in May, June, and July, according to situation, so that the crop will have a chance to mature before the hot weather sets in.

Sow in Drills, with machine, 4 lb. seed to acre, ordinary crop; with hand, 8 lb.

Sow in Drills, with machine, 8 lb. seed for pickling onions.

Sow in Drills (open), with hand, 15 lb. seed for pickling onions.

Sow Broadcast, 20 lb. seed for pickling onions.

	Per lb.

Brown Globe	7/-
Hunter River Brown (Early)	35/-
Extra Early Flat Red	10/-
Mammoth Silver King	8/-
Silverskin Pickling	8/-

SOWING RAPE

Genuine Dwarf Essex Broad-Leaved
PRICES ON APPLICATION.

RAPE AS A GREEN CROP

For fattening sheep and lambs, Rape is one of the best rotation crops for the Australian farmer, and can be grown on any soil suitable for root crops. As an Autumn crop for sheep it is excellent, and in Australia it might be made a Winter crop in all the coastal districts. Rape is of the same botanical order as the Turnip. The leaves in their early stages resemble those of the Swede Turnip; but as they advance, a tall, branching, foliage-covered stem forms, which at once distinguishes it from the Turnip. Where sheep or lambs are fattened for market, Rape will be found to be of great assistance, and there is no better green crop for putting value on stock. It is very nutritious, much relished by sheep, yields enormously, and cannot be too highly recommended.

Cattle Pumpkin

Anderson's Mammoth, 5/- lb., post free.
Gramma, 8/6 per lb., post free.

CULTURAL NOTES

The best month to sow is October, though it is common to do so in August and September. There is no advantage in sowing before the middle of October, as a field crop; and, if the land and weather be unfavourable, sowing may be delayed until the end of November. To get heavy crops, the richer the land the better, and it should be subsoiled as well as ploughed; and if manure is applied, should be distributed near the surface, and over the whole area devoted to the crop, and dug in—not merely in the holes where the seed is sown; these should be well prepared and manured, and only 3 or 4 plants be allowed to remain in each of the hills, which should be 3 to 6 yards apart. One pound of seed will sow an acre.

Rye

COMMON

Price on application.

CULTURAL NOTES

This excellent forage plant will grow on poor or rich land; can be sown alone or with Tares; comes quickly to maturity, and yields most nutritious green fodder. It is also grown for its straw, which is straight and strong. Sow from March to July, broadcast 1 bushel per acre.

Sainfoin

ESPARCETTE

Price on application.

CULTURAL NOTES

This excellent forage plant is particularly suited to our climate, and with an occasional dressing of manure, well forked in, will maintain its vigour for eight or ten years. A rather light soil, deeply worked and well drained, is most suitable for it. Under these conditions it will yield abundantly. Sow the seed broadcast at the rate of 40 lbs. per acre. Sow March and April.

THE CULTURE OF RAPE

Land should be prepared for Rape by ploughing well during the Winter and exposing it to the action of the atmosphere; the land should then be cross-ploughed, harrowed, and worked to a fine surface by January. When sown broadcast from 5 to 7 lbs. is used per acre. Rape can also be grown for green manure, and ploughed under as soon as the plants have made a strong growth and become well rooted. For Barley and Wheat this makes an excellent manure, and it will also rest and clean the land. For sheep the seed should be drilled the same as for Turnips; sow 3 to 4 lb. per acre, and when the seed comes too thickly thin the young plants like Turnips, and cultivate the crop in similar manner. Sheep must not be turned in until the crop is full grown.

Sunflower

LARGE RUSSIAN

1/- per lb.; 1/6 post free.

CULTURAL NOTES

The seed makes an excellent poultry food, and comes to perfection in a few months. Sow August to November in drills 3 to 4 feet apart, and thin same distance between each plant; 7 lb. of seed should be sown per acre.

Tares or Vetches

LARGE BLACK AND GOLDEN

Prices on application.

CULTURAL NOTES

Valuable either for hay or green fodder. Prefers rather a strong, well-worked soil, and will even grow in clayey ground during moist seasons if it has been well manured. On average land one ploughing will be sufficient. Sow in March, April and May, with Barley or Rye.

Teosinte

EUCHLAENA LUXURIANS

6d. per pkt.; 3/6 per lb.; 4/- post free

CULTURAL NOTES

This being a tropical plant, only the warmer districts of this State and Queensland are suitable to its cultivation. It resembles Maize in appearance. When it has reached a height of 3 or 4 feet, it will, if cut for fodder, give three or four cuttings; but if allowed to grow 12 feet, cattle will eat only the tops. Sow October and November.

Tagasaste

CYTISUS PROLIFERUS

4/- per lb.; 4/6 post free.

This plant is sometimes called "Tree Lucerne," but is entirely distinct from the "Medicago" family. It is a hard-wooded tree shrub, 16 to 18 feet high. A forage plant which stock are fond of—bees are attracted by its flowers. Valuable in hot, dry districts, as it roots deeply, and is very hardy.

CULTURAL NOTES

Sow in Autumn or Spring on poor, sandy land, and thin out the plants to 10 feet apart.

Cow Pea

WHITE, BLACK AND CLAY COLORED
Prices on application.

The Cow Pea does well, and produces large crops of first-class fodder during dry seasons, and stock of every kind are particularly fond of it. It has great value as a green manure, and, like all leguminous plants, it takes nitrogen from the atmosphere and deposits it in the soil during growth.

CULTURAL NOTES

Spring is the best time to sow, and if the crop is intended for green feed, we advise sowing in drills 2½ to 3 feet wide, and thinning the plants to 1 foot apart in the drills; about 10 lb. of seed will sow an acre in this way, but for green manuring, 30 to 50 lb. should be sown broadcast, and the crop should be ploughed down just when the seeds have formed. For this purpose it can be sown during early summer.

Field Pea

Partridge or Grey } Prices on
Small and Large Blue } Application.
Dun }

Useful either for horse or pig feed. Both seed and straw are valuable.

CULTURAL NOTES

Any fair loamy strong soil, if well drained and deeply ploughed, or a sandy loam will suit this crop; and it is not necessary that land should be very rich, as a strong haulm is not desirable. The seed can either be sown in drills or broadcast. Sow in April, May or June, 1½ to 2 bushels per acre.

Peanuts

ARACHIS HYPOGEA

1/6 per lb.; 1/9 post free.

These Nuts do well in most of the warm districts of our State and in Queensland. The soil should be of a very open nature, thoroughly broken up, but not to a greater depth than 4 or 5 inches. It being desirable to keep the Nuts as near the surface as possible. Sow the Nuts in September, in drills 3 feet apart, and 9 to 12 inches between the Nuts, and about 3 inches deep; they may be planted whole at the rate of 40 lb. to the acre. It is necessary to keep the soil free from weeds until the vines have covered the ground, when the crop will need but little attention. Harvest when the vines turn yellow, and while most of the Nuts still cling to the roots. After the crop is harvested, pigs or poultry turned on to the ground will soon clear up any Nuts or remnants that may be left.

Sorghums and Millets

For Green Fodder

**Early
Orange
Sorghum**

Sudan Grass

SORGHUM VULGARIE

Sudan Grass, so called, is really a Sorghum, and is primarily used as a hay crop. It is probably the most drought-resisting hay plant known. It may be grazed, but it will not then supply the same amount of feed. Sudan Grass will thrive on land that will not grow Lucerne, and will make itself at home on almost every class of soil. These facts should be of vital interest, as it ensures a greater yield per acre than from any crop yet cultivated. If sown early, it is possible to obtain three cuts per season. Sow eight to ten pounds of seed to the acre in drills, and 20 to 25 lbs. broadcast. Sow Sudan Seed in the Spring.

EARLY ORANGE SORGHUM was introduced to New South Wales some years ago, but has never been brought into general cultivation.

It is, however, of much merit, and we are offering it with the assurance that it will become very popular. The grower from whom our supply of seed comes says no other variety of Sorghum can approach it, and that it is much superior to Saccaline. It is sweeter than other Sorghums, grows faster, and the covering of the stem, or stems, much softer than other varieties, making it a superior feed. Grows 12 to 13 feet in height, and free from disease of any kind. It resists drought well, and is a most

nutritious variety. Should be grown for green feed (after wilting), ensilage or hay. It stools freely, will stand several cuttings during the season, same as other Sorghums.

Price on application.

Sow same quantity as other Sorghums.

ANDERSON'S Spring List

We publish each Spring a Special Spring List of Maizes, Millets, Sorghums, Rape, Grasses, fully priced.

Make Sure and Send for a copy, Post Free on application.

SORGHUMS

CULTURAL NOTES

The precise time to sow the seed will depend upon the season and the district, as local and other influences must be taken into consideration—generally speaking, from September to end of January. In any case seed should not be sown until the ground is thoroughly warm. As cold, damp weather will often prevent germination and a vigorous growth after the seed has sprouted. If the crop is required for hay, it is best to sow the seed broadcast at the rate of about 35 to 50 lbs. to the acre. Should the crop be required for feeding to stock in a matured state, or for grain, the seed is best drilled in at the rate of from ten to fifteen pounds per acre. The drills should be about three feet apart.

Early Amber Cane

We strongly recommend this variety of the Sorghum family. It makes splendid feed, is very largely grown and crops early. Sow 10 to 12 lbs. per acre in rows, or up to 45 to 50 lbs. broadcast.

Planter's Friend

TRUE SOUTHERN SEED

One of the most popular of the Sorghum family, it produces enormously, and can be cut two or three times. Sow 10 to 12 lbs. per acre in drills; up to 45 to 50 lbs. broadcast.

Saccaline or Sweet Sorghum

The Sorghum of high nutritive value, and specially fine as a fodder for the coastal districts. Saccaline grows to a height of 12 feet, and springs again when cut. Sow 35 to 50 lbs. to the acre broadcast, or 10 lbs. in drills.

MILLETS

CULTURAL NOTES

In the coastal districts the seed may be put in any time during September, October, November, December, and January, but in the cooler parts October, November, and December will be found the best months to sow. The seed may be drilled or sown broadcast. Generally there is but little, if any, choice between the two methods when the crop is to be grown for green feed or cut for hay, except that the drilled-in seed usually results in a more even growth, and a little less seed is required. Where the crop is grown for grain or ensilage it is advisable to drill the seed in. By this method it takes ten pounds of seed to sow an acre, but if sown broadcast, fifteen to twenty pounds will be required for the same area.

Japanese Millet

Is of rapid growth, is drought resisting, and yields large quantities of green fodder. Sow 28 lbs. per acre broadcast, or 12 lbs. in drills.

Hungarian Millet

THE TRUE GIANT VARIETY

Is recommended as a green food, and for hay. Sow 20 lbs. per acre broadcast, 8 lbs. in drills.

Pearl Millet

This is relished by stock, but is not so valuable as some of the other varieties. 10 to 12 lbs. will sow an acre broadcast. Sow October and November.

Broom Millet

WHITE ITALIAN

Valuable only for broom-making. 6d. per lb.

JOHNSON GRASS

SORGHUM HALEPENSE

1/6 per lb.

Special Quotation for Large Parcels.

One of the best fodder plants we have for poor land, and while it is known as Johnson Grass, it is in reality a Millet. Sown largely on the poorer pasture lands, it has proved invaluable during periods of drought. It spreads rapidly, its runners sending up a shoot at every joint. For this reason it should not be sown on cultivated land or in the garden, as if once introduced it is almost impossible to eradicate it. Its remarkable adaptability to all sorts of soil, and its resistance to drought render it most valuable. It can be cut three times a year, and it will give five tons of hay per acre. The best time to cut for that purpose is when the plant comes into bloom. Sow and cover lightly 10 to 15 lbs. per acre. Sow during Spring; it will not stand frost.

Anderson's RE-CLEANED AND MACHINE DRESSED Grasses for Permanent Pastures

NOTE:—At the time of compiling this catalogue, the prices of Grasses were uncertain. We shall be pleased to forward quotations upon receipt of enquiry from our friends and customers. Our samples are all prime, re-cleaned and of a high standard of germination.

COCKSFOOT GRASS

(*Dactylis Glomerata*)

This is perhaps the most generally useful of all the introduced grasses. It produces heavy crops of feed which is greedily eaten by all kinds of stock; can be either depastured or cut for hay; grows rapidly after being cut or grazed, and will flourish on a variety of soils and situations. It is largely grown by dairy farmers and graziers, and is one of the most prized of the imported grasses in New South Wales owing to its hardy constitution and excellent fattening qualities, and it should be in every mixture. It reaches its greatest perfection in the cooler districts of the State. Two bushels to the acre.

POVERTY BAY RYE GRASS

A type of Perennial Rye Grass originating in the Poverty Bay district, in the North Island of New Zealand. Specially recommended for use in pasture mixture; seed saved from very old pastures.

ITALIAN RYE GRASS

(*Lolium Italicum*)

This is an excellent grass to grow for green fodder for dairying purposes. On rich, moist soil it will yield three or four heavy cuttings in a year. It is only a biennial. Seed bearded. Two bushels will sow an acre.

WESTERNWOLTH RYE GRASS

An improved type of Italian Rye Grass giving a heavier yield; particularly suitable for cool districts. Two bushels to the acre.

WIMMERA RYE GRASS

(*Lolium Subulatum*)

A drought resistant form of Italian Rye Grass. An annual, and has proved a very desirable addition to the pasture grasses, especially in conjunction with Subterranean Clover and others on second-class land. During the past few years it has been utilised successfully in many parts of N.S.W. and Victoria, both for pasture and hay purposes. Seed is not plentiful at present. Price on application.

PERENNIAL RYE GRASS

(*Lolium Perenne*)

An excellent pasture grass; produces an abundance of fibrous roots; starts very early in Spring. Possesses most nutritious qualities, and is relished by all kinds of stock. It bears depasturing well, and will succeed in any average soil. In the cooler districts of the State it thrives admirably, and yields surprising results. Samples of Rye Grass Seed differ so very much in quality that great care on the part of the purchaser is necessary. Seed from old pastures should be insisted on; none other is permanent. Two bushels will sow an acre.

KENTUCKY BLUE GRASS

Or Smooth-Stalk Meadow Grass
(*Poa Pratensis*)

A good pasture grass; suits the coast and cool districts, and will thrive in poor land. It forms a thick turf, and prefers sandy loam. Should form a portion of all pasture grass mixture; is one of the very best herbage grasses in cultivation.

CRESTED DOGSTAIL GRASS

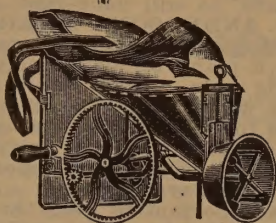

(*Cynosurus Cristatus*)

A valuable grass for sheep pastures, forms a compact turf, deep rooting, capable of resisting drought. Good lawn grass, but not strong growing enough for cutting as fodder. Its chief value is for permanent pastures.

PRAIRIE GRASS

(*Bromus Unioloides*)

A very fine, rapid-growing grass, which yields a large amount of herbage during the Autumn and Winter months. It seeds very freely, and soon spreads by self-sowing. A nutritious fodder and pasture grass, one of the most valuable we possess. In rich land it will produce very heavy crops of the richest forage, and will afford five or six cuttings in the year. As a pasture grass it is first-class, being even richer in nutritious properties than the much-valued Perennial Rye Grass. It will give the best results in rich, moist land, but will do fairly well on any soil, and should form part of all pasture mixtures. Two bushels will sow an acre.

"CAHOON"

Broadcast Seed Sower

This broadcast seed-sower is an excellent machine for sowing Clover, Millet, Lucerne, Grasses, etc. It is strongly constructed and economical in use. As an investment it will repay for itself many times over in a very short while.

Price 28/-

Carriage and Packing Extra.

COUCH GRASS

(*Cynodon Dactylon*)

Bermuda Grass of America
Doob Grass of India

In dry seasons this grass is invaluable. It is esteemed as a pasture grass for its nutritious and flesh-forming properties. It will grow during the hot months of Summer, and start into fresh green growths after rain. Its long succulent roots soon cover the surface of the land, rooting at every point. It is a Summer and Autumn grass, and has no rival in dry, hot seasons. For a lawn or bowling green this is without doubt the most suitable grass for the coastal and warmer districts, and if kept well watered and cut, it will produce a beautiful green carpet during the hottest weather. Sow 10lb. per acre.

CHEWINGS FESCUE

A variety of Hard Fescue (*Festuca Duriuscula*), which originated in New Zealand. An exceedingly useful and hardy variety; a great drought resister.

MEADOW FESCUE

(*Festuca Pratensis*)

A valuable grass for permanent pastures on all good but not too dry soils. Its leaves are succulent and tender, and it never forms rank turfs.

HARD FESCUE

(*Festuca Duriuscula*)

A variety of Sheep's Fescue, somewhat taller, and a good pasture grass for soil of sandy or light nature. It will not grow well on heavy land; a productive and nutritious grass.

SHEEP'S FESCUE

(*Festuca Ovina*)

A very hardy pasture grass, most suitable for sowing on the tablelands of the State; thrives on any average soil, and will even grow luxuriantly on poor land. It stands dry seasons fairly well; relished by stock; suitable lawn grass for cooler districts.

TALL FESCUE

(*Festuca Elatior*)

Productive and vigorous growing variety; much relished either as a pasture or hay. Strong and moist soils are suitable for its growth.

TALL OAT GRASS

(*Avena Elatior*)

A grass that will grow on almost any soil—it is recommended to be sown with other grasses in mixture for hay or pasture.

ROUGH-STALKED MEADOW GRASS

(*Poa Trivialis*)

Suitable for pastures, and much relished by stock. All these meadow grasses prefer light soil, and may be sown at any time during the Autumn or Spring, when the soil is in suitable condition and the weather favourable.

EVERGREEN MEADOW GRASS

(*Poa Sempervirens*)

One of the most valuable of the Poas. Very suitable for cooler districts.

WOOD MEADOW GRASS

(*Poa Nemoralis*)

A fine grass for sowing on natural pastures in country shaded by timber; it will also grow well in open country. Very nutritious, though not remarkable for abundance of yield. Desirable grass for pasture mixtures.

SWEET-SCENTED VERNAL GRASS

(*Anthoxanthum Odoratum*)

This perennial grass is liked on account of the perfume it imparts to meadow hay. As it starts early, it is a useful grass in pastures where the land is of a moist character. A pound or two should be added to all permanent pasture mixtures.

PHALARIS BULBOSA

The Great Winter Grass

This wonderful Fodder plant is adapted to almost any part of the State except in the far Western districts, although on the Irrigation Areas (Murrumbidgee) it has done remarkably well.

Phalaris is essentially a Winter grass, and it is in the colder regions of the State, such as Glen Innes, Guyra, Ben Lomond, that it has proved such a wonderful success.

In some of the districts the areas under Phalaris have been considerably increased of recent years. In some instances the seed is sown alone at from 2 to 6 lb. per acre, in other instances it has been sown along with other grasses, such as Cocksfoot, Rye, Fescue, Clovers, using from 1 to 2 lb. of Phalaris per acre, according to fancy.

The seed should be sown as early in the Autumn as possible to enable the grass to become thoroughly established before the Winter. It is also possible to increase the area under Phalaris by division of roots and transplanting.

Phalaris is a rapid grower and attaining a height of 7 to 8 feet makes excellent hay, yielding 8 tons per acre.

During the growing season the herbage is very rich and good.

Special leaflet with Prices on application.

PHALARIS BULBOSA

GRASSES—continued

Wallaby Grass

Danthona Semiannularis

A valuable forage grass that adapts itself to almost any condition of soil or climate, and is recommended for systematic cultivation.

Rhodes Grass

Chloris Gayana

1/6 per lb. Special Price for large quantities.

This famous Grass has now fully established itself, and is recognised as a most valuable fodder grass. Sow seed in the Spring, and during Summer; 1lb. to 2lb. of seed will sow an acre.

Paspalum Compression

Known as Carpet Grass; eminently suitable for lawns. Dwarf, compact habit, easily cut with lawn mower.

Paspalum Dilatatum

The Great Dairying Grass

Price on application.

FINEST STRONG-GROWING SEED. This Grass has proved a great success in the Northern River district, and is particularly suitable for pasturing dairy cattle. It luxuriates under sub-tropical influences. It stands dry, hot weather admirably, yields a large quantity of herbage, and will soon spread. The seed should be sown at the rate of 2lb. per acre, mixed with other grasses, or 6lb. per acre sown alone. The best time for sowing is in Spring and early Summer.

Timothy or Catstail Grass

Phleum Pratense

A very productive and nutritious grass, suitable for hay, green fodder, or as one of the grasses in permanent pasture mixtures. In rich soil it yields enormous crops of fodder, while in poor soil it is also productive, sown with other grasses for grazing, when its luxuriant character will be assured, as it readily accommodates itself to circumstances. Sow in Autumn and Spring.

Meadow Foxtail

Alopecurus Pratensis

One of the earliest and best pasture grasses. Its dwarf spreading habit renders it valuable for grazing purposes. It does not come to maturity until the second year after sowing, and should, therefore, only be used in permanent pasture mixtures.

Native Grasses

MITCHELL GRASS (*Astrelba Triticoides*). 7/6 per lb.

This perennial grass is found on rich soil all over the interior, but no where in large quantities. Under good cultivation, it yields a very large amount of rich succulent herbage, stock being very fond of it.

BLUE GRASS (*Andropogon Sericeus*). 7/6 per lb.

A splendid and valuable pasture grass, and makes considerable growth during Winter, and is thus doubly valuable to the grazier. During the Summer it yields a rich, leafy, bottom herbage, of which sheep are particularly fond, and fatten well on it. Stands close feeding, and makes capital hay.

Australian Salt Bush Seeds

Prices on application.

The Salt Bush is a wonderful plant, and enjoys a great reputation amongst stockmen in the arid districts of the Central Plains. The kinds enumerated below will withstand long periods of dry weather, and still retain their nutritious qualities. Stock feed upon them with avidity. The best time to sow is Autumn, after a rainfall for preference. Seed may also be sown in early Spring.

We can usually supply seeds of the following varieties

CREEPING SALTBUSH (*Atriplex Semibaecata*).

SLENDER-FRUITED SALT BUSH (*Atriplex Leptocarpa*).

HALIMUS-LIKE SALT BUSH (*Atriplex Halimoides*).

ALL-FRUITED SALT BUSH (*Atriplex Holocarpa*).

ANGULAR-FRUITED SALT BUSH (*Atriplex Angulata*).

BLADDER SALT BUSH (*Atriplex Vesicaria*).

ROUND-LEAVED or OLD MAN SALT BUSH (*Atriplex Nummularis*).

Grasses for Lawns

HOW TO SUCCESSFULLY MAKE A LAWN.

SOW MARCH TO AUGUST.

A NEATLY-KEPT LAWN, closely cut and free from noxious weeds, adds a finishing touch to the Home Garden. A beautiful rich, green lawn of ANDERSON'S EVERGREEN LAWN GRASS SEED, possessing that smooth, even, carpet-like appearance, is a delight to the eye, and a pleasure to walk upon.

First trench the soil, or at least dig deeply; this will assure a vigorous root growth. A dressing of Bone Dust at the rate of 4 ozs. to the square yard will greatly improve the lawn. To be a success, a lawn should be well drained.

Heavy soil can be made friable by working in a supply of slack lime or sand. Either will greatly improve the soil.

A weed-free lawn can be secured by going to a little trouble in the initial stages. After the ground has been well-dug and levelled, allow it to remain idle for five or six weeks. Then thoroughly hoe out the weeds that have germinated.

Before sowing, well rake the surface and remove all stones. Give a good watering, using a fine-nozzled hose. An important point to remember is that the finer the soil and the more even the surface, so will your lawn attain a better growth.

Sow ANDERSON'S EVERGREEN LAWN GRASS SEED broadcast on a fine day. A good plan, when sowing the seed, is to lay a plank or planks across the surface and sow an area two yards wide. Then gently rake over the soil, and so work until the whole of the lawn is completed. After sowing, it is advisable to lightly roll, thus fixing the soil. When the seedling grass is about one inch in height, it should be rolled again, and the operation occasionally repeated. This will make for a good sward in the days to come.

It is important to keep the lawn well watered with the aid of a fine-nozzled hose; this will encourage a strong root development and prevent the young tender shoots from dying off.

Birds and cats can cause a lot of damage to a new lawn. The application of the following simple remedy will save you much annoyance and possibly loss of temper. Place wooden pegs around the edges of the lawn, leaving about 8 inches out of the ground, and stretch strands of black cotton across the lawn; this will effectually keep birds and cats away.

SOWING QUANTITIES:—

1 lb. Anderson's Evergreen Lawn Grass Seed will sow 200 square feet—25ft. x 8ft.

ANDERSON'S EVERGREEN LAWN GRASS SEED (machine cleaned). Price, 2/- per lb.

COUCH—Particularly suitable for warm situations. 2/- per lb. Special Quotation for large lots.

BUFFALO (Roots Only)—2/- per 100; 17/6 per 1000.

Postage or Carriage Extra.

Peepi will eradicate all weeds from your lawn and invigorate the grass. For prices, see page 68.

Seed Grains

Seed Grain offered by us is bought from proved growers of repute only. All grain is dressed and re-cleaned. We shall be pleased to submit samples and prices on application. We sell Seed Grain for Nett Cash Only. F.O.B. or F.O.R. Sydney.

Seed Maizes

The Maizes sold by us are standard kinds, true to name and are obtained from the best sources. When possible the Maizes will be selected cobs, "topped and tailed." Thus, first-class seed is secured. Samples and quotations upon application. All seed sold as per sample. We usually handle the following kinds:—

Funk's Yellow Dent Fitzroy

Hickory King

Wellington

Iowa Silver Mine

Yellow Ninety Day

Golden Glow

Iowa Gold Mine

Leaming

Golden Superb

Large Red Hogan

Golden Beauty

Send for our Spring List, containing the above.

Post Free on application.

SCARLET CLOVER

Lucerne

(MEDICAGO SATIVA)

N.S.W. GROWN TRUE BROAD-LEAVED TYPE

Our re-cleaned genuine Australian-grown samples are always to be relied on, and no dairy farm should be without a large paddock of Lucerne, as it largely increases the yield of butter, gives enormous crops of green fodder in succession, and is a great standby in dry seasons if a good supply of hay has been secured. Every station or home farm should have its Lucerne paddock for the same reason, and if the small selector is wise he will make this one of his first cares—to sow a small paddock of this valuable crop on the best land he has, being careful that the soil is thoroughly well worked.

Lucerne can be used either as a green crop or as hay, and all stock will thrive well upon it. The land intended for it must be well and deeply tilled, and deep alluvial soil is most suitable, although any well-worked average land will produce fine crops. Sow in drills about 10lb., and broadcast about 15lb. of seed to the acre. The best time for sowing, under ordinary circumstances, is Autumn; but Spring sowing is also successfully practised by many growers.

Perennial, Red Clover or Cow Grass

(Trifolium Pratense Perenne)

This is the grand old Red Clover of the English meadows, which is relished by all stock, has splendid fattening qualities, and should be in every pasture mixture sown on the tablelands of the State and cooler districts. A good fodder plant, and makes fine hay. Sow in Autumn, 2lb. only per acre, when included in pasture mixture.

Scarlet Clover

(Trifolium Incarnatum)

Excellent for a green crop of fine quality, large yield, quick growth, and relished by all kinds of stock. If sown on grazing land, care must be taken that it is kept fed down, as if it is eaten by stock when in flower it has an injurious effect. Sow 20lb. per acre.

Clovers and other Pasture Seeds

Samples and Prices on
Application

Berseem or Egyptian Clover

(Trifolium Alexandrinum)

This Clover having been grown largely in South Australia and Victoria, where it has done remarkably well, has become recognised also in New South Wales as a valuable addition to the list of fodder plants. It has proved of value in many parts of the State and is specially recommended for Coastal districts. It does fairly well in poor soils, much better than other clovers, and resists droughts. It suits land under irrigation splendidly, and is much relished by stock. It requires to be sown each season, being an annual, and should be sown in Autumn. 14lb. to the acre, broadcast.

(Send for Leaflet about Berseem.)

Strawberry Clover

(Trifolium Fragiferum)

The suitability of Strawberry Clover for swampy and moist lands has become established beyond any doubt either as a fodder for dairying cattle or for fattening purposes. Perennial in character and by its habit of growth establishing itself very quickly. Strawberry Clover is also suitable for black loamy land, also moist river flats. Sow 2lb. shelled seed per acre. Leaflet and price on application.

The above crop of Subterranean Clover averaged 4½ tons to the acre.
Photo taken a fortnight after cutting.

Subterranean Clover

(Trifolium Subterraneum)

This annual fodder plant is becoming an important factor in the carrying capacity of many areas devoted to stock of various kinds, including sheep.

Subterranean Clover is highly esteemed by pastoralists because it supplies such a large quantity of feed very early in the season and because it is so nutritious, and although it dies down in the Summer, its value must not be depreciated by that fact.

Once Subterranean Clover becomes established it is not necessary to sow again, as the plant by its peculiar habit of growth, resows itself, as it were, and the new growth appears shortly after the first Autumn rains and continues until well into Summer. The stems are of a creeping habit and under favourable conditions measure from 4 to 5 feet from tip to tip.

The plant is hardy, and cold will not affect it. It thrives in any soils, except swamps, and is particularly valuable on poor, gravelly land.

According to experiences in other States, the best time to sow is from March to August. With the early sowing followed by rains, good results will be obtained. The quantity of seed per acre ranges from two to eight lbs.—that is to say that two lbs. is sufficient for an acre, but in order to secure the better results per acre of feed—it is considered desirable to sow the larger quantity. Leaflet and prices on application.

WHITE CLOVER

Trefoil or Yellow Clover

(Medico Lupulina)

This is a hardy Clover for sheep pasture, and very useful in the colder districts, but it is not of the same value as either the Red or White Clover; it is very free-growing, spreads easily, and is difficult to eradicate.

Alsike Clover

(Trifolium Hybridum)

A heavy yielding and excellent Clover, but requires a moist situation. Sow in September if the land is moist otherwise March or April; 5 to 6lb. of seed for mixing with pasture grasses will be sufficient per acre.

Birds-Foot Trefoil

(Lotus Major)

This plant is well deserving of cultivation on light inferior soil on which it will yield a greater bulk of herbage than any of the other cultivated Clovers. It is highly nutritious, and is eaten with avidity by cattle and sheep. From the great depth to which its roots penetrate it is not liable to be injured by drought. Sow 10 to 12lb. per acre.

Sweet Clover

(Melilotus Alba)

While not extensively grown, this plant has obtained some attention in the cooler parts of New South Wales. It is largely grown in the United both as a pasture and

green manure crop, and should be given a thorough trial throughout the various parts of the State. Sow in drills, 10lb. per acre, in early Spring.

Rib Grass

(Plantago Lanceolata)

In Spring and other seasons, when moisture is abundant, the Rib Grass yields an enormous amount of rich herbage, and should be included in all pasture mixtures. Sow with grasses 2 or 3lb., or 20lb. if alone, to the acre.

White Clover

(Trifolium Repens)

White Clover has long since become naturalised in many districts, and is generally found on alluvial flats. It is valuable in pastures either for dairying or fattening, and will thrive on comparatively poor land. In dry and hot weather the herbage withers and disappears, but again makes a vigorous growth in the Autumn. Sow February to May; 2lb. to 4lb. will be sufficient for an acre if mixed with grasses.

Permanent Pasture Grasses

USED FOR THE LAYING DOWN OF PASTURE PADDOCKS

From a very long experience of the requirements of the States, and the conditions as to temperature, rainfall, etc., which obtain in various situations and districts, we have written the following notes for the guidance of clients. We shall be pleased to write special specifications, and to quote prices per acre for any locality, if clients will furnish full details as to area of land, description, situation, and to quote special rates when large quantities are required.

Hints on Sowing and Cultivation of Grass Paddocks

Suitable Land

The best results must always be expected from rich lands, but much can be done with even average soil if it is well prepared; the former will require no manure, but the latter will be greatly assisted by a good dressing of artificial fertilisers—say 3 cwt. of fine bone dust to the acre, the first cost of which will soon be repaid by the increased crop.

Preparation of the Land

Generally the better the land is worked the more satisfactory will be the results, and if the reader requires confirmation of this statement let him look at any paddock of Oats, Barley or other green crop which has been sown on land recently cleaned and stumped, and he will find that wherever a tree has stood, the crop will be much higher than in any other portion of the paddock, the reason being that in removing the stumps by fire or otherwise, the land has been broken up to a depth of probably 2 or 3 feet. It will therefore be seen that you cannot plough the land too deeply before sowing grass seeds. Cross-ploughing will also do much to improve it, and it will often be found that a rough harrow passed over the land before sowing will be desirable.

Manures for Grass Land

The use of artificial manures cannot be too strongly recommended, because they contain all the fertilising qualities of stable and cow manure, and also much that these do not possess, and also because they do not contain weed seeds, which all stable, and particularly cow manure, does in very large quantities. Artificial manures last longer in the soil, and are more easily applied, and really, on consideration, they are best.

Seasons to Sow

Autumn sowing is best, and March and April are the best months, but later sowings can be made with advantage in many districts, and a favourable season will often render this practicable. August and September are the best spring months, but all sowings should be complete by that time, as young plants must be established to enable them to stand a dry Summer.

Pasture Grasses

Imported English grasses cannot be sown successfully in every part of the State. In the very hot and dry districts, which are liable to droughts, these grasses are not at all suitable; but in the districts where some of the land is rich, and where irrigation can be applied, Lucerne is successfully cultivated as a forage plant.

The Seeds to Sow

The selection of grass seeds of a permanent character is an all-important matter; such seeds can only be obtained from old pastures. Farmers should be careful to sow only clean seeds, otherwise they will introduce into their farms all manner of weeds.

GRASS SEED MIXTURES

FOR PERMANENT PASTURES
All Seeds used in these Mixtures are of the very best quality.

FOR THE WARMER DISTRICTS.
Hot in Summer and fairly cool in Winter, with fair rainfall and deep, good land.

Mixture I.

- 10lb. Prairie Grass.
- 5lb. Cocksfoot Grass.
- 5lb. Perennial Rye Grass.
- 5lb. Italian Rye Grass.
- 4lb. Kentucky Blue Grass.
- 1lb. Mixed English Grasses.
- 2lb. Rib Grass.
- 3lb. Mixed Clover Seeds.

35lb. Mixed Seeds for 1 acre.

Mixture II.

- 7lb. Cocksfoot Grass.
- 5lb. Prairie Grass.
- 5lb. Perennial Rye Grass.
- 5lb. Italian Rye Grass.
- 2lb. Paspalum Dilatatum.
- 2lb. Rhodes Grass.
- 2lb. Crested Dogtail.
- 2lb. Kentucky Blue Grass.
- 2lb. Rib Grass.
- 3lb. Mixed Clovers.

35lb. Mixed Seeds for 1 acre.

FOR THE COOLER AND COLD DISTRICTS, LIKE NEW ENGLAND AND MONARO

Mixture III.

- 15lb. Perennial Rye Grass.
- 10lb. Prairie Grass.
- 5lb. Cocksfoot Grass.
- 3lb. Kentucky Blue Grass.
- 1lb. Dogtail.
- 2lb. Mixed Fescue Grasses.
- 1lb. Rib Grass.
- 3lb. Mixed Clovers.

40lb. Mixed Seed for 1 acre.

Mixture IV.

- 20lb. Perennial Rye Grass.
- 10lb. Prairie Grass.
- 5lb. Cocksfoot Grass.
- 2lb. Kentucky Blue Grass.
- 1lb. Rib Grass.
- 2lb. Mixed Clovers.

40lb. Mixed Seeds for 1 acre.

FOR THE WARM COASTAL DISTRICTS.

Mixture V.

- 3lb. Paspalum Dilatatum.
- 2lb. Rhodes Grass.
- 10lb. Cocksfoot Grass.
- 2lb. White Clover.

17lb. Mixed Seeds for 1 acre.

Mixture VI.

- 7lb. Cocksfoot Grass.
- 4lb. Paspalum Dilatatum.
- 2lb. Rhodes Grass.
- 1lb. White Clover.

14lb. Mixed Seeds for 1 acre.
NOTE.—The Mixtures V. and VI. are very suitable for rich scrub land, just burnt off, and being seeded for the first time, and with rain following the sowing broadcast, and a good season, the crop of permanent feed resulting will be wonderful.

The Seed Sowing

About 40lb. mixed seed (equal to 2 bushels) will be sufficient for an acre, and this should be sown broadcast over the land, and a day should be selected when there is not much wind, otherwise it will be difficult to sow evenly. The heavy seeds—Clover, Rib Grass, etc.—are better sown separately, and as it may be difficult to distribute evenly a few pounds of seed over an acre, we recommend that these heavy seeds be mixed with three or four times their bulk of sand or soil and then sown after the grass seed. The sowing completed, a roller or light harrow should be run over the ground, and this will be all that is necessary to cover the seed. And if the land was in good condition when seeded, or if rain should fall soon after, the young plants will make their appearance in a week or ten days.

Sowing with a Green Crop

This method is practised in England, but is not suitable for New South Wales, as the climatic conditions are altogether different. It is a capital plan to sow a green crop first on newly cleared land, as there is sure to be a great deal of weed seeds in the soil which will come up with the crop and be killed by the second ploughing, leaving the land clean for the reception of the grass seeds to follow. It is advantageous to run a roller over the land when the grass is only a few inches high. The first crop of grass should be cut and not eaten down, as the young plants are liable to be pulled up if stock is turned upon them. The second crop can, of course, be pastured. Do not allow young pastures to ripen seed for the first two years, at least, as by doing so you weaken them, and the grasses will die out. In the case of Rye Grass, the seed saved from young pastures is worthless. It will not produce plants of a permanent character, dying out after the first season.

Improving Poor Pastures

To improve bare or poor pastures we recommend the following course, which will in good seasons give splendid results:—Break up the bare patches with a heavy hoe, and during showery weather sow 30lb. mixed grass seed to the acre over the barest portions of the paddock, then pass a flock of sheep over it, driving them closely, so that they may tread the seed in where most wanted. This will take the place of harrowing or rolling. In dry seasons a large percentage of the seed sown in this way will be sacrificed, but that risk may be faced, as our plan is the best and the only one to thicken up old and poor pastures without breaking them up. To shut up a paddock and allow the grasses to ripen their seeds, which, when ripe, will sow themselves and thus improve the pasture, is not to be commended, as the seeds are just as likely to be blown where not wanted.

ANDERSON'S MANUAL OF THE FARM

Price 1/6, post free.

Apart from the "Tables of Mixtures" set out above the experience gained throughout the States in regard to other grasses indicates that the uses of "Wimmera" Rye Grass, Subterranean and Strawberry Clover, Phalaris, etc., etc., have all proved of value in certain localities and where soil conditions are taken into consideration.

The Orchard: Its Planting and its Care

The Land

It is not necessary that the soil chosen for an orchard should be rich, although such land will always produce splendid crops after the trees are a year or two old and are carefully pruned. Any ordinary average soil will grow fruit trees, provided it is well worked. It is not necessary to trench the ground unless the subsoil is very stiff; then we recommend that it should be trenched and a thorough system of drainage should be adopted if necessary. This can be done by putting in rubble, pipe or timber drains at a depth of three feet, and twenty to thirty feet apart, so as to carry off all surplus water from the subsoil as quickly as possible. In trenching the ground the greatest care should be taken not to bring the stiff clay subsoil to the top; it should only be broken up in the bottom of the trench. On land of a fairly good depth and open subsoil digging and ploughing will be all that is required to prepare it for the fruit trees. But the question of drainage must not be overlooked unless a naturally drained slope has been selected; on strong, stiff soils drainage is absolutely necessary.

Planting

To prepare for fruit trees, the land should be measured off into rows 20 to 30 feet apart, and the trees should stand at the same distance from each other in rows, so that they will be 20 to 30 feet apart each way. This will give the cultivator every facility to work between them. The holes to receive the trees should be dug to a depth of 18 inches, and made wide enough to allow the roots of the young trees to spread out. The soil in the bottom of the hole should be broken up as fine as possible, then a good stout stake should be driven into the centre of it.

Examine the roots of the tree, and remove all bruised or broken rootlets with a sharp knife; then place it in the hole close to the stake, and spread out the roots carefully and as horizontally as possible; drop the fine soil on to the roots until the hole is about one-third full; then gently shake the tree from side to side and lift it slightly from time to time with an up-and-down motion; the object of so doing is to allow the soil to shake down among the small roots; then fill up the hole to the level, and tread the soil tightly around the tree; secure it to the stake in two places, near the ground and near the top, and the planting is completed. Trees should be planted not more than a couple of inches deeper than they stood in the nursery.

Manure

It is not desirable to give young trees manure in the earlier stages of their growth, as it is liable to promote an overgrowth of young wood, and if the land is virgin soil, or if it has been out of cultivation for some years, the breaking it up for the fruit trees will be quite sufficient to cause them to grow freely for a year or two at least, but if the ground is naturally poor, a good dressing of bone-dust or other manure can be given to the trees at a later date if they show any signs of stunted growth.

Aspect

In selecting a site for an orchard, an easterly to a north-westerly aspect should be chosen if possible. The matter of shelter, if not naturally provided, should be of the first importance, as also natural drainage and convenience of position.

Time to Plant

Deciduous fruit trees, or summer fruits, as they are sometimes incorrectly called, such as Peaches, Plums, Cherries, should be planted during May, June, July and August, and if the weather is favourable, the earlier the better. Evergreen trees, such as Oranges, Lemons, can be planted at almost any season of the year, but from April to September are the best months. Only plant to July and August in localities fairly free from frosts.

Position for Various Fruit Trees

If the orchard is on a slope the highest parts should be allotted for Apricots, following on in succession in the order named down the slope, with Peaches and Nectarines, Plums, Apples, Pears and Quinces. If the situation is sheltered and the climate suitable, the Citrus family (Oranges and Lemons) should be planted near the centre of the plantation.

First Pruning of Young Trees

When the deciduous fruits are planted they should be cut back to the height fixed upon for the trunk. If there are no natural branches three buds only should be allowed to push out from the head of the tree. This will generally be the case with Apples and Pears, but Peaches and such like will often have several lateral branches. In that case cut the leader to the height required, and cut off all the laterals except three near the top; these should be left to form the head, but should be shortened. Each tree after planting may be painted with Harbas in solution, to destroy any insect pests which may possibly be hidden in the bark.

When young fruit trees are properly summer pruned during the first few years after planting it conduces to the early development of fruit-bearing spurs on such trees as Apples, Apricots, Pears, Plums. If the operation is skilfully performed, the vigour of the whole, or any particular part, can be reduced or limited. By systematically pruning in summer, much good will not only result to the branches retained, but there will be less need for cutting severely in winter, and consequently the strength of the trees will be conserved. Summer pruning must not be done before the shoots have reached a certain stage, otherwise the buds at the base of the spurs left will develop growth the same season, instead of remaining dormant, and forming into fruit-bearing buds for the following crop. Generally the most suitable time is when the growth becomes firm for about half its length, which should be shortened there or a little higher up, according to the vigour of the tree. The summer pruning of such fruit trees as Nectarines and Peaches, which do not usually bear fruit on spurs, will require different treatment. The fruit of these trees is mostly borne on what is called young wood—that is, growth made during the previous year. Therefore, only the useless and superfluous growths should be removed.

Disbudding may be considered a part of summer pruning, for the judicious removal of the developing shoots at such an early stage of growth will not only conserve the strength of the trees, but will save a lot of labour which would have to be expended in cutting them out after they become wood.—Abridged from "Anderson's Manual of the Orchard."

Varieties to Plant

If, as a commercial speculation, a large area is being planted, we cannot too strongly emphasise the necessity of confining the plantation to a few well-tested varieties that do well in the locality, and have proved profitable.

Frequently we hear orchardists regretting the error they made when first planting, in having too many varieties, and consequently they have never sufficient of any one sort to enable them to place on the market in a satisfactory manner.

Ascertain what is doing well in your locality, and confine yourself to this sort, leaving an odd row or so for experimenting with new importations.

Grape Vines

European Grape Vines should be placed five feet apart each way, in straight lines, that the plough may be used either across or along the vineyard. If the land be rich and deep, the distance between the vines should be increased to 6, 7, or 8 feet. The American Grape Vines do better on a trellis, as the training and pruning that suits them best is quite different from that employed for others. These may be planted 10 to 12 feet apart, along each side of a trellis which covers a broad walk. Rooted Vines may be planted at any time from June till September, pruned back to two or three eyes.

Spraying

The Winter Spraying of Deciduous Trees for the control of Scale, Red Spider and American Blight is one of the most important operations of the orchardist. It should never under any circumstances be neglected, and is essential to the success of the coming season's fruit crop.

The Ideal Winter Spray is "Harbas." It possesses those characteristics that are so essential in a winter spray, namely, penetrating power, adhesiveness and ease of mixture and application. It is effective against Scale, Red Spider, and American Blight, and leaves the tree healthy and ready to carry large crops of sound fruit.

"Harbas" can be applied to fruit trees at any time between the fall of the leaves to the swelling of the buds; but early spraying is specially recommended. If the weather is bad spraying will have to be delayed, but the earlier in winter that "Harbas" is applied the better will be the results.

For CITRUS TREES "Harbas" has been found most serviceable in the eradication of Red Scale, Black Scale, Smut and White Louse. For full particulars as to use, see special pamphlet and leaflet.

For Price of "Harbas" see page 61.

ORCHARD PESTS AND SOME REMEDIES

APPLE BLIGHT—WOOLLY APHIS

This can be got rid of by brushing or spraying the affected parts with "Harbas."

FUNGOID DISEASES

Such as Powdery Mildew, Apple Scab, Shot-hole Fungus, Peach and Plum Rust can be largely kept in check by systematic spraying with Bordeaux Mixture or "Harola" Lime Sulphur.

PEACH APHIS

Spray the trees with "Harbas" in the Winter, then spray every week in early Spring with Tobacco extract no matter if strong; but keep at it. A weaker solution is desirable for the first few days when fruit is forming, i.e., just as blossom is falling.

For Prices of various Spraying Fluids, Insecticides and Spray Pumps, see pages 67, 68, 69, 70

THRIP

Use Tobacco Extract.

SCALE

The systematic and regular use of "Harbas" Spray Fluid will effectively rid the trees of this pest.

For SAN JOSE and OTHER SCALE PESTS on DECIDUOUS TREES

Use "Harbas" in Winter.

PUMPKIN BEETLE

The best remedy for this troublesome insect is Arsenate of Lead.

CODLIN MOTH

Spray regularly with Arsenate of Lead.

Choice Fruit Trees

For list of Fruit Trees suitable for commercial purposes, see page 45.

NOTE.—The following abbreviations are used throughout the Fruit Trees Section for the benefit of our customers:

Size.	Season or time of ripening.	Use.
1 denotes Large	E denotes Early	K denotes Kitchen
2 " Medium	M " Medium	D " Dessert
3 " Small	L " Late	

APPLES

Prices: 1/9 per single tree; 12 trees (2, 4, or 6 sorts), 18/-; 6 trees (3 sorts), 9/-;
12 trees (12 sorts), 21/-

Packing charges, 1/- doz. Postage or Carriage Extra.

Apple Trees prefer compact, sandy loam, with shelter from west and south. Stiff, clinging land is not suitable, but any good average light soil will give good results. Young trees generally grow too fast, therefore strong growth should be checked by pinching back shoots in Summer, and by Winter pruning of roots.

"Granny Mack." An apple you will enjoy. Flesh that is crisp and deliciously juicy; that keeps well, and for dessert purposes is unsurpassed. Color, green, with a glowing red cheek; early bearer, vigorous grower. An apple that is Australian raised. A cross between McIntosh's Red and Granny Smith. Strong Trees, 2/6 each. Carriage extra.

ALL OUR TREES ARE WORKED ON NORTHERN SPY STOCKS

*Allsopp's Early. The earliest Apple on Sydney market. Very useful. 2 K.
Apple of Commerce. Late keeping; large. 1 D L.
Banks' Red Gravenstein. Beautiful high red color; recommended as improved Gravenstein. 1 K D M.
Beauty of Bath. Fruit round and flattened; crisp, spicy flavour. 2 E D.
Blenheim Orange. Large size; yellow flesh. 1 D L.
*Carpenter's. Spicy flavour. 1 K D M.
*Carrington's (Smith's). Fine Apple. 2 D E.
*Climax. Above medium size; flesh yellow, crisp, juicy and tender. 1 D E.
Cleopatra. Large crisp. 1 D L.
Cox's Orange Pippin. One of the best. 2 D M.
Delicious. One of the best late-keeping Apples. 2 D L.
Democrat. Fruit brilliant red; good for shipping.
Five Crown Pippin (London Pippin). Valuable for all purposes. 2 K D L.
Golden Russet. Very rich, high aroma. 2 D L.
Granny Smith. Heavy bearer; keeps. 2 K L.
Gravenstein. Synonymous with Carpenter's. 1 K D M.
*Irish Peach. Early. 2 D E.
*James Grieve. Early dessert Apple of delicious flavour. 2 E D.
*John Sharp. A New Zealand variety; highly colored. 2 K D L.
Jonathan. Beautiful dessert fruit; rich. 2 D L.
King David. A rich dark red Apple, with yellowish flesh; flavour good. 1 D M.
Lord Nelson. Showy; first rate. 1 K D M.
*Lord Suffield. Handsome; large. 1 K E.
McIntosh's Red. Good for both hot and cold climates; rich, red stripes; flesh white. 2 D L.
*Munroe's Favourite. Skin yellow, with reddish brown cheek. 1 K L.

Mobbs' Royal. Extra large; good. 1 K M.
New York Pippin. Synonymous with Cleopatra. 1 D L.
Nickajack. Large, dull, red-striped, firm; great bearer and keeper. 1 K D L.
Norfolk Beauty. Fruit very large, weighing up to 3 lb; heavy bearer, delicious flavour when cooked. 1 K.
Northern Spy. Tender; delicious. 1 D L.
*Oronoco. Color red; juicy flavour; superior to McIntosh's. 1 D M.
*Peasgood Nonsuch. Large, handsome. K D M.
Pomme de Nieve (Fanny). A famous dessert Apple. 2 D M.
Prince Bismarck. Large, fine bearer. 1 K M.
Rome Beauty. Fine shape, hardy. 1 D K L.
Royal Late. A splendid late Apple; keeps till new crop comes in.
Scarlet Permain. Beautiful; first-rate. 2 D M.
Senator. Regular bearer; flesh yellowish white. 2 D L.
*Sharpe's Early. A beautiful new Apple. 2 D E.
*Shepherd's Perfection. Above medium size, very fine colored, good cropper. 1 D L.
Stewart's Seedling. Splendid cooking apple, of good size. D L.
*Trevitt's Seedling. Sub-acid flavour. 2 D M.
Twenty Ounce. Green, yellow striped. 1 K M.
Vanderpool. Red; recommended as Improved Jonathan. 2 D L.
Willie Sharp. A beautiful medium-sized dessert Apple; skin yellow. D M.
Winter Permain. Excellent market. 2 K D L.
Yates. Small fruit, but bears heavily; flesh white, yellow, splashed red. 3 D L.
*Zouche's Pippin. Fine Apple, of good color, ripening Christmas. 1 K D E.

* Blight-proof.

APRICOTS

Prices: 1/9 per single tree; 6 trees (3 sorts), 9/-; 12 trees (2, 4, or 6 sorts), 18/-;
12 trees (12 sorts), 21/-

Packing charges, 1/- doz. Postage or Carriage Extra.

ON APRICOT AND PLUM STOCKS. Except where otherwise marked

This delicious fruit can only be grown successfully in certain parts of the State. The trees require rich, well-drained soil, and should be planted on the highest parts of the orchard.

Allen's Early. Grand variety for marketing. 1 E.
Alsace. Large; rich flesh; ripe January. 1 D M.
Camden Superb. Fine for canning; prolific. 2 E.
Cattell's Early. Very early, and a good cropper. 1 D E.
Colorado. Very large, handsome, and of good quality; heavy bearer. A splendid new Apricot from the United States. 1 D M.
Early Moorpark. Juicy, rich and excellent. 2 E.
Gooley. Large size and good flavour. 1 D E.
Hemskirk. Rich, like Moorpark. 1 D M.
Large Early. Ripens before 1st December. 1 D E.
Mansfield Seedling. Rich in flavour. 1 L.
Moorpark (Temple's). Juicy, rich, excellent. 1 L.
Newcastle. Ripens middle to end of November. Fine yellow color, and heavy bearer. 2 E.

Oullin's Early Peach. Delicious. 1 E.
Oullin's Early Improved. Very large, deep rich yellow, and very sweet. 1 D E.
Pennant Hill Oval. Large, oval, sweet, and very prolific. 1 D.
*Red Masculine. Pale yellow, and juicy, small; earliest of all. 3 E.
Riverside. Very large; skin yellow green with red cheek. 1 K D M.
Shipley's Blenheim. Very productive. 1 L.
Trevatt. Resembles Shipley's; good cropper and dryer. 1 D L.
Wenatchee. Introduced from Washington. It is a prolific bearer, and ripens evenly all over. Very distinct, large, and a fine shipper. 1 D L.

* Blight-proof.

CHERRIES

2/- per single tree; 6 trees (3 sorts), 10/6; 12 trees (3, 4, or 6 sorts), 21/-; 12 trees (12 sorts), 24/-

Packing charge, 1/- dozen; Postage or Carriage extra.

Cherries thrive exceedingly well in our cooler districts.

Abundance. Heavy cropper; large, good color; does not split M.
Bigarreau Jabourlay. Early; fruit large, dark red, rich flavour. E.
Bigarreau Napoleon. Large late, rich; pale red. L.
Bigarreau Twyford. Bright red, flesh firm. E.
Bing. Fruit large; black; tree vigorous and hardy. M.
Black Republican. Solid flesh; juicy. L.
Californian Advance. Large, dark purple. E.
Centennial. Very early fruit, firm, pale red. E.
Early Purple Gean. Earliest variety known; fruit dark. E.

Early Lyons. Deep red flesh, juicy. E.
Florence. Large, richly flavoured, late; red.
May Duke. Very good, fine cropper; surest bearer in Sydney climate; red. E.
Noble. Very large; dark red; flesh firm, good flavour; prolific. L.
Precoc de Boppard. Early. Fruit dark glossy red; striped and spotted flesh; constant cropper. E.
St. Margaret's. Large, firm, sweet, sub-acid. L.
White Heart. Fine old favourite; not regular cropper. M.

PEACHES

1/9 per single tree; 6 trees (3 sorts), 9/-; 12 trees (2, 4, or 6 sorts), 18/-; 12 trees (12 sorts), 21/-

Packing charge, 1/- dozen; Postage or Carriage extra.

Sandy loam is the best, but any soil will produce good Peaches if it is well drained, in nearly every district in N.S.W. As the young trees make very strong growth during the Summer, it is desirable to rough prune them while they are growing; all strong, superfluous shoots or branches should be cut right out, and all long shoots which remain should be shortened back, the object being to induce the production of

CLINGSTONE—Varieties marked (C).

Admiral Dewey. Early; yellow flesh; freestone.
Alexander (F) A fine large early peach. E.
Alton (F). Deep red on creamy cheek; flesh white, juicy, melting; quality best; hardy and good bearer and grower. M.
Arp Beauty (F). Blushed and mottled bright crimson; firm; juicy and excellent flavour; good shipper, heavy cropper. E.
Aunt Becky. Large; white flesh; freestone; good market var. E.
Bell's November. Ripe November; partial slipstone.
Bell's November, Improved. Fruit much larger; better color, superior flavour to the original.
Braddock's Superb (F). Very early, good market variety; heavy cropper. 2 E.
Brigg's Red May (F). Very best early peach. E.
California (C). Large fruit; yellow flesh. L.
Carmen (F). Pale yellow peach; flesh melting and sweet; fine second early peach.
Champion Royal (F). Fruit largest size; beautiful red skin; flesh white; enormous cropper; ripens about Anniversary Day; splendid market variety.
Christmas Box (Duffy's) (F). Large size and high color, bringing the highest prices for Christmas market; splendid cropper.
Early Crawford (F). Large, yellow. M.
Early Elberta (F). Fruit as large as Elberta, color and good quality; excellent shipper and keeper; good cropper. M.
Early Newington (C). Medium; rich. E.
Early Rivers (F). Very early, rich and juicy.
Edward VII. Ripens early in November.
Elberta (F). Yellow-fleshed; sweet; for dessert or canning. M.
Elberta Cling. Has all the good qualities of Elberta. M.
Eureka. Said to be an improved "Carmen." M.
Eva's Seedling. Improvement on Elberta; ripens 10 days later; better flavour; good carrier. M.
Flat China (F). Early peach for market. E.
George IV. Large, free; very early.
Gold Dust (C). Yellow flesh; solid. L.
Golden Queen (C). Heavy cropper; medium-size yellow at stone; good canning. M.
Goodman's Choice. Yellow-fleshed cling; good bearer, recommended for canning. M.
Governor Garland (F). Flesh white and juicy, rich, vinous. E.
Governor Rawson. Ripens in Nov.; fairly large; perfect freestone
Hale's Early (F). High flavour; juicy; ripe Christmas.

spurs or small wood which will yield the fruit. The Trees should be carefully gone over in the Winter, and the pruning finished. In order to prevent disappointment to our customers we would point out that there is very little difference either in the fruit or the period or ripening of the following varieties:—**Alexander, Briggs' Red May, High's Early Canada.**

FREESTONE—Varieties marked (F).

High's Early Canada (F). Very fine. E.
Italian Yellow (C). One of the largest; splendid. L.
J. H. Hale (F). Half as big again as Elberta and a week earlier; a firmer and better color; not so long a "nose"; better flavor.
King's Seedling. Ripens middle of January.
Kia-Ora (F). Seedling from Elberta, but superior. M.
Kirshler Prize (F). Large fruit. L.
La France (F). Very large, skin dark crimson; flesh white, melting, juicy. L.
Le Vainqueur (F). Large and juicy; very early.
Mayflower (F). All red; good shipper. E.
McDevitt's Cling (C). Very large; splendid for canning. L.
Mountain Bell (Spahno) (F). Fruit quite round, large size and firm, white flesh; crops well. M.
Mountain Rose (F). Large; good. E.
Phillip Cling. Yellow flesh; regular cropper. L.
Powell's Beauty (F). Yellow flesh of Elberta type; large; handsome; fine flavour. M.
Pullar Cling. Clingstone; good grower; heavy, regular bearer. M.
Ray. Good quality; color white, red on sunny side; free. M.
Red Bird Cling. A new early cling; ripens same time as "Briggs' Red May"; highly colored, creamy white and bright red.
Riverside Elberta. Seedling from the famous Elberta. Perfect freestone; ripe middle January.
Robert Stewart (C). Very large; one of best peaches grown. M.
Royal George (F). One of the best extant. M.
Royal George Cling (C). White, firm flesh. M.
Ruby Red Clingstone. Ripens early in Jan.; heavy cropper.
Salway (F). Fine flavour; ripens March.
Shanghai (C). Large; good for market. M.
Shanghai Freestone. A valuable variety; exquisite flavour. M.
Shanghai Red (C). Like old Shanghai; red. M.
Sneed (F). Large handsome fruit; very early. E.
The Globe (F). Large, yellow; highly spoken of. L.
Triumph (F). A valuable acquisition. E.
Tuscan Cling. Very large yellow; best early canning peach. E.
Watt's Champion. A local production of great merit. It is a red freestone, ripening in favourable seasons before the end of October. It is the first Peach of the season on the Sydney market, and commands top prices. The tree is a strong grower, and very prolific. A splendid market variety.
Wiggins (F). Fine Peach; ripens Christmas. 1 E.

PEARS

1/9 per single tree; 6 trees (3 sorts), 9/-; 12 trees (2, 4, or 6 sorts), 18/-; 12 trees (12 sorts), 21/-

Packing charge, 1/- dozen; Postage or Carriage extra.

The climate, situation, soil, and cultural notes given for Apples will apply to Pears. Pears will not be in full bearing until the sixth year after planting, excepting such varieties as Bartlett, Keiffer's, and a few

ON SEEDLING

others, which frequently commence at second year after planting. To induce fruitfulness, we advise a judicious system of Summer pinching where practicable, followed, if necessary, by root pruning in Winter.

PEAR STOCKS

Bailey's Bergamot. Fine Winter Pear. 2 D M.
Bergamot Gansel. Melting rich. 1 D M.
Beurre Bosc. Rich and aromatic. 1 D M.
Beurre de Capiamont. Fine grained, melting and sweet. 2 D M.
Beurre Clairgeau. Yellow skin and flesh. 1 D M.
Beurre Fonqueray. A large and handsome pear, heavy cropper. L.
Bon Chretien (Williams). The Bartlett Pear; perfumed, fine. 1 D E.
China. Good for preserving. 2 D M.
Clapp's Favourite. Resembles Bartlett. 1 D E.
Conference. Late, fine dessert fruit. 1 D E.
Corona. Best for shipping and market; ripens early in March.
Fame. Good for storing. 1 D L.
Fertility. High flavour; very luscious. 2 D M.
Garber's Hybrid. Very prolific; yellow. 1 K M.
Howell. Fruit large; heavy bearer; first-class market Pear. 1 D M.

Jargonelle. One of the earliest Pears. 1 D E.
Josephine de Malines. Pale green skin; flesh pink to white. 2 D L.
Keiffer's Hybrid. Cross between Williams' Bon Chretien and China. 1 K D M.
Large Flat Baking. Hangs very late. 1 K L.
Packham's Late. Large, heavy cropper. 1 D M.
Packham's Triumph. One of the finest; excellent quality. 1 D E.
Red October. Delicate, rich; abundant bearer. 2 D E.
Uvedale's St. Germain's. Large baking, heavy. 1 K L.
Vicar of Winfield. Hardy Pear; juicy. 1 K L.
Wilder. Delicious, reliable bearer. 2 D E.
Windsor. Hardy, good market Pear. 1 D M.
Winter Bartlett. A duplicate of the old favourite; ripening 3 months later. 1 D L.
Winter Cole. A very richly flavoured late Pear.
Winter Nelis. Buttery; rich. 2 D L.

PLUMS

1/9 per single tree; 6 trees (3 sorts), 9/-; 12 trees (2, 4, or 6 sorts), 18/-; 12 trees (12 sorts), 21/-
Packing charge, 1/- dozen; Postage or Carriage extra.

Plums thrive in our cool highlands. Any good soil will suit them so long as the sub-soil is porous and well drained. We highly recommend the beautiful Japanese varieties for quality and appearance. Plums require to have their long shoots stopped during the growing season so as to produce spur wood.

ON MYROBOLAN AND MARIANA STOCK (For abbreviations see page 40).

American Red. Ornamental, early. K D E.
Angelina Burdett. Large, purple, most excellent for dessert and preserving; medium. 1 K D M.
Black Cluster. Heavy, constant cropper. 1 K D E.
Clyman. Very fine, rich, delicious. 1 D E.
Coe's Golden Drop. Very large, excellent. K D M.
Diamond. Large, best preserving. K M.
Early Orleans. Medium, juicy, sweet. K D E.
***Endicott.** Large yellow, covered with purple, sweet; late.
Evan's Early. Juicy, rich, excellent. 2 D M.
Gage, Green. Medium size, rich. D M.
Grand Duke. Purple skin, yellow flesh. 1 D L.
Jenkin's Seedling. Large size, and of a purplish black color.
Late Black Orleans. Medium size; skin black, blue bloom; flesh deep yellow; juicy clingstone.
Loutherborough. Black; very prolific. 2 D M.

King of Damsons. Large size. Tree very productive; medium. D K.

Magnum Bonum, Red. Heavy cropper. 1 K M.
Magnum Bonum, Yellow or White (Egg). Very large, good preserving. 1 K M.

Pond's Seedling. Red; valuable. 1 K D L.

Precious. Heavy cropping Plum of the cherry plum type, but fully twice the size.

President. Fruit is large, oblong shaped, over 2in. long, beautiful purple color; flesh firm and sweet, and fruit perfect freestone. 1 D L.

***Standard.** Heavy bearer; large, dark purple; sweet.

Tibbit's Seedling. Medium size, dark skin, enormous crop.

Washington. Large, excellent preserving. 2 K D E.

Yellow Diamond. Clear yellow color. 1 D E.

Japanese Plums

(Same price as other Plums)

Abundance. Fair to large; ripens before Burbank.

Alberta. Fruit is very large, color red, with good bloom; good shipping variety.

***Alpha.** Large size; good cropper.

***Apple.** Striking appearance; good keeper.

Ballena. Large light yellow, firm flesh, regular cropper; freestone.

Bartlett. Fruit pale crimson, turning to crimson; flesh salmon color, firm and juicy.

Beauty. A new Japanese variety, raised by Burbank and probably the earliest Japanese Plum; of good size, heavy cropper. Ready to market end of November.

Blood. Large mottled, flesh red, delicate.

Bull's Seedling. Long shaped, good bearer.

Burbank. Large, cherry red; flesh deep orange, juicy and sweet; early.

Chalco. Flat fruit, reddish-purple, sweet.

Climax. Early; fruit large; delicate flavour.

Combination. Large, globular, uniform.

Croswell's Prolific. Large fruit, reddish purple skin; yellow flesh; ripening middle December; round fruit; heavy cropper. Recommended for market purposes.

***Delaware.** Three weeks later than Satsuma.

Delicious. Large, round, deep red, juicy; delicious flavour.

Doris. Flesh bright red; juicy and firm; very early.

Duffy's Early Gem. A very early variety; round fruit, medium size, amber flesh. Ripens early in November.

Duffy's Early Jewel. Large, good cropper. Ripens late in Nov.

Export. Large, sweet; firm, blood-red flesh; late.

Federation. A cross between "Burbank" and "Wickson"; ripens early in February.

***General Saigo.** Very large fruit.

Hale. Orange, mottled red; superb.

Kelsey. Valuable; one of the best.

Maynard. Deep purplish crimson; thin blue bloom; flesh light yellow, marbled red.

Narrabeen. Large size, round, rather flattened skin yellowish covered with dark red and yellow dots, flesh yellowish, juicy, very sugary, small stone, drooping habit but good grower, heavy cropper, good carrier; ripens last week in Jan.

October Purple. Fruit round; distinct flavour.

Ogon. Large yellow; firm, heavy crop. L.

Okki Somomo. Large, long-shaped fruit.

Paterson's Late. One of the best late varieties.

Paterson's River Early. Good bearer; bright color.

Prunus Pissardii. Small red fruit; ripens very early; leaves red bronze; purple wood.

Rubio. Best Blood Plum; abundant bearer.

Rutland Plumcot. Fruit unique in character, combining apricot and plum. When fully ripe, possesses pleasant apricot-plum flavour. Deep pale blue bloom.

Santa Rosa. Flesh deep purplish crimson, with purple skin. Commences to ripen early December.

Satsuma. Blood Plum; flesh dark red; heavy bearer.

Satsuma Seedling. Earliest Blood Plum known; ripens in November; enormous cropper; strong, bearing fruit in clusters. Color bright crimson; popular market variety.

Shipper. Good cropper; hangs long time.

Shiro. Firm, yet juicy; light yellow; clingstone.

Shiro Seedling. All the good qualities of Shiro.

Stella. Dark purple; large heavy cropper.

Sultan. Firm, dark crimson; sub-acid.

Tunk's Seedling. Very large and early; enormous cropper; juicy.

Vesuvius. The best ornamental foliaged Plum extant, leaves being very large and of a beautiful glowing crimson. Altogether a greatly improved Pissardii. Tree very vigorous.

Victory. Dark color; rich port wine flavour; superior to Satsuma.

Wickson. Excellent; keeps and ripens well.

Wickson Seedling. Said to be a much better cropper than the famous well-known "Wickson"; ripens before Christmas.

Wright's Late. Fruit of large size, with deep red flesh and exceedingly small stone; very sweet, and wonderful cropper. A decided acquisition to the Blood Plums.

Wright's Early. Fine Early Plum.

Nectarines

1/9 per single tree; 6 trees (3 sorts), 9/-; 12 trees (2, 4, or 6 sorts), 18/-; 12 trees (12 sorts), 21/-
Packing charge, 1/- dozen; Postage or Carriage extra.

Any well and deeply-drained soil will suit Nectarines, but they cannot obtain perfection without abundance of moisture in Spring and Summer.

Albert Victor (F). Very large, melting, delicious. M.

Cardinal (F). Prolific, brilliant color. M E.

Cooza Syn. Duffy's Seedling of N.S.W. Origin. Vigorous grower and produces heavy crops of splendid fruit. Freestone. Ripens middle January.

Early Rivers (F). Flesh tender, juicy. 1 E.

Elruge (F). Medium, of the very best. M.

Fertile du Poitou. Fruit enormous size, up to 8in. in circumference; skin smooth; flesh white, very juicy, sugary, freestone; medium.

Goldmine (F). Juicy, melting, splendid flavour. 1 M.

Irrewarra (F). Earliest; dark, great bearer. E.

Lady Carrington. A clingstone with a thick, juicy flesh; ripe first and second weeks in January.

Lee's Seedling (F). Fruit large, richly flavoured. E.

Meek's Scarlet. Large, heavy cropper; slipstone; mid. season.

Mrs. Dr. Chisholm. Beautiful cropper; ripens December; freestone.

New Boy (F). Very large, ripens late; most prolific.

Newington (C). Skin whitish green, covered with bright red in the sun. 1 M.

***Radium (F).** Large, orange shaped; highly colored; very sweet; ripens just after "Goldmine."

"Sinfield's Nectarine" (F). Fruit very large, of good color. A second early variety.

Stanwick's Seedling (Camden Superb). Freestone. Fine. M.

Surecrop (F). Large; heavy bearer; late.

Victoria (River's) (F). Very large; of good quality and a heavy bearer. M.

White Slipstone. Large, very juicy; medium.

Prunes

Price same as Plums.

This list is specially recommended as giving the best varieties for drying.

***Conquest.** Similar to French Prune.

D'Agen. Small, but unrivalled for drying.

Giant. The largest variety known.

Golden. Flesh yellow, rich and sugary; exquisite flavour; free-stone, and heavy cropper.

Miracle. A production of Luther Burbank's, and claimed by him to be stoneless. Color, a deep, rich purple, with heavy blue bloom; flesh sweet and juicy, and of good quality.

Robe de Sargent. Like Prune D'Agen, but large and better cropper.

Sugar. Fruit even in size; large; rich in sugar, hence its name.

Tragedy. Large fruit, flesh yellow.

Figs

1/9 per single tree; 6 trees (3 sorts), 9/-; 12 trees (2, 4, or 6 sorts), 18/-; 12 trees (12 sorts), 21/-

Packing charge, 1/- dozen; Postage or Carriage extra.

These require no special treatment, and provided the soil is good and fairly moist, will produce fine fruit. If the fig is grown near the house where it can be abundantly watered from the laundry, it will produce enormous crops of fruit, give a fine shade, and form a shelter. It requires but little pruning.

Adam. Large size fruit; pale brown; very early, and a good market sort.

Black Genoa. Large, juicy and rich.

Blue Provence. Small, rich, abundant bearer.

Brown Turkey. Luscious; good for drying.

Brunswick. Very large, rich and excellent.

White Adriatic. Large size; red flesh; rich.

Quinces

1/9 per single tree; 6 trees (3 sorts), 9/-; 12 trees (2, 4, or 6 sorts), 18/-; 12 trees (12 sorts), 21/-

Packing charge, 1/- dozen; Postage or Carriage extra.

Most useful for preserves and culinary purposes generally; may be grown in poor soils, where ordinary fruits will fail; very hardy; makes a fine tree when fully grown.

Bereczki. Recommended as a fruit of enormous size. Flesh sweet; skin glossy yellow, smooth; very prolific, even on young trees.

Champion. Large and good; late.

Fuller. Large and early; highly flavoured.

Giant of Lescovas. The fruit often attaining up to 3½ lb.; flesh white; tree very prolific.

Large Portugal. Very large; good.

Master's Early. Earliest of all; large.

Missouri Mammoth. Pleasant flavoured; best of all.

Pineapple. Name comes from flavour, which is suggestive of pineapple.

Rea's Mammoth. Large fruit, round, smooth and handsome; early.

Van Dieman. Superior quality.

Zucker (Sugar). Introduced from Asia; fruit very sweet.

GOOSEBERRIES

1/3 each; 12/- per dozen; 80/- per 100.

Postage or Carriage Extra.

We can supply a large quantity of this useful cold climate fruit in red, yellow and green varieties. In the leading commercial varieties, such as Crown Bob and Roaring Lion, we can supply by the thousand.

FRUITING OLIVES

2/6 each, 27/- dozen. Postage or Carriage Extra.

The varieties we list are those cultivated in South Australia as best suited for oil-producing or pickling.

Corregiola Pigale.

Lucca. From this variety the famous Lucca Oil is made; an enormous cropper, and gives a very high percentage of oil.

Verdale. A variety producing a large quantity of good quality oil.

LOQUATS

2/3 Single Tree, 24/- dozen.

Postage or Carriage Extra.

Californian Advance. A variety claimed in California to excel all other varieties. Fruit large, deep gold yellow, being nearly all pulp. Flavour distinct and delicious.

Early's Golden. An early variety; good.

Herd's Large. Enormous. The best market variety.

Japanese. Large, round; free bearer.

Mammoth. Very large.

MEDLARS

2/- each.

Postage or Carriage Extra.

Thrives well in New South Wales; requires very trifling attention, and is not particular as to soil.

Monstrous. The largest.

BANANAS

Postage or Carriage Extra.

Cavendishii. Dwarf; delicious flavour; 2/6 each.

Lady's Finger. Fruit long and slender; fine flavour. 2/6 each.

Sapientum. Common Banana; hardy. 2/- each.

BLACKBERRIES

Postage or Carriage Extra.

The bushes form an admirable thick, prickly hedge, and its fruit is most useful as dessert or for preserves. Quick growing; not particular to soil or climate.

Himalayan. Beautiful, fine foliage. .2/- each.

Laughton. Large, excellent flavour. .9d. each, 7/6 dozen..

White Crystal. Clear golden yellow form of Blackberry. Large; seeds small; early. 1/- each.

Dewberry (Lucretia). One of the very best of this attractive class of fruit berries; large and handsome, and shining jet black; of delicious quality. Price, 9d. each; 7/6 dozen.

CHERIMOYER

CUSTARD APPLE

Postage or Carriage Extra.

A delicious tropical fruit; succeeds well in warm and sheltered situations.

Rough Fruited. Easily grown; delicious. 2/6 each.

CURRANTS

1/3 each; 12/- per doz.; 80/- per 100.

Postage or Carriage Extra.

These fruits are suited only to our cool districts. Black Naples, La Fertile and La Versailles are best adapted for culture where Winters are too mild for general collection.

Black Naples. A beautiful large fruit, but late.

Carter's Black Champion. Richly flavoured.

La Fertile. Red.

La Versailles. Red.

Ogden's Black. Resembles Black Naples; earlier.

Red Imperial. A really splendid heavy-bearing variety; beautiful red fruit of large size.

Red Dutch.

White Dutch.

White Imperial. Large.

ORANGES

2/3 Single Tree, 24/- per dozen. Except where otherwise marked.
Packing charge, 1/- dozen; Postage or Carriage extra.

Blood (Maltese). Medium size flesh blood color.
Buckeye Navel. Improved Washington Navel from California. A true Navel Orange, ripening early; distinct; delicious; 2/6 each; 27/- dozen.
Eyles Siletta. Skin whitish yellow, smooth; grand market variety.
Golden Nugget Navel. Considered superior to Washington Navel. Fruit smooth, solid, thin skinned; color strong gold. Even cropper. 2/6 each; 27/- dozen.
Groverley Navel. A Queensland variety of splendid quality; good cropper. 2/6 each; 27/- dozen.
Holdfast. Hangs long time; large fruit; juicy.
Jaffa. Excellent, and a constant bearer.
Joppa. Large and beautiful fruit; thin skin; juicy pulp, seedless.
Mediterranean Sweet. An excellent Orange.
Paper Rind St. Michael. Medium size; thin skin; finest quality.
Paterson River. A fine Orange of Parramatta type; tree strong grower; heavy fruit; good bearer.
Parramatta or Queen. Large, hardy, prolific.
Poor Man's Orange. Very large, hardy Orange, slightly bitter; makes best marmalade.

Ruby Blood. A Californian variety, and said to be the best of Blood Oranges.
Seville. Bitter; for preserving.
Siletta. Small, handsome and good.
St. Michael. Large, thin skin; best for export.
Navelencia. A cross between the popular Valencia and Washington Navel. Retains the good qualities of Washington, together with hardness and lateness of Valencia; reported to ripen 30 to 60 days later than Washington. 2/6 each, 27/- dozen.
"Oonshi" (Japanese). A very hardy tree, said to stand frost well; pendulous habit, no seeds, flesh firm, thin skin, midway between an orange and a mandarin in size.
Thompson's Improved Navel. Reputed to be a distinct improvement on Washington Navel; earlier, and good, even, consistent cropper. 2/6 each; 27/- dozen.
Valencia. Late Orange, but most excellent.
Washington Navel. Prolific; better than old Navel in size and flavour; hardy. 2/6 each, 27/- dozen.
White Siletta. Earliest, skin fine, thin, juicy.

MANDARINS

2/6 each, 27/- dozen.

Packing charge, 1/- dozen; Postage or Carriage extra.

Beauty of Glen Retreat. Excellent variety; enormous cropper.
Cumquat. Small; for preserving.
Dancy. One of the best.
Ellendale Beauty. Improved Beauty of Glen Retreat; is not liable to split in wet weather. A colonial-raised variety.
Emperor. Large beautiful fruit; one of the best.
Fewtrell's Early Shipping. A cross between an Orange and Mandarin, being practically the largest Mandarin in cultivation. Fruit ripens very early and is a good carrier.
Imperial. Earliest variety in cultivation.
Jacob's Improved Thorney. Distinct improvement on old Thorney; much larger and earlier.
J. W. Matthews. Good size; heavy bearer; good carrier; mid. season.
King Emperor. Very large; rough skinned, hangs well; late.
Navel Mandarin. Fruit solid and sweet, of good size; few seeds.
Parker's Special. Early; solid, smooth skin.
Pride of Ellendale. Full, solid fruit; skin thin and tough; juicy; good carrier.
Scarlet (Syn. Canton). Large fruit, skin almost scarlet, flesh juicy; handsome.
Thorney. Small, firm, fine high flavour.

GRAPEFRUIT

POMELOES

2/6 each, 27/- dozen.

Packing charge, 1/- dozen; Postage or Carriage extra.

Common. Very large, up to 2 lb. weight, very heavy bearer, fruit being produced in clusters of from three to seven in a bunch.
Marsh Seedless. Medium size, thin rind, half the usual bitterness; practically seedless; pulp juicy; very little rag; superior flavour; keeps and packs well.
Natsu Mikan. The true Grape Fruit of Japan, and a very prolific bearer.
Triumph. Medium size; peel smooth, clear, thin and fine grained; little rag and few seeds; very heavy, being juicy and well flavoured. There is no bitter in the juice and but little in the rag.

PASSION FRUIT

Postage or Carriage Extra.

Passiflora Edulis. The well-known Passion Fruit. 9d. each; 7/6 per doz., in 3in. pots; from open ground, 15/- per 100. Special quotations for large quantities.
Tasconia Mollissima (White Passion Fruit), 2/- ea.; 18/- doz.

PERSIMMONS

DATE PLUMS

Colonial Grafted, 2/3 each; 24/- dozen.

Packing charge, 1/- dozen; Postage or Carriage extra.

A Tomato-shaped fruit with a thin skin; flesh, when ripe, delightfully sweet and luscious. Will grow in nearly any part of our State; prefers a warm climate, but will not be injured by slight frosts.

Dai Dai Maru. Large, orange skin, yellowish flesh, nearly seedless.

Hachiya. Elliptical, yellow.

Hyakume. Early, oblong, large; 5 x 2 inches.

Kurokuma. Early; highly flavoured.

Nitaro. Beautiful colored, flat, square-shaped fruit, somewhat similar to "Dai Dai Maru." Keeps stored for weeks.

Tanenashi. Yellow, oblong, seedless.

Yemon. Flattened; yellow with rose color.

LEMONS

2/3 each, 24/- dozen.

Packing charge, 1/- dozen; Postage or Carriage extra.

Common. Well known; rough skinned.
Genoa. An Italian variety; very juicy; good.
Lisbon. One of the best.
Lisbon Thornless. Very hard, without thorns. Thrives where other varieties fail.
Lisbon Variegated. Vigorous grower and bearer.
Messina. Favourite variety; very juicy.
Sicily. Medium, thin skin, juicy.
Sweet Rind. The best of all Lemons, being above medium size and very even. Sells very freely in the markets.
Villa Franca. Oblong, thin skin, superior flavoured.

LIMES

2/6 Single Tree, 27/- dozen.

Packing charge, 1/- dozen; Postage or Carriage extra.

East Indian. Large, very juicy.
Persian or Sweet. Sweet and pleasant flavour.
Tahiti. Fruit very large.
West Indian. Best for lime juice.

SHADDOCKS

2/6 Single Tree, 27/- dozen.

Packing charge, 1/- dozen; Postage or Carriage extra.

Blood. Excellent for preserving.
Common. Large, sour juice.
Manilla. Small, sweet juice.

CITRONS

2/3 each, 24/- dozen.

Packing charge, 1/- dozen; Postage or Carriage extra.

Bengal. **Common.** **Giant.** **Knights.**
All varieties of Citrons are very similar. They are largely used for preserving.

STRAWBERRIES

1/- doz., 6/- 100 Postage extra

Strawberries do best in strong soils, and should be planted in beds. Plantings may be commenced in April, and continued till end of July. Rows, 4 feet wide, plants 18in. apart.

Aurie. A heavy and constant cropper; resists drought. Fruit above medium; flavour good. Early.

Annetta. Large fruit, bright shining red; delicious flavour; withstands frosts and droughts. Early.

Creswell. A fine Strawberry; good for warm districts. Large, long fruit, bright, glossy red; second early, will crop right up to May.

Dr. Moree. Large, well-flavoured, and heavy cropper. Hardy and drought-resisting.

Ettersburgh No. 89. Fruit large, very firm; good carrier.

Illawarra. Vigorous grower; heavy cropper. Berries June. Red color, flesh solid, rich flavour.

King Edward VII. Berries extra large; deep vermilion; produced in bunches well clear of ground; bears from September to May. Flesh pure white; delicious pineapple flavour.

Melba. Large brilliant red fruit of finest quality; ripens fairly early; heavy cropper.

Phenomenal. Early variety; fruit large; splendid flavour; carrying well; extremely vigorous, standing extremes of heat and drought better than any other we know; good carrier.

Royal Sovereign. Superb variety; large, luscious; deep scarlet fruit; abundant bearer.

Grape Vines

ON THEIR OWN ROOTS

We cannot supply any Grape Vines on Phylloxera-proof Stocks.

NOTE—We have now made such arrangements as will enable us to send **Grape Vines** to any part of the State. A number of well-known varieties are available in addition to those mentioned above.

1/- each, 9/- per dozen; postage extra.

Black Hambro. The best for coastal districts.

Black Isabella. Berries large; strong grower.

Black Lady's Finger. Deep shining black.

Black Monukka. Excellent seedless variety; bunches large; good flavour.

Black Prince. Berries largest size; late.

Black St. Peters or Black Alicante. Jet black berries, with blue bloom; both bunches and berries large.

Buckland's Sweetwater. An improvement on the old Sweetwater. Constant bearer, heavy cropper, medium size bunches, pale amber.

Camden Sherry. Bunches large; deep golden color, with reddish bloom.

Doradillo (White Mormillon). Bunch and berry large; fawn color.

Early Sherry. A profitable early white grape; largely grown for market.

English Sultana. A seedless yellow grape; bunches and berries medium sized; used mainly for Raisin making.

Golden Chasselas. Medium size; round; early.

Gordo Blanco. Very extensively grown for Raisins, being for that purpose superior to well-known "Muscat of Alexandria."

Gros Colman. A splendid late black grape, very large berries.

Hayes' Keeper. Fine large white late grape; hangs very late.

Mrs. Prince's Black Muscat. Berries large; late.

Mudgee Black Sherry. Firm, tough berry; late.

Muscat of Alexandria. One of the very best White Muscats, medium strong grower and an old favourite.

Pink Lady's Finger. Large, long berries; good.

Red Muscat. Medium sized fruit; early; rich muscat flavour.

Shiraz. A very fine red grape; berries olive shaped; fairly large; early bearer.

Snow's Black Muscat. Splendid, delicious.

White Isabella. Berries large; good flavour.

White Muscat. Berries large; mid-season; strong Muscat flavour.

White Wax. A very handsome mid-season Grape; large bunches; sweet; and constant cropper.

Loganberry

1/- each, 10/- dozen; postage extra.

Fruit as large as Blackberry, produced in clusters; dark red color. A highly desirable fruit for jams or preserves.

Guavas

2/- each, 18/- dozen; postage extra.

Of easy culture in districts where the climate is not colder than that of Sydney; preferring good and deep soil, but will grow and do well in any ordinary orchard ground.

Purple. A handsome shrub; fruit deep purple.

Parker's Hybrid. Fruit creamy white; large; superior.

Yellow. Large fruit; splendid for dessert.

Miscellaneous Fruits

	Postage extra.	s.	d.
Chinese Raisin (Hovenia Dulcis) ..		2	0
Mango ..		3	6
Paw Paw ..		2	6
Pineapple ..		2	0
Pomegranate (Punica Granatum) ..		2	0

Mulberries

Postage or carriage extra.

Black or English. Luscious fruit for any part of the State; very ornamental trees. 2/6 to 3/6 each.

Cape. Fast growing; useful for shelter; fruit small; culinary purposes only. 2/-

Downing's Everbearing. Fruit long, juicy, rich; valuable for cooking only. 2/-

Hicks' Everbearing. Rapid-growing shade tree; sweet sub-acid flavour. 2/-

Prolific. Wonderful bearer; table and kitchen. 2/-

NUTS

Almonds

1/9 per single tree; 6 trees (3 sorts), 9/-; 12 trees (2, 4, or 6 sorts), 18/-;

12 trees (12 sorts), 21/-

Packing charges 1/- doz.; postage or carriage extra.

It is not advisable to plant Almonds in districts where severe frosts occur in the late Spring, as the frosts would be likely to injure the flowers and prove fatal to the crop. It thrives and produces the best crops on a variety of soils, provided they have been well drained. A light sandy loam will suit it best. Almonds are a profitable crop to grow, and are well worth the orchardist's consideration.

Brande's Jordan. Very large; good bearer.

Burbank's Seedling. Hardy and heavy cropper.

Golden State. Heavy and regular bearer; with smooth kernel, and soft shell.

I.X.L. Nuts large; soft shell.

Hatch's Nonpareil. A very fine almond; large kernel, and very thin shell.

Paper Shell. The commonest sort.

Sultana. Soft shells; superior flavour.

White Nonpareil. Strong grower; heavy cropper; nuts very large, with white shell.

Raspberries

6d. each; 5/- per doz.; 35/- per 100.

Postage or carriage extra.

A really useful fruit, and of easy culture in the colder districts of the State.

Antwerp Red. Large, fine flavour.

Cuthbert. Sturdy grower; red.

Northumberland Fillbasket (Thornless). Deep red; good size and flavour.

Victoria. Large, red; excellent, late.

Walnuts

2/6 each; 27/6 dozen

Packing charges, 1/- dozen. Postage or carriage extra.

These delicious nuts can be produced in any climate suitable for the Spanish Chestnut, and in colder districts. Young trees are invariably without any roots, but customers need not hesitate to plant our stock, as they rarely fall.

Chaberte. Large French variety; very productive.

Juglans Regia. The English variety.

Juglans Seiboldii. A Japanese variety.

Juglans Cordiformis. A flat variety.

Nuts & Filberts

2/- single tree, 22/- dozen.

Packing charges 1/- dozen; postage or carriage extra.

The undermentioned Nuts thrive well on the mountains between the coast and the Riverina. They will grow well, but produce little fruit in the immediate neighbourhood of our coast. At Braidwood, and even at Picton and Berrima, Hartley, Mudgee and Bathurst, they bear well.

Gosford **Northampton Prolific**
Cob Nut **Red Filbert**
Hazel **White Filbert**

Japanese Chestnut, 2/6 each. Produces good Nuts when only four years old.

Spanish Chestnut. (Castania Vesca). 3/- each. 33/- dozen. A fine stately tree; magnificent foliage; fruits freely, and will succeed admirably in our cooler districts.

Pecan Nut. A most delicious Nut; quick-growing; full bearing in eight years. From 2/6.

Queensland Nut (Macadamia Ternifolia). 2/-

Suitable Fruit Trees for Certain Localities

We have been asked on many occasions to suggest or recommend varieties of Fruit Trees that would be most suitable for cultivation in given localities for market purposes. With the desire to facilitate matters in this direction, we give, on this page, various lists of Fruit Trees that we believe will give the best and most satisfactory results, provided, of course, that the growers cultivate intelligently.

ANDERSON'S POPULAR CARNATIONS

CARNATIONS are great favourites with garden lovers. Their rich perfume, artistic colorings and dainty foliage are only three of many commendable points of the modern Carnation. We are famed for

our quality Carnations; well-grown, sturdy, disease-free plants, that will add beauty, charm and grace to your garden. Plants sent out by us will be securely packed and of first-class quality.

NOVELTY CARNATIONS for 1929

MAGPIE—(For illustration see Novelty Page 8); the most striking Carnation seedling that has been seen for some time. It caused much comment at the recent shows on account of its distinct markings which are deep maroon on a pure white ground. The flowers are large, smooth-edged, and beautifully formed, and carried on long stiff stems. Strong vigorous grower and free flowerer. A champion Carnation. 2/6

BLUEBIRD—A most unusual shade of deep mauve, approaching a blue, the nearest shade to that color which is so rare in a great number of flowers. Large slightly fringed flowers, sound calyx, strong healthy growth, very free flowering, quite unique. 2/6

GLOW—Buff ground suffused scarlet, making a very attractive flower. With nicely shaped smooth-edged petals, long strong stems and healthy vigorous habit of growth. Should be much sought after. 2/6

MRS. UPTON—This Carnation was awarded the coveted Baptist Bronze Medal, by the Horticultural Society of N.S.W. in 1926, for the best Australian-raised seedling. The ground color is pure white daintily marked with light mauve. Large well-formed flowers, strong perpetual growth. 2/6

BRILLIANT—As the name denotes, this is a brilliant salmon scarlet. Although we have other Carnations of similar color, this variety should take pride of place as a decorative. Very free flowering, sound calyx and stiff stems. 2/6

RECENTLY INTRODUCED CARNATIONS

Varieties marked * are fringed-edged type.

***AUDREY PHILLIPS**—A new decorative variety of an exquisite shade of deep salmon, which has been tested for some considerable time, and has proved itself an exceptional winter flowerer. The flowers are carried on stiff wiry stems with a strong calyx. Can be highly recommended for decorative purposes. 2/6

AVON—Color white ground heavily edged and marked chocolate. The blooms are large with smooth clear cut petals. Growth strong and vigorous. 1/6

BERYL MILLS—The color is a pleasing shade of deep cerise pink; the flowers are smooth-edged and carried on stiff stems; very free flowering. 1/6

CARLTON BEAUTY—A sport from the well-known "Beauty," having the same perpetual flowering qualities. The color is a deep yellow ground laced and splashed crimson; the flowers are nicely formed, with smooth-edged petals. A great acquisition to the yellow ground fancy class. 1/6

***COMMISSIONER DAVIES**—Bright scarlet, large flowers slightly fringed carried on strong stems. Healthy vigorous grower. 1/6

F. J. WALTERS—One of the best recently raised varieties. It has the purest of white ground, edged with rose and occasional splashes of red. The flowers open well and are large and beautifully formed; the calyx is extra strong, growth exceptionally vigorous and healthy; has taken many first prizes. 1/6

ISABELLA—Pure white ground, heavily marked and edged with deep maroon. Free flowering habit and strong growth. 1/6

***MARNIE**—A new introduction to the decorative class. The color is a delightful shade of shell pink. Medium sized flowers with strong calyx; stiff stems, and true perpetual flowering habit. 1/6

MRS. REID—The color is a pure white ground, beautifully edged, marked and dotted with bright scarlet. The flowers are very large and symmetrically formed, having a nice quantity of well arranged petals. It possesses a long calyx and good stems; the growth is healthy and vigorous. An exceptionally good show flower, and has been admired by all who have seen it. Always in flower. 1/6

MISS L. McGRATH—This is an unique Carnation, the color being a very pretty shade of crushed strawberry. The flowers, which are of good size, are well formed with smooth-edged petals of great substance. Carried on strong stems, the growth is very compact and vigorous. 1/6

***OWEN CARROLL**—The color is a beautiful shade of salmon. Growth uncertain. 1/6

***PILGRIM**—The ground color is pink dotted and splashed red, good calyx and stiff erect stems. The flowers are nicely formed and slightly fringed; very vigorous grower, and free flowerer. 2/6

PATRICIA—Pure white ground splashed bright red. Nicely shaped flowers. 1/6

PHYLLIS GIBBS—A very dainty and distinct fancy. Color, pure white, lightly picoteed deep pink. The flowers are beautifully refined, clear cut and good form. 1/6

***SAFFRON**—This Carnation will fill a long-felt want, it being a clear yellow sport from the well-known "Sunstar," and having the same large well-formed fringed-edged flowers, and free flowering habit. Specially imported from England, and described there as the best yellow in commerce. 2/6

***SUNRAY**—Buff ground; heavily marked red. Nicely formed flowers. Deeply fringed and non-bursting calyx. 2/-

***SUSSEX WHITE**—Pure crystal white originated in N.Z. Vigorous perpetual grower; flowers very freely; in our trial beds has proved itself the best white to date. 2/6

TARZAN—Ground color is deep red, edged, marked, and dotted crimson. Large well-formed flowers, with smooth-edged petals; non-bursting calyx. 1/6

***TROON**—A really beautiful decorative variety of bright orange color, edged and striped scarlet, strong and vigorous grower, with good long stems and perfect calyx. A splendid Carnation for show or garden. 2/6

VASTE—A sport from Marnie having the same vigorous growth and flowering qualities, being different only in color which is pink striped and splashed deep pink. 1/6

GENERAL LIST OF CARNATIONS

Varieties marked * are fringed-edged type.

CARNATIONS (continued)

- *AUSTRALIA**—A sport from the well-known variety Denet; the ground color is pink, splashed and striped, with a deeper pink. The growth and habit are exactly the same as the parent. 1/6
- ADELINE CARTER**—Quite distinct from other Carnations. The color is a beautiful shade of mauve, each petal is edged with plum red, calyx and stem perfect. A sister plant to Marden. 1/-
- ADMIRAL BEATTY**—A remarkable Carnation, grows wonderfully and flowers profusely; fine, handsome foliage. Color, white ground, edged and pencilled purple. 1/-
- ADRIA**—A charming bloom. Cream ground suffused deep rose. Non-burster. 1/-
- *ANDROMEDA**—Color dark crimson; constant bloomer; growth very healthy. 1/6
- *APSLEY**—Sport from the wonderful flowering Denet, having the same habit of growth and big strong stems. The calyx is sound, and the blooms are equally as large, but deeper in color than "Denet." Salmon centre, shading lighter towards edge. 1/-
- AVIGNON**—This variety we consider one of the best. Grows easily, flowers profusely. Blooms open quickly and last well. Glorious buff yellow ground dotted and marked red; smooth edge. 1/-
- BEAUTY**—The name applies well to this variety, which is one of the most beautiful grown. Color, cream ground, pencilled maroon; always in demand. 1/6
- B. JOLLEY**—The ground color is pale yellow, with numerous markings of light purple and mauve. 1/-
- *BELGIUM**—One of the most vivid scarlets in cultivation. 1/-
- CAMILLE**—Color, salmon scarlet, flowers of perfect form, with smooth petals; calyx good, robust habit of growth. 1/-
- CHANCELLOR**—Flower stem and calyx both strong. Blooms are of first-class form, with smooth petals. Color, cream laced with pale rose. 1/-
- *COMET**—Most popular scarlet grown. 1/-
- *DENET**—Famed for its size. Few Carnations are so well known. One of the easiest to grow. Sound calyx, immense blooms, and stems exceedingly long. Pale pink; petals deeply serrated. 1/-
- DESERT GOLD (Kerslake's Yellow)**—The best smooth-edged pure yellow in cultivation. Strong grower, long stems, and perfect blooms. 1/6
- DORIS**—Color, white, ground edged, marked and dotted maroon. Flowers are excellent form. 1/6
- *ENCHANTRESS SUPREME**—Color, pale flesh pink, splendid grower. 1/6
- *FAIR MAID**—Pale salmon pink, good for flower trade. 1/-
- *FLORA HILL**—Pure white, fringed edge; free flowering. 1/-
- GLORY**—An enormous perpetual flowering scarlet, which will produce a large number of blooms throughout the year. This variety has proved the best of its color. 1/-
- *GEISHA**—Heliotrope, with a pink centre, changing to clear light heliotrope or mauve, sweetly scented. 1/6
- GRANADA**—Color, pure white, with heavy edge, and markings of bright purple. Vigorous grower. 1/-
- IDEAL**—A pure self, a pleasing color between crimson and purple; large smooth-edged petals of good form. 1/-
- IRMA**—A bright yellow fancy type, outer half almost covered with a very heavy edge and markings of crimson. 1/-
- *JEANIE**—A beautiful shell pink color, nicely formed flowers, fringed-edged and sweetly scented. 1/6
- *JOHN STOREY**—Prettily shaped flowers, borne on extra long, stiff stems. The growth is very strong and vigorous. 1/-
- MRS. LOIS**—The ground color is yellow with bright marking of red. Very good for show purposes. Calyx is strong. Stems long and strong; growth inclined to be straggly. 1/6
- LUCRECIA**—White ground, edged and marked bright purple; a very attractive flower. 1/6
- MAISIE**—The flowers are of excellent form, with broad, smooth-edged petals; pure white ground, edged and marked deep crimson. Good for either garden or show. 1/-

- MARDEN**—The color is pure white, being edged and marked with purple. 1/-
- MARIE**—Color, pure white, beautifully marked scarlet. 1/6
- *MARITZA**—Extra large, purple. 1/-
- *MAUVE KING**—A beautiful lavender heliotrope shade. 1/-
- MISS EDITH**—White, of the smooth-edged type. 1/-
- *MONA**—A good garden variety, easily grown. Cerise. 1/-
- *MORNING GLOW**—Color, light rose pink. 1/6
- MRS. P. L. STEVENSON**—Pure white ground, with a few markings of scarlet on each petal; very large circular blooms. Has taken many "champion" prizes. 1/-
- MARJORIE**—White ground, edged and marked deep crim. 1/6
- MRS. G. H. KERSLAKE**—Yellow, marked scarlet. Very popular. 1/6
- MRS. J. WREN**—Color, white, striped with bright pink; fine large flowers of good form. Vigorous habit of growth. 1/-
- NABOB**—Pearly white ground, beautifully picoteed maroon. A good show bloom. 1/-
- *NIRVANA**—Yellow ground, with rich markings of scarlet, always in bloom, growth dwarf and strong; perfectly formed flowers. 1/6

Carnation Collections

- forming a very pleasing combination. This Carnation is always in bloom, giving well-formed flowers of the fringed-edged type, non-bursting calyx, long stiff stems, and excellent growth. 1/-
- *STRAWBERRY GEM**—Beautiful shade of crushed strawberry; good garden variety. 1/-
- SULTAN**—Deep rich crimson, absolutely non-bursting. 1/-
- *SUNSTAR**—This Carnation is almost a yellow self, having only a few pink splashes. The flowers average 3in. across. This variety has been greatly admired. 1/6
- *SWEET LAVENDER**—Pale shade of lavender. 1/-
- THE PRINCE**—A pearly-white ground Carnation, very distinctly marked crimson on each petal. Blooms large; good show form. 1/6
- THIRZA**—Yellowish buff ground color, marked and suffused with bright pink. 1/6
- *VALDA**—Crushed strawberry. Sound calyx; growth vigorous. Good garden sort. 1/-
- *WHITE ENCHANTRESS**—A pure white sport from Enchantress, having all the excellent qualities of its parent. 1/-
- *WHITE SEQUENCE (Wedding Day and Mother's Day)**—The blooms are usually pure white; one of the best growers in cultivation. 1/-
- *WHITE WONDER**—White. Large flowers, and exceptionally fragrant. 1/6
- WINFRED**—Cream ground, with delightful markings of vermillion, a wonderful flowerer, especially in winter. Medium size blooms of good form. 1/-
- *WUNDA**—Color, deep velvety crimson, fringed edge, growth exceptionally strong, long, stiff stems, and sound calyx; the largest crimson in commerce. 1/6

GROW Anderson's ROSES

Roses increase in well-merited popularity every year. The keen Amateur Rosarian will find a list of the latest varieties fully listed in the Novelty Section at the commencement of this Catalogue. Our list of Standard Roses has been augmented this year (see page 52). The National Rose Society's Recommendations for 1929 will be found on page 52. These are well worthy of consideration. The best time to plant Roses is from May to August, when the plants are dormant. Roses sent out by us are of good strong growth and free from disease. They are

carefully packed and will travel long distances without damage. Owing to the similarity of many of the names, customers are asked, when ordering, to write the names as they appear in the Catalogue. When ordering it is advisable to add a few extra names, to enable the order to be made up, as there is a possibility of some varieties being sold out, especially when ordering late in the season.

Price, 1/9 each; 18/- dozen. Postage Extra. N.S.W.

REDS

- Amelia de Bethune** (Per.). Vigorous grower, bushy and erect; globular flower, coral red, shaded with cochineal.
- Arthur Cook** (H.T.). Deep velvety crimson with a beautiful sheen. Large, full and pointed; most delightful perfume.
- Bloomfield Progress** (H.T.). Fragrant, crimson flowers; somewhat darker than General MacArthur. Foliage mildew proof.
- Charles P. Kilham** (H.T.). Brilliant orange orient red, suffused with glowing scarlet. When full open the color fades to brilliant red in the old flowers. Well shaped buds opening to good sized flowers of fine shape. Dark green foliage not liable to mildew.
- Colonel Oswald Fitzgerald** (H.T.). Blood red, velvety crimson, produced in great profusion.
- Earl Beatty** (H.T.). Flower deep crimson, deeply scented; an ideal bedding rose.
- Earl Haig** (H.T.). Reddish crimson; immense size.
- Etoile de Hollande** (H.T.). Bright dark red, sweetly perfumed.
- Frances Scott Key** (H.T.). Deep red; excellent.
- Fred. J. Harrison** (H.T.). Cardinal red suffused with crimson and splashed with blackish crimson towards the edge of the petals. A grand rose for exhibition and garden purposes.
- General MacArthur** (H.T.). Richest crimson, shaded scarlet. One of the best.
- General Superior Jansen** (H.T.). Brilliant carmine; on stiff stems; large and full.
- George Dickson** (H.T.). Scarlet crimson, with brilliant scarlet reflexed tips, heavy, and uniquely pure crimson maroon veining on reverse.
- Gruss au Teplitz** (H.T.). Large and cupped, crimson, very sweetly scented.
- Gwyneth Jones** (Per.). A most beautiful and distinct decorative rose. Carmine orange without shading; blooms retain their fascinating color until they drop. The petals are large and of good texture, and the flowers semi-double to moderately full. Faint lemon perfume. The foliage dark green and mildew proof.
- Hadley** (H.T.). Dark crimson scarlet; good grower; one of the best.

- Hawthorn Crimson** (H.T.). A gloriously beautiful rose whose pointed bud colorings are intense crimson maroon, becoming crimson scarlet as the semi-double blooms develop.
- Herman Neuhoft** (H.T.). A dark scarlet sport of "General Superior Arnold Jansen." The color is quite constant and a very pleasing shade.
- Holt Hewitt** (H.T.). Magnificent rich velvety crimson, flushed scarlet at the edges of the petals and veined scarlet. Well shaped bud, carried erect and opening into a large, beautifully shaped flower. Large bold petals of fine substance.
- Hoosier Beauty** (H.T.). Crimson, with darker shadings; large, beautifully formed flowers on erect, stiff stems. A real beauty.
- Isobel** (H.T.). Single, carmine red, flushed orange scarlet.

Feed

"National" Rose Food

See page 66

- John Russell** (H.T.). A rich glowing crimson flushed with deeper, almost black shades.
- John Davidson** (H.T.). Deep rich crimson.
- K. of K.** (H.T.). Intense scarlet; semi-single.
- Lady Helen Maglona** (H.T.). The bud and young flowers bright crimson red with blackish markings, lightening with age to scarlet red. Hardy vigorous growth. Awarded "The Clay Cup" for fragrance in 1925.
- Laurent Carle** (H.T.). Large, flowers borne on long stems; brilliant velvety carmine; perfumed; good.
- Lady Worthington Evans** (H.T.). The color is glowing blackish crimson. Disease resistant foliage. Makes a fine bushy tree, ideal for bedding. Award of Merit, Royal Show (England).
- Lord Charlemont** (H.T.). Clear crimson, deepening to carmine crimson; sweetly scented.

- Madame Henri Lustre** (H.T.). Vigorous growth and erect branching habit, very floriferous, beautiful long bud, flower very large, full, opening well; color, dark scarlet to red.
- Mrs. H. Winnett** (H.T.). Beautiful red, not as dark as Hadley.
- Papa Gontier** (H.T.). Rosy crimson, very large petals.
- Penelope** (T.). Lower half reddish crimson; centre creamy white.
- Red Letter Day**. Scarlet crimson buds, and cactus-like flowers, blooming the entire season.
- Red Radiance** (H.T.). A red flowered sport from the popular favourite Radiance. Very free flowering; strongly recommended for garden decoration.
- Rhea Reid** (H.T.). Flowers red, large, fragrant; free and continuous blooming.
- Sensation** (H.T.). Scarlet crimson with maroon markings, growth vigorous, profuse bloomer.
- Souvenir de Maria de Zayas**. Vivid carmine; large and good.
- Souvenir Therese Levet** (T.). Dark velvety crimson.
- Star of Queensland** (H.T.). Rich deep velvety crimson, shaded maroon, reverse petals cerise.
- Templar** (H.T.). A beautiful clear even shade of red that does not turn to blue or purple as the flower ages; very sweetly scented.
- Victory** (H.T.). Glowing scarlet; long and pointed; good form.
- Warrior** (H.T.). Flowers vivid scarlet crimson, large, double, with broad, handsome petals.
- Yves Druhen** (H.T.). Dark velvety red; highly perfumed.

PINKS

- America** (H.T.). Buds long and pointed; opens to immense fragrant rose-pink flowers.
- Antoine Revoire** (H.T.). Pale rosy flesh-shaded and egged bright carmine, base of petals yellow.
- Annie Laurie** (H.T.). Flesh pink, edges deeper, golden yellow base, extending a third of the petal, large, cupped, very double, very lasting; bud large, long pointed, borne on long strong stem. Growth very vigorous, upright, bushy, few thorns; foliage abundant, large, rich glossy green, disease resistant; profuse and continuous bloomer.

PINKS—(continued)

- Belle Sibrecht** (H.T.). Bright pink blooms; large.
- Betty** (H.T.). Pale flesh color; blooms extremely large, fairly full, fine form; sweet scent.
- Captain F. S. Harvey-Cant** (H.T.). Rich salmon pink.
- Christine Prior** (H.T.). Deep bright rosy red, overlaid and flushed yellow and peach gradually shading to deep yellow at base; long and pointed, moderately full.
- Clovelly** (H.T.). Rich carmine rose, salmon shaded.
- Columbia** (H.T.). Rich rose pink flowers on long stems. The growth is vigorous and disease resistant, and the plant is continuously in bloom, powerfully fragrant, and lasts well in water. Highly recommended.
- Columbia Supreme** (H.T.). A deep colored sport from Columbia, possessing all the parent qualities and somewhat improved shape.
- Commonwealth** (H.T.). Deep pink solid color, large; moderate fragrance.
- Cornelia** (H.T.). Beautiful salmon pink; scented.
- Countess of Gosford** (H.T.). Salmon pink; base of petals yellow; perfect.
- Dame Edith Helen** (H.T.). The color is pure glowing pink. The bloom which is carried on a rigid stem, is very large and full, and possesses the true old rose scent. The foliage is bright bronze in the young stage, changing with age to natural green, and is both mildew and black spot resistant.
- Dean Hole** (H.T.). Silvery carmine, shaded salmon. A beautiful flower.
- Dorina Neave** (H.T.). The color is a delightful silvery pink. Large, full pointed globular flowers carried erect on stiff stems. Fine compact growth. Fragrant.
- Duchess of Sutherland** (H.T.). Warm rose pink, lemon shades on white base.
- Duchess of Westminster** (H.T.). Sweetly perfumed; a dainty clear rose-madder; vigorous.
- Ethel Somerset** (H.T.). Shrimp pink, edges deep flesh.
- Fancy Free** (H.T.). Semi-double, best described as Dwarf Gwen Nash.
- Frank W. Dunlop** (H.T.). Vigorous grower; perfectly shaped, rich deep pink bloom; highly recommended.
- Frau Felix Tonner** (H.T.). Bright rose with a coppery orange base, buds large, semi-double, very fragrant. Growth vigorous, compact; good bedding rose.
- Gladys Holland** (H.T.). Buff, shaded orange-yellow, outside of petals soft rose.
- Gustave Grunerwald** (H.T.). China pink, apricot centre; good sweet scent.
- Ivy May** (H.T.). Rose pink running to amber at the base of the petals, flushed with gold on the outside of the petals, and at the edges.
- John C. M. Mensing** (H.T.). Sport from "Ophelia," being a deep bright rose, habit and other characteristics as the parent.
- Jonkheer J. L. Mock** (H.T.). Large, perfect formation; highly perfumed; color carmine, changing to imperial pink. A beauty.
- Killarney Queen** (H. T.). Cerise pink, shading lighter at base of petals.

- Lady Alice Stanley** (H.T.). Deep coral rose, inside pale flesh, slightly flushed deeper flesh; fragrant.
- Lady Dixon Hartland** (H.T.). Deepest salmon in centre, shading to pale pink on outer petal.
- Lord Fairfax** (H.T.). Well-shaped buds of cherry red, flushed with scarlet. Expanded flowers, pretty shade of rose pink. Sweetly scented.
- Los Angeles**. Luminous flame pink, toned coral and gold at base of petals; long pointed bud, expanding into beautiful large fragrant flowers; good.
- Lucien Chaure** (H.T.). Flesh, illuminated clear buds; very free flowering and good.
- Lyon Rose** (H.T.). Buds coral pink, tinted carmine yellow open flowers; shrimp pink at edge of petals.
- Mabel Turner** (H.T.). Flowers large, full, and well formed high pointed centre. Deep salmon pink, reflexed petals.
- Madame Abel Chatenay** (H.T.). Pale flesh, shaded rose; free flowering, good; splendid.
- Madame Butterfly** (H.T.). Sport from Ophelia; a harmony of bright pink, apricot and gold; excellent.
- Madame Leon Pain** (H.T.). Silvery salmon, centre orange yellow; large, full; well formed.
- Madame Segond Weber** (H.T.). Petals large and firm; color rosy salmon; very fine.
- Maman Cochet** (T.). Blush rose, shaded carmine and salmon. One of the best.
- Mrs. Bryce Allen** (H.T.). Carmine rose highly perfumed; splendid.

WILL PRODUCE
Prize Blooms

(See page 66)

- Mrs. C. J. Bell** (H.T.). A sport from Radiance; color, delicate shell pink.
- Mrs. E. T. Stotesbury** (H.T.). Bright pink; fair perfume.
- Mrs. E. Willis** (H.T.). Seedling from Mad. S. Weber; long buds; delicate pink.
- Mrs. George Shawyer** (H.T.). Similar in color to Madame Jules Grolez, but a large flower, with longer and stiffer stems.
- Mrs. A. R. Barraclough** (H.T.). A bright soft carmine pink shading to yellow at base. The color does not fade. The flowers are very large, full, of fine substance and perfect form. Habit of growth strong and vigorous. Fragrant.
- Mrs. Tom Smith** (H.T.). Growth vigorous and erect. Dark bronzy mildew-proof foliage. Buds freely produced and open exceedingly well. Color glowing cerise; fragrant; flowers finely shaped, every bloom being perfect.
- Mrs. W. C. Egan** (H.T.). Color a two-tone pink, lasting well when cut.
- My Maryland** (H.T.). Bright salmon pink, with paler edges; delightfully fragrant.

- Radiance** (H.T.). Flowers large size, clear rose color, with a brilliant reverse of dark carmine. The bud is large and always clean and brilliant; stems are very long and stiff, bearing the flowers erect. A constant bloomer. Perfumed.
- Rose Marie** (H.T.). Rose pink, fragrant; highly recommended.
- Salmon Spray** (H.T.). Rich salmon pink; reverse of petals carmine.
- Shot Silk** (H.T.). Colorings may be described as bright cherry-cerise overshoot with salmon orange, flushed rose, and a deep-veined clear buttercup yellow base; strong Otto of Rose perfume.
- Sunny South** (H.T.). A lovely pink, flushed carmine on a yellow base.
- Una Wallace** (H.T.). Cherry rose, without shading.
- Victor Waddilove** (H.T.). Bright carmine pink with yellow base; magnificent form, substance and texture; strong, sweet tea perfume.
- Willowmere** (H.T.). Rich crimson pink, shaded yellow in the centre.

COPPERS

- Angele Pernet** (Per.). Vivid orange yellow shaded fiery red, deep reddish apricot, outside of petals golden yellow.
- Aspirant Marcel Rouyer** (H.T.). Deep apricot, tinted salmon flesh on outer petals, veined deep yellow at base; good.
- Betty Uprichard** (H.T.). Salmon to carmine, while the reverse is glowing carmine, with coppery sheen.
- Carine** (H.T.). Orange carmine, blush buff, creamy fawn and coppery salmon.
- Constance Casson** (Per.). Rich carmine flushed, and veined apricot.
- Edith Part** (H.T.). Deep salmon and coppery yellow, with deeper shade in bud stage; vigorous and free blooming, fine habit; sweetly perfumed.
- Gorgeous** (H.T.). Deep orange yellow, heavily veined reddish copper.
- Henrietta** (H.T.). Fiery orange crimson, changing to soft coral salmon; perfumed.
- Lady Pirrie** (H.T.). Reddish salmon, inside of petals apricot yellow flushed fawn and copper.
- Lady Roberts** (T.). Reddish apricot; the base of the petals coppery red.
- Lady Margaret Stewart**. In the young stage the flower is deep sunflower yellow heavily veined and splashed with orange scarlet. The reverse of the petals deeply marked with carmine; as the bloom develops these shades intermingle, forming in the fully developed flower a beautiful cadmium orange effect. Full flower of decorative form. Sweet perfume. Free from mildew and black spot. Certificate of Merit N.R.S., Award of Merit, Southport, Award of Merit, Royal Show (Eng.).
- Madame Constant Soupert** (T.). Deep apricot, shaded peach; large.
- Madame Edouard Herriot** (H.T.). A deep terra-cotta or reddish copper; unique.

COPPERS—(continued)
Mama Lamesch (H.T.). Orange and flesh, centre reddish copper with carmine on yellow ground.
Marjorie Bulkeley (H.T.). Buff ochre, flushed rosy pink.
Maud Cuming (H.T.). Delicate peach, shaded coral pink, suffused and veined orange.
Mrs. A. R. Waddell (H.T.). Very long buds of reddish salmon tints; good grower.
Miss Anna Marie Bally (H.T.). A fuller and larger "Lamia," excepting that the inner petals are of a rich reddish copper. The growth is somewhat spreading and will be a glorious garden and bedding rose of vigorous habit. Very free flowering and perpetual. Dark foliage.
Mrs. Lovell Swisher (H.T.). Large, beautiful pointed buds of deep coppery salmon, opening to perfectly formed, double, moderately fragrant flowers of delicate salmon pink, passing to flesh on the edges. A very vigorous grower with bronzy foliage, resistant to disease.
Naomi (H.T.). The color is a distinct coppery buff. Full, pointed globular flowers are carried erect on long strong stems. Dark green leaves, claret-colored wood. Free flowering. Vigorous growth. Fragrant.
Old Gold (H.T.). Vivid reddish orange; rich coppery red and apricot shadings; sweetly scented.
Souvenir de R. B. Ferguson (Per.). Splashed cerise and rose pink on apricot.
Souvenir of Stella Grey (T.). Deep orange, with splashes or veinations of yellow, apricot, salmon, and crimson.

YELLOWS

Alexander Hill Grey (T.). Flowers very large, lemon yellow; vigorous and good.
Duchess of Wellington (H.T.). Intense saffron yellow, stained rich crimson; becomes deep coppery saffron-yellow.
Elegante (H.T.). Long, sulphur yellow bud; large flower; creamy yellow.
Frances Gaunt (H.T.). Delightful fawny deep apricot, toning to silvery flesh; delightfully fragrant.
Golden Gleam (H.T.). Bright buttercup yellow without shading. The outer petals are flushed and streaked scarlet. Very dainty and refined buds and flowers and very free flowering. Dark green, handsome foliage. Not liable to mildew.
Georges Schwartz (T.). Deep canary yellow; free.
Golden Ophelia (H.T.). A seedling from "Ophelia." Color, golden yellow in centre, paling slightly at outer petals. Recommended.
Goldmine (H.T.). Golden yellow, with orange bronze heart. Pointed bud, open flower, very handsome type; good petals, free flowering and lasting. Tea scented.
Holland Beauty (H.T.). Flower yellow and orange pink, of remarkably fine shape when in bud; handsome foliage.
Hugo Roller (T.). Rich lemon yellow, petals edged crimson; flowers medium size; good shape.
Irish Elegance (H.T.). Bronzy orange, profuse bloomer; single.
Irish Fireflame (H.T.). Single. A deep maddery orange, splashed with crimson, which as the bud develops comes fiery orange crimson; delicately sheened and veined with pure crimson and pure lemon zone; strong tea perfumed.

June Boyd (H.T.). Salmon carmine with a yellow base, the outside of petals being heavily flushed amber yellow.
Lord Lambourne (Pernetiana). Deep unfading buttercup yellow.
Mabel Morse (H.T.). Golden yellow without shading; sweetly scented.
Margaret Dickson Hamill (H.T.). Delicate maize straw color; petals flushed with carmine at back; perfumed.
Mrs. Beckwith (Per.). Buttercup yellow, lighter on edges of petals.
Mrs. Chas. Lamplough (H.T.). Soft lemon, sweetly scented.
Mrs. Dunlop-Best (H.T.). Reddish apricot, base of petals coppery yellow; perfumed; good.
Mrs. MacKellar (H.T.). Deep citron, or delicate pure canary, changing to primrose cream.
Mrs. R. H. Darlington (H.T.). Creamy yellow, sweetly scented; splendid.
Norman Lambert (H.T.). Outside petals deep buttercup yellow, and the inside deep salmon orange suffused bronze and yellow, fading to yellow at base. Flowers large and full. Foliage dark green and mildew proof. Long strong stems. Delightfully fragrant.
Perle des Jardine (T.). Bright canary yellow; fragrant.
Rev. F. Page Roberts (H.T.). Marechal Neil color, buff markings reverse of petals; highly recommended.
Richard E. West (H.T.). Cadmium yellow, paler on reflex. Delightfully fragrant.
Roselandia (H.T.). A new yellow sport from Golden Ophelia: larger and deeper in color, with fruity perfume.

"National" Rose Food for BETTER BLOOMS

See page 66

Souvenir de Claudius Pernet (Per.). Sunflower yellow that does not fade; large, full, good.
Souvenir de H. A. Verschuren. Cadmium yellow, passing to orange yellow.
Souvenir de Madame Boulet. Dark cadmium yellow; large, fairly full, long bud.
Sovereign (Per.). Deep yellow in bud, opening to deep golden yellow.
Sunburst (H.T.). Cadmium yellow, orange-yellow centre, large cupped form, changing to brilliant lemon as flower expands.
Sunstar (H.T.). Deep orange and yellow, edged crimson.
Ville de Paris (Pernetiana). Flower large, full, globulous; color, sun yellow, slightly tinted orange, deeper in the centre and at the base. Keeps its color well in full sun.
W. F. Dreer (Per.). Deep golden yellow, strongly perfumed.

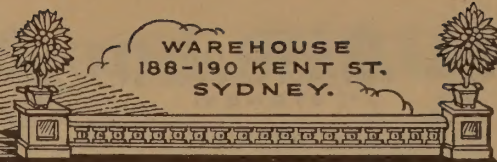

White & Light Shades

Angelus (H.T.). White, tinted cream at centre; fragrant.
Clarice Goodacre (H.T.). Biscuit chrome on Ivory white, stiff petals, vigorous grower.
Kaiserine Augusta Victoria (H.T.). Pure white; one of the best.
Madame Jules Bouche (H.T.). Salmon white, centre shaded virginal pink; large, full, good form, hard petals. Recommended.

Marcia Stanhope (H.T.). Scented white rose.
Mevrow van Marwyx Kooy (H.T.). White, centre Indian yellow; sometimes coppery orange.
Miss Willmott (H.T.). Soft sulphur cream, with faintest flush towards edges.
Molly Sharmon-Crawford (T.). Delicate eau-de-nil, white; perfumed.
Mrs. Foley-Hobbs (T.). Ivory white, faintly tinged clear pink.
Mrs. Harold Brocklebank (H.T.). Creamy white, centre buff, base of petals golden yellow; very good.
Mrs. H. Stevens (T.). White centre, shaded with fawn and peach, buds long and pointed; dainty; one of the best.
Ophelia (H.T.). Salmon flesh, shaded with rose.
Phoebe (H.T.). Cream white, slightly deeper in centre.
The Bride (T.). White, tinged a lovely blush.
White Ensign (H.T.). The color is pure white, flushed delicate cream at very base of petals. Flowers are medium sized, full, and well shaped.
White Mamam Cochet (T.). Equal to the celebrated Pink Mamam Cochet.
W. R. Smith (T.). Creamy white, flushed and suffused with bright rosy pink.

CLIMBERS

Can be grown in the border if trained on poles. The prefix "Climbing" is only used when there are dwarf roses of the same name and should never be omitted when ordering if confusion and disappointment are to be avoided.
Black Boy. The darkest climbing rose yet offered. The bud is well shaped and the flower most attractive. The color is a deep crimson, shaded with blackish maroon over-laying fiery scarlet, and it is sweetly scented.
Climbing Belle Siebrecht (H.T.). Deep rose, long pointed buds.
Climbing Caroline Testout (T.). Flowers bright rose.
Climbing Chateau de Clos Vouget (H.T.). Easily darkest H.T. grown; good climbing habit.
Climbing Chatenay (H.T.). Carmine rose, shaded salmon; very free and good.
Climbing Columbia (H.T.). Strong-growing sport of this well-known variety.
Climbing Devoniensis (T.). Creamy white.
Climbing General MacArthur (H.T.). Possessing all the good points of the parent.
Climbing Georges Schwartz (T.). The blooms are of the brightest yellow; flowers freely, Spring, Summer, and Winter.
Climbing Golden Ophelia (H.T.). A fine climbing sport of the pretty dwarf variety. The flowers are perfect in shape, and will prove a welcome addition to the yellow flowering climbing varieties.
Climbing Hoosier Beauty (H.T.). Vigorous sport from the popular dwarf variety.
Climbing Irish Fireflame (H.T.). Identical with the normal type. Sometimes plants will not climb the first year, although undoubted climbers in the nursery.
Climbing Kaiserine Augusta Victoria (H.T.). Pure white; one of the best.
Climbing Lady Hillingdon (H.T.). Long buds; deep orange yellow; good.

CLIMBING ROSES—(continued)

Climbing Los Angeles. Probably no other rose has made such a stir in all except tropical countries. For description see Los Angeles Rose in General List.

Climbing Lyon Rose. A climbing sport of the dwarf variety, which will probably prove less liable to die back than the parent.

Climbing Madam Edouard Herriot (H.T.). A vigorous climbing sport of the highly esteemed variety.

Climbing Madam Segond Weber (H.T.). Climbing sport; color same as dwarf variety; good.

Climbing Mamam Cochet (T.). A strong climbing sport; color, same as dwarf variety; good.

Climbing Mrs. G. Shawyer (H.T.). Brilliant pink, vigorous climber.

Climbing Ophelia (H.T.). Identical with the normal type; perfect blooms, which are salmon flesh, shaded rose; recommended.

Climbing Perle des Jardins (T.). Bright yellow; profuse; one of the best.

Climbing Stevens (H.T.). Vigorous grower, full snow-white flower; sport from Mrs. H. Stevens.

Climbing Sunburst (H.T.). A climbing sport from the well-known dwarf variety. Color, cadmium yellow, with orange centre.

Climbing Sunstar (H.T.). A climbing sport of the well-known and popular bedding variety. A very valuable introduction.

Climbing White Maman Cochet (H.T.). This is a true climber of very vigorous habit, of the magnificent Maman Cochet.

Cloth of Gold (N.). Sulphur yellow.

Flying Colours (H.T.). Large single flowers of deep bright cerise.

Golden Vision (H.T.). Golden yellow; borne in great quantity.

Harbinger (Hyb. Gig.). A Spring flowering climber; single flowers of pure, refined pink.

Jessie Clark. Large single flowers (4in. across), borne in clusters. Color, a lovely shade of pink.

Kitty Kinnimonth (H.T.). Bright carmine rose.

Madame Jules Gravereaux (T.). Buff white, shaded peach and yellow; very large; good shape; very free flowering.

Marechal Neil (N.). Rich golden yellow.

Mermaid (H.T.) (Hybrid of Rosa Braetata); sulphury yellow, single.

Miss Marion Manifold. Rich velvety scarlet; shaded crimson, lightly Bourbon scented; a Victorian seedling which has a reputation for flowering nine months in the year. Strong, vigorous grower.

Noella Nabonnand (T.). Extra large, semi-double, velvety crimson, handsome buds. Very vigorous.

Nora Cunningham (H.T.). Flowers large, decorative, semi-double; color, pure pink in Spring, and becomes particularly vivid in the Autumn.

Sachsengruss. Delicate flesh, with China rose reflexes; very large, and a perfect shape.

Souvenir de Leonie Viennot. Silvery rose, shading to carmine, base of petals canary yellow.

Striped Reine Marie Henriette. Has the same excellent qualities as R. M. Henriette, with the exception of the flowers, which are striped magenta, on paler ground.

Walter C. Clark (H.T.). Deep maroon crimson, shaded black; perfumed.

William Allan Richardson (N.). Beautiful orange yellow.

Zephryne Drouhin (H.T.). Clear shade of pink, fine foliage; almost thornless.

Dwarf Polyantha Roses

These Roses are to their genus what the Pom Poms are to Dahlias. They are profuse bloomers and have bunches of small flowers.

ORLEANS TYPE

This section is most suited for bedding and massing, low edges, or as an edging to taller growing varieties. They produce large clusters of bloom and are almost continuously in flower. They are all compact growers, and should not be mixed with other types.

Coral Cluster. Coral pink sport from Orleans.

Ellen Poulsen. Brilliant pink; large, full, sweet scented.

E. N. Ward. Soft warm pink, sometimes tipped with carmine.

Chatillon. Beautiful pink, enormous trusses of semi-double flowers.

Jeannie Soupert. White, with pink flushing.

Maman Turbat. Beautiful China rose, shaded clear peach. Large trusses; one of the best.

Miss Edith Cavell. Scarlet crimson sport from Orleans.

Orleans. Brilliant geranium red, suffused rose, with white centre, making a charming combination. Bushy habit; and very free flowering.

CECIL BRUNNER TYPE

The varieties of this list comprise the best of the Baby Roses. They produce exquisitely shaped blooms in small clusters, suitable for buttonhole or similar decoration; but generally are not suitable for bedding.

George Elgar. Coppery golden yellow, changing to clear yellow.

Mdlle. Cecil Brunner. Delicate salmon pink; deep salmon centre.

Perle D'or. Nankeen yellow; deep orange in bud.

Tip Top. Golden yellow, heavily tipped cerise. A beauty.

MISCELLANEOUS TYPES

These varieties include all the best sorts which do not find a place in the previous sections; but as they are of various habits of growth and flower, should never be mixed with other kinds. As individual plants, or massed in one variety, they should not be overlooked.

Borderer. Flowers difficult to describe; shades of pink, copper and amber go together and make a charming and distinct rose.

Kirsten Poulsen. Large single scarlet flowers; seedling from Orleans.

Leonie Lamesch. Bright coppery red, shaded with deep red and yellow.

Mdlle. Francisque Favre. Single; carmine, with white eye; large truss.

Rodhatte. Cherry-red; semi-double.

Yvonne Rabier. Pure white.

Banksian Roses

Desirable Roses for climbing purposes.
Banksia Alba. White. **Banksia Lutea.** Yellow. **Fortunii.** Large, white.

CLIMBING

Polyantha & Ramblers

Climbing Cecil Brunner. A vigorous climbing sport from the favorite dwarf.

Climbing Orleans. A climbing sport from the well known dwarf variety.

Crimson Rambler. (See Excelsa).

Mrs. F. W. Flight. Lovely pink; white centre, semi-double; fair size; produced in enormous clusters.

Moonlight. White, flushed with lemon; sweetly scented.

Tausendschon. Large pink, in large clusters.

Veichenblau. Reddish lilac, changing to amethyst and steel blue; semi-double flowers, produced in large bunches.

Wichuraiana Roses

These delightful Roses make ideal subjects for covering banks, pergolas, tree stumps, rockeries, arches or pillars. Most varieties have small, shiny foliage, and bear a profusion of large clusters of flowers in the Spring. Suitable in all climates.

American Pillar. Large, single, rich pink, with white eye and yellow stamens.

Cherub. Produces a mass of beautiful salmon pink flowers in Spring.

Christine Wright. Clear wild rose pink, 3½ to 4 inches in diameter; double, and borne singly or in clusters.

Dorothy Perkins. A beautiful shell pink; double flowers in clusters.

Dr. Huey. Semi-double, dark crimson maroon.

Dr. W. van Fleet. Flowers 4 inches in diameter, with high centre; delicate shade of pink, deepening in the centre.

Emily Grey. Golden yellow climbing rose. Without doubt the finest yellow Wichuraiana rose yet introduced.

Excelsa. Brilliant scarlet crimson, large trusses of double flowers; mildew-proof foliage; much superior to Crimson Rambler.

Hiawatha. Single; bright rich crimson; white eye.

Ile de France. Crimson red, with white centre; large, semi-double; large trusses.

Jacotte. Brilliant coppery salmon on saffron yellow.

Maxime Corbon. Coppery yellow striped red passing to apricot yellow; centre white, tinted straw yellow.

Papa Rouillard. Vigorous growth; long bouquets of 15 to 25 flowers; brilliant carmine.

Paul's Scarlet Climber. Vivid scarlet shaded with crimson; suitable for pillars and pergolas.

Romeo. Deep red; double; perfect form; resembling a miniature "Liberty."

Sanders' White. Best white.

Shower of Gold. Vigorous; almost the color of Wm. Allan Richardson, but not so much orange.

Silver Moon. Very strong grower; large, silvery white flowers, 6 inches across.

Moss Roses

Price, 1/9 each

This charming old-world type of Rose succeeds best in the colder districts. Around Sydney it blooms in the Spring only.

White Bath. White.

Captain Basroger. Red; large, full.

Zenobia. Pink.

Rose-Growing Requisites

The successful growing of Roses does not begin and end with the placing of the plants in a selected spot in the garden. Like most worth-while things in this life, care and attention has to be bestowed in order to retain to the full that which we have acquired.

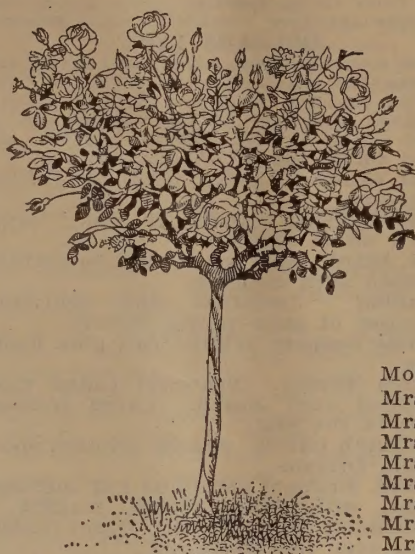

Roses need periodical pruning. On page 69 will be found listed Secateurs and Gloves.

Many Roses are prone to mildew infection, most all are attacked by Aphids. Remedies for successfully combating these evils will be found on page 67.

Roses also require correct feeding. "National" Rose Food is the best we know.

Standard Roses

Standards (about 36in.), 4/- each;
45/- dozen. Three-quarter Stand-
ards (about 30in.), 4/- each; 45/-
dozen. Half Standard (when avail-
able), 18 to 24in., 3/6 each; 39/-
dozen.
For description see General List.

The following is a list of the
varieties we can supply, and are
fine, strong plants. We recommend
the Three-quarter Standard as the
best for this climate:—

National Rose Society's Recommendations for 1929

At a meeting of the above Society on the 21st January, 1929, the following
varieties were arranged under the different groups in order of merit as a result
of a vote of the members. Price, 1/9 each; 18/- dozen. Postage extra N.S.W.,
1/6 dozen; Inter-State, 2/8 dozen.

1st Eighteen Garden Roses

Radiance	Frau K. Druschki	Hadley
Red Radiance	Rev. F. Page Roberts	Rose Marie
Mrs. C. J. Bell	Columbia	Lady Hillingdon
Etoile de Hollande	Madame Butterfly	Roselandia
Mme. Abel Chatenay	Dame E. Helen	Laurent Carle
General MacArthur	K. A. Victoria	Mrs. Geo. Shawyer

2nd Eighteen Garden Roses

Mrs. H. Brocklebank	Souv. de C. Pernet	Ophelia
Souv. de H. A. Verschuren	Mrs. H. R. Darlington	Mrs. H. Winnett
Mrs. Dunlop Best	Hoosier Beauty	Lord Charlemont
Gustav Grunewald	Souv. de Mme. Boulet	Golden Ophelia
Mme. Jules Bouche	Mad. Segond Weber	Jonkheer J. L. Mock
Ethel Somerset	Mrs. W. C. Egan	White Ensign

12 Climbing Roses

Mme. Abel Chatenay	K. A. Victoria	Maman Cochet
Mme. Segond Weber	Blackboy	Countess of Strad- broke
Ophelia	Sunburst	Perle des Jardines
Miss M. Manifold	White Maman Cochet	Mrs. Herbert Stevens

12 Decorative Roses

Sunny South	Mrs. A. R. Waddell	Killarney Queen
Shot Silk	K. of K.	Lady Pirrie
Irish Elegance	Betty Uprichard	Old Gold
Irish Fireflame	Angele Pernet	Lady S. E. Willmott

6 Dwarf Polyantha Roses

Ellen Poulsen	Orleans
Maman Turbat	Tip Top
Salmon Spray	Mlle. F. Favre

6 Pillar Roses

Clb. Lady Hillingdon	Nora Cunningham
Paul's Scarlet Climber	Zephirine Drouhin
Mermaid	Walter C. Clark

6 Clb. Polyantha Roses

Heart of Gold	Sanders' White
Excelsa	Ile de France
Clb. Mme. C. Brunner	Emily Gray

ANDERSON'S TREES, PLANTS and SHRUBS

Execution of Plant Orders

Plant orders are executed at the time most suitable for planting, taking into consideration the weather and other existing circumstances. We are always willing to attend to specific instructions regarding the execution of plant orders, should customers desire delivery at a certain time and they will accept the risk.

In order to assist customers in selecting Trees, Shrubs, Climbers, etc., we have placed certain numerals which will

indicate localities where the plants are suitable: 1, Mountain; 2, Inland; 3, Coastal; 4, Tropical.

Most of our Pot Plants are sent in water-tight paper pots, saving freight and carriage in packing. The cost of packing must be added to prices named. The minimum charge of 2/- for orders packed in cases will cover cost of packing a dozen pot plants.

ABUTILON—2, 3, 4

CHINESE LANTERN

Handsome evergreen flowering shrubs of free growth; some of the varieties have variegated leaves and are very handsome, but the whole family are attractive and profuse bloomers; flowers bell-shaped. We recommend cutting back every second or third year.

	s.	d.
Boule de Nèg. White. 6 feet	2	0
Cloth of Gold. Golden. 6 ft.	2	0
Emperor. Large flowers, dark crimson. 6 feet.	2	0
Rosaefflorum. Pink. 6 feet	2	0
Souvenir de Bonn. Leaves have a beautiful silver margin; flowers orange, veined scarlet. 10 feet	2	0
Sawitzii. A very distinct variety, with green palmate leaves regularly margined with silvery white. 4 feet.	2	0
Vexillarium. Yellow and red. 6 feet	2	0

ACACIA—1, 2, 3, 4

Accola. Splendid new variety. 12 feet	2	0
Baileyana (Cootamundra Wattle). Silvery leaf of great beauty; free flowering. 20 feet	1	6
16/- doz.; 100/- per 100		
Cyanophylla. Bluish-leaved Acacia. A tall handsome shrub with long narrow leaves and large flowers. 20 feet	2	0
Decurrens (Black Wattle). 20 feet	2	0
Dealbata (Silver Wattle). 20 feet	2	0
Elata. 30 feet. The best for avenue planting.	2	0
Mollissima Floribunda. 25 feet	2	0
Podalyraefolia (Queensland Silver Wattle). A very choice variety. 20 feet	1	6
16/- doz.; 100/- per 100		
Pycnantha (Golden Wattle). 20 feet	2	0
Spectabilis. 15 feet. Beautiful variety	2	0

ACER—1

MAPLE

Negundo (Box Elder). 40 feet	2	6
Negundo Argentea Variegata. A silver variegated form of Acer negundo. Grows in Sydney if kept well watered, but is at its best in the cooler districts	5	0
Negundo Aurea. A golden-leaved form of A. negundo, similar to the above except in the color of the leaf	5	0
Plantanoides (Norway Maple). 50 feet	2	6
Polymorphum. 20 feet. Seedling Japanese Maple	2	6
Pseudo Platanus (Sycamore or False Plane). 50 feet	2	6

These varieties are quite hardy out of doors.

JAPANESE MAPLE—1

None of the ornamental trees excel these beautiful Japanese Maples. They are striking in foliage, and thrive well in the cool parts of New South Wales when grown in sheltered positions. They can also be grown as pot plants in the bush-house.

	s.	d.
Atropurpureum. Deep maroon, large regular palmate leaves from	7	6
Dissectum Atropurpureum. Deep maroon, richly fringed thread-like leaflets; drooping from	7	6
Dissectum. Green from	7	6
Osaka-Zuki. Large-leaved regular palmate, light maroon, changing to blood-red in Autumn from	7	6
Reticulatum. Green and white variegated leaves	7	6

ÆSCULUS—1

The Horse Chestnut is very suitable for the colder parts of our State. It is a magnificent shade tree, and requires ample space. It is deciduous.

Hippocastanum (Horse Chestnut). 40 feet	s.	d.
Rubicunda (Scarlet Chestnut). 20 feet	2	6
	3	0

ALOYSIA—1, 2, 3

Citriodora (Lemon-scented Verbena). 8 feet	s.	d.
	2	0

The scent of the leaves is delightful.

AMYGDALUS PERSICA—1, 2, 3, 4

	s.	d.
Double flowering Peach; very ornamental.		
Clara Meyer. Palest double pink	2	0
Carnation Striped. Flaked white and pink	2	0
Crimson	2	0
White	2	0

ARBUTUS—1, 2, 3

STRAWBERRY TREE

Bearing small edible fruit. Handsome evergreen, hardy shrub, with laurel-like foliage; prefers a light sandy or peaty soil.

Unedo. 20 feet	2	0
--------------------------	---	---

ARDISIA—2, 3, 4

Crenulata. Crimson berries. 2 feet 2 0
Evergreen; a charming pot plant.

ARDUINA—2, 3, 4

CAPE PLUM

Beautiful flowering shrub, with white flowers strongly scented like the Jasmine.

Grandiflora. White. 8 feet	2	0
--------------------------------------	---	---

AUCUBA—1, 2, 3, 4

THE GOLD DUST TREE

Handsome, hardy, evergreen shrubs; leaves pale green, spotted with yellow; will thrive even under trees, and will stand severe frosts.

Janopica Aurea. 4 feet.	2	6
---------------------------------	---	---

BAUHINIA—3, 4

MOUNTAIN EBONY

Very showy evergreen flowering shrubs.

Alba. 10 feet	2	0
Purpurea. 25 feet	2	0

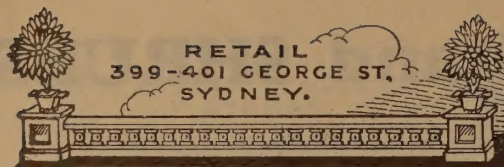

BENTHAMIA—1, 2, 3

Flowers large, white, densely aggregate, forming a round head. This is a beautiful evergreen tree, and produces reddish fruit, somewhat resembling the Arbutus; very effective.

Fragifera (Himalyan Strawberry). 10 ft.	2	0
---	---	---

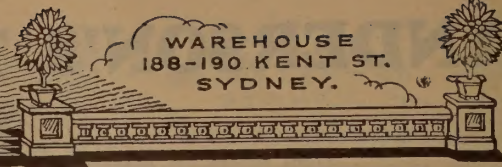

BORONIA—1, 2, 3

This charming and well known, sweetly-perfumed plant is most suitable for the South Coastal, Mountain and cooler districts of New South Wales. Possesses light, graceful foliage and brown flowers with golden-yellow lining. Prices, from 2/6

RETAIL

WAREHOUSE
188-190 KENT ST.
SYDNEY.

BOWKERIA—2, 3

Triphylla. White. 3ft. A hardy s. d.
evergreen shrub 2 0

BRASSAIA—3, 4

THE UMBRELLA TREE

Tall growing; handsome, large, spreading foliage.
Actinophylla. 15ft. 2 6

BROWALLIA—3, 4

Deep orange-coloured flowers, produced in great abundance during Spring and Summer.
Jamiesoni. 4ft. 2 0

BRUGMANSIA—2, 3, 4

TRUMPET FLOWER

Soft-wooded, evergreen flowering shrub, hardy only where frosts are not severe; flowers drooping tubes, often 6 inches long. Perfume is delightful.
Knightii. White. 10ft. 2 0

BRUNSFELSIA—3, 4

FRANCISCEA

An elegant, free-flowering evergreen shrub, producing flowers of a variety of colour. It prefers a warm sheltered situation.
Latifolia. Lavender with white eye. 6ft. 2 6

BUDDLEIA—1, 2, 3, 4

A very hardy, quick-growing family of plants, bearing honey-scented blossoms in profusion.
Variabilis Magnifica. Rose purple. 10ft. 2 0
Veitchiana. Splendid for hedges or as a shrub on a lawn. The clusters of flowers are 12 to 18 inches in length, and of bright lilac color. The delicious fragrance resembles that of the English Lilac 2 0

BUXUS—1, 2, 3

BOX

Aborea (Tree Box). 10ft. . . from 2 0
Aurea Variegata. 3ft. 2 6
Sempervirens. Common English Box for edging, 7/6 doz.; 50/- per 100.

CALLISTEMON—2, 3, 4

THE BOTTLE BRUSH

Colour, scarlet; very showy.
Lancelotus. 8ft. 2 0

CALODENDRON—2, 3, 4

THE CAPE CHESTNUT

Capense. Beautiful lilac-colored flowering tree; evergreen. 40ft. 2/- each; 22/- dozen.

CAMELLIA

See page 63

CAMPHORA—2, 3, 4

Officinalis (Camphor Laurel). Beautiful evergreen tree, of quick growth; suitable for our climate; admirable as an avenue tree. 50 feet 2 0

CASSIA—2, 3, 4

A very pretty evergreen shrub, covered with a profusion of yellow blossoms during Autumn.
Candolleana. 10ft. 2 0

CASTANEA—1, 2, 3, 4

Vesca (Sweet or Spanish Chestnut). (See Fruit Trees).

CASTANOSPERMUM—3, 4

A native of Queensland, suitable for most parts of N.S.W.; bears saffron-coloured flowers, and makes a handsome evergreen tree.
Australe (Moreton Bay Chestnut). 50ft. 2 0

CATALPA—1, 2, 3

A showy, rapid-growing tree, with pyramidal clusters of fragrant flowers. Splendid specimens for lawns and shrubberies.
Speciosa. White, fragrant. 20ft. 2 0

CERASUS JAPONICA—1, 2, 3

DOUBLE FLOWERING CHERRY

Japanese double-flowering cherries are the most beautiful flowering shrubs one could wish to have. They are showy, ornamental, and the flowers sweetly pretty. Highly recommended.

J. H. Veitch. Rosy pink, 2 in. diameter, bronze foliage. 10ft. . . 2 6
Mt. Fuji. Semi-double white. 10ft. 2 6
Sieboldti Rosea Superba. A very double deep pink flowered variety 2 6

CERASUS—1, 2, 3

The Laurels are old favourites; they thrive well here if planted in good strong soil, and make splendid hedges. (See Hedge Plants).

Laurocerasus (English Laurel). s. d.
20ft. 1 6
Lusitanica (Portugal Laurel). 20ft. 2 0

CERATONIA—2

Hardy evergreen tree, small red flowers, followed by pods 4 to 5 inches long; useful for stock feeding; has a thick stem; a spreading habit.
Requires a hot, dry climate.

Siliqua (Carob Tree, St. John's Bread, Locust Tree). 16ft. . . . 2 0

CERATOPETALUM—3, 4

CHRISTMAS BUSH

The Christmas Bush is a gem.
Gummiferum. 40ft. from 2 0

CERCIS—1, 2, 3

The Judas Tree is a beautiful deciduous, flowering tree, producing vivid purple flowers covering the leafless branches, after which the curiously-shaped leaves appear; requires shelter; suitable for cold districts.
Siliquastrum (Judas Tree). 20ft. 2 6
Canadensis. Red 2 6

CESTRUM—3, 4

Nocturnum. Greenish white. Sweetly scented at night. 6ft. . . . 2 0

CHOISYA—1, 2, 3

Dwarf evergreen shrub, with flowers like orange blossoms, sweetly scented.
Ternata. 6ft. from 2 0

CHORIZEMA—1, 2, 3, 4

Cordatum. One of the prettiest of our native shrubs, growing to a height of two or three feet, and covered in Spring with delightful orange and red pea-shaped flowers 2 0

CHRISTIA—3, 4

A beautiful evergreen, compact-growing shrub, with curiously-formed yellow and red flowers.
Grandiflora. 5ft. 2 0

CLETHRA—1, 2

LILY OF THE VALLEY TREE

These are very ornamental. Flowers very like the Lily of the Valley.
Arborea. White. 10ft. 2 6

CLIANTHUS—1, 2, 3

NEW ZEALAND GLORY PEA

A hardy evergreen soft-wooded shrub, fine foliage, trailing habit.
Puniceus. Beautiful red flowers. 8ft. 2 6

COPROSMA—1, 2, 3, 4

Handsome evergreen shrubs, with bright shining leaves, some variegated and margined; very hardy, thriving well in either hot or cold districts; suitable for hedges near coast.
Lucida. Strong grower. 6ft. 16/- dozen 1 6
Picturata. Pale green leaves, marked with blotches of creamy yellow and white. 6ft. 2 6
Variegata. Green leaves, heavy margined, creamy white. 6ft. . . . 2 6

COTONEASTER—1, 2, 3

Very hardy shrubs, bearing a profusion of berries. s. d.

Buxifolia. White. 4ft. 2 0
Francheti. A hardy evergreen shrub allied to the Hawthorn, and grown for its handsome arching canes, which are heavily laden with orange-red berries in Autumn and Winter 2 0
Microphylla. White. 4ft. . . . 2 0
Simonsi. 8ft. 2 0

CRATAEGUS—1, 2, 3

HAWTHORN

These are general favourites, flowering profusely in the Spring; the double varieties exceedingly beautiful and particularly showy.

Carrieri. Large scarlet fruit. 8ft. 2 6
Crenulata (Fire Thorn). Bears red berries like *Ardiasia*; very pretty for decorations during Winter. Evergreen. 8ft. 2/- each; 18/- dozen.
Crus-Galli (Cockspur Thorn). White flowers, producing edible red fruit. 15ft. 2 6
Oxycantha Double White. 12ft. 2 6
Oxycantha Double Pink. 12ft. 2 6
Oxycantha Double Red. 12ft. 2 6
Pyracantha Angustifolia. A strong growing evergreen hawthorn, producing bunches of white flowers in Spring, followed in Autumn by dense masses of orange berries 2 0
Pyracantha. Splendid evergreen, bearing large bunches of yellow berries. 8ft. 22/- dozen . . . 2 0

CROTOLARIA—3, 4

Laburnifolia. Native of Queensland. It thrives in our cooler climate. It is frequently called the "Bird Flower" on account of the fancied resemblance of its large yellow flowers—from 2½ to 3 inches long—to a bird hanging from the end of the branches. Plant Sept. to Oct. 2 6

CUPHEA—3, 4

Dwarf flowering plants; old favourites; flowers delicate tubes.
Platycentra. Red. The cigar-flower, 2ft. 1/6 each; 16/- dozen.
Jorulensis. Yellow and red. 3ft. 2 0

CYDONIA—1, 2, 3

THE FLOWERING QUINCE

Handsome, deciduous shrubs; should be largely planted.
Japonica. Red 2 0
Nivalis. Pure white 2 0
Sanguinea Nivalis. White and red. 2 0
Rosea. Pink 2 0
Rosea Plena. 6ft. Double pink . 2 6

CYPHOMANDRA—3, 4

THE TOMATO TREE

A very ornamental shrub; fruit makes a good preserve.
Betacea. 10ft. 2 0

CYTISUS—1, 2, 3,

LABURNUM

Charming English flowering tree, which during Spring is covered with beautiful pendant racemes of flowers; deciduous; will flower near Sydney in a suitable position, but prefers cold climate.
Laburnum (English Golden Chain). 12ft. 2 0

DOUBLE-FLOWERING CHERRY

(See Cerasus, page 45)

DOUBLE-FLOWERING PEACH

(See Amygdalus, page 44)

DOUBLE-FLOWERING QUINCE

(See Cydonia)

DRACAENA—3, 4

CORDYLINA

Handsome, tropical-looking plants; very hardy.

Indivisa. 8 ft.	2 0
Terminalis. 20 ft.	2 0

DURANTA—3, 4

A pretty family of dwarf-growing, evergreen shrubs; very free flowering and quite hardy; make pretty dwarf hedges. (See Hedge Plants).

Alba. White. 6 ft.	2 0
Plumieri. Blue. 6 ft. 16/- dozen	1 6

ELOEAGNUS—1, 2, 3

Fine hardy shrub; grows freely in any ordinary soil; very ornamental.

Japonica Macrophylla Aurea Variegata. 6 ft.	2 0
Japonica (Longpipes). 10 ft.	2 0

EDWARDSIA—1, 2, 3

Microphylla. Evergreen flowering shrub. Yellow flowers; very hardy. 12 ft.

2 0

ERYTHRINA—2, 3, 4

CORAL TREE

Erythrina, or Coral Trees, are splendid subjects in large or small pleasure grounds. They will thrive in the poorest soil, or even in barren sand, and are handsome trees when out of flower.

Crista Galli Grandiflora. Bright deep scarlet. 8 ft.	2 0
Indica. Scarlet. 25 ft.	2 0

Speciosa. This variety is dwarf in habit and brilliant when in bloom

2 0

ESCALLONIA—1, 2, 3

Beautiful free-flowering, evergreen plants. Macrantha. Red. 6 ft.

2 0

Montevidiensis. White. 10 ft.

2 0

EUCALYPTUS—2, 3, 4

We list only a few of the ornamental varieties of this large genus. Globulus is the well-known Tasmanian Blue Gum. Ficifolia is one of the most beautiful flowering trees. A blaze of colour in Summer.

As all plants of Ficifolia are grown from seed, we cannot guarantee the colours. They are various shades of scarlet, sometimes crimson and orange, and occasionally a plant will flower white.

Botryoides (False Mahogany). 16/- doz.	1 6
Calophylla Rosea. 30 ft. Bright pink flowers. 18/- dozen	2 0
Citriodora. Lemon-scented leaves. 75 ft.	2 0
Corynocalyx (Sugar Gum). 100 ft. 16/- dozen	1 6
Ficifolia. Bright crimson flowers. 15 to 20 ft. 18/- dozen	2 0
Globulus (Tasmanian Blue Gum). 1, 2, 3. 100 ft. 16/- dozen	1 6

EUGENIA—2, 3, 4

LILLIPILLI

Beautiful myrtle-leaved evergreens, ornamental; some varieties have blue and purple berries.

Leuhmanni. Graceful foliage; red fruit	2 6
Pendula. Purple fruit. 20 ft.	2 0
Smithii. White fruit. 20 ft.	2 0

EUONYMUS—1, 2, 3

A handsome family of evergreen shrubs with fine shining foliage.

Japonicus. 12 ft.	2 0
Latifolius Alba Marginatus. 12 ft.	2 0
Latifolius Aurea Marginatus. 6 ft.	2 0
Argenta Variegatus. 6 ft.	2 0
Aurea Variegatus. 6 ft.	2 0

EUPATORIUM—3, 4

Flowers produced in very large corymbs, suitable for Winter flowering.

Ianthinum. Purple. 4 ft.	2 6
----------------------------------	-----

EUPHORBIA—2, 3, 4

CROWN OF THORNS

Curious and beautiful plant of dwarf habit. The shoots are hard and woody, with strong prickles; bright crimson flowers, produced in trusses, being nearly always in flower.

Splendens. 4 ft.	2 0
--------------------------	-----

EXOCHORDIA—1, 2, 3

PEARL BUSH

This cannot be too highly recommended. One of the loveliest flowering shrubs in cultivation; flowers pure white; borne in great profusion. Grandiflora. 8 ft.

2 0

Macrantha. Large flowered form. The plants are deciduous, and in early Spring are clothed with beautiful large pure white blooms; hardy in cold districts.

2 0

FAGUS—1

BEECH

Beautiful deciduous tree; leaves cover the tree with dense foliage in the Spring and Summer; only suitable for cold climates.

Sylvaticus	3 0
----------------------	-----

FICUS—2, 3, 4

Remarkable for their magnificent foliage. Useful shade trees.

Australis (Port Jackson Fig). 60 ft.	2 0
Macrophylla (Moreton Bay Fig). 100 ft.	2 0
Nitida. Beautiful variety. Suitable for street planting. 40 ft.	2 0

FORSYTHIA—1, 2, 3

Very showy yellow flowering shrub. Viridissima. Golden Bell. 4 ft.

2 0

FRAXINUS—1

COMMON ASH

Hardy and deciduous; prefers cool climate. Excelsior. 50 ft. from

2 0

Excelsior Aurea (Golden Ash). 30ft.

3 6

GARDENIA—2, 3, 4

Evergreen dwarf flowering shrubs; foliage of a beautiful dark glossy green; lovely pure white flowers, delightfully fragrant; Globosa is a tall-growing shrub of great beauty. Not particular as to soil, but requires a warm situation.

Globosa. White and globular. 6 to 8 ft.	2 0
Intermedia. Pure white, fragrant.	2 0
Magnifica. White. 4 ft.	2 0

GAURA—3, 4

TEXAS SPRAY

Lindheimerii. 3 ft. Long sprays of white flowers

2 0

GENISTA—1, 2, 3

Pretty, hardy flowering shrub; good foliage. Andreana. Crimson and yellow. 8ft.

2 0

GOLDFUSSIA—2, 3, 4

Dwarf and very pretty evergreen; flowers of rich lavender.

Anisophylla. 3 ft.	2 0
----------------------------	-----

GRAPTOPHYLLUM—3, 4

Pretty red Queensland flowering shrub. Earlii. 6 ft.

2 6

GREVILLEA—2, 3, 4

Robusta (Silky Oak). 40 ft. 18/- dozen

2 0

A great favourite; grows quickly. It is very handsome and fragrant when in blossom. Thrives best sheltered among other trees.

Rosmarinifolia. Foliage silvery green, resembling "Rosemary." Red flowers with pale cream centres. Spring	2 0
Hillii. 30 ft.	2 0

HABROTHAMNUS—2, 3, 4

A showy, soft-wooded shrub, allied to Cestrum; free flowering, very hardy; flowers in bunches.

Elegans. 6 ft. Scarlet	2 0
----------------------------------	-----

HAKEA—2, 3, 4

Eucalyptoides. A magnificent evergreen flowering shrub, with crimson flowers. 8 ft.

2 6

HARPEPHYLLUM—2, 3, 4

Caffrum. A tall evergreen tree of noble appearance. Known as Kaffir Plum; an excellent specimen may be seen in the Sydney Botanic Gardens

2 0

CARNATIONS OF MERIT

A fully descriptive list of Carnations will be found on pages 46 and 47. This year include Carnations in your order.

HELIOTROPIUM—3, 4

HELIOTROPE—CHERRY PIE

Dwarf-growing flowering plants; some have variegated leaves. Are delightfully perfumed.

Aureum Variegatum. Golden-leaved variety	2 0
President Garfield. Light colored variety	2 0
Priapo. Blue, with white eye 3 ft.	2 0
Roi de Nois. Very dark. 3 ft.	2 0
Royal Highness. Large light flowers	2 0

HIBISCUS—3, 4

EVERGREEN TYPE

Andersoni. Dark crimson with dark eye	2 0
Aureole. Golden apricot, carmine eye	2 0
Camdeni. Single crimson. 18/- doz.	2 0
Conqueror. Rich apricot, dark eye. One of the best	2 0
General Courtes. Scarlet. One of the largest flowering. 6 ft. 18/- doz.	2 0
Gloria. Chinese orange, suffused and veined with madder lake	2 0
Harwoodi. Large single pink, dark centre. 6 ft. 18/- dozen	2 0
Island Empress. Rich pink, double	2 0
Island Queen. Deep pink self; distinct from other pink shades	2 0
Julius Camfield. Rich crimson, dark maroon eye	2 6
Lamberti. Large double red, resembling a ball of ribbon. 6 ft.	2 0
Madeline Champion. Rich apricot, strawberry red eye	2 0
Peachblow. Semi-double flowers of salmon pink color, with dark eye.	2 0
Rosy Morn. Salmon, old rose reverse	2 0
Rose Scott. Light red centre, almost white	2 0
Tango Queen. Beautiful tangerine or coppery shade.	2 0

HIBISCUS IN FROSTY DISTRICTS

Only the Deciduous type of this beautiful shrub is suitable for planting in districts where frosts are prevalent.

DECIDUOUS TYPE—1, 2, 3

The Syriacus varieties are very hardy and will thrive in the coldest districts.

Mutabilis fl. pl. (Chinese Rose). Double pink. 8 ft.	2 0
Mutabilis Alba fl. pl. Double white, 8 ft.	2 0
Syriacus. Various types	2 0

HYPERICUM—2, 3, 4

Charming dwarf flowering plants, producing their flowers in heads, and in great abundance all over the plant; very hardy.

Moserianum. Bright yellow. 3 ft.	2 0
M. Tricolor Variegata. 3 ft.	2 0

HYMENOSPORUM—2, 3, 4

Flavum. A splendid tree; hardy, with beautiful evergreen foliage; fragrant yellow flowers. 20 ft.

Horticultural Sundries

To obtain the best from your garden select your sundry requirements with care. These are fully listed on pages 67 to 71.

HYDRANGEA—1, 2, 3, 4

NEW VARIETIES

Where colours are not mentioned, they will be pink or blue, according to the soil in which they are grown.

Ajisai	2 0
Avalanche. Pure white, extra large, and with immense trusses	2 0
Bouquet Rose	2 0
Cyanoclada	2 0
Dentelle	2 0
Madame Mouilliere (Award of Merit, R.H.S.). Enormous panicles of flowers, pure white, with carmine pink eye. One of the best.	2 0
Mont Rose	2 0
Ornament	2 0
Radiant	2 0
Souv. de Mad. Chataud	2 0

(See also Novelty Pages)

ILEX—1, 2, 3

HOLLY

A beautiful tribe of evergreen shrubs, with bright green foliage, generally prickly.

Aquifolium (English Holly). 15 ft.	2 0
Alba Marginata (Silver Holly). 10 ft.	3 6
Aurea (Golden Holly). 10 ft.	3 6
Cornuta (Chinese Holly). 15 ft.	2 6

INGA—3, 4

Beautiful evergreen shrub, with mimosa-like foliage.

Portoricensis. White tassel flower. 4 ft.	2 0
Pulcherrima. Scarlet tassel flower. 4 ft.	2 0

IOCHROMA—3, 4

Tubulosa. Blue. 8 ft.	2 0
-----------------------	-----

JACARANDA—3, 4

Magnificent tree; producing beautiful lavender flowers; foliage graceful, deciduous.

Mimosifolia. 30 ft. 18/- dozen	2 0
--------------------------------	-----

JASMINUM—1, 2, 3

Fruticans. Yellow Jasmine. 8 ft.	2 0
Primulinum. Yellow. 8 ft.	2 0

KERRIA—1, 2, 3

Hardy, handsome shrub.	
Japonica. Single yellow flowers, in Spring	2 0
Japonica fl. pl. Double yellow. 5 ft.	2 0

KOELREUTERIA—1, 2, 3

Paniculata. Hardy deciduous tree from China, growing about 15 ft. Small yellow flowers borne in large trusses

LAGERSTROMIA—2, 3, 4

CREPE MYRTLE

Splendid flowering, hardy, deciduous shrubs.	
Eavesi. Heliotrope	3 6
Ilos Regina. Pink. 20 ft.	2 6
Indica Alba. White. 10 ft.	3 6
Indica Rubra. 20 ft. Red	2 6

LASIANDRA—2, 3, 4

Free flowering, evergreen shrubs; free growers, producing lovely single flowers; requires sheltered situation.

Edwardsii. Dwarf habit, and very blooming. Color of flowers dark violet	2 0
Macrantha. Purple. 6 ft.	2 0
Macrantha Grandiflora. Rich purple flowers. 6 in. across	2 6
Rosea. Pink; very profuse bloomer. 4 ft.	2 0

LAURUS—1, 2, 3

Beautiful evergreen. The leaves have strong seasoning properties.

Nobilis (Sweet Bay). 10 ft.	2 6
LAVANDULA—1, 2, 3	
Spica. Common lavender. 2 ft. 16/- dozen	1 6
Stoechas. French lavender. 3 ft. 16/- dozen	1 6

LEONOTUS—2, 3, 4

Leonurus (Lion's Tail). A hardy shrub bearing a large crop of s. d. orange-colored flowers

LEPTOSPERMUM—1, 2, 3

Nichollsii (Crimson Manuka). A rare New Zealand shrub, with rich ruby crimson flowers. 6 ft.

LAGUNARIA—2, 3, 4

Most suitable tree for shelter from sea breezes. A native of Norfolk Island.

Patersoni. Pink. 20 ft.	2 0
-------------------------	-----

LANTANA—3, 4

Splendid flowering shrub and thrives anywhere.

Chelsea Gem. Orange and red. 4 ft. 16/- dozen	1 6
Drap d'Or. Yellow. 3 ft. 18/- doz.	2 0
Sellowiana. Mauve. 2 ft.	1 6
Snowflake. Pure white. 2 ft.	2 0

LIGUSTRUM—1, 2, 3, 4

Lucidum. 12 ft. 2/6 doz; per 100	17 6
Ovalifolium Aureum Elegantissimum (New Golden Privet). Leaves have a broad, golden margin; very effective for hedge purposes or single specimens. 1/6 each; per dozen	16 0
Pubescens. 6 ft. 2/6 doz; per 100	17 6

LILAC

(See Syringa)

LIQUIDAMBAR—1, 2, 3

Styraciflua (The Sweet Gum Tree). 40 ft.	3 0
--	-----

LIRIODENDRON—1, 2, 3

Hardy deciduous tree, large flowers.	
Tulipferum (Tulip Tree). 30 ft. from	3 0

LITHOSPERMUM—3, 4

Coerulea. A charming dwarf shrub, growing to a height of 12 to 13 inches, with blooms of most intense royal blue	2 0
--	-----

LOPHOSTEMON—2, 3, 4

A handsome shelter tree, suitable for planting with pines and camphor trees; evergreen.

Australis. 40 ft. 18/- dozen	2 0
------------------------------	-----

MACADAMIA—3, 4

QUEENSLAND NUT

Ternifolia. 20 ft.	2 0
--------------------	-----

MACKAYA—3, 4

Vigorous ornamental shrub.	
Bella. Lilac purple. 6 ft.	2 0

MAGNOLIA—2, 3, 4

Fusca (The Port Wine Magnolia). 8 ft.	2 0
Grandiflora. White. 25 ft. (1, 2, 3, 4)	3 0
Purpurea. Purple and white, deciduous. 15 ft.	5 0
Stellata. White, star-shaped flowers. 8 ft.	5 0
Stellata Rosea. Pink star-shaped flowers. 6 ft.	5 0

MALUS—1, 2, 3

THE CRAB APPLE

Single and Double Flowering, in variety	2 6
---	-----

MELALEUCA—1, 2, 3

Hypericifolia (Tea Tree). Scarlet. 8 ft.	2 0
--	-----

MELIA—1, 2, 3, 4

Suitable for street and ornamental planting.	
Azederach. 20 ft. 18/- doz.	2 0

METROSIDEROS—3, 4

<i>Tomentosa</i> (New Zealand Christmas Tree)	s. d. 2 0
--	--------------

MURRAYA—3, 4

A beautiful dwarf evergreen shrub, with perfumed white flowers, like orange blossoms.	
<i>Exotica</i> 6 ft.	2 0

MUSSAENDA—3, 4

<i>Frondosa</i> . A beautiful shrub, suitable for situations free from frosts; flowers, orange, backed by a white leaf. Very conspicuous.	2 6
---	-----

MYRTUS—1, 2, 3

MYRTLE

A charming plant with dark green, shining leaves, which are highly perfumed; flowers white; not hardy in the colder parts.	
<i>Communis</i> . 6 ft.	2 6

NANDINA—1, 2, 3, 4

A pretty, hardy dwarf shrub, with clusters of flowers and graceful foliage.	
<i>Domestica</i> . 5 ft.	2 6

NERIUM—1, 2, 3, 4

OLEANDER

<i>Dr. Golfin</i> . Single rosy red. 8ft.	2 0
<i>Luteum Plenum</i> . Semi-double, cream. 8 ft.	2 0
<i>Mrs. F. Roeding</i> . Semi-double, salmon. 6 ft.	2 0
<i>Madonna Grandiflora</i> . Semi-double, white. 10 ft.	2 0
<i>Mdlle. Dubois</i> . Flowers single, pure white. 6 ft.	2 0
<i>Mons. Belagieur</i> . Light pink. 6 ft.	2 0
<i>Splendens</i> . Double pink. 12 ft.	2 0
<i>Splendens Variegata</i> . Gold variegation; flowers double pink	3 0
<i>Souv. de Cazalis Allut</i> . Brilliant single red; the best red; 5ft.	2 0

OCHNA—2, 3, 4

The flowers, which are produced in great profusion, are very fragrant, and are succeeded by ornamental berries of scarlet and black colour.

<i>Multiflora</i> . Yellow. 6 ft.	2 0
---	-----

OLEA—1, 2, 3

<i>Europæa</i> (The Common Olive). In pots only. 1/6 each; 16/- doz.; 100/- per 100. Suitable for hedges; fine, dense, dark green foliage. Named varieties	2 6
--	-----

PEPPER TREE

(See *Schinus*)

PHILADELPHUS—1, 2, 3

MOCK ORANGE

<i>Grandiflorus</i> . 4 ft.	2 0
<i>Speciosa</i> . Single, sweet-scented. 6 ft.	2 0
<i>Virginal</i> . Semi-double. White	2 0

PHORMIUM—1, 2, 3

NEW ZEALAND FLAX

A fibre plant of great value; the variegated varieties are very ornamental.	
<i>Tenax</i> . 5 ft.	2 0
<i>Tenax Variegata</i> . 5 ft.	3 0

PHOTINIA—1, 2, 3

CHINESE HAWTHORN

A fine foliage, hardy, evergreen, of compact habit; its flowers are small and white; leaves deep green.	
<i>Serrulata</i> . 20 ft. 2/- each; 18/- dozen.	

PISTACIA

<i>Chinensis</i> . Colored foliage in Autumn. Pistacia grows into a bushy shrub or tree, and is eminently suited to small gardens in all climates. Plants available May to August only	2 6
--	-----

PITTOSPORUM—1, 2, 3

All the Pittosporums are highly ornamental, and make fine single specimens in the shrubbery. *Undulatum*, *Eugenoides*, and *Eugenoides Variegatum* are suitable for ornamental evergreen hedges.

<i>Eugenoides</i> . 20 ft. 18/- dozen ..	2 0
<i>Eugenoides Variegatum</i> . 12 ft. 21/- dozen	2 0
<i>Undulatum</i> . So-called Victorian Laurel, producing creamy-white flowers, highly scented. 25 ft. 18/- dozen	2 0

PLATANUS—1, 2, 3

PLANE

Most handsome deciduous tree, suitable for avenue or pleasure grounds; quick growing shade tree.

<i>Orientalis</i> (Ornamental Plane Tree). 50 ft. from	2 0
--	-----

PLUMBAGO—2, 3, 4

<i>Capensis</i> . Lavender. 5 ft. 18/- doz.	2 0
<i>Capensis Alba</i> . Splendid shrub, bearing white flowers. 4 ft.	2 0
<i>Larpenae</i> . A herbaceous variety of Plumbago with intense Cobalt blue flowers	2 0

PSIDIUM—3, 4

Splendid plants to grow, as they produce an abundance of fruit, which makes an excellent preserve.

<i>Cattleianum</i> (Purple Guava). 8 ft. s. d.	
18/- dozen	2 0
<i>Parker's Hybrid</i> . One of the largest fruiting varieties; creamy white. 15 ft.	2 0
<i>Pyriferum</i> (Yellow Guava). 15 ft.	2 0

PRUNUS—1, 2, 3

<i>Alba fl. pl.</i> 6 ft.	2 6
<i>Moseri fl. pl.</i> Double rose flowers, reddish, purple foliage. 20 ft. . .	2 6
<i>Pissardii</i> . Ornamental species from Persia; Coppery crimson foliage, strikingly pretty; highly-colored, edible fruit. 20 ft.	2 6
<i>Pissardi Nigra</i> . A dark foliaged form of the purple plum, and an acquisition where contrast in foliage is required; hardy in all climates	2 6
<i>Rosea fl. pl.</i> 6 ft.	2 6
<i>Triloba</i> . Double rose. 6 ft.	2 6
<i>Vesuvius</i> . Large purple leaves . .	2 6

PUNICA—1, 2, 3

POMEGRANATE

<i>Granatum</i> (Common Pomegranate). 10 ft. 18/- dozen ..	2 0
<i>Granatum fl. pl.</i> 3 ft.	2 0
<i>Granatum Alba fl. pl.</i> 10 ft. 22/- dozen	2 0
<i>Andre Leroy</i> . Quite distinct; reddish salmon; white margin. 10 ft. 22/- dozen	2 0

PUSSY WILLOW—1, 2, 3

SALIX CAPREA

This tree is becoming very popular for decorative work in early Spring. The twigs bear numbers of silky buds, which possess a distinctive decorative value 2 0

PYRUS—1, 2

<i>Aucuparia</i> (Mountain Ash or Rowan Tree). 30 ft. from	2 6
--	-----

QUERCUS—1, 2, 3

OAK

Hardy family of beautiful trees, mostly requiring cooler districts of the State; deciduous and slow grower.	
<i>Ilex</i> . Evergreen. 30 ft. . . from	2 6
<i>Pedunculata</i> (English Oak). 60 ft. from	2 6
<i>Palustris</i> (American Crimson Oak). 30 ft. from	2 6
<i>Virens</i> (Evergreen Oak). 40ft.	2 6

RAPHIOLEPIS—1, 2, 3

INDIAN HAWTHORN

Evergreen, free-flowering, hardy shrubs.	
<i>Indica</i> . 8 ft. 18/- dozen	2 0
<i>Intermedia</i> . 6 ft.	2 0
<i>Ovata</i> . 4 ft.	2 0

RHODODENDRON—1, 3

Charming tribe of plants for the cooler districts of the State; hard-wooded evergreen shrubs; magnificent heads of flowers of a variety of colours.

<i>Hybridum</i> . Varieties. 8 ft.	7 6
--	-----

As ornamental foliage plants Viburnums are well worthy of a place, and their beautiful flowers render them invaluable. V. Tinus (Laurustinus), is one of the finest shrubs in cultivation. All thrive equally well in the coldest as well as the hottest parts of New South Wales.
Lucidum. White. Large, shining leaves. 10 ft. 22/- dozen . . . 2 0
Opulus (Guelder Rose or Snowball Tree). 10 ft. 2 0
Plicatum. 10 ft. 2 0
Plicatum Tomentosum. 10 ft. . . . 2 0
Sinensis. White. 15 ft. 22/- dozen . 2 0
Suspensum. Yellow, sweet-scented. 4 ft. 22/- dozen 2 0
Tinus (Laurustinus). 8 ft. 18/- doz. 2 0

DAHLIAS, CHRYSANTHEMUMS.

We can supply the latest Novelties, together with the leading sorts of the above beautiful flowers. Special lists are offered, a copy of which we shall be pleased to forward to interested customers upon inquiry.

Dahlias and Chrysanthemum lists are published in September. Post Free.

VERANDAH

So many lovers of plants have no opportunity of indulging in their hobby—except in a verandah garden—that we add a short list of plants which can be successfully cultivated in pots or boxes in this way. They will all thrive, providing the ends of the verandah are closed in to prevent sharp currents of air blowing on them. In cold districts a screen in front will prevent frosts from injuring them.

	s.	d.
<i>Aspidistra</i> . Very hardy; handsome foliage	from	2 6
<i>Asparagus Plumosus</i> . Very handsome pot plant	1 6	
<i>Aucuba</i> . Charming foliage plant.	2 6	
<i>Azalea</i> . Very showy verandah plants; free bloom	2 0

HEDGE PLANTS

Bougainvillea Glabra Sanderiana. Makes a fine, almost ever-blooming hedge. Plant 4 ft. apart. 22/- dozen; 160/- 100.

Cupressus Macrocarpa (Seedling only). Not recommended, liable to die out. 2/- each; 18/- dozen.

Coprosma Lucida. Plant 3 ft. apart. 1/6 each; 16/- dozen.
This is a good hedge plant, and is particularly hardy, especially on the sea coast.

Cerasus (English Laurel). Suitable for cold districts only; 3 ft. apart. 16/- dozen; 100/- 100.

Cupressus Torulosa. Plant 3 ft. apart. Plants of the true variety propagated from cuttings, and established in pots. 3/6 each; 39/- dozen.

This makes a splendid shelter hedge or breakwind, requiring little or no trimming for a long time.

Duranta. Blue. 3 ft. apart. One of the best flowering hedge plants. Rooted cuttings in 4 in. pots. 16/- dozen; 100/- 100.

Escallonia Macrantha. A splendid dwarf hedge, suitable for either hot or cold climate. Plant 3 ft. apart. 2/- ea.; 18/- doz.

Hibiscus Camdeni. A gorgeous flowering hedge for warm climates. Plant 3 ft. apart. 2/- each; 18/- dozen.

Lantana, **Sellowiana** and **Chelsea Gem**. 16/- dozen; 100/- 100.

Maclura Aurantiaca (Osage Orange). An excellent plant for forming hedges, strong growing. 5/- dozen; 35/- 100.

Olive, Common (*Olea Europea*). Plant 18 in. apart. 16/- dozen; 100/- 100. In pots only.

Myrobalan Plum. Useful and ornamental. 1 ft. apart. 9/- doz.; 70/- 100.

Plumbago. White and blue. 2 ft. apart. 18/- dozen.

Privet, Large Leaved (*Ligustrum Lucidum*). Plant 2 to 3 ft. apart. 2/6 dozen; 17/6 100; not less than 50 at 100 rate.

Privet, Small Leaved. Plant 12 in. apart. 2/6 dozen; 17/6 100; not less than 50 at 100 rate.

Privet, New Golden. The best golden foliage variety. 16/- dozen; 100/- per 100.
Of all tried hedging shrubs, none compare with Privet.

Raphiolepis (Indian Hawthorn). Plant 2 feet apart. This cannot be too highly recommended. Very hardy, and a good flower-hedge. 18/- per dozen.

Tecoma Capensis. Red flowering. 16/- dozen; 100/- per 100.

Viburnum Tinus (*Laurustinus*). Plant 2 ft. apart. Useful evergreen hedge. 18/- dozen; 140/- per 100.

Veronica of Sorts. 3 ft. apart. 18/- dozen.

BAZAAR PLANTS

We make a speciality of Bazaar Plants. Upon receipt of instructions we shall be pleased to select good varieties that are suitable and will effect a ready sale.

Prices: 11/-, 16/- and 22/- dozen.
Packing and Carriage Extra.

Plants for Climbing and Twining

This List contains a choice selection, and, with the exception of the Ivies, and one or two others, all those named are handsome flowering plants. On page 65 will be found a list of climbers suitable for planting in various localities. These have been carefully selected and are highly recommended by us.

AKEBIA—1, 2, 3

A beautiful climber from Japan; flowers of a dark heliotrope colour, borne in small clusters.

Quinata 2 0

AMPELOPSIS—1, 2, 3, 4

VIRGINIAN CREEPER

Grown for their beautiful Autumn tinted foliage. Well-known favourite creepers; hardy and rapid growers, with fine foliage; of easy culture. Veitchii will cling to the wall without support; has most picturesque appearance.

Lowii. Apple green foliage in Summer, changing to bright warm red in Autumn 2 0

Veitchii. Foliage beautifully tinted red 2 0

ANTIGONON—3, 4

A charming, slender creeper, producing an abundance of flowers.

Leptopus. Pink 2 0

BEAUMONTIA—3, 4

A magnificent flowering climber, producing large white trumpet-shaped flowers; highly perfumed.

Grandiflora. White 2 6

BIGNONIA—2, 3, 4

Bignonias are of easy culture, fast growers, and beautiful, as well as free bloomers. "Venusta," when grown on a wall, is unsurpassed in the profusion of magnificence of its large racemes of bright orange-coloured flowers. Most varieties attach themselves to the walls and fences, and gain their own support.

Australis (Wonga Wonga Vine).

Cream and brown 2 0

Cherere. Large scarlet 2 0

Floribunda. Lavender 2 6

Guilfoylei. Red and orange 2 0

Jasminoides. White, dark eye 2 0

Jasminoides Alba. A pure white

variety 2 0

Lindleyana. Lavender 2 0

Rosea. Rosy lilac 2 0

Tweediana. Golden 2 0

Venusta. Orange 2 0

BOUGAINVILLEA—2, 3, 4

Bougainvilleas like a warm northerly aspect and shelter; their flowers are magnificent, and continue for a long time. All are splendid climbers.

Glabra Sanderiana. Rosy purple, free flowerer; not as good as Magnifica Trailli 2 0

Laterita. Brick red; absolutely the finest of the type 5 0

Magnifica Trailli. Bright purple, very floriferous 2 6

Rosea. Rich pink 3 6

CLEMATIS—1, 2, 3

Aristata. Native Clematus 2 0

Montana. White 2 0

Montana Rubens. A pink flowering variety of C. Montana. The young leaves are reddish brown, and with the flowers form a most attractive climber 3 0

COBÆA—1, 2, 3

Very suitable for covering a trellis; grows freely, has fine foliage, and produces an abundance of bloom; evergreen, and quite hardy.

Scandens. Purple 2 0

DOLICHOS—2, 3, 4

Fine climber for covering old fences, etc.

Lignosus. Pink 2 0

Lignosus Alba. White 2 0

FICUS—2, 3, 4

CREEPING FIG

Very fine creeper for covering a wall or fence; leaves small and clinging, and the shoots, having small roots, will make fast to anything against which they are trained. Any large-leaved shoots should be cut away.

Minima. Very small-leaved, dwarf variety 2 0

Repens Variegata 2 0

Stipulata. Ordinary variety 2 0

FUCHSIA—1, 2, 3

CLIMBING

Flowers small, tube yellowish, upper portion reflexed blue.

Procumbens or Kirkii 2 0

GELSEMIUM—1, 2, 3, 4

A beautiful climber; corolla of the flower deep yellow, with protruding anthers.

Sempervirens 2 0

HARDENBERGIA—1, 2, 3

Exceedingly pretty climbing plant.

Monophylla. Purple 2 0

HEDERA—1, 2, 3

IVY

Ivies are so well known that they require no description here further than to remark that no garden or ground should be without them; they thrive well anywhere. The variegated varieties are particularly fine, and cold climates suit them admirably.

Helix (Common Ivy). Green-leaved. 2 0

Variegata 2 6

HOYA—2, 3, 4

WAX PLANT

Can be grown out of doors on a brick wall in a warm aspect, but is seen to best advantage when grown as a pot plant in a greenhouse.

Carnosa. Beautiful climber, with thick fleshy leaves and beautiful clusters of pinkish-white flowers, which look as if frosted 2- 6

HUMULUS—1, 2, 3, 4

THE ENGLISH HOP

A charming, quick-growing climber, with fine fresh green foliage. The heads of the fruit are used in brewing, and the young branched foliage is a good pot herb.

Lupulus 2 0

JASMINUM—1, 2, 3, 4

Jasmines produce sweetly-scented flowers.

Grandiflorum. White. 10 ft. 2 0

Poicoicum. White, star-like flowers. 8 ft. 2 6

LATHYRUS—1, 2, 3

EVERLASTING PEA

Exceedingly ornamental, and very desirable plants of easy culture; thrive in any ordinary garden soil.

Latifolius Alba. White 2 0

Latifolius. Red 2 0

Pubescens. Blue 2 0

Pink 2 0

LONICERA—1, 2, 3

HONEYSUCKLE

Scented flowering climbers; fine foliage; quick growth.

Aurea Reticulata. White and yellow foliage 1 9

Caprifolium (English). Pink and white 1 9

Fragrantissima. Yellow bush variety; very sweetly scented . . 1 9

Gigantea. Flower buttercup yellow; quick grower 2 0

Halliana. The best white 2 0

Sinensis. White and red 2 0

Tartarica Splendens. Scarlet trumpet 2 0

MANDEVILLEA—2, 3, 4

A beautiful deciduous creeper, bearing lovely white flowers; fine foliage. Delicate perfume.

Suaveolens 2 0

MANETTIA—3, 4

Bicolor. Yellow and red. Very pretty climber 2 0

MEDEOLA—2, 3, 4

SMILAX

The graceful beauty of this handsome plant renders it most valuable for vases or hanging baskets, and it is suitable for either bush-house or verandah culture. It lends itself admirably to table decoration either in pots or for mixing the foliage with cut flowers and fern leaves; a quick grower.

Asparagoides 2 0

PASSIFLORA—2, 3, 4

PASSION FLOWER

Passifloras should always be included amongst plants selected for covering unsightly objects. The flowers are very beautiful, of singular form, and very interesting.

Edulis (Edible Passion Fruit).

White, tinged purple 0 9

Empress Eugenie. Blue and white. 2 0

PHASEOLUS—3, 4

Slender climber, with full foliage, producing clusters of lovely lilac flowers; shell-shaped. Very curious.

Caracalla (Snail Flower) 2 0

RHYNCHOSPERMUM—2, 3, 4

A beautiful, perfumed white-flowered creeper of quick growth and fine foliage; it is evergreen and hardy, except in the colder districts.

Jasminoides 2 0

Jasminoides Variegata 2 0

SOLANDRA—3, 4

Lacvis. Deep cream 2 6

SOLANUM—3, 4

Jasminoides. White 2 0

Seafortianum. Beautiful clusters of blue flowers 2 0

Wendlandii. One of the most superb Summer flowering vines it is possible to conceive; blooms continuously, no stray blossoms. The color is an attractive shade of lavender blue, strikingly beautiful 2 0

Plants for Climbing and Twining—Continued

STIGMAPHYLLON—3, 4

Producing orchid-like flowers. Very pretty.

Cilium (Golden Vine) 2 0

TACSONIA—2, 3, 4

This family is distinguished from the *Passiflora* by the long cylindrical tubes of the calyx of the flowers; they are quick-growing, beautiful climbers.

Manicata. Intense scarlet 2 0

Mollissima. White Fruiting Passion Fruit, pink flowers.

18/- dozen 2 0

THUNBERGIA—3, 4

A fine, free-flowering plant of great beauty.

Laurifolia. Large blue flowers 2 6

Gibsoni. Rich orange 2 0

TROPAEOLUM—2, 3, 4

A climber which gains great admiration; free flowering and bulbous.

Pentaphyllum. Vermilion and green 2 6

WISTARIA—1, 2, 3, 4

Multijuga. A Japanese variety, with purple racemes, which attain a length of from 2 to 3 feet. An extra fine form. Color varies from light to dark 3 6

Multijuga Alba. White 2 6

Multijuga Rosea. Very distinct; plant vigorous and floriferous; long clusters of lilac rose flowers, lower petals yellow in centre 2 6

Sinensis. A handsome climber. The lavender flowers hang in pendant clusters, flowering in early Spring before it puts forth a leaf 2 6

Sinensis Alba 2 6

Sinensis fl. pl. Double blue 2 6

CONIFERS and TAXADS

ABIES

Beautiful trees of symmetrical but rather slow growth. When making young growth, they are clad with beautiful pale green foliage; quite hardy.

Alba (White Spruce) 80 ft. 2 6

Excelsa (Norway Spruce).

100 ft. 2 6

ARAUCARIA

Bidwilli (Bunya Bunya).

100 ft. 2 0

Excelsa (Norfolk Island

Pine). 100 ft. 2 0

Imbricata (Monkey Puzzle).

50 ft. An exquisite Pine,

specially adapted for

cooler districts 5 0

CEDRUS

Deodara, or Indian Cedar.

50 ft. 2 6

A beautiful tree, adapted for specimen tree on extensive lawns, and can be introduced into large avenues; drought-resisting.

Atlantica (Atlas Cedar).

Handsome silvery foliage.

80 ft. 2 6

CRYPTOMERIA

Fine ornamental trees from Japan; hardy, but prefer good soil and sheltered position. Upright habit, well branched, and covered with fine foliage, which changes to bronzy crimson during the Winter.

Elegans. 60 ft. 2 6

Japonica (The Typical Tree

of Japan). 100 ft. 2 6

CUPRESSUS

CYPRESS

Most largely grown of all the Conifers, embracing a variety of beautiful quick-growing trees; they do well near Sydney, and in nearly all other parts of the State. *Lambertiana*, the finest of this splendid variety of tree shrubs, grows 15 to 20 feet in three years, of dense habit, pyramidal, branching to the ground, hardy, will stand cutting freely. Can be grown as a hedge or breakwind.

Brunniana Aurea. Golden. 20ft. 5 0

Funerbris (Funeral Cypress). 50 ft. 2 0

Knightii. Hardy in all parts. 80ft. 2 0

Lambertiana Aurea. Very beautiful

(Grafted). Golden foliage.

40 ft. 5 0

Lambertiana Horizontalis. One of

the best. 60 ft. from 4 0

Lawsoniana. 30 ft. 2 0

Sempervirens. 50 ft. 1 9

Torulosis. (From seed). 60 ft. 2 6

Torulosis. Propagated from cuttings; very useful for hedge 3 6

CUPRESSUS Lambertiana aurea

CUPRESSUS: LAMBERTIANA AUREA

JUNIPERUS JUNIPER

Hardy, upright-growing Conifers; contrasts well with Cupresses or Pines. Very useful, and will thrive in any climate; distinct in form and foliage; of compact habit.

Africanus. Dwarf and compact. 8ft. 2 6

Bermudiana (Pencil Cedar). An

exquisite tree. 30 ft. 2 6

Chinensis Argentea. 20 ft. 2 6

Hibernica (Irish). 20 ft. 2 6

Virginiana (Virginian Cedar). 30ft. 2 6

LARIX LARCH

Europæa 2 6

PINUS

This family includes some of the finest trees in cultivation. They are hardy, quick-growing, and beautiful specimens for lawn embellishments, or for avenues, and make excellent breakwind plantations.

Canariensis. 40 ft. 2 0

Halepensis. Hardy. 60 ft. 2 0

Insignis. 60 ft. 16/- dozen. 1 6

Maritima (Pinaster). Cluster

Pine. 40 ft. 2 0

Fine for planting near the sea or

in exposed situations.

Pinea (Stone Pine). Tree

thrives best near the sea.

30 ft. 2 0

Sylvestris (Scotch Fir). 80ft. 2 0

PODOCARPUS

We can offer a fine stock of this beautiful shade tree.

Elatus. The largest variety.

40 ft. 2 6

Totara (New Zealand Yew

Tree). 50 ft. 2 6

RETINOSPORA

Retinospora, a beautiful tribe of tree shrubs from 8 to 20 feet high, closely allied to the *Cupressus* family; branching, pyramidal.

Ericoides. 8 ft. . . . from 2 6

Plumosa. 10 ft. 2 6

Plumosa Aurea. 8 ft. 2 6

SALISBURIA

THE MAIDEN HAIR TREE

Adiantifolia. A fine tree, with foliage somewhat resembling an *Adiantum*; it is not an evergreen 2 6

TAXODIUM

Distichum (The Deciduous Pine).

30 ft. 2 6

THUJA

All the family are hardy anywhere, except in hottest districts.

Lobbi. Handsome tree from California. 40 ft. 2 0

Occidentalis. 30 ft. 2 0

Orientalis (The Bookleaf Pine). 40

feet 2 0

THUJOPSIS

Hardy evergreen, coniferous tree, resembling *Thuja*.

Dolabrata Variegata. 30 ft. 2 6

FAILURES IN PLANTS

We do not undertake to replace plants or seedlings lost through inexperience in planting, or from any cause beyond our control.

AZALEAS

(S) denotes Single; (D) Double;
(SD) Semi-double

The Azalea is a lovely Spring-flowering shrub, and has no equal for richness and purity of coloring. Planted in masses, it affords a strikingly beautiful display. In very dry seasons Azaleas should be helped with heavy waterings about once a fortnight. They can be grown as pot plants, and are suitable either for bush-house or verandah culture. Lime should never be used on Azaleas, Ericas, or Rhododendrons.

The hardy varieties will grow in almost any situation, although they will do best on a southern wall.

Hardy Varieties

2/- each; 22/- dozen.

- Alba Magna** (S). Large white, occasionally striped.
Charmer (S). Bright amaranth.
Compte de la Torre (S). Pink, bordered white.
Comptesse de Flanders (S). Bright rose.
Dame Melanie (S). Bright pink, margined white.
Eugene Mazel (S). Bright red, shaded lilac.
Indica Alba (S). Pure white.
Juliana (S). Red.
Lady Poltimore (S). White.
Mdlle Marie Lefebre (S). White.
Mortil (S). White, shaded cream.
Refulgens (S). Red.
Roi de Holland (S). Red.
Sir Chas. Napier (S). Bright pink.
Splendens (S). Rosy salmon.
Stella (S). Rich orange scarlet.

Improved Varieties

2/- each; 22/- dozen.

- These require some protection from hot winds, and are not quite as hardy as those listed above.
Bernhardt Andreas Alba (SD). Pure white.
Daphne (D). Pure white.
Deutsche Perle (D). Pure white.
Duc de Nassau (S). Rosy purple.
Duchess de Nassau (D.). Red, shaded violet.
Empress of India (SD). Rosy salmon, carmine blotch on upper petal.
Helen Thelemann (D). Deep rose.
Madam A. d'Haene (SD). Pink, bordered with white.
Madam Herman Siedel (SD). Pure white.
Madam Paul de Schryver (D). Rosy violet.
Niobe (D). Pure white.
Nicholas Schaurer (D). Brilliant metallic rose.
Pauline Mardner (SD). Light rose.
Phoebe (D). Vermillion orange.
President Raphael de Smit (D). Deep rose.
Sigismund Rucker (D). Rosy pink, edged with white.
Simon Mardner (D). Rich ruby red.
Souv. de Prince Albert (S). Salmon rose, with broad white margin.
Souv. de Monsieur Low (D). Crimson and violet.

Kurume Varieties

2/- each; 22/- dozen.

These are a new type of Azaleas named after a district in Japan. List of varieties on application.

Mollis Varieties

5/- each.

A distinct class of Azalea, deciduous in Winter, and producing various shades of yellow flowers in Spring.

- Beni reinge**. Orange red.
Kaba reinge. Salmon.
Ki reinge. Yellow.

BOUVARDIAS

1/- each; 11/- dozen.

Except where otherwise marked.

- One of the most elegant perennials we have, flowering all through the Summer almost to the middle of Winter. For cut flowers they stand unrivalled, and in addition are more hardy than generally pronounced. The young plants should be protected from the frost, and when once established they are rarely affected. Water and well-mulch during the hot Summer months, and cut back in early Spring. The best time to plant is from November to February.
Alfred Neuner. Double; petals waxy white.
Beauty of Brisbane. Pure white, robust habit.
Bocchii. Bright pink, white throat; fine.
Coral Queen. Charming coral pink.
Duchess of York. Very cheerful blush pink shading to a tinge of heliotrope.
Enid Oliver. A distinct variety of a pale pink shade; the individual flowers are formed by six or even more petals; strong grower.
Ethel Kerslake. Flowers large, pure white.
Federal Queen. A cross between President Cleveland and King of Scarlets.
Hogarhii fl. pl. Dark scarlet; double.
Humboldtii Corymbiflora (Imp.). Snow-white, large; highly perfumed.
King of Scarlets. Immense blooms of deep scarlet; freely produced. 1/6
Mabel Porter. Dark crimson, large, full.
Miss Eileen Beeston. One of the best; pinkish heliotrope; very attractive.
Miss Ida Cheeseman. A very distinct variety, with large flowers of a delicate pale pink color, the tube and reverse of petals being of deeper shade.
Mrs. Deas Thompson. Pale pink, large truss.
Mrs. Gazzard. Showy, bright pink; very good. 1/6.
Mrs. McCulloch. Very beautiful, producing immense trusses of flowers of red, salmon color. 1/6.
Pres. Cleveland. Large; brilliant scarlet.
President Garfield. Double rose.
Priory Beauty. Pale rose; fine large truss.
Salmon Queen. An exceedingly fine Bouvardia; color, salmon, with a darker tube; distinct; flowers through the whole season.

BEGONIAS

FLOWERING

These charming pot plants are easily managed, and can be grown very successfully in a bush-house; all shades of color. Abundant bloomers. Spring and Summer.

TUBEROUS-ROOTED

In Separate Colors.

Double Varieties, 2/- each; 22/- dozen.
Single Varieties, 1/6 each; 16/- dozen.

TREE BEGONIAS

Growing to a height of 10 to 12ft.

	s.	d.
Beatrice Roseby . Glorious pink type	1	6
Corallina . Rich pale pink flowers.	1	6
Corallina Carne . Palest flesh color.	1	6
Mabel Roseby . A splendid white variety	1	6
Smithii . Rich carmine rose, bronze, and green foliage	1	6

BEGONIA, REX

ORNAMENTAL-LEAVED

1/6 each; 16/- dozen.

We can offer a fine collection of the most beautiful colors. Highly decorative pot plants for green-house, verandah, or bush-house culture. The leaves are beautifully marked with bronze, silver, and crimson. Most charming house-plants.

CANNAS

1/- each; 11/- dozen.

This is a decorative plant of great beauty, nearly always in flower; magnificent foliage; not particular as to soil or situation. A very ornamental plant, apart altogether from its surprisingly lovely flowers.

Special Offer—

CHOICE BEDDING VARIETIES

- Hungarian**, pink.
King Humbert, red.
Dr. Gelbin, yellow.
In lots of not less than 18 bulbs, 7/6 doz.

ERICA

THE HEATH

2/6 each; 28/- dozen.

- Autumnalis**. Very beautiful variety, small, rosy-pink, bell-shaped flowers.
Bowienana. Pure white, long tubular waxy flowers; very free flowering; one of the best.
Charsleyana. Delicate blush pink tubular flowers.
Cruenta. Orange-scarlet, tube-shaped flowers.
Grandinosa. White, bell-shaped flowers; very fine.
Hentyana. Delicate pink shaded white; beautiful long spikes of tubular flowers.
Intermedia. A magnificent variety; large spikes of pure white tube-shaped flowers; beautiful.
Linnaeoides. Bright rose pink, very effective.
Mammosa. Purplish-crimson tubular flowers.
Melanthera. Lavender purple with deep eye. Small bells. Flowers profusely in Winter.
Roegerminans. Small white. Sweetly scented.
Vulgaris Alba. The white Scotch Heather. Dwarf spreading habit.
Webbleyana. A beautiful variety producing delicate waxy and tubular flowers; exceedingly choice for florists' purposes.

Camellias

From 3/- each.

These grand and favourite plants succeed admirably in this climate. The best soil for them is strong, well drained loam of good depth, with liberal manuring once a year. In favourable soil the trees will grow to a height of from 12 to 20 feet. Bloom May to September.

Aspasia. White, pink spots.
Bonomiana. White, sometimes striped pink.
Candidissima. Large white.
Harriett Beecher Sheather. Rosy salmon.
Lady St. Clair. Pale pink.
Isabella. White; late.
Metallica. Deep red.
Prince Frederick William. Pale pink.
Red Pressi. Red.
Red Waratah. Red.
Venus de Medecis. Good red.

Fuchsias

1/6 each; 16/- dozen.

FUCHSIAS form fine features in the flower garden; they merely demand shelter from the wind, plenty of water during the dry weather, with a mulching during the Summer months, and the ordinary treatment of general outdoor plants; they make splendid decorative plants; any good garden soil will suit them.

DOUBLE VARIETIES

Avalanche. Tube and sepals crimson. Corolla purple.
De Cherville. Large rose corolla. Sepals dark red and well reflexed.
Diamant. Tube and sepals bright rose. Corolla white, veined red; large and perfectly shaped.
Dr. Dollinger. Corolla purple, sepals red.
Duchess of York. Corolla lilac mauve, sepals white.
Jubilee. Sepals crimson; corolla rosy mauve.
Junna. Bright crimson sepals, rich purple corolla; the base marked with rosy crimson.
Molesworth. Pure white, red sepals, largest in cultivation.
Mrs. E. G. Hill. Corolla double white; sepals crimson.
Phenomenal. Short tube and reflexed crimson sepals. Corolla azure violet, flaked red.
Storm King. Corolla white, veined red, sepals red.
Victor Hugo. Large blood-red sepals; corolla violet purple, marbled red.
White Giant. White corolla, red sepals.

SINGLE VARIETIES

Beacon. Tube and sepals crimson; purple corolla.
Beauty of Exeter. Bright rosy pink; large flower.
Elegance. Deep purple corolla, broadly striped red; sepals crimson.
Julius. Sepals bright red, corolla rosy lavender.
Rose of Castile. Sepals white; corolla violet.

HYBRID VARIETIES

Boliviana. Crimson.
Carter's Meteor. Bronzy green and gold.
Coralie. Coral red.
Gartenmeister Bonsted. Salmon red, bronze foliage; very fine.
Otto Furst von Wernegrode. Pink.
Sunray. Leaves rich crimson.

Pelargoniums, Regal

2/6 each; 28/- dozen.

We will be pleased to supply customers with a list of varieties in stock, together with descriptions. Available from May to October.

Petunias, Double

1/- each; 11/- dozen.

Beautiful border plants which grow rapidly and bloom profusely during the Summer.

Pentstemons

1/- each; 11/- dozen.

Pentstemons are very hardy and attractive. They produce fine spikes of blooms during the greater part of the year.

General Allenby. Tube scarlet; lip blood red; blotched crimson; throat white, pencilled maroon.
Blue Beauty. Violet shade, with white throat.
Delight. White, slightly tinged pink; long spikes of well-placed flowers.
J. L. Walker. Throat white; segments deep heliotrope.
Mrs. Kerslake. Tube white; lip rosy lilac; white throat, faintly pencilled.
Mrs. Yates. Delicate heliotrope, with pure white throat.
Mrs. J. H. Horton. Purple; lip maroon; white throat.
Noel. Crimson scarlet tube; throat white; lip scarlet.
Purity. Creamy white, with deep pink lips.
Vivid. Deep scarlet; throat white; pencilled and blotched crimson.

Other varieties available. Full list on application.

Zonale Geraniums

1/- each; 11/- dozen.

SINGLE VARIETIES

Arabic. Bright scarlet; white eye.
Col. Lambton. White; pink edge.
Countess of Dudley. Light red; white eye.
Eucharis. Splendid white.
Hall Caine. Cherry red.
Henry Compton. Deep pink.
Iona. Pale salmon.
Jan Kelway. Cerise; white eye.
J. M. Barrie. Bright cerise.
J. Redman. Large scarlet.
Leonus. Scarlet; very fine.
Maxim Kovalisky. Orange scarlet.
Paul Crampel. Brilliant scarlet.
Red Robe. Dark scarlet; splendid.
Rose Queen. Rose pink.
Universal. Dark purplish crimson.
Vesta. Cerise pink; splendid.
Vol Lacter. Fleshy pink; nearly white.
Winston Churchill. Purple crimson.
Wonderful. Reddish crimson, good.

DOUBLE VARIETIES

Apothoise. Rosy red.
Diana. Salmon pink and white.
Etermanthe. Scarlet.
Gintaire. Rich salmon.
Gustave Emich. Clear scarlet.
Jean Viand. Soft rose pink.
Miss G. Ashworth. White.
Mons. Byrle. Bright pink.
Mrs. Lawson. Salmon pink.
Pink Perfection. Rose pink, shaded white.
Rose Enchantress. Deep rose pink.
Souv. de Etc. Light scarlet.

Ivy-leaved Geraniums

1/- each; 11/- dozen.

Beauty of Jersey. Scarlet, shaded purple.
Beauty of Perth. Heliotrope, splashed crimson.
Charles Minsolet. Bright scarlet.
Eticellant. Scarlet.
H.M. the Queen. Salmon pink.
James Alford. Soft pink.
Jean d'Arc. White, suffused lavender.
La Corrinthienne. White tinted blush, crimson feather in upper petal.
Mrs. Hawley. Lovely pink shade.
Roycroft Surprise. Dark pink.
Souv. de Chas. Turner. Deep pink, feathered maroon in upper petal.
The King. Dark cerise.

Perennial Phlox

1/- each; 11/- dozen.

Plant September, October, and November.

Beryl Gazzard. White with lemon yellow eye.
Caron d'Ashe. Deep rose pink.
Conquillicot. Bright orange scarlet; very effective.
Europe. Pure white; flower bordered crimson.
Excelsior. Bright rose; very large truss, and immense pips.
Firebrand. Bright orange scarlet, with dark eye; tall grower.
Gideon. Soft pink, shaded rose; red eye.
Home Land. Brilliant dark orange red, large truss.
Lord Kitchener. Alabaster white, with pheasant eye of deep carmine.
Mr. F. Robinson. Deep salmon pink, dark eye.
Mrs. A. Ellis. Deep rosy red; semi-dwarf.
New Bird. Rich crimson, large truss; early free flowering.
Pink Perfection. Warm flesh pink, red eye.
Superb. Rich cerise; crimson eye.
Wm. Veitch. White, with eye of deep carmine.

Other varieties available. Full list on application.

Can also supply assorted unnamed sorts, 7/6 per dozen.

Rhododendrons

Strong Plants from 7/6

These favourite free-blooming and very beautiful evergreen shrubs have been in demand during the past few seasons, and justly so, for they are amongst the most attractive of our garden plants and are eminently fitted for culture in pots or tubs.

They require good rich soil, which must be fairly open and heavily manured, and liquid manure during the flowering season is very beneficial.

Verbenas

1/- each; 11/- dozen.

Mauve Beauty. Mauve, with white eye.
Pink Perfection. Pale pink, with white eye.
Blanche Brown. Light mauve.
Prince Arthur. Deep blue.
Dainty. Blush pink, with deep pink eye.
Purple King. Very dark purple.
Celestial. Bright red, with blue eye.
Flame. Scarlet, with small white eye.
Royalty. Violet, with blue eye.
Nellie. Dark blue, with white eye.
Rose Perfection. Rose pink.
Donald. Pale pinkish heliotrope, with white eye.
Foxhunter. Scarlet, with large white eye.
Mont Blanc. Pure white.
Crimson Beauty. Deep crimson, with small white eye.

Violets

SINGLE VARIETIES

each doz.
Admiral Avellan. Rich purple dwarf; free-flowering 4d. 3/-
Ascanius. Rich violet purple . . 6d. 5/-
California. Large, single, fine blue 4d. 3/-
Princess of Wales. The largest Violet; rich, deep, dark blue; long stalks 4d. 3/-

DOUBLE VARIETIES

Count Brazza (Swanley-White). One of the best Double White Violets 6d. 5/-
King of the Doubles. Blue . . . 6d. 5/-
Lloyd George. Blue, semi-double 6d. 5/-

Herbaceous Plants

AGAPANTHUS		
Umbellatus. Blue	1	0
Umbellatus Alba. White	1	0
ANEMONE.		
Elegantissimum. Satin pink, double	2	0
Rosea, fl. pl. Double rose	2	0
Huphensis. Dark carmine, single.	2	0
single	2	0
Japonica. Pink, single	2	0
Whirlwind. Double white	2	0
Lady Ardilaun. Pure white, large flower	2	0
Flower stems 2 ft.; flowers abundantly in cluster.		
ASTER (Michaelmas Daisy of Sorts)	1/6	
each.		
Anita Ballard. Light blue, semi-double; petals incurving.		
Blue Gem. Large semi-double flowers; fine clear color.		
Glory of Colwall. Soft lavender grey flower; good for cutting.		
Jupiter. Pale blue, edged deeper blue; very pretty.		
King Albert. Rosy mauve, semi-double; large.		
Lady Lloyd. Single pink, dwarf and compact.		
Moonlight. Ageratum blue; flowers of mammoth size.		
Mrs. J. S. Baker. White, shading to lavender; semi-double.		
Nancy Ballard. Deep mauve, distinctly shaded pink; very fine.		
Rachel Ballard. Deep rosy mauve, double; dwarf and bushy.		
White Climax. Pure white; the finest white Aster to date.		
The collection, one plant of each, for 15/-, postage extra.		
BOLTONIA.		
Glastifolia. Fairy-like flowers, borne on long stems in endless profusion	2	0
GERBERA.		
Various Colors, each	1/6	doz. 15 0
Red	2	0
HELIANTHUS		
Multiflorus (Single Perennial Sunflower)	1	6
Multiflorus Plenus (Double)	1	6
PAEONY.		
Officinalis	each, 2/6;	doz. 28 0
PERENNIAL PHLOX, ea.	1/-;	
(See page 53)	doz.	11 0
PENTSTEMON.		
Rudbeckia		
Laciniata fl. pl. (Golden Glow); each 6d.; doz.	5	0
SPIREA.		
Astilbe Japonica. White, plume-like flowers	2	0
Astilbe Rubens. Dark carmine rose	2	0
Queen Alexandria. Pretty pink	2	0
STOKESIA.		
Cyanea. Lilac Purple	1	9
Cyanea Alba. White	1	9

Bulbous and Hardy Plants

AGATHÆA.		
Blue Marguerite		
Coelestis. Flowers similar to Paris Daisy; blue with yellow centre.	1	6
ALOCASIA.		
The Spoon Lily		
Macrorrhiza. For bush-house or verandah	1	6
ANTHERICUM.		
Elegantissimum. Foliage has a band of yellow through centre	1	6
Album Variegatum. Foliage has a band of white through centre	1	6
Suitable for hanging baskets and rockery.		
ARUNDO.		
Donax Variegata. Beautiful bamboo-like reeds, variegated yellow and white; 12 feet	1	6
CALLA.		
Lily of the Nile		
Elliottiana. The spathe is a very rich pure yellow	2	0
Ethiopica (Arum Lily). Flowers white	1	0
Lemon Giant. Large yellow spathe.	2	0
Maculata Alba. Leaves spotted with silver; flowers white	1	0
Sanctum (The Black Lily)	2	0
CHRYSANTHEMUM FRUTESCENS		
Marguerite		
Single Pink. 4 ft.	1	0
Single White. 4 ft.	1	0
Single Yellow. 4 ft.	1	0
CLIVEA.		
Nobilis. Orange-yellow. Amaryllis-like flowers	3	0
Mincata. Red and orange flowers.	2	6
Beautiful pot plants for verandah or bush-house culture.		
CRASSULA.		
Kalosanthes		
Coccinea. Scarlet	1	6
CONVALLARIA.		
Lily of the Valley		
Majalis. White	each, 6d.; doz. 5 6	
Old English favourite, which succeeds only in the cooler districts. Its perfume is delightful.		
CYCLAMEN.		
Plants		
Of Various Colors	each, 2/-; doz. 22 0	
Fine Winter and Spring flowering plants.		
CYPERUS.		
Alternifolius	1	6
Papyrus (Egyptian Paper Reed)	2	6
EULALIA.		
Japonica. 4 ft.	1	6
Zebrina Variegata. 4 ft.	1	6
Beautiful grass-like plants; suitable for edge of ponds.		
FUNKIA.		
Plantain Lily		
Aurea Striata	1	6
Japonica	1	6
Good foliage and perfumed flowers.		
GAZANIA.		
Argentea. Silver margined foliage.		
Lutea. Flowers pure golden yellow	6d.	
Orange Day. Orange yellow	each;	
Primrose Queen. Lemon yellow,	5/6	
dark purple centre	per doz	
Splendens. Hardy showy plant.		

GLORIOSA.		
Climbing Lily.		
Plantii (Glory Lily of East India). Producing green and scarlet flowers in great profusion	2	0
GYNERIUM.		
Pampas Grass		
Argenteum	1	6
Roseum. Pink	1	6
A beautiful strong-growing grass, which grows freely in any position, throws up tall stalks 8 ft. high, surmounted by splendid feathery plumes of great beauty.		
GYNURA.		
Aurantiaca. Flower-heads beautiful orange	1	6
HEUCHERA.		
Sanguinea. Red	0	6
Spikes of blood-red flowers.		
IRIS.		
Kaemperii (Japanese Iris). All colors each, 1/- & 1/6; dozen, 11/- & 16 0		
Flag Iris. Many varieties, 1/- & 2/- each; doz., 11/- & 22/-		
Irises are worthy of special attention on account of their beautiful combination of colours.		
LEONOTUS.		
Leonurus (South Africa). "The Lion's Tail." Orange flowers in whorls	2	0
LINUM.		
Trigynum. Yellow, Winter flowering	2	0
LOTUS.		
Pellorhynchus (Coral Gem). Charming trailing plant, suited for basket culture; small, slender, silvery foliage and bright coral red flower	1	6
MIMULUS.		
Moschatus (Musk)	1	0
NERTERA.		
Bead Plant		
Depressa. With small orange berries	1	6
PHILLOCACTUS.		
Empress. Rich rose	2	0
Albus. Large white	2	0
POLYANTHUS.		
Varieties	each, 6d.; doz. 5 6	
An old favourite in English cottage gardens.		
PRIMULA.		
Obconica. A lovely pot plant	1	6
Sinensis	1	6
Vulgaris (English Primrose). ea. 6d.; doz. 5 6		
SALVIA.		
Various Colors	1	0
SEDUM.		
Sorts. Suitable for rockery	1	0
SOLIDAGO.		
Golden Rod		
Canadensis. Yellow. A very useful plant	1	6
STATICE.		
Brassicaefolia. Purple everlasting	2	6
KNIFOPHIA.		
Queen's Lily		
Grandiflora	each, 1/-; doz. 11 0	

GREENHOUSE AND STOVE PLANTS

Many of the following plants succeed well when grown simply in the bush-house. There are a few that are exclusively cultivated under glass with artificial heat. Any information on the suitability or otherwise for treatment on the above lines will be gladly furnished.		
ACALYPHA.	Handsomeness	s. d.
gated plants	2	0
ACHIMENES.	Bulbs, ea., 6d.; doz.	5 6
AECHMEA		2 0
ALLAMANDA.	Beautiful climbing plant	1 6
ALOCASIA		1 6
ALPINA.	Plants from	2 6
APHELANDRA		2 0
ARALIA-VEITCHII.	Very pretty decorative plant	from 2 6
ASPARAGUS.	Sorts	from 1 6
ASPIDISTRA.		
Lurida	2/6 to	15 0
Lurida Variegata	2/6 to	5 0
BILBERGIA.	Sorts	2 0
CLERODENDRON		1 6
CISSUS.	Beautiful climber	2 0
COLEUS	each, 9d.; doz.	7 6
CRETOS	from	2 6
CURCURLIGO		1 6
CYTODEIRA.	For hanging baskets	1 6
DIEFFENBACHIA.	In variety	from 2 6
DIPLADENIA.	Beautiful climber	2 6
DIOSCOREA.	Climbing plant	2 0
DRACAENA.	Sorts	from 2 0
EUCHARIS		1 6
ERANTHEMUM		2 0
FICUS.	Sorts	from 2 0
FITTONIA.	Elegant trailing plants from	1 6
GLOXINIA.		
Dry Tubers (in Winter). ea., 1/6; dozen		16 0
In Pots (in Summer), each, 2/-; dozen		22 0
IXORA.	Sorts	2 0
MARANTA.	In variety	from 1 6
MEDINILLA		2 6
PANDANUS.	Variegated foliage, from	2 6
PANICUM VARIEGATUM		1 0
PENTAS CARNEA		2 0
PEPERONIA		2 0
PHILODENDRON		2 6
PHYRNIUM		2 6
PILEA (Artillery Plant)		1 6
PLUMBAGO ROSEA		2 0
RUPELLIA		1 6
SAINTPAULIA		2 0
SANCHESIA		2 0
SCHISMATOCLOTTIS		2 0
STROBILANTHES		1 6
STREPOCARPUS.	each, 1/6; doz.	16 0
TRADESCANTIA.	Sorts	1 6
TABERNÆMONTANA		2 6
TYDEAS.	In variety	from 1 6
VRIESIA (Tillandsia).	Tricolor	2 0

PALMS

BRAHEA.		each s. d.
Robusta (Cotton or Railway Palm)	from	2 6
CHAMÆROPS.		
Specially suited for the cooler parts of the State.		
Excelsa	from	2 6
Humilis. Hardy, graceful species	from	2 6
COCOS.		
Plumosa	from	3 6
Wedelliana	from	3 6
Most graceful Palm in existence. Very beautiful for table and drawing-room decoration.		
Yatay (Wine Palm)	from	2 6
CORYPHA.		
Australis (The N.S.W. Cabbage Tree Palm). Makes fine specimens,	from	2 6

CYCAS.		s. d.
Revoluta. The well-known Japanese Sago Palm; handsome lawn specimen	from	5 0
DIPLOTHEMIUM.		
Thrives well near the sea.		
Maritimum (Wine Palm) (Syn. Cocos Yatay)	from	2 6
KENTIA.		
Belmoreana (Curly Palm)	from	1 6
Canterburyana (Large Mountain Palm)	from	2 0
Fosteriana (Thatch Palm)	from	1 6
LANTANIA.		
Beautiful fan-leaved Palm; native of China and Japan; large, fan-shaped leaves.		
Borbonica	from	2 6

MACROZAMIA.		s. d.
Spiralis	from	2 6
PHŒNIX.		
Splendid for ornamenting and giving a tropical appearance to the garden.		
Canariensis	from	2 6
Dactylifera (Date Palm)	from	2 6
Reclinata	from	2 6
Rœbelenii	from	5 0
Sylvestris	from	2 6
RHAPSIS (Japanese Bamboo Palm).		
Flabelliformis	from	5 0
SEAFORTHIA		
Elegans (N.S.W. Bangalow Palm)	from	2 6
SABAL		
Blackburniana	from	2 6
Umbraculifera	from	2 6
Palmeto	from	2 6

FERNS

		each s. d.
ADIANTUM (Maiden Hair Fern) 12 varieties	from	1 6
ALSOPHILA (Tree Ferns)	from	1 6
ASPLENIUM, in variety	from	1 6
BLECHNUM	from	1 6
CRYTOMIUM, 2 sorts	from	1 6
DAVALLIA (Hare's Foot Fern). in variety	from	1 6

		each s. d.
DICKSONIA (Tree Fern), from 5/- to	21/-	
DICTYOGRAMMA (Deciduous Fern)	from	2 0
LOMARIA	from	1 6
LYCOPODIUM, in variety	from	1 6
LYGODIUM (Climbing Fern)	from	1 6
MICROLEPIA	from	2 0

		each s. d.
NEPHROLEPIS, 12 varieties, from	1 6	
PLATYCERIUM—		
Grande (Elkhorn Fern)	from	5 0
Alcicorne (Staghorn Fern), from	1 6	
POLYPODIUM		
PTERIS, 10 varieties	from	1 6
SELAGINELLA, in variety	from	1 6
TODEA (Beautiful Tree Fern) from	2 6	
TREE FERN TRUNKS, from 3/6 to	21 0	

List of Trees and Shrubs for Various Localities

Solanum Jasminoides	from	2 0
Wistarias. In variety	2/6 to	3 6

SUCCESSFUL CROP PRODUCTION

obtained by CORRECT FERTILIZING

Scientific research, as applied to Agriculture, Horticulture and Floriculture, has advanced by leaps and bounds during the past decade. Modern cultural methods—soil cultivation, irrigation, spraying and correct fertilizing, are now practised as a matter of course by successful producers. Every producer naturally aims at increased and better production. The use of correct fertilizers will greatly help toward this end, providing the seeds sown are healthy and sound, and the correct fertilizers be brought into use; then success can be reasonably looked forward to. Anderson's, of George Street, Sydney, sell only high-grade fertilizers that are quickly assimilated in the soil, and

because of their high manurial qualities will give the best results.

We shall be pleased to give quotations for $\frac{1}{2}$ ton, 1 ton, and larger lots upon application. All Fertilizers are quoted F.O.R. or F.O.B., Sydney, except where otherwise stated. Bags free.

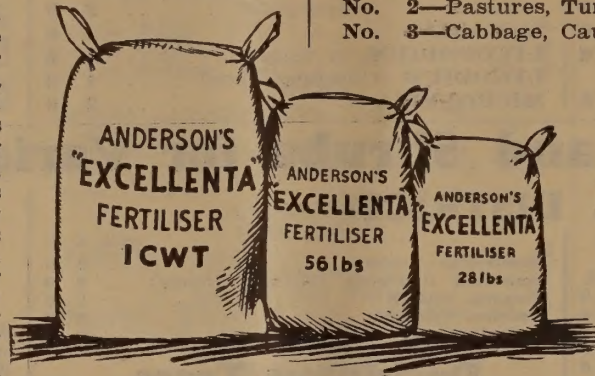

For the Home Gardener we would specially draw attention to our "Excellenta," a good all-round result-producing Fertilizer. This concentrated plant food is specially packed by ourselves, and contains the three main fundamentals of a correctly prepared fertilizer, viz.: Nitrogen, Potash and Phosphates. Our increasing sales year by year are striking testimony of the popularity of this valuable line amongst our customers.

ANDERSON'S "EXCELLENTA"

A RESULT-PRODUCING FERTILIZER.

"Excellenta" is a highly concentrated plant food. Being rich in the three main fundamentals of a correctly prepared fertilizer, namely, nitrogen, potash and phosphates. It is equally balanced, prepared from first-class ingredients, and contains no waste matter. It is economical to use, a little going a long way. "Excellenta" will immediately increase the size of vegetables and give greater crop yields. Flowers thrive on it, and produce blooms in greater abundance, of richer coloring, and for a longer period. Users have been astounded at the results obtained. "Excellenta" is splendid for mixing in potting soil. Young plants or cuttings potted in such soil will grow into fine sturdy specimens. It is essential that the fertilizer is thoroughly mixed at the rate of one part to 80 parts soil. Pot plants thrive on it, and give an increased growth of foliage and richer displays of flowers. Apply a small teaspoonful to a 5in. or 6in. pot; for larger pots, more in proportion. The fertilizer should be incorporated into the soil and watered. When used as a top dressing for lawns at the rate of $1\frac{1}{2}$ ozs. to the square yard, or one tablespoonful to the gallon if used in liquid form, growth will be promoted.

Prices: 3 lb. cartons, $\frac{1}{3}$, postage extra N.S.W., $\frac{1}{3}$; Inter-State, $\frac{2}{2}$. Also sold in 14 lb. bags, $\frac{3}{-}$; 28 lb., $\frac{5}{-}$; 56 lb., $\frac{8}{6}$; 1 cwt., $\frac{16}{-}$. Carriage extra.

SUPERPHOSPHATES

The following particulars in tabulated form will serve as a guide in indicating the kind of Super to use for different purposes:—

	Cwt.	$\frac{1}{2}$ cwt.	$\frac{3}{4}$ cwt.
Basic Super—For wet, sour soils	10/6	5/6	3/-
No. 1—Wheat, Oats and Pastures	7/6	4/-	2/6
No. 2—Pastures, Turnips, Malze and Rape . .	11/-	5/6	3/-
No. 3—Cabbage, Cauliflower	14/6	7/6	3/9
No. 4—Flowers and Shrubs	13/6	7/-	3/6
No. 5—Potatoes, Tomatoes, Citrus Fruits, Apples, Pears, Grapes, Passions	15/-	7/9	4/-
No. 6—Stone Fruits, Strawberries, Onions	14/-	7/3	3/9

No. 11—Lucerne, Peas, Beans, on soils deficient in potash	10/6	5/6	3/-
"Legume"—Peas, Beans, Lucerne, on soils deficient in lime	11/-	5/9	3/3

Note:—Cabbage growers who wish to mix Bonedust with one of the above should use No. 6.

"NATIONAL" ROSE FOOD Means Better Roses

Every grower of the Queen of Flowers desires the best results. One of the essentials towards this end is correct feeding. "National" Rose Food is a special mixture containing balanced proportions of Nitrogen, Potash and Phosphates. The application is simplicity itself: 4 ozs. per plant hoed and watered in, 12 inches from the stem in a circle. "National" Food is prepared by a leading Amateur Rosarian—a man who has won many prizes throughout Victoria for Roses; who is a Lecturer on Rose Manures and a prominent member of the National Rose Society.

FEED "NATIONAL" ROSE FOOD

For Richer Blooms
For Stronger Growth
For Better Foliage
For Sturdier Plants
For Best Results

GARDEN SUNDRIES

NOTE:—Postage and Carriage Extra on all Garden Sundries.

THE TWIN SPRAYS

We can thoroughly recommend the following two sprays for all-round efficiency. Both are well-known to orchardists and home gardeners.

"Harbas"

Is an excellent preparation for controlling scale pests, such as San Jose Scale, American Blight, Red Spider. "Harbas" is easy to mix, easy to apply, adheres to the tree, and has strong penetrating power.

Used for Deciduous Trees: 1 part "Harbas" to 20 parts cold water.

Used for Citrus and other Evergreen Trees: 1 part "Harbas" to 40 to 60 parts cold water.

Sold in tins containing, each: 1 pint, 1/6; 1 quart, 2/3; 1/2 gallon, 3/6; 1 gallon, 6/-; 2 gallons, 11/-; 4 gallons, 17/-. Also in barrels containing 42 gallons, at per gallon, 4/-. Free on rail or steamer Sydney.

"Harola"

The best fungicide for all fungus diseases. "Harola" may be used in conjunction with arsenate of lead. Used for Deciduous Trees—

Summer: 1 part "Harola" to 50 to 60 parts cold water.

Winter: 1 part "Harola" to 10 to 15 parts cold water.

Used for Citrus Trees—

1 part "Harola" to 28 to 45 parts cold water.

Sold in tins containing, each: 1 pint, 1/3; 1 quart, 1/9; 1/2 gallon, 2/-; 1 gallon, 3/6; 2 gallons, 6/6; 4 gallons 8/-. Also in barrels containing about 42 gallons, per gallon, 1/9. Free on rail or steamer, Sydney.

Important:—"Harola" should be used the same day as mixed with water.

ATOMOL DUSTS

The Death Knell to all Garden Pests and Diseases

The use of "Atomol Dusts" is the latest scientific method of satisfactorily dealing with Aphids, Red Spider, Thrip, Curculio Beetle, Caterpillars and Tomato Blight. The use of "Atomol

Dusts" is a better, easier and cheaper method than wet spraying.

Atomol "All in One"

The Best all-round dust, comprising arsenic oxide, nicotine (Blackleaf No. 40), sulphur and copper oxide, and will exterminate all chewing and sucking insects, fungus diseases and mildews. Prices: Cartons, 1 lb., 1/6; 2 lb., 2/9

Atomol "Sulphur No. 1"

An excellent fine sulphur for mildew on vines, etc. Price, 1 lb. carton, 9d.; 2 lb., 1/-.

Atomol "Pear and Apple No. 2"

Effectively destroys codlin moth, caterpillars, etc. Price, 1 lb. carton, 1/-; 2 lb., 2/-.

Atomol "Tobacco Dust"

Eradicates aphids, thrip and sucking insects. Price per lb. carton, 1/-; 2lb., 1/9.

Atomol "Tomato Dust"

Recommended for Wilt, Black Spot, Red Spider and Cut Worms. Price per lb. carton, 1/6; 2 lb., 3/-; 4 lb., 5/6.

Postage on above Dusts: 1 lb. tins: N.S.W., 9d; Interstate, 1/2. 2 lb. tins: N.S.W., 1/3; Interstate, 2/2; 4 lb. tins: N.S.W., 2/-; Interstate, 3/8.

How to Apply Atomol Dusts

The "Root Junior" Dust Gun is the most efficient form of applying Atomol Dusts, it easily eclipses the old-fashioned bellows, is strongly made and easy to handle. It is so constructed that the dust can be distributed underneath the foliage of vines and plants with ease. The "Root Junior" is priced at 10/6. Postage: N.S.W., 1/3; Interstate, 2/2.

Nicoteen

BLACKLEAF 40

Concentrated Tobacco Extract.

This specific will effectually exterminate all Thrip, Aphids, Red Spider, Mealy Bug and all Insect Pests.

1/2 oz. bottle, to make 4 galls.	..	1/-

Postage or Carriage extra. Full Directions on each package.

Arsenate of Lead Powder

Very reliable brand, and being in such a handy form is particularly convenient for amateurs and others who require only small quantities. Price: per lb., 3/-. Special Prices for large quantities; 1 lb. is sufficient for 50 to 100 gallons water.

GARDEN SUNDRIES--Continued

Solomia

A non-poisonous Insecticide and Fungicide in liquid form. In this way it differs from all other one purpose washes and spraying solutions.

Solomia is the only effective solution that can be sprayed on any crop, fruit, flower or vegetable, at any stage of growth without causing the slightest harm.

Solomia is not a poison and does not kill by poisoning, but by inducing nervous paralysis.

Solomia is absolutely harmless to human beings and domestic animals. Will not injure the most delicate foliage.

Solomia is so deadly that one application applied as directed, exterminates insect pests and at the same time checks fungus development.

Solomia is pleasant to use and does not disfigure the garden; all plants thrive under its application.

Prices:

$\frac{1}{2}$ pint, 1/6; 1 pint, 2/6; 1 quart, 4/3;
 $\frac{1}{2}$ gall., 8/-; 1 gall., 14/-

Levin's Manurial Insecticide

Many Insect Pests lurk in the soil, awaiting the opportunity to eat the seeds, destroy bulbs and root growth. Levin's Manurial Insecticide will rid the soil of white ants, grubs and other soil pests.

Prices:

20 oz. Tin, 1/3; 7 lb. Tin, 3/9

Mafeesh

"Mafeesh" is a wonderful preparation for meting out destruction to slugs and snails. Rain or water will not affect its efficacy. To obtain a slug and snail-free garden use "Mafeesh." It works miracles.

Prices:

Packed in 2 lb. packets, 1/6
Bulk lots, 8d. lb.

Warne's Shell Lime

Soil that is kept sweet and clean will make for greater and better production. Warne's Shell Lime is an essential Fertilizer and Pest Exterminator combined. Harmless to the tenderest plants—easy to use. Lime your garden with Warne's Shell Lime. Descriptive leaflet free on request.

Garden Labels

The keen gardener believes in labelling his plants and bulbs. This saves frequent confusion over correct naming, as in the case of Roses; and serves as an indication of the presence of bulbs when they have died down. Judicious labelling also adds to the neat appearance of a garden.

"HOLLORITE" LABELS

The "Hollerite" Label is made of White Incorrodible Metal and is unaffected by weather conditions and will last a lifetime.

Planet Jr.

FARM AND GARDEN TOOLS

GOOD EQUIPMENT MAKES A GOOD FARMER BETTER

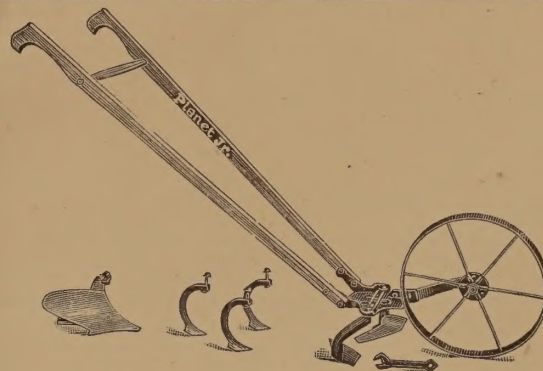

No. 4 Planet Jr. Hill and Drill Seeder

WHEEL HOE, CULTIVATOR AND PLOW COMBINED

Equipment—Two 6in. Hoes; Three Improved Steel Cultivator Teeth; Large Garden Plow; Improved Leaf Guard. Price, £4/10/-.

The No. 4 Seeder is a special favourite. It sows all garden seeds in continuous rows with uniformity, or in hills 4, 5, 8, 12 or 24in. apart, and at the same time marks the next row.

No. 17 Single Wheel Hoe, Plow and Cultivator

Will hoe a 14in. or a 16in. row at one passage with a small rake or a cultivator tooth between the hoes. The plow is large, and does excellent furrowing or hilling. All parts are strong and durable. Price, £2/-/-.

No. 17, with 1 pair of Hoes, also Rakes, is called No. 16. Price, £2/7/6.

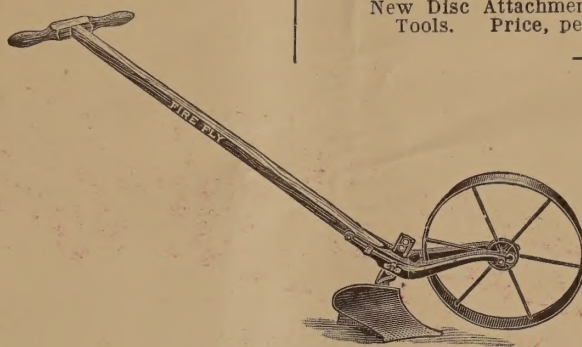

No. 17, with Hoe Steels and Cultivator Teeth only, is called No. 17½. Price, £1/15/-.

New Disc Attachment to suit any of the Planet Jr. Hand Tools. Price, per pair, £1.

Planet Jr. Implements

Dispel backaches and drudgery. Enable work to be done more rapidly. Do good work—and do it satisfactorily. Make gardening both pleasant and profitable.

Fully Illustrated Catalogue and Prices Post Free on Request.

Planet Jr. Fire-Fly Plow

A most useful Hand Plow to throw a furrow 4in. to 6in. wide and up to 3in. deep. An excellent little implement for the garden. Price, £1/1/6.

Does Wonderful Work

"The Plow and Combined Hoe arrived safely and I cannot say enough in their favour. They make weed killing a pleasure, instead of drudgery. In my soil, the Plow does really wonderful work."—A.M., Barmedman, 17/2/28.

The No. 25 Combined Drill

is intended for gardeners who have enough area in crops for a Double Wheel Hoe, as it is a Double Wheel Hoe, Cultivator and Plow, besides a Drill. It will sow in drills any thickness, or drop in hills 4, 6, 8, 12 or 24in. apart. It has automatic device for stopping the feed, also a new feed index. Price

£5/7/6

The No. 12 Double-Wheel Hoe, Plow and Cultivator.

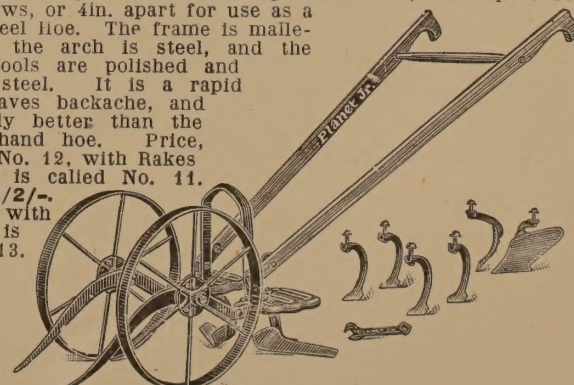

is used when a Drill is obtained separately. The wheels can be set 9 or 11in. apart for straddling wide rows, 7in. apart for narrow rows, or 4in. apart for use as a Single Wheel Hoe. The frame is malleable iron, the arch is steel, and the working tools are polished and hardened steel. It is a rapid worker, saves backache, and is infinitely better than the old-style hand hoe. Price, £2/15/-.

No. 12, with Rakes and Hoes, is called No. 11.

Price, £4/2/-.

No. 12, with Hoes only, is called No. 13.

Price, £2/2/6.
